Mr. Caplin: The interests of the Ministry of Defence are protected by ensuring that the disposal of surplus land and buildings (which are released only where there is no alternative defence use) is conducted in accordance with "Government Accounting" regulations—normally by means of sale on the open market with the benefit of outline planning permission or a planning brief. This necessarily involves consultation with the local planning authority and ensures best value for taxpayers generally.

In the case of the closure of major facilities, it is normal practice for officials in Defence Estates to work closely with the relevant local authorities, and to liaise with recognised local community bodies as part of the disposal process. We seek to take local aspirations into account wherever possible.

Naval Engineers

Chris Grayling: To ask the Secretary of State for Defence for what reason his Department is replacing the post of engineering artificer in the Navy with the post of engineering technician; and what difference there will be in the qualifications required for the new post. [166689]

Mr. Ingram: A review of the structure, organisation and training of both the Warfare and Engineering Branches of the Royal Navy is currently taking place. It is probable that the term engineering technician will be adopted for all members of the engineering branch below the rank of Commissioned Officer, replacing the artificer and mechanic titles currently in use. The title artificer no longer adequately describes the professional role that those personnel undertake in the modern Navy. Replacing them with engineering technicians will align the Navy with the standards of competence published by the Engineering Council United Kingdom, and refresh the image of this key role against increasingly competitive recruitment market forces.

No change is anticipated to the entry qualifications for Naval Engineering Technicians. Men and women will be able to join with a range of academic qualifications that span those for today's mechanics and artificers. Once they have completed basic training, engineering technicians will progress according to their abilities, with the most able continuing to have opportunities for promotion to the officer corps.

Naval Procurement

Mr. Nicholas Brown: To ask the Secretary of State for Defence what assessment he has made of through-life programmes to accompany future naval procurements. [166536]

Mr. Ingram: Each project is required to maintain a Through Life Management Plan which explains how the particular equipment will be supported through to the end of its life. This is subject to regular scrutiny throughout the equipment's life and, in particular, as part of the Main Gate business case submission.

The support through life for major future naval equipments is assessed against the Warship Support Agency's Maritime Support Strategy element. This forms part of the Defence Logistics Organisation sponsored Support Solutions Envelope.

Nimrod MRA4

Mr. Hancock: To ask the Secretary of State for Defence if he will make a statement on the progress of the Nimrod MRA4 aircraft programme; and when a decision will be made on approval for the production phase of aircraft numbers four to 18. [166901]

Mr. Ingram: The agreement reached with BAE Systems in February 2003, embodied in a formal contract amendment on 23 February this year, has put the Nimrod MRA4 programme on a much sounder footing for the future. Under the restructured contract, design and development and manufacture have been separated as far as possible, to ensure that technology is adequately de-risked before making further commitment to production price and schedule. Whilst risks and challenges remain, the development and production of the first three Nimrod MRA4 aircraft to be used in the flight trials programme is well under way and we are making good joint progress towards first flight this summer. Long lead item work continues on aircraft 4–18; a decision to exercise the option in the contract for full production is dependent on design maturity and price negotiation and is expected next year.

Officer Numbers

Mr. Breed: To ask the Secretary of State for Defence what the *(a)* establishment and *(b)* strength of all ranks above OF 2 in the (i) Royal Navy and (ii) RAF was on the latest date for which figures are available; and if he will make a statement. [161059]

Mr. Ingram: As at 1 January 2004, the trained strength and requirement for all ranks above OF 2 in the Naval Service and RAF are shown as follows. The tables show figures for each equivalent NATO rank and these are set out as follows:

Naval Service[1]

Rank	*Trained strength*	*Requirement*	*Surplus/Deficit*
OF 9	4	3	+1
OF 8	7	10	-3
OF 7	30	28	+2
OF 6	99	91	+8
OF 5	280	270	[2]
OF 4	1,080	1,200	-120
OF 3	2,460	2,530	-70
All OF 3 and above	3,950	4,130	-180

[1] Naval Service figures include Royal Navy and Royal Marines.
[2] Less than five.

RAF

Rank	*Trained strength*	*Requirement*	*Surplus/Deficit*
(1)			
OF 6 to OF 9[1]	120	100	+20
OF 5	320	250	+70
OF 4	1,150	940	+210
OF 3	2,550	2,430	+120
(2)			
Specialists[2]	390	400	-20
(3)			
All OF 3 and above	4,530	4,130	+400

[1] The Trained Manpower Requirement (TMR03) does not break down the requirement by individual rank for OF 6 (Air Cdre) and above.
[2] Specialists are excluded from *(1)* and shown separately as a total of all OF 3s and above. Due to the way Specialists are posted, a rank breakdown is not readily available. Specialists are in the following branches: Medical, Med Spt, Dental, Chaplains, Legal and Princess Mary's Royal Air Force Nursing Service.

Note:
All figures over 100 and any derived from these figures are rounded to the nearest 10.

NATO Rank Codes and UK Service Designations

	Royal Navy[1]	*Royal Marines*[1]	*Army*	*Royal Air Force*
OF 10	Admiral of the Fleet	—	Field Marshal	Marshal of the RAF
OF 9	Admiral	General	General	Air Chief Marshal
OF 8	Vice Admiral	Lieutenant General	Lieutenant General	Air Marshal
OF 7	Rear Admiral	Major General	Major General	Air Vice Marshal
OF 6	Commodore	Brigadier	Brigadier	Air Commodore
OF 5	Captain	Colonel	Colonel	Group Captain
OF 4	Commander	Lieutenant Colonel	Lieutenant Colonel	Wing Commander

NATO Rank Codes and UK Service Designations

	Royal Navy[1]	*Royal Marines*[1]	*Army*	*Royal Air Force*
OF 3	Lieutenant Commander	Major	Major	Squadron Leader
OF 2	Lieutenant	Captain	Captain	Flight Lieutenant
OF 1	Sub-Lieutenant	Lieutenant/2nd Lieutenant	Lieutenant/2nd Lieutenant	Flying Officer/Pilot Officer
OF(D)	Midshipman	—	Officer Designate	Officer Designate

[1] The Royal Navy and the Royal Marines together make up the Naval Service.

Mr. Breed: To ask the Secretary of State for Defence if he will make a statement on the differences between strength and establishment of officers in the Army. [161060]

Mr. Ingram: A comparison between current liability and current strength of Army officers is shown as follows:

Rank	*Liability*	*Strength*[1]
General/Lieutenant General	7	17
Major General	27	43
Brigadier	175	184
Colonel	546	561
Lieutenant Colonel	1,579	1,713
Major	4,540	4,723
Captain	4,850	4,465
Lieutenant/2nd Lieutenant	1,876	1,680

[1] As at January 2004.

The difference at Major and above is largely because the liability consists only of Army posts. Tri-Service rotational and competition posts and certain international appointments, for example to NATO, are not tied to British Army officers and therefore do not form part of the liability. In practice the Army does not carry a substantial surplus of officers, although there is provision for small margin to cover those in training and on resettlement prior to retirement.

The difference at Captain and below is due to a combination of factors. In recent years, the output from the Royal Military Academy Sandhurst, which is affected by both input and throughput, has not achieved the target. The number of junior officers is therefore lower than the requirement. The RMAS output target is now being met. Some posts are rank-ranged. In these instances the liability is shown against the lower rank although the incumbent may be of a higher rank. Officers holding temporary acting rank are shown against the strength at the higher paid rank.

Overseas Military Students

Bob Spink: To ask the Secretary of State for Defence what sums of money involved in training of military students for foreign Governments were *(a)* paid, *(b)* waived and *(c)* written off in each of the last three years; and which countries were involved. [168618]

Mr. Ingram: I will write to the hon. Member and a copy will be placed in the Library of the House.

Parachute Regiment

Mr. Keetch: To ask the Secretary of State for Defence if he will list the number of premature voluntary release applications *(a)* received and *(b)* approved in the last 12 months in (i) 1 Para, (ii) 2 Para and (iii) 3 Para; and if he will make a statement. [169306]

Mr. Caplin: The number of Premature Voluntary Release (PVR) applications received from soldiers in the Parachute Regiment between 1 April 2003 and 31 March 2004 was:

1st Battalion Parachute Regiment—702nd Battalion Parachute Regiment—653rd Battalion Parachute Regiment—60

All soldiers have a right to PVR once they have served the minimum engagement period, and provided they give appropriate notice. Information is not held centrally on the proportion of these applications that were subsequently withdrawn, but across the Army withdrawals amounted to some 38 per cent. of the total in the same period.

PVR information for officers is not currently broken down by unit, and could only be provided at disproportionate cost.

Mr. Keetch: To ask the Secretary of State for Defence if he will list the strength of the Parachute Regiment at *(a)* 1 April 2003 and *(b)* 1 April 2004 and the estimated strength for 1 April 2005; and if he will make a statement. [169307]

Mr. Caplin: As at 1 April 2004, the strength of the Parachute Regiment was 1,740. The corresponding figure on 1 April 2003 was 1,795. These figures exclude personnel from other units temporarily attached to the Parachute Regiment.

Projected strength for 1 April 2005 is not expected to differ significantly from the current level.

Postal Services

Mr. Randall: To ask the Secretary of State for Defence what plans he has to review the provision of free postage for troop parcels for forces serving in Iraq. [167998]

Mr. Ingram: I refer the hon. Member to my written ministerial statement of 27 February 2004, *Official Report*, column 70WS, and subsequent answers of 5 March 2004, *Official Report*, column 1155W, to the hon. Member for Portsmouth, South (Mr. Hancock), and 1 April 2004, *Official Report*, column 1605W, to the hon. Member for Mid-Norfolk (Mr. Simpson).

A series of reviews were undertaken by the Ministry of Defence between July 2003 and February 2004 which concluded that the scheme should be extended to April 2004 when it was judged that the complete Operational Welfare Package and Expeditionary Forces Institute support would be in place. There are no further plans to review the provision of free postal packets to the Iraq theatre of operations.

I should also point out that the British Forces Post Office rate for a 2 kg postal packet to Iraq (equivalent to

the Royal Mail First Class Inland Rate) was £7.23. From 1 April 2004 the Royal Mail Group has reduced this charge to £6.89 and the British Forces Post Office has reduced its charge in line with this.

Radar

Bob Spink: To ask the Secretary of State for Defence what changes he proposes to the system of radar cover; and if he will make a statement. [165059]

Mr. Ingram: Options for future air defence radar cover are currently being considered. No decision has been taken.

RAF (Medical Personnel)

Miss McIntosh: To ask the Secretary of State for Defence how many vacancies exist for medical personnel at *(a)* RAF Leeming, *(b)* RAF Linton on Ouse, *(c)* RAF Dishforth and *(d)* Alanbrooke Barracks, broken down by (i) service, (ii) rank and (iii) specialisation; and if he will make a statement on his plans to fill those vacancies. [169990]

Mr. Caplin: The following vacancies exist for medical personnel, broken down as requested:

Vacancies—4

Base—RAF Leeming

Service—RAF

Rank—2 aircraftsmen, 2 civilians (1 part-time)

Specialisation—2 medical assistants, (1 physiotherapist, 1 part-time nurse)

AAC Dishforth and Alanbrooke Barracks, both Army bases, have no service vacancies. A military medical post at Flight Lieutenant level is currently vacant at RAF Linton on Ouse but is being filled by a civilian GP.

With the exception of one gapped medical assistant post, which can be managed within existing resources, action is in hand to fill all of these vacancies.

Miss McIntosh: To ask the Secretary of State for Defence how many medical personnel are based at *(a)* RAF Leuchars and *(b)* RAF Coningsby, broken down by (i) service, (ii) rank and (iii) specialisation. [169994]

Mr. Caplin: The following tables show the numbers of medical personnel based at RAF Leuchars and RAF Coningsby broken down by rank and specialisation. All are RAF personnel.

RAF Leuchars

Numbers of Medical Personnel	*Rank*	*Specialisation*
1	Squadron Leader	Medical Officer
1	Squadron Leader	Medical Officer (Full Time Reserve Soldier)
1	Civilian	Civilian Medical Practitioner
1	Flight sergeant	Medical Admin FS
1	Sergeant	Medical Administration
2	Corporal	Medical Administration
10	Aircraftsman	Medical Assistant
1	Sergeant	Pharmacy Technician
2	Sergeant	Staff Nurse Registered General Nurse
1[1]	Flight Lieutenant	Medical Support Officer 612 Squadron
1	Sergeant	Medical Administration

[1] From July 2004

RAF Coningsby

Numbers of Medical Personnel	*Rank*	*Specialisation*
1	Wing Commander	Medical Officer
1	Warrant Officer	Medical Administration
1	Sergeant	Medical Administration
2	Corporal	Medical Administration
5	Aircraftsman	Medical Administration
1[1]	Corporal	Staff Nurse Registered General Nurse
2[2]	Civilian	Physiotherapist civilian
1	Civilian	Nurse civilian

[1] Currently deployed

[2] One post covered by two part time personnel

RAF Sealand

Mr. Wiggin: To ask the Secretary of State for Defence if he will make a statement on the impact on the local community of the loss of jobs at RAF Sealand in Flintshire; and what further plans he has for RAF Sealand. [169773]

Mr. Ingram: RAF Sealand was covered by a study into the future location of the RAF's Air Combat Service Support Units and other minor units. As I announced in my Written Ministerial Statement of 23 April 2004, (*Official Report*), column 30WS, I am inclined, subject to Trade Union consultation, to accept an option which would see the closure of RAF Sealand by April 2006. This would result in the loss of around 100 civilian jobs. The Defence Aviation Repair Agency which is located on the same site would not be affected. Any land that becomes surplus to requirements will be handled in accordance with usual procedures.

I would expect the impact on the local community of the closure of RAF Sealand to be negligible as Flintshire has an expanding economy and a low unemployment rate.

Royal Gibraltar Regiment

Mr. Rosindell: To ask the Secretary of State for Defence what his Department's intentions are on the funding for the Royal Gibraltar Regiment; and if he will make a statement. [168851]

Mr. Ingram: A study into the missions, tasks and formation of the Royal Gibraltar Regiment is on-going. No final decisions have yet been taken. This study is part of the Ministry of Defence routine reviews/studies process. HQ British Forces Gibraltar and the Commanding Officer of the Royal Gibraltar Regiment are working closely to determine the most effective outcome.

Second Hand Equipment

Bob Spink: To ask the Secretary of State for Defence if he will list the second hand equipment sold to each country in the last year for which records are available. [167069]

Mr. Ingram: I refer the hon. Member to the answer I gave on 23 February 2004, *Official Report*, columns 14–15W to my hon. Friend the Member for Leyton and Wanstead (Harry Cohen).

Special Forces

Mr. Keetch: To ask the Secretary of State for Defence how many members of the *(a)* SAS and *(b)* SBS have (i) applied and (ii) been accepted for premature voluntary retirement in each month of the last 12 months; and if he will make a statement. [167852]

Mr. Ingram: It is the Ministry of Defence's practice not to release information regarding United Kingdom Special Forces. I am therefore withholding details under Exemption 1 of the Code of Practice on Access to Government Information.

Trident Nuclear Warhead

Mr. Keetch: To ask the Secretary of State for Defence what the latest safe in-service date for the British Trident nuclear warhead is; and if he will make a statement. [170331]

Mr. Hoon: The Strategic Defence Review noted the need to ensure that Trident could remain an effective deterrent for up to 30 years. The Ministry of Defence sponsors a comprehensive science and technology programme at the Atomic Weapons Establishment to ensure that the Trident warhead remains both safe and reliable throughout its service life.

Typhoon

Mr. Evans: To ask the Secretary of State for Defence when he intends to announce the second tranche of orders for Typhoon. [165459]

Mr. Ingram: I refer the hon. Member to the answer I gave on 12 February 2004, *Official Report*, column 1634W, to my hon. Friend the Member for Pendle (Mr. Prentice).

United States Laboratories (UK Research)

Alan Simpson: To ask the Secretary of State for Defence what work is carried out by *(a)* the Sandia National Laboratories, *(b)* the Lawrence Livermore National Laboratories and *(c)* the Los Alamos National Laboratories on behalf of the United Kingdom Government. [166583]

Mr. Ingram: The Ministry of Defence and the Atomic Weapons Establishment maintain collaborative contact with Sandia National Laboratories, the Lawrence Livermore National Laboratories, and the Los Alamos National Laboratories under the 1958 UK/US Mutual Defence Agreement (Cm 537, as amended).

This contact, which may include the placement of specific work packages with the US facilities by or on behalf of HMG, principally relates to the stockpile stewardship programmes that ensure the continued safety and reliability of the UK's nuclear weapons stockpile. It would be contrary to the interests of national security to give further details of such activities, which I am therefore withholding under Exemption 1 (Defence, Security, and International Relations) of the Code of Practice on Access to Government Information.

US Forces (Service Charges)

Norman Baker: To ask the Secretary of State for Defence what the total income received for services rendered to the US visiting forces and their agencies was in 2003. [167744]

Mr. Ingram: The total receipts from invoices raised for services rendered to the United States visiting force and their agencies in the calendar year 2003 is £204.2 million. Most of this is in the form of direct reimbursement for the US visiting force works programme and civilian staff costs.

US Global Posture Realignment Process

Mr. Simon Thomas: To ask the Secretary of State for Defence what information he has received regarding changes in numbers or strength of US forces based in the UK as part of the US Global Posture Realignment process; and if he will make a statement. [169135]

Mr. Ingram: Her Majesty's Government have been consulted but it would be inappropriate to speculate on the impact that the United States Global Posture Realignment process may have on US forces based in the United Kingdom until the US Government make an announcement.

US/UK Mutual Defence Agreement

Alan Simpson: To ask the Secretary of State for Defence how many British personnel are stationed in the United States as part of the 1958 US/UK Mutual Defence Agreement; and where they are located. [166578]

Mr. Ingram: Numbers of United Kingdom personnel stationed in the United States under the auspices of the 1958 Mutual Defence Agreement vary in line with operational and other requirements. The current number is five, all at the Atomic Co-ordinating Office in the British embassy in Washington DC (this figure includes a Locally Employed Civilian).

Alan Simpson: To ask the Secretary of State for Defence how many personnel are employed in the renegotiation of the 1958 US/UK Mutual Defence Agreement; and what the estimated cost is of renegotiation. [166581]

Mr. Ingram: A number of Ministry of Defence personnel are involved in renegotiating the 1958 US/UK Mutual Defence Agreement as part of their normal duties, and FCO personnel will be involved in its ratification. The cost of the renegotiation is primarily the cost of this staff effort. Since this task represents only a small proportion of individuals' workloads, it is not possible to provide an accurate estimate of the collective cost of their time.

Alan Simpson: To ask the Secretary of State for Defence if he will list all the exchange of information and visit reports that have occurred in the last 12 months as part of the 1958 US/UK Mutual Defence Agreement. [166584]

Mr. Ingram: In the last 12 months, exchanges of information by visit and reports have occurred under the following subject headings: Radiochemistry; Safety and Security; Safety Assessment Methodology; Intelligence; Non-Proliferation and Arms Control Technology; Enhanced Surveillance; Facilities and Infrastructure; Senior Visits; the Atomic Weapons Establishment Support Contract; and Miscellaneous.

Alan Simpson: To ask the Secretary of State for Defence how many people visited *(a)* the Pantex Plant in America, *(b)* the Sandia National Laboratories, *(c)* the Lawrence Livermore National Laboratories, *(d)* the Los Alamos National Laboratories, *(e)* the Nevada test site and *(f)* the Rocky Flats plant on behalf of the United Kingdom Government in the last 12 months as part of the 1958 US/UK Mutual Defence Agreement. [166585]

Mr. Ingram: During the 12 months to 31 March 2004, there was a total of 190 visits by UK personnel to these sites under the 1958 US/UK Mutual Defence Agreement. The number of people visiting was as follows:

(a) the Pantex Plant: 41

(b) the Sandia National Laboratories: 205

(c) the Lawrence Livermore National Laboratories: 116

(d) the Los Alamos National Laboratories: 219

(e) the Nevada test site: 11

(f) the Rocky Flats Plant: 0.

These figures include personnel making more than one visit, and visits to several sites during a single trip.

Warships

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answers to the hon. Member for Mid-Sussex (Mr. Soames) of 25 March 2004, *Official Report*, column 949W, and 14 April 2004, *Official Report*, column 16W, on warships, for what reasons the refit of HMS Triumph was not programmed to begin on the expiry of the reactor certificate. [167942]

Mr. Ingram: The submarine refit programme is driven by the need to maintain the required number of submarines available to the fleet, while taking account of the requirement for submarines to refuel periodically. This programme is delivered in the most cost effective manner through a single stream refuelling capability at Devonport for Swiftsure and Trafalgar Class submarines (SSNs), of which HMS Triumph is one. Therefore, on occasion, a submarine may be berthed alongside for a period of time prior to the start of its refit. This is the case with HMS Triumph, whose refit will begin in summer 2005, once the SSN refitting and refuelling dock is vacated by HMS Talent. This programme accords with the Ministry of Defence's long term plan, which will continue to deliver sufficient submarines at high readiness to maintain defence outputs.

Wind Farms

Janet Anderson: To ask the Secretary of State for Defence whether his Department issues guidelines in relation to planning applications for wind farms to be located within a certain distance of military installations involving radar. [169488]

Mr. Caplin: I will write to my hon. Friend and place a copy of my letter in the Library of the House.

NORTHERN IRELAND

Asthma

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he has taken to encourage local health and social care groups to adopt asthma as a particular interest among long-term conditions; and if he will make a statement. [169659]

Angela Smith: One of the key actions set out in Priorities for Action 2003–04 required Local Health and Social Care Groups (LHSCGs) to develop at least one project to increase the capacity of primary care to address chronic diseases, such as diabetes, Chronic Obstructive Pulmonary Disease (COPD), asthma and coronary heart disease, in the primary care setting to reduce pressure on the hospital sector.

It is a matter for the Groups, based on their assessment of local need, to decide which of these chronic diseases is a priority in their local area. To date none of the projects undertaken focus specifically on asthma but some of the projects covering respiratory illnesses in the widest sense should bring some benefits to asthma sufferers.

I should also add that the Department is currently working to put in place a strategy to identify how the full spectrum of respiratory service provision, including asthma care in the primary care setting, should be configured up to 2010.

Autism

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what research he has collated on the earlier diagnosis of autistic spectrum disorders in the Province; and if he will make a statement. [167718]

Angela Smith: There has been no DHSSPS funded research undertaken in Northern Ireland on the earlier diagnosis of autistic spectrum disorders.

Child Support Agency

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many cases have been dealt with by the Child Support Agency in Northern Ireland in each of the last two years. [170481]

Mr. Spellar: Over the last two years the Child Support Agency's (CSA) live load has consisted of 33,000 cases, representing some 50,000 children.

In order to maintain the existing caseload and administer new applications in each of the last two years

the CSA has carried out the following activities:

Case activities	*2002–03*	*2003–04*
Applications cleared (in year)	8,703	8,184
Change of circumstances processed	13,972	12,803
Account inquiries handled	52,424	51,410
Cases requiring debt management	12,129	13,594

The total child support maintenance collected by the Agency in each of the last two years is as follows:

	Collections (£)
2002–03	12,520,000
2003–04	12,645,000

Conservation Area Status

Lady Hermon: To ask the Secretary of State for Northern Ireland what effect the designation of conservation area status has upon the protection of trees within its boundaries. [170033]

Angela Smith: The effect of conservation area status is to prohibit the cutting down, topping, lopping, uprooting, wilful damage or wilful destruction of those trees in the conservation area that are not already protected by a Tree Preservation Order. Anyone carrying out such works is guilty of an offence and liable on summary conviction to a fine not exceeding £30,000, or on conviction on indictment, to a fine.

A person may, however, serve notice upon the Department of the intended works and may carry out such works, either with the consent of the Department or after a period of six weeks from the date of the notice but before the expiry of a period of two years from that date. The Department may also decide, however, to protect the tree or trees in question by applying a Tree Preservation Order before the expiry of the six-week period.

District Policing Partnerships

Mr. Swayne: To ask the Secretary of State for Northern Ireland when the Dungannon and South Tyrone District policing partnership will be established. [170480]

Mr. Pearson: Dungannon and South Tyrone District Policing Partnership (DPP) is the only one of the 26 DPPs yet to be established.

After very careful consideration over a period of time, and following consultation with the Northern Ireland Policing Board, my right hon. Friend the Secretary of State for Northern Ireland, decided to issue on 2 February a letter of direction to the Mayor of Dungannon and South Tyrone borough council requiring the council to establish its DPP. This action was in accordance with Section 15 of the Police (Northern Ireland) Act 2000, which sets out the steps to be taken when a council has failed to set up a DPP. The letter that issued on 2 February gave the council two calendar months to reconsider its position.

The council have sought and obtained two extensions to this deadline and the new deadline for the council to comply with the direction is 28 May. It is hoped that the council will use this further period to reconsider their position and establish the DPP.

Dublin/Monaghan Bombings

Adam Price: To ask the Secretary of State for Northern Ireland what information he has studied in relation to the extent of British security service involvement in the Dublin and Monaghan bombings of 1974. [169075]

Mr. Paul Murphy: As part of the Government's endeavours to helping Mr. Justice Barron's inquiry into the Dublin and Monaghan bombings as fully as possible, my predecessors and I examined all the potentially relevant information uncovered in the files of this Department and other Departments and agencies. There was no information to indicate that the British security forces were involved in the bombings, or that they were aware of the perpetrators' plans in advance. Had such information been uncovered, it would have been passed to Mr. Justice Barron.

Environment and Heritage Service

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on how the Environment and Heritage Service, Northern Ireland has fulfilled its obligations towards The Priory, In Holywood, County Down. [170034]

Angela Smith: Holywood Priory was scheduled for protection in 1932 under the 1926 Ancient Monuments Act and was re-scheduled in 1986 under the Historic Monuments Act (NI) 1971.

The Environment and Heritage Service (EHS) has carried out regular inspections of the condition of the Priory. Condition reports have recorded little evidence of deterioration. However, a need to remove some potentially damaging vegetation was identified. North Down Borough Council, the owners responsible for the care of The Priory, have been made aware of this and have removed the vegetation.

Under Policy BH1 of Planning Policy Statement 6—"The Preservation of Archaeological Remains of Regional Importance and their settings"—EHS has also advised Planning Service on various planning applications in the area which affected this site and/or its setting.

European Parliamentary Elections (Northern Ireland) Regulations

Lady Hermon: To ask the Secretary of State for Northern Ireland when the European Parliamentary Elections (Northern Ireland) Regulations 2004 were first made available in the Vote Office. [170247]

Mr. Spellar: Copies of the European Parliamentary Elections (Northern Ireland) Regulations 2004 were first made available in the Vote Office on 18 March 2004.

Fair Employment (Complaints)

Mr. McNamara: To ask the Secretary of State for Northern Ireland, how many formal complaints

alleging breaches of fair employment and equal opportunity legislation have been made to the Office of Industrial Tribunals and the Office of Fair Employment Tribunals in *(a)* 2002, *(b)* 2003 and *(c)* 2004 to date. [170405]

Mr. Spellar: The information is as follows.

Number of complaints

	Complaints registered with Fair Employment Tribunal	*Equal Opportunity complaints registered with Industrial Tribunals*
2002	481	1,014
2003	466	942
2004 (to end of March)	175	280

Free Fares for Senior Citizens

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland have used the Free Fares for Senior Citizens scheme on public transport in Northern Ireland since its introduction; and how many people used the previous discounted fares scheme over an equivalent time period leading up to the introduction of the Free Fares for Senior Citizens scheme. [169761]

Mr. Spellar: Free travel for Northern Ireland residents aged 65 and over was introduced in October 2001. Translink do not have information about the number of people who have used the scheme since its introduction, but do have records of the number of passenger journeys undertaken. Those records show that 17,620,940 free passenger journeys were undertaken on Ulsterbus and City bus services between October 2001 and April 2004. Figures are not available for Northern Ireland Railways for this period.

Translink have advised that passenger journey figures are unavailable for half fare concessions prior to October 2001.

Gastroenteritis Outbreak

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* admissions, *(b)* operations and *(c)* other procedures were postponed at each of the hospitals in the province as a result of the April outbreak of gastroenteritis; and if he will make a statement. [169656]

Angela Smith: The information requested on admissions, operations and other procedures could be provided only at disproportionate cost.

A total of 896 bed days at the Ulster hospital and 149 bed days at the Antrim hospital were lost as a result of the gastroenteritis during April. All elective surgery was cancelled at the Ulster hospital between 6 April and 26 April.

The impact of a gastroenteritis outbreak on services will depend on many factors including the level of the infection in the community, the proportion of affected staff, the clinical areas involved, the layout of hospital design, and the general pressures experienced by the trust.

The control measures being followed in the Ulster hospital are those recommended in national UK guidelines "Management of hospital outbreaks of gastroenteritis due to small round structures viruses". These include isolation of affected patients and exclusion from work of affected staff members, ward closure to new admissions, enhanced hygiene measures and domestic cleaning, restrictions on visitors, close monitoring of all wards and information and advice to staff, patients and visitors. The current outbreak of the virus is now showing signs of abating, wards are being reopened to patients and elective surgery is again being performed.

Leggatt Report

Mr. McGrady: To ask the Secretary of State for Northern Ireland what plans he has to bring into effect in Northern Ireland the recommendations of the Leggatt Report in the Review of Tribunals. [166138]

Mr. Paul Murphy: I refer the hon. Gentleman to the written answer given by my hon. Friend the Parliamentary Under-Secretary, Department for Constitutional Affairs (Mr. Leslie), on 1 April 2004, *Official Report*, column 1656W.

Pensions Payment

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the change in numbers of pension payment order books at post offices in Northern Ireland was between 2002 and 2003. [170483]

Mr. Spellar: The decrease in numbers of pension books at post offices in Northern Ireland between 2002 and 2003 is 23,000.

Personal Protection

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to withdraw personal protection from *(a)* members of the judiciary and *(b)* others in Northern Ireland; and if he will make a statement. [169745]

Mr. Pearson: The level of personal protection provided to individuals in Northern Ireland is an operational matter which the Chief Constable keeps under constant review. In line with Part II, Paragraph 4f of the Code of Practice on Access to Government Information—

> "Information whose disclosure could endanger the life or physical safety of any person, or identify the source of information or assistance given in confidence for law enforcement or security purposes"—

it would be inappropriate to comment further on such issues.

Police Fund

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what the staff and administrative costs associated with the operation of the Police Fund have been in each year since its introduction, broken down by main budget heading. [170219]

Mr. Pearson: I have been advised by the Police Fund that the establishment and running costs associated with the operation of the Fund from 25 January 2002 to 31 March 2004 are as follows:

£

	Period from 25 January 2002 to 31 March 2003	*Period from 1 April 2003 to 31 March 2004*
Personnel Costs	210,563	251,916
Accommodation Costs	13,202	14,777
General Administrative Expenses	106,351	58,121
Total	330,116	324,814

It should be noted that the figures for 2003–04 are subject to the annual external audit, which will commence on 1 June 2004.

Police Service

Mr. Swayne: To ask the Secretary of State for Northern Ireland what legal obstacles prevent formalised police exchanges between the Police Service of Northern Ireland and the Garda Siochana; and if he will make a statement. [170562]

Mr. Pearson: With the coming into force of the Police Service of Northern Ireland (Secondment) (Garda Siochana) Regulations 2004, there is no legal obstacle in the United Kingdom jurisdiction which would prevent police exchanges between the Police Service Northern Ireland and the Garda Siochana.

When I raised the subject at the meeting of the British-Irish Intergovernmental Conference on 21 April, I was assured that the Irish Government is currently working up reciprocal regulations to support secondments.

Roads

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the estimated cost is of providing a dual carriageway between the Toome by-pass and the City of Londonderry. [170486]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has written directly to the hon. Gentleman in response to this Question.

Letter from Dr. McKibbin to Mr. Gregory Campbell, dated 4 May 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about the estimated cost of providing a dual carriageway between the recently constructed Toome by-pass and the City of Londonderry. I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

The estimated cost of providing a dual 2-lane carriageway road between the end of the Toome by-pass and Londonderry would be in the region of £300 million to £400 million.

I hope this information is helpful.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the estimated cost is of providing a dual carriageway between the existing dual carriageway on the A26 and Glarryford and Coleraine. [170487]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has written directly to the hon. Gentleman in response to this Question.

Letter from Dr. McKibbin to Mr. Gregory Campbell, dated 1 May 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding the estimated cost of providing a dual carriageway between the existing dual carriageway on the A26 and Glarryford and Coleraine. I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

The estimated cost of providing a dual 2-lane carriageway road with at-grade junctions on the A26 between the end of the existing dual carriageway at Glarryford and Coleraine would be in the region of £130 million to £180 million depending on the standard of the road provided.

I hope this information is helpful.

Timber

Ms Walley: To ask the Secretary of State for Northern Ireland whether his Department plans to contribute financially to the establishment of the second phase of the Central Point of Expertise on Timber. [167615]

Mr. Pearson: There are currently no plans for Northern Ireland Departments to contribute financially to the establishment of the second phase of the Central Point of Expertise on Timber.

TK-ECC Plant

Mr. Trimble: To ask the Secretary of State for Northern Ireland what assessment he has made of the assistance he can give to workers recently made redundant at the TK-ECC plant, Dundonald; and what meetings have been *(a)* held and *(b)* arranged with representatives of the workers regarding future employment prospects. [165909]

Mr. Spellar: Following meetings with TK-ECC Senior Management on 25 February and 3 March 2004, officials from the Department for Employment and Learning (DEL) took the lead in co-ordinating an inter-Departmental Outreach Service, at the company's premises at Dundonald from Monday 8 to Friday 12 March. Representatives from DEL, Invest NI, Social Security Agency and the Inland Revenue provided advice and guidance on a wide range of services including referrals to jobs and training opportunities, benefit claims and entitlement, advice on business start-up and entitlement to tax credits.

The primary objective of the Outreach Service was to secure alternative employment for as many of the work force as possible. In excess of 150 people were subsequently submitted to job vacancies with a further 120 receiving information and advice on training opportunities. In addition, Invest NI entered into discussion with 36 employees, 25 of whom were seeking to start their own business, with a further 11 seeking general business advice and direction. Invest NI also held preliminary discussions with the Managing Director of TK-ECC who was investigating the possibility of a new business venture. To date this has not progressed beyond the preliminary stage.

UK General Lighthouse Fund

Mrs. Dunwoody: To ask the Secretary of State for Northern Ireland (1) what discussions he has had with other Government Departments regarding the cessation

of payments from the UK General Lighthouse Fund for the provision of navigational aids in Irish territorial waters; [168239]

(2) what discussions he has had with the Irish Government regarding the cessation of payments from the UK General Lighthouse Fund for the provision of navigational aids in Irish territorial waters. [168240]

Mr. Jamieson: I have been asked to reply.

The General Lighthouse Fund meets the cost of providing aids to navigation services for the British Isles as a whole, but the Government shares UK shipping industry concerns about the imbalance in the amounts of light dues collected in the UK and in Ireland. Since we reiterated in January our commitment to renegotiate the current level of funding from Ireland there have been further discussions at official level between the Department for Transport and the Foreign and Commonwealth Office, and with the Irish Department of Communications, Marine and Natural Resources. The Northern Ireland Office will also be involved as the dialogue progresses.

Ulster-Scots Agency

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland if he will make a statement on the *(a)* procedure and *(b)* timescale for filling the vacant post of Chairman of the Ulster-Scots Agency. [170784]

Mr. Paul Murphy: Under the Implementation Bodies Agreement of 8 March 1999 made between the British and Irish Governments, the North South Ministerial Council fill the vacancy left by Lord Laird's resignation as Chairperson of the Ulster Scots Agency.

During suspension, such decisions are taken by the British and Irish Governments under the Agreement made between the two Governments on 19 November 2002.

No timescale for any such appointment has yet been set.

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland if he will make a statement on the reasons given by the Chairman of the Ulster-Scots Agency for his resignation. [170785]

Angela Smith: In a letter of resignation to the North South Ministerial Council on 23 April, Lord Laird stated that a lack of official support and public funding for the Ulster-Scots Agency were the reasons. This I refute.

The Budget for the Agency has trebled since 2000 to a current level of £1.7 million which is an 11 per cent. increase on last year's budget. This is within a care and maintenance arrangement as agreed by North South Ministerial Council.

My Department continues to work closely with the Ulster-Scots Agency in support of their work.

Youth Football

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what financial assistance was given to the promotion of youth development programmes in Northern Ireland football during 2003. [165996]

Angela Smith: The amount of financial assistance that was given to the promotion of youth development programmes in Northern Ireland during 2003 was £903,768. This amount was provided via the Departments of Culture Arts and Leisure, Finance and Personnel, Enterprise Trade and Investment and Social Development. The figures include £804,995 from the Department of Culture Arts and Leisure for the 2003–04 financial year.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what further developments have been made in relation to the agreement reached regarding the assistance offered to the Irish Football Association to develop football in Northern Ireland. [169934]

Angela Smith: Discussions are ongoing between my officials, the Sports Council for Northern Ireland (SCNI), the Irish Football Association (IFA) and the Irish Football League (IFL) about arrangements for the provision of DCAL assistance offered to the IFA to develop football in Northern Ireland. In addition, I have approved the terms of reference for a SCNI-led Soccer Strategy Implementation Group, the membership of which will include senior representatives of the IFA. Steps are also being taken to arrange a first meeting of this group.

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps he is taking to promote youth football in Northern Ireland. [168470]

Angela Smith: The Department of Culture, Arts and Leisure (DCAL) has made available, via the Sports Council for Northern Ireland, £1.6 million for the promotion of youth football in Northern Ireland. Under this programme, 25 youth Football Development Centres, based at clubs, have been established across Northern Ireland. In addition, youth football is one of the key components of the soccer strategy initiative.

Lady Hermon: To ask the Secretary of State for Northern Ireland whether measures to promote youth football in Northern Ireland are dependent on the implementation of the soccer strategy. [168472]

Angela Smith: Current measures supported by the Department of Culture, Arts and Leisure (DCAL), through the Sports Council for Northern Ireland, to promote youth football in Northern Ireland are not dependent on the implementation of the Soccer Strategy. The development of youth football in the future will be closely linked to the successful implementation of the Soccer Strategy process.

HOME DEPARTMENT

Anti-terrorism Legislation

Ross Cranston: To ask the Secretary of State for the Home Department pursuant to his answer to the hon. Member for Bethnal Green and Bow (Ms King) on 8 March 2004, *Official Report*, columns 1256–57W, on anti-terrorism legislation, if he will collate information on the religious background of those detained under UK anti-terrorism legislation. [166428]

Mr. Blunkett: I do not believe that the religion of an individual is relevant to whether or not they may have been involved in terrorism.

In respect of all detentions under anti-terrorism legislation, there is no requirement for detainees to provide information pertaining to their religion. This data is therefore not collated centrally and could not be obtained except at disproportionate cost.

Ross Cranston: To ask the Secretary of State for the Home Department pursuant to his answer of 13 January, *Official Report*, column 669W, on the Terrorism Act 2000, if he will update the figures. [166813]

Mr. Blunkett: Police records show that since 11 September 2001, 562 people have been arrested under the Terrorism Act 2000 and that 97 of those have been charged with offences under that Act (please note that two persons previously reported as originally charged under the Terrorism Act 2000 had their charges amended during the prosecution process) resulting in 14 convictions.

53 people have been released directly into the custody of the immigration services. (Please note that the difference of one here is the result of a review, which identified an erroneous earlier report from a Constabulary.) A further 99 of those arrested under the Act have been charged under other legislation.

280 individuals were released without charge or further sanction. Information on any further action taken is not collated centrally and could be provided only at disproportionate cost.

Asylum and Immigration

Mr. Randall: To ask the Secretary of State for the Home Department what he estimates the cost to central Government Departments of the medical inspection of immigrant service is in 2003–04. [156836]

Miss Melanie Johnson: I have been asked to reply.

I refer the hon. Member to the response I gave to him today.

Brain Fingerprinting

Mr. Watson: To ask the Secretary of State for the Home Department what evaluation he has made of brain fingerprinting technologies that monitor the involuntary electrical waves emitted by the brain. [169294]

Ms Blears: None.

Car Crime

Mr. Watson: To ask the Secretary of State for the Home Department what assessment he has made of the impact of remote immobiliser technologies on reducing car crime. [166845]

Ms Blears: It is too early to make an assessment because the introduction of these technologies by the industry has been delayed until there is resolution of liability issues.

It is suggested that these legal liabilities include, liability for technology or system malfunction and who would take responsibility for vehicles that are remotely immobilised and subsequently causes an accident.

Charitable Status

Mr. Hancock: To ask the Secretary of State for the Home Department what steps he is taking to withdraw charitable status from groups that are raising money in the UK and channelling it to extremist and terrorist groups in India. [158060]

Fiona Mactaggart: This is a matter for the Charity Commission as the Government Department responsible for the regulation of charities in England and Wales. The Director of Operations will write to the hon. Member and a copy of his reply will be placed in the Library.

Clamping Companies

Mr. Alan Williams: To ask the Secretary of State for the Home Department when he expects the Security Industry Authority to introduce regulations to control the activities of clamping companies. [170964]

Ms Blears: On current plans the Security Industry Authority expects to commence regulation of vehicle immobilisers by the end of 2004.

Criminal Records Bureau

Sandra Gidley: To ask the Secretary of State for the Home Department (1) what estimate he has made of the number of existing home care staff who will require Criminal Records Bureau checks; [166008]

(2) how many existing care home staff had enhanced level Criminal Records Bureau checks processed by 29 February; what percentage this constitutes of the total number of existing care home staff; and if he will make a statement. [166018]

Ms Blears: As at 29 February, a total of 85,062 Disclosure applications from existing care home staff had been processed by the Criminal Records Bureau (CRB). This figure is made up of 80,327 Enhanced Disclosures and 4,735 Standard Disclosures. As at 21 April, the number of applications processed had risen to 105,765 out of a total received of 115,532.

There are no reliable figures to indicate what percentage of overall existing staff this represents, because initial estimates from the Department of Health were that checks would need to be carried out on 250,000 existing staff. However discussions with the care sector suggest that there is a high turnover of staff in this sector, and as a result the actual figure could be at least 20–40 per cent. lower.

In September 2003, the Department of Health issued its schedule to employers and owners in the care sector on the reintroduction of the previously postponed checks on existing care home staff. Initially, employers were asked to send application forms to the CRB by 31 December 2003. Because the number of applications received by that date were low and following discussion

between the Criminal Records Bureau, the Home Office and the Department of Health, this date was extended to 29 February 2004.

Mr. Hoban: To ask the Secretary of State for the Home Department how many people have *(a)* one, *(b)* two, *(c)* three, *(d)* four, *(e)* five and *(f)* more than five registrations with the Criminal Records Bureau. [167975]

Ms Blears *[holding answer 23 April 2004]:* I believe that the question refers to the number of people who have applied for more than one Disclosure from the Criminal Records Bureau (CRB). I am unable to provide an answer, because the CRB's computer system does not hold this information centrally.

Custodial Sentences

Mrs. Ann Cryer: To ask the Secretary of State for the Home Department how many women were given a custodial sentence by courts in London in each month since January 2003. [168780]

Paul Goggins: Statistics on court proceedings for 2003 will be published in the autumn.

Departmental Contracts

Mrs. Helen Clark: To ask the Secretary of State for the Home Department what contracts have been awarded to the company Mitie by his Department since 2000; and what arrangements were put in place for collective bargaining. [166595]

Fiona Mactaggart: The available information held by the Home Office on the contracts awarded to MITIE since 2000 is as set out in the following table:

Unit	*Description of Contract*
(FSS) Forensic Science Service	Facilities Management—Lambeth 1/7/02–1/6/05 with an option to extend the contract for a further period of 24 months.
(UKPA) United Kingdom Passport Agency	Building Work. Counter/Reception refurbishment in Glasgow.
(HMPS) Her Majesty's Prison Service	Cleaning contract at HMP Long Lartin until 2004. Staff mess catering contract at HMP Long Lartin 30/4/01–29/4/04. Catering framework agreement under Phase 2 Project for Staff Messes and Visits Halls. Roofing contract at HMP Parkhurst. Roofing contract at HMP Leicester. Cameron House conversion contract at HMP Norwich. Works contract at HMP Ranby. Works contract at HMP Hindley. Roofing contract at HMP Hindley. Refurbishment contract at HMP Lewes. Installation of call system contract at HMP Exeter.
(NPD) National Probation Directorate	Facilities Management Services—National Probation Service (NPS) North Division Estate commencing 1/1/03. Facilities Management NPS West Division Estate commencing 1/4/03. Both contracts fixed for three years with options to extend both by four times, six month periods to a maximum of five years each

Departmental Staffing

John McDonnell: To ask the Secretary of State for the Home Department what percentage of his Department's work force are non-civil servants, separately identifying *(a)* consultants and contractors, *(b)* secondees from other Government bodies and *(c)* temporary agency staff. [163631]

Fiona Mactaggart *[holding answer 31 March 2004]:* Contributions have been received from areas of the Home Department, including agencies, as follows:

	Agency staff (including non-civil servant inward secondees)	*Total staff*	*Percentage*
Immigration and Nationality Department	1,298	14,240	9.1
United Kingdom Passport Service	47	2,627	1.8
Centrally managed core Home Office	300	4,208	7.1
Forensic Science Service	90	2,615	3.4
Prison Service Agency	300	47,427	0.6

Note:
Inward Seconded staff who are civil servants are counted against normal staff counts; staffing returns for the Home Office Annual Report excludes agency staff.

John McDonnell: To ask the Secretary of State for the Home Department what the cost to his Department of contracted professional services was in each of the last five years. [163633]

Fiona Mactaggart *[holding answer 31 March 2004]:* The cost for contracted professional services for the Core Home Office in each of the last five years is as follows:

	£
1999	15,132,974
2000	33,130,017
2001	47,177,217
2002	58,509,500
2003	73,762,761

The Stage 2 RAB Resource DEL for the Home Office over the same period was:

	£
1999–2000	7,076,102,000
2000–01	8,398,131,000
2001–02	10,261,856,000
2002–03	11,088,502,000
2003–04	11,836,009,000

Expenditure expressed as a percentage of the Home Office DEL during the last five years was as follows:

	Percentage
1999–2000	0.21
2000–01	0.39
2001–02	0.46
2002–03	0.53
2003–04	0.63

The Immigration and Nationality Directorate accounted for around half of the cost for each financial year.

Drug Rehabilitation Treatment

Mr. Laws: To ask the Secretary of State for the Home Department what the waiting times for drug rehabilitation treatment for each drug action team in England were for each year from 1995–96 to 2003–04; and if he will make a statement. [163881]

Miss Melanie Johnson: I have been asked to reply.

The National Treatment Agency (NTA) has collected information on waiting times for all drug treatment modalities from 2001 for drug action teams. This is available on the NTA's website at http://www.nta.nhs.uk/programme/performance information popup.htmf#related.

In December 2001, the NTA developed a programme to tackle growing waiting times, setting targets on the maximum acceptable length of waits. Average waiting times have fallen in all treatment categories from between five to eleven weeks in December 2001, to two to five weeks in October 2003.

Gloucestershire Probation Board

Mr. Drew: To ask the Secretary of State for the Home Department what the membership of the Gloucestershire Probation Board is; and what the duration of that membership is. [168309]

Paul Goggins: There are currently 13 members on the Gloucestershire Probation Board, including the Chief Officer and Chair.

At present, there are two vacancies on this board. One new member has been selected and is awaiting pre-appointment clearance. The remaining vacancy is for a judicial representative who will be approved by the Department of Constitutional Affairs.

The Board may have a maximum of 15 members, and the term of appointment for all member appointments is three years, with the exception of the Chief Officer who is appointed on a permanent basis.

Interception of Communications

Gregory Barker: To ask the Secretary of State for the Home Department how many warrants have been authorised for the interception of telephone conversations, e-mails and postal mail in each of the last 10 years. [167078]

Ms Blears: The figures for the number of interception warrants issued in the last 10 years are published annually in the Annual Reports of the Interception of Communications Commissioner initially appointed under the Interception of Communications Act 1985 and now under the Regulation of Investigatory Powers Act 2000. Copies are available in the House of Commons Library.

Offender Management

Alan Simpson: To ask the Secretary of State for the Home Department when he expects the Chief Executive of the National Offender Management Service to appoint the first Regional Offender Manager for the new service. [168838]

Paul Goggins: Advertisements for Regional Offender Manager posts appeared in the media from 18 April. Interviews of candidates will begin in early June as soon as possible after which the first appointments will be made.

Mrs. Ann Cryer: To ask the Secretary of State for the Home Department whether regional offender managers will be required to *(a)* locate prisoners and *(b)* purchase places for prisoners, as close to their homes as possible. [168783]

Paul Goggins: Regional offender managers will assess individual offenders on a case-by-case basis and prescribe interventions appropriate to that offender. Wherever possible, the location of a prisoner's home will be taken into consideration.

Parliamentary Questions

Ms Shipley: To ask the Secretary of State for the Home Department when he will reply to the question tabled by the hon. Member for Stourbridge on 2 March, reference 158991. [165942]

Ms Blears: I wrote to my hon. Friend on 31 March 2004, *Official Report*, column 1419W.

Parole

Mrs. Gillan: To ask the Secretary of State for the Home Department how many persons were recalled to custody having been released on home detention curfew in each of the last 12 months. [168025]

Paul Goggins: The number of persons recalled to custody having been released on Home Detention Curfew (HOC) in each of the last 12 months is given in the following table.

Reasons for recall include breach of HDC conditions, change of circumstances (for example, where a subject has involuntarily lost their curfew address or has withdrawn consent to be monitored) and being charged with a new offence.

Numbers recalled from and on home detention curfew England and Wales April 2003 to March 2004

	Recalled	On HOC
April 2003	226	3,135
May 2003	213	3,112
June 2003	196	3,174
July 2003	215	3,262
August 2003	207	3,772
September 2003	272	3,682
October 2003	288	3,574
November 2003	230	3,613
December 2003	272	3,779
January 2004	284	3,523
February 2004	264	3,444
March 2004	259	3,602

Policing/Crime Statistics

Mr. Hendrick: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Preston since 1997. [169697]

Ms Blears: Preston borough council has been allocated a total of £276,228 specifically for CCTV schemes since the introduction of CCTV funding in 1999. This was for two schemes under round two of the initiative.

Mr. Neil Turner: To ask the Secretary of State for the Home Department what percentage change in full-time police officers in Wigan there has been since 1997. [169333]

Ms Blears: Information on strength at Basic Command Unit (BCD) level is collected annually and reflects the position at the end of March. Information on BCD strength is only available from 2002.

Between March 2002 and March 2003 police strength for the Wigan BCU increased by 6.9 per cent. (from 442.5 to March.473.0). The deployment of officers to BCUs is a matter for the Chief Constable (Michael Todd) and within the Wigan BCU deployment of officers is a matter for the Divisional Commander.

Mr. Neil Turner: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Wigan since 1997. [169337]

Ms Blears: Since 1997, the Home Office has provided £1,604,450 to Wigan metropolitan borough council for CCTV schemes.

Prisoners

Mrs. Gillan: To ask the Secretary of State for the Home Department how many life sentence prisoners were *(a)* in Category C conditions and *(b)* in open conditions on (i) 31 March and (ii) 31 March in each of the last five years. [168026]

Paul Goggins: The number of life sentence prisoners held in *(a)* Category C prisons and *(b)* Open prisons on 31 March 2004 and in each of the last five years is given in the table.

Population of lifers in Category C and open prisons, 31 March

	Category C	Open
1999	767	314
2000	782	354
2001	870	304
2002	884	375
2003	966	397
2004	1,014	400

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners are expected to be released from custody *(a)* on home detention curfew, *(b)* on parole and *(c)* at the end of their sentence in each of the next 12 months. [168029]

Paul Goggins: Estimated figures for the number of prisoners expected to be released from custody on *(a)* home detention curfew (HOC), *(b)* on parole, and *(c)* at the end of their sentence, are not available. The numbers released on parole and HDC depend on the size and make-up of the prison population, general policy and individual decisions on early release.

The number of prisoners released from custody on HDC, recommended for parole, and the total number of discharges in 2002 can be found in tables 10.7, 10.1 and 3.13, 4.11 and 5.8 respectively of the publication 'Prison Statistics England and Wales 2002'. A copy of this publication is available in the Library.

Mr. Maude: To ask the Secretary of State for the Home Department how many and what percentage of prisoners were assessed for basic literacy and numeracy in 2003–04; and what the rates were for each of the last 10 years. [169093]

Paul Goggins: All establishments provide an induction programme, screening and initial assessment of each offender's basic skills.

We are able to provide figures from 2001, but do not hold data for the past 10 years.

	Prisoners' basic skills assessments
2001–02	114,831
2002–03	118,800
2003–04	123,941

The number of sentenced prisoners received into prisons for the same period (not including recalls, non-criminals or fine defaulters) is:

	Number
2001–02	91,978
2002–03	94,807
2003–04	[1]92,247

[1] Final year figures yet to be confirmed.

Information is not collected and held centrally for each individual prisoner. Accordingly it is not possible

to express these figures as a proportion of annual throughput. Assessment figures would also include non-sentenced prisoners.

Mr. Maude: To ask the Secretary of State for the Home Department how many prisoners aged *(a)* under 18, *(b)* 18 to 25, *(c)* 26 to 35, *(d)* 36–60 and *(e)* over 60 years were released to no fixed abode in each of the last 10 years. [169137]

Paul Goggins: The available information, from large-scale resettlement surveys of sentenced prisoners nearing release conducted in November-December 2001 and March-April 2003, is contained in the following table. Comparable information for preceding years is not available.

Proportion of prisoners without accommodation arranged on release, by prisoner type

Resettlement survey	*Percentage*	
	2001	*2003*
Male young offenders (aged 18–20)	23	10
Adult males (aged 21 or over)	34	30
Females	41	38
Total	33	29

Mr. Maude: To ask the Secretary of State for the Home Department how many *(a)* suicides, *(b)* attempted suicides and *(c)* incidents of self-harm by serving prisoners there were in each of the last 10 years. [169089]

Paul Goggins: The numbers of self-inflicted deaths and numbers of incidents of self-harm in prisons in England and Wales are provided in the following table:

Calendar year	*Number of self-inflicted deaths*	*Number of incidents of self-harm (not available pre-1998)*
1994	61	—
1995	59	—
1996	64	—
1997	68	—
1998	84	3,207
1999	91	3,721
2000	81	5,227
2001	73	7,486
2002	95	9,745
2003	94	[1]16,223

[1] In December 2002, a new form for reporting self-harm was introduced across the prisons estate, which is known to have improved reporting practices. Please note therefore that much of the increase in reported self-harm in 2003 may have resulted from the change in reporting procedures rather than reflect an actual increase in incidence of self-harm.

Suicidal intent is not easy to establish. The reasons why people self-injure are highly complex, and it is difficult to distinguish between acts of self-harm that were attempts at ending life, and those which occurred for other reasons. It is not possible, therefore, for the Prison Service to extrapolate from the data recording incidents of self-harm those acts that may have been attempts at suicide.

Central to the suicide prevention strategy that I announced on 31 March is the need to reduce the level of distress in prisons and to promote the well being of all staff and prisoners. The strategy has strong support from partner agencies and external organisations, and is being developed in close partnership with the Department of Health. The Prison Service has also been developing a separate but related self-harm management strategy.

Charles Hendry: To ask the Secretary of State for the Home Department what proportion of the prison population has been diagnosed as suffering from dyslexia. [169132]

Paul Goggins: Past research suggests that the proportion of prisoners suffering from dyslexia could range from four to over 17 per cent. The new prison dyslexia project, currently under way in Yorkshire and Humberside, is designed to provide an authoritative answer to the question of the incidence of dyslexia and related learning disabilities among the prison population. A full report is expected at the end of the summer.

All establishments provide screening and initial assessment for prisoners. Potential dyslexia indicators can be identified through them. New diagnostic assessments for prisoners, to be administered after initial assessment by a specialist teacher, will offer guidance on when to refer learners for a full dyslexia assessment with an educational psychologist or other appropriately trained person.

Prisons

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department when the results of the audit to identify foreign nationals sentenced to a term of imprisonment will be available. [164404]

Paul Goggins: An audit by the Prison Service began in January to ensure that all relevant information on foreign national prisoners that it holds in its custody had been passed to the Immigration Service. This is particularly important for those who will be eligible for the Early Removal Scheme (ERS).

As this audit concerns the confirmation of personal data on prisoners between the Prison and Immigration Services there are no plans to make the results publicly available.

Probation Service

Ross Cranston: To ask the Secretary of State for the Home Department what the change in gross pension provision for the *(a)* National Probation Directorate and *(b)* National Probation Service (Local Area Boards) will be following the publication of the Spring Supplementary Estimates for 2003–04. [168462]

Paul Goggins: The Spring Supplementary Estimates for 2003–04 do not make any change in pension provision for either *(a)* the National Probation Directorate or *(b)* the local Probation Boards of the National Probation Service.

Staff in the National Probation Directorate are part of the Civil Service Pension Scheme. Staff in local Probation Boards are part of the Local Government Pension Scheme and the actuarial rate for employers' contributions was set in 2001 for the financial years 2002–03, 2003–04 and 2004–05.

Racial Harassment

Mr. Frank Field: To ask the Secretary of State for the Home Department what powers preventing racial harassment have been introduced since 1997; and how many times these powers have been used in Birkenhead. [166486]

Fiona Mactaggart: The Crime and Disorder Act 1998 created new and separate offences where the offences of causing fear and violence or of causing harassment, alarm or distress under the Public Order Act 1986, or the offences of harassment or putting in fear of violence under the Protection from Harassment Act 1997 were racially aggravated.

Figures for the number of prosecutions in Birkenhead for this type of offence are not centrally available. Over the period 1999–2000 to 2001–02, Merseyside Police recorded a total of 434 harassment offences.

Prior to 1997, the Race Relations Act (RRA) 1976 prohibited discrimination on racial grounds. The RRA did not specifically refer to harassment, but it was clear from case law that racial harassment was a type of detriment capable of amounting to the kind of treatment prohibited by the Act.

As part of its fulfilment of its obligations under the EC Race Directive, the UK amended the Race Relations Act 1976 (by virtue of the Race Relations Act 1976 (Amendment) Regulations 2003) so as to make it unlawful to harass a person, on grounds of race or ethnic or national origins, in the areas of activity covered by the 1976 Act.

Mr. Kaufman: To ask the Secretary of State for the Home Department what powers preventing racial harassment have been introduced since 1997; and how many times these powers have been used in Manchester Gorton. [167468]

Fiona Mactaggart: The Crime and Disorder Act 1998 created new and separate offences where the offences of causing fear and violence or of causing harassment, alarm or distress under the Public Order Act 1986, or the offences of harassment or putting in fear of violence under the Protection from Harassment Act 1997 were racially aggravated.

Figures for the number of prosecutions in Manchester Gorton for this type of offence are not centrally available. Over the period 1999–2000 to 2001–02, Greater Manchester police recorded a total of 2,075 harassment offences.

Prior to 1997, the Race Relations Act (RRA) 1976 prohibited discrimination on racial grounds. The RRA did not specifically refer to harassment, but it was clear from case law that racial harassment was a type of detriment capable of amounting to the kind of treatment prohibited by the Act.

As part of its fulfilment of its obligations under the EC Race Directive, the UK amended the Race Relations Act 1976 (by virtue of the Race Relations Act 1976 (Amendment) Regulations 2003) so as to make it unlawful to harass a person, on grounds of race or ethnic or national origins, in the areas of activity covered by the 1976 Act.

Racism Action Plan

Lembit Öpik: To ask the Secretary of State for the Home Department what role his Department envisages for the Racial Equality Strategy for Northern Ireland in the creation of a wider UK National Action Plan against Racism; and if he will make a statement. [167335]

Fiona Mactaggart: The Government are committed to implementing the outcomes of the Durban World Conference against Racism in a way that makes sense in the UK, given our long track record in tackling racism, inequality and discrimination. Many of the activities identified in the Durban programme of action are already under way throughout the UK.

The Home Office is currently developing a UK strategy on race equality and community cohesion. The Northern Ireland Administration is developing its own race equality strategy in respect of its areas of devolved responsibility, and both parties are working together to ensure coherence between the two strategies. We will continue to consult widely as this work develops. The Government are looking at our Durban commitments as part of our development of the strategy.

Roger Sylvester

Harry Cohen: To ask the Secretary of State for the Home Department whether public funds will be available to any of the eight police officers for their possible appeal against the inquest verdict that the death of Mr. Roger Sylvester in custody was an unlawful killing. [169891]

Ms Blears: The Court of Administration has now approved the application for a full Judicial Review of the verdict of unlawful killing reached by the inquest into the circumstances surrounding Roger Sylvester's death.

The Metropolitan Police Authority (MPA) has agreed to pay the officers' legal costs arising from the Judicial Review but only if it can also fund relevant costs to the Sylvester family. This matter is to be considered at an MPA meeting on 7 May 2004.

Serious and Organised Crime Agency

Mr. Brady: To ask the Secretary of State for the Home Department (1) what the annual budget for the Serious and Organised Crime Agency will be; [166461]

(2) what *(a)* functions and *(b)* funds are being transferred from the National Criminal Intelligence Service to the Serious Organised Crime Agency. [166596]

Ms Blears: Proposals for the Serious Organised Crime Agency were set out in the white paper 'One Step Ahead: A 21st century strategy to defeat organised crime' (Cm6167), published on 29 March. The new Agency will bring together the National Criminal Intelligence Service (NCIS), the National Crime Squad (NCS), the investigative and intelligence work of Her Majesty's Customs and Excise (HMCE) on serious drug trafficking and the recovery of related criminal assets, and the Home Office's responsibilities for organised immigration crime The National Criminal Intelligence Service currently works on behalf of all United Kingdom law enforcement agencies, providing strategic and tactical intelligence on serious and organised crime,

nationally and internationally. These functions will be undertaken by the Serious Organised Crime Agency once it is fully operational.

The Serious Organised Crime Agency will be funded by the Home Office as an executive non-departmental public body; provision will be determined through the Spending Review 2004 process.

Sex Offenders Register

Tim Loughton: To ask the Secretary of State for the Home Department how many people have been *(a)* added and *(b)* registered in total on the Sex Offenders Register in each year since its establishment, broken down by gender. [169106]

Paul Goggins: The notification requirements of the Sex Offenders Act 1997 (often known as the sex offenders register) came into force on 1 September 1997. These requirements have been be updated and strengthened through the Sexual Offences Act 2003.

Until 2001, data on the number of sex offenders were collated on a national basis from the police national computer. However, this arrangement was overtaken following the introduction of the Multi-Agency Public Protection Arrangements (MAPPA) and the requirement on each police and probation area to produce annual reports detailing the work undertaken to safeguard the public and manage dangerous offenders in the community.

The MAPPA reports also include statistics on the number of offenders who are subject to the notification requirements. The 2001–02 reports state that on 31 March 2002 there were 18,513 registered sex offenders living in the community. The 2002–03 reports state that on 31 March 2003 there were 21,413 registered sex offenders living in the community. It is not possible to state the gender breakdown of these statistics.

The Violent and Sex Offenders Register (ViSOR), currently being developed by the Police and Information Technology Organisation, will have greater capacity to store information on sex offenders and provide statistics on the number of convicted sex offenders.

Solvent Abuse

Tim Loughton: To ask the Secretary of State for the Home Department what estimate the Prison Service has made of the number of serving offenders who have suffered from solvent abuse. [169062]

Paul Goggins: The Prison Service has no data on which to base any such estimate. Healthcare staff will manage any physical or psychological symptoms associated with solvent abuse. CARATs drug workers will address solvent abuse where it is part of polydrug-misuse.

The Substance Misuse Standard being developed by the Youth Justice Board will place a particular emphasis on solvent abuse, which tends to be more prevalent among younger people.

Tim Loughton: To ask the Secretary of State for the Home Department how much police authority funding has been granted to voluntary sector bodies to provide training in solvent abuse among children. [169067]

Ms Blears: This information is not held centrally.

Stop and Search

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the answer of 6 January 2004, *Official Report*, column 328W, on stop and search, how many arrests resulted from the 56 searches conducted between 6 March and 27 April 2003 under section 60 of the Criminal Justice and Public Order Act 1994 in the vicinity of RAF Fairford. [166992]

Ms Blears: There were no results resulting from the 56 searches conducted between 6 March and 27 April 2003 made under Section 60 of the Criminal Justice and Public Order Act 1994.

Terrorism Arrests

Mr. Dismore: To ask the Secretary of State for the Home Department whether those detained on 19 and 20 April in Manchester in connection with alleged terrorist activity are *(a)* linked to Al Muhajiroon and *(b)* Supporters of Sharia; and if he will make a statement. [167992]

Mr. Blunkett: You will be aware that the investigation involving those arrested on 19 April 2004 in Manchester, and in some cases re-arrested subsequently, is ongoing. Therefore it would be inappropriate for me to comment.

David Davis: To ask the Secretary of State for the Home Department (1) what the *(a)* nationalities and *(b)* immigration status were of people arrested on suspicion of terrorist offences in each of the last five years; [167960]

(2) how many people arrested under anti-terrorist legislation have been identified as illegal immigrants in each of the last five years; [167961]

(3) how many people arrested under anti-terrorist legislation in each of the last five years are current or former asylum seekers in the United Kingdom; [167962]

(4) how many people have been *(a)* arrested, *(b)* charged and *(c)* convicted under anti-terrorist legislation in each of the last five years, broken down by offence; [167963]

(5) how many people were arrested in November and December 2003 on suspicion of terrorist offences, broken down by offence; what their *(a)* nationalities and *(b)* immigration status are; and how many are current or former asylum seekers in the United Kingdom. [167967]

Mr. Blunkett: Information on nationality and immigration status can be a key part of the investigation of terrorist offences and the police and Immigration Service work closely together in these cases. I legislated in the Nationality, Immigration and Asylum Act 2002 to make it easier to deport foreign nationals who have committed serious offences.

This information is now being collated centrally for statistical purposes but is not available for the years listed by the right hon. Member. It would, however, be disproportionate to require the police and courts to obtain, verify and record this information in all cases.

The available evidence suggests that only a small number of foreign nationals, asylum seekers or refugees commit serious crimes.

We are currently awaiting a breakdown of the available figures on arrests, charges and convictions from the Metropolitan police. I will write to the right hon. Member and place a copy in the Library once these have been received.

UK Border Controls

Patrick Mercer: To ask the Secretary of State for the Home Department whether EU Directives prevent the UK from establishing UK border controls and customs points in other EU nation states. [169963]

John Healey: I have been asked to reply.

There is no EU Directive preventing the UK agreeing with another member state to carry out customs controls in their territory.

Patrick Mercer: To ask the Secretary of State for the Home Department what plans he has to staff UK customs points outside UK borders. [169964]

John Healey: I have been asked to reply.

UK Customs have only one staffed customs point outside the UK and that is at Coquelles in France dealing with Channel Tunnel shuttle traffic. There are no plans to operate customs points elsewhere outside the UK.

Patrick Mercer: To ask the Secretary of State for the Home Department whether he has held discussions with his counterparts in other countries *(a)* in the EU and *(b)* elsewhere with regard to mutual co-operation concerning the establishment of manned customs points for the UK outside UK borders. [169965]

John Healey: I have been asked to reply.

There have been no discussions regarding the establishment of staffed customs points outside the UK borders.

Extremist Websites

Michael Fabricant: To ask the Secretary of State for the Home Department what measures he plans to take to combat *(a)* recruitment and *(b)* fundraising through extremist and racist websites; and if he will make a statement. [168005]

Fiona Mactaggart: We have discussed these and attendant issues with the police, the Information Commission and the Internet Watch Foundation (IWF), all of whom are aware of the kind of websites he describes.

It is already an offence to incite others to commit any criminal offence. Under the Public Order Act 1986, it is also an offence to use threatening, abusive or insulting words or behaviour or distribute material which is threatening or abusive so that another person believes that immediate unlawful violence will be used against them or they will be caused harassment, alarm or distress.

It is important that existing laws be used where breaches of the criminal law occur. Anyone with concerns should make them known to the relevant authorities and to the IWF.

We are currently working on an e-crime strategy which will include consideration of issues like these.

Young Offenders

John Mann: To ask the Secretary of State for the Home Department how many young offenders were given a custodial sentence by courts in Wales in each month since January 2003. [168207]

Paul Goggins: Statistics on court proceedings for 2003 will be published in the autumn.

Mr. Carmichael: To ask the Secretary of State for the Home Department how many *(a)* young offenders and *(b)* juveniles were given a custodial sentence by courts in London in each month since January 2003. [168637]

Paul Goggins: Statistics on court proceedings for 2003 will be published in the autumn.

WORK AND PENSIONS

Departmental Policies (Sustainable Development)

Paul Holmes: To ask the Secretary of State for Work and Pensions (1) what steps he is taking to deliver sustainable development within Government; [165669]

(2) what progress has been made on his Department's Sustainable Development Strategy. [165670]

Mr. Pond: DWP is continuing to develop a Sustainable Development Strategy to support its Policy Statement. Details of the range of targets that the Department, including all of its agencies, are working to deliver are available to all staff via the Department's internal intranet.

DWP continues to publish specific target related strategies on its website, as targets within the Framework for Sustainable Development on the Government Estate are rolled out. A fully comprehensive strategy will be published once this process is complete. Progress on these targets and other related actions is, and will continue to be, published annually in the Department's Annual Sustainable Development Report.

The Department continues to make steady progress in the delivery of sustainable development. The two officials groups with responsibility for the delivery of the aims and objectives of the Department, as detailed within the DWP Sustainable Development Policy Statement, are continuing the work of fully embedding sustainability within processes across the whole range of businesses. Progress is again reported in the Department's Annual Sustainable Development Report.

Departmental Stationery

Paul Holmes: To ask the Secretary of State for Work and Pensions if he will list the Department's main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports; what the name of each paper used was in each case; and what the (i) recycled and (ii) post-consumer recycled content of each type of paper is. [165642]

Mr. Pond: The main suppliers of copier paper to the Department for Work and Pensions are Guilbert, Banner, Glenmore Lomond, Premier Paper and the Paper Company.

The core recycled paper offered by all suppliers is "Evolve Office" which is made from 100 per cent. post consumer waste, although Guilbert also offer an own brand product "Recycled 3500", which is made from 80 per cent. post consumer waste.

The main suppliers for desk-top stationery are Guilbert and Banner, who also supply envelopes.

Reports that are produced and used internally use copier paper, (suppliers listed above). External reports are produced from papers supplied by Aspect, Astron Group, Belmont Press, British Loose Leaf, Corporate Document Services, Charisma, Cherry Print, COI, Colibri, Deanprint, Horner Brothers, Midland Regional Printers, Newtown Printers, Pickards, Print & design Factory, Print Art and Design, Print Solutions UK, Rosehill Press, Sandy Press, Slater Press and Trafford Press.

Disabled Workers (Oldham, West and Royton)

Mr. Meacher: To ask the Secretary of State for Work and Pensions if he will make a statement on measures introduced to improve the working conditions of disabled workers in Oldham West and Royton in the last seven years. [170949]

Maria Eagle: We have a number of measures in place nationally to help improve conditions for disabled people at work, as well as measures to improve their access to services generally. None of these are specific to Oldham West and Royton, but all are available to disabled people who live and work there.

From 1996, the employment provisions of the Disability Discrimination Act required most employers of 20 or more staff not to discriminate against, and to make reasonable adjustments for, disabled job applicants or employees; in December 1998, we reduced this threshold to 15 employees. From October this year, the small employer exemption will be removed and most currently excluded occupations, such as police officers, fire-fighters, and partners in business partnerships will be brought within the scope of the Disability Discrimination Act employment provisions.

Jobcentre Plus runs a number of specialist programmes providing help for disabled people, including New Deal for Disabled People, Workstep, Access to Work, the Job Introduction Scheme, and Work Preparation. All these programmes provide practical advice and support to disabled people and their employers to help overcome work related obstacles resulting from disability. Since 1997–98 there have been year on year increases in both numbers helped and programme spend.

To help people access appropriate help, Jobcentre Plus has established a network of Disability Service Teams. The teams are made up of Disability Employment Advisers, Access to Work Advisers and Occupational Psychologists; their services are accessed through local Jobcentres.

Since April 2003, disabled people in work have been receiving financial support through the working tax credit. This is available if a person is working an average of at least 16 hours per week (self-employed or for an employer); and have a disability which puts them at a disadvantage in getting a job. 70,000 families (including over 32,000 adults without children) are benefiting from the disability element within the working tax credit, compared to 38,000 who benefited from the old disabled person's tax credit.

EU Social Chapter

Jim Dobbin: To ask the Secretary of State for Work and Pensions if he will make a statement on the effect of the EU Social Chapter on the residents of Heywood and Middleton. [168530]

Mr. Sutcliffe: I have been asked to reply.

The residents of Heywood and Middleton have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to Parental Leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1000 employees in total and at least 150 workers in each of the two Member States, to establish structures for consulting workers on issues that affect them and;

In addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

Health and Safety Executive

Tony Lloyd: To ask the Secretary of State for Work and Pensions how much the Health and Safety Executive (HSE) paid Star Alliance consultants to advise on the restructure and refocusing of the Health and Safety Commission and HSE. [166862]

Jane Kennedy *[holding answer 26 April 2004]:* The Health and Safety Executive employed the Star Alliance to assist with its change and modernisation programme at a cost of £1.088 million. This included the design and implementation of workshops for all staff to embed new values and behaviours; a leadership development and

training programme for all senior staff; advice on a new communications function and strategy; research on stakeholder and public attitudes; and developing and strengthening the organisation's change management capabilities.

Incapacity Care Allowance

Dr. Cable: To ask the Secretary of State for Work and Pensions if he will make a statement on the incentives to work for those in receipt of incapacity care allowance and seeking part-time work with earnings over £4,000 per annum. [167177]

Maria Eagle *[holding answer 22 April 2004]:* Since April 2000, people who participate in work trials and placements approved and arranged through Jobcentres can retain their incapacity benefits. Under the new Permitted Work rules for incapacity benefit, introduced from April 2002, recipients can earn up to £20 a week for an unlimited period, or work for less than 16 hours a week and earn up to £72 a week for 26 weeks. This can be extended for a further 26 weeks if progress is being made towards work of 16 hours a week or more. Those doing supported permitted work can earn up to and including £72 a week for an indefinite period. This earnings limit has been increased to its current level from £48 per week in 1998 to keep pace with increases in the National Minimum Wage.

Recipients of carer's allowance are not required to be available for, and actively seeking, work as a condition of entitlement to the allowance. However, working age carers living in Jobcentre Plus areas are required to attend, where possible, a work focussed interview, and are encouraged to keep in touch with the labour market.

Incentives to work for carer's allowance recipients who are seeking part-time work with earnings of over £4,000 per year are provided by the earnings rule which enables them to retain the allowance if their net earnings do not exceed £79 a week after deduction of allowable expenses. These include income tax, national insurance contributions, half of their superannuation contributions and some of the cost of providing care for the disabled person the recipient cares for and/or for the recipient's children whilst the recipient is at work. The earnings limit is set at the same amount as the lower earnings limit for national insurance contributions and is increased each year.

Dr. Cable: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of recipients of incapacity care allowance who are *(a)* in employment, *(b)* of working age but not employed and *(c)* of working age, not employed but seeking work. [167178]

Maria Eagle *[holding answer 22 April 2004]:* Incapacity benefits provide a source of income for people of working age with health conditions or disabilities. There are around 2.7 million people with such conditions claiming incapacity benefit, severe disability allowance, income support or national insurance credits. More than 37,000 recipients of incapacity benefit and SDA currently do some permitted work whilst receiving the benefit. In addition, the Labour Force Survey suggests around 3 per cent. of those receiving these benefits have looked for work within the last four weeks.

As at 30 November 2003, some 32,500 recipients of carer's allowance were in employment and a further 365,000 working age recipients of the allowance were not employed. Although recipients of the allowance are not required to be available for, and actively seeking, work as a condition of entitlement to it, around 1,000 recipients were also claiming jobseeker's allowance and, hence, actively seeking work. There may be others who are actively seeking work, but do not use the services of Jobcentre Plus.

Dr. Cable: To ask the Secretary of State for Work and Pensions how many recipients of incapacity care allowance there were in each of the last five years. [167179]

Maria Eagle *[holding answer 22 April 2004]:* The information is in the table.

Incapacity benefits and carer's allowance recipients

	Incapacity benefit	*Thousands* *Carer's allowance*
1999	2,637.5	379.8
2000	2,677.9	397.6
2001	2,705.1	376.2
2002	2,710.1	402.7
2003	2,720.5	418.7

Notes:
1. Figures are rounded to the nearest hundred and are expressed in thousands.
2. Incapacity benefit figures are based on a 5 per cent. sample taken at the end of November each year.
3. Carer's allowance figures for 1999, 2001 and 2002 are based on a 5 per cent. sample taken at the end of December each year, figures for 2000 are estimated and figures for 2003 are based on a 5 per cent. sample taken at the end of November.
4. Figures include people receiving incapacity benefit, credits only cases and people in receipt of severe disablement allowance.

DWP information centre

Parliamentary Questions

Mr. Webb: To ask the Secretary of State for Work and Pensions when he will reply to Question 160679, tabled by the hon. Member for Northavon on 8 March 2004. [169392]

Mr. Pond: A reply was given to the hon. Member on 28 April.

Pathways to Work

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what independent evaluation of the Pathways to Work pilot programme has been undertaken. [168847]

Maria Eagle: The first tranche of Pathways to Work pilots were launched in October 2003 and the second tranche in April 2004. An independent evaluation of the pilots has been commissioned and will be carried out by independent research organisations managed by DWP analysts.

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what role there is for *(a)* private companies and *(b)* voluntary organisations in the delivery of Pathways to Work. [168848]

Maria Eagle: Seven Pathways to Work pilot areas are now operational; they are managed and run by Jobcentre Plus with additional specialist services provided from a number of sources.

The New Deal for Disabled People plays a key role in helping people on incapacity benefits into employment with support provided by organisations from the private, voluntary and public sectors. Jobcentre Plus also has contracts with private and voluntary organisations to deliver specialist disability employment programmes such as Work Preparation, Workstep, and Work Based Learning for Adults.

In addition, the Pathways to Work pilots provide condition management programmes in conjunction with NHS Primary Care Trusts to help people with health conditions to better manage their condition and help them successfully return to work. Primary care Trusts can commission services from local providers, from public, private or voluntary sectors, in order to meet specific requirements.

Pension Schemes

Sir Peter Tapsell: To ask the Secretary of State for Work and Pensions if the Government will require solvent employers to make up any shortfall to the full buy-out value of an employer funded pension scheme that has been promised to members as their pension entitlement when the scheme is wound up, regardless of the date when the wind-up commenced. [169869]

Malcolm Wicks: The Government have already announced its intentions on "full buy-out" and has introduced Regulations that bring about a significant change to the protection afforded to scheme members.

The Occupational Pension Schemes (Winding Up and Deficiency on Winding Up etc.) (Amendment) Regulations 2004 were introduced to strengthen members' protection when a salary-related occupational pension scheme, subject to section 75 of the Pensions Act 1995, starts to wind up while its sponsoring employer is solvent.

The Regulations mean that the debt on the employer is calculated on the basis that the scheme should be able to meet the full costs of winding up and the full benefits that scheme members have accrued and expect to receive. The Regulations will ensure that members are more likely to receive the pensions they expect.

The Government expect sponsoring employers of pension schemes to take their obligations seriously and act in the spirit of the Government's stated intentions. However, the Government will not be requiring employers whose schemes started to wind up before 11 June 2003 to make up any shortfall in these schemes to the "full buy-out" level. To do so would mean that the Regulations affected schemes that started to wind up before the employer, trustees or other relevant parties were aware of the new requirements. It is possible that for some employers such a change could place a significant financial imposition on them that they had not budgeted for.

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions which categories of contracted out rebates are *(a)* paid out in the form of reductions in the rate of national insurance contributions payable by an employee or employer and *(b)* paid directly into pension funds. [170980]

Malcolm Wicks: For Defined Benefit Occupational Schemes, the whole of the contracted-out rebate is paid through a reduction in the National Insurance contribution. For Defined Contribution Occupational Schemes, part of the contracted-out rebate is paid as a reduction in the National Insurance contribution and part is paid by the Inland Revenue direct to the scheme at the end of the relevant tax year. For Appropriate Personal Pensions Schemes (the term applied to personal pension schemes that can be used to contract out), the whole of the rebate is paid by the Inland Revenue direct to the scheme at the end of the relevant tax year.

Recycled Paper

Paul Holmes: To ask the Secretary of State for Work and Pensions what percentage of copying paper used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [165671]

Mr. Pond: The UK Sustainable Development in Government Second Annual report shows that in the year ended 31 March 2003 recycled paper accounted for 3 per cent. of the value of desk top paper purchased by the Department for Work and Pensions. The post consumer waste element of that recycled paper was 80 per cent. or more.

Paul Holmes: To ask the Secretary of State for Work and Pensions what percentage of paper for printed publications used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [165672]

Mr. Pond: The UK Sustainable Development in Government Second Annual report shows that in the year ended 31 March 2003 recycled paper accounted for 41 per cent. of the value of paper for printed publications purchased by the Department for Work and Pensions. Subsequent information shows that these figures are inaccurate, and that the percentage of recycled paper made from post consumer waste is actually 10 per cent. We are working to identify the discrepancies in figures and progress will be reported on in the Department's annual Sustainable Development Report, and the annual Sustainable Development in Government report.

Paul Holmes: To ask the Secretary of State for Work and Pensions what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all copying paper bought by the Department is 100 per cent. recycled, with a minimum of 75 per cent. post-consumer waste content. [165673]

Mr. Pond: The existing contract for the supply of office paper offers a mix of six different papers, of which two are recycled. An exercise is currently under way that will move the Department's office paper solely to recycled, which will have a minimum of 80 per cent. of post consumer waste, by early 2005.

Progress will be reported on in the annual Sustainable Development in Government report and in the Department's own annual Sustainable Development Report.

Paul Holmes: To ask the Secretary of State for Work and Pensions what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [165674]

Mr. Pond: Procurement units within the Department for Work and Pensions have been made aware of the quick win target for the purchase of paper for printed publications.

New print contracts are currently being developed that will include options for recycled paper and progress will be reported on in the annual Sustainable Development in Government report and the Department's own annual Sustainable Development Report.

Paul Holmes: To ask the Secretary of State for Work and Pensions by what date his Department expects to attain the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [165675]

Mr. Pond: An exercise is currently under way within the Department for Work and Pensions, which will be completed by early 2005, to move supply of core office copier paper to 100 per cent. recycled with a minimum content of 80 per cent. post consumer waste.

The Department is currently working to identify a common approach and policy, to enable us to meet the quick win targets for printed publications.

Progress on both these areas will be reported on in future Department for Work and Pensions Annual Sustainable Development Reports and the Governments Sustainable Development in Government Annual Report.

Sure Start

Mr. Neil Turner: To ask the Secretary of State for Work and Pensions how many mothers in Wigan have taken up the Sure Start maternity grant. [169314]

Mr. Pond: The available information is in the table.

Sure Start Maternity Grants for Wigan Jobcentre Plus District

Year	*Applications*	*Awards*
2000–01	1,205	1,055
2001–02	1,369	1,209
2002–03	1,785	1,405
2003–04	2,055	1,385

Notes:

1. Data are not available by Parliamentary Constituency. Wigan Parliamentary Constituency is part of Wigan Jobcentre Plus District, which was previously called Wigan and Leigh Social Fund District.

2. Data are given for all applications and awards, irrespective of whether the application was made by the mother or her partner.

Source:

DWP Social Fund Policy, Budget and Management Information System

Mr. Hendrick: To ask the Secretary of State for Work and Pensions how many mothers in Preston have taken up the Sure Start maternity grant. [169725]

Mr. Pond: The information is not available in the format requested. The available information is in the tables.

Sure Start maternity grants

	Applications	*Awards*
Preston social fund district		
2000–01	1,276	1,106
2001–02	1,536	1,305
2002–03	1,836	1,531
2003 April	152	95
Lancashire West Jobcentre Plus district		
2003 May to March	4,866	3,710

Notes:

1. In May 2003, Preston social fund district was combined with Blackpool social fund district and parts of South West Lancashire and, Lancaster and South Cumbria social fund districts to form Lancashire West Jobcentre Plus district. The data for the two different areas are not comparable.

2. SSMGs were introduced on 27 March 2000. The very small number of cases for 1999–2000 have been excluded for data protection reasons.

3. Data are given for all applications and awards, irrespective of whether the application was made by the mother or her partner.

Source:

DWP Social Fund Policy, Budget and Management Information System

Mr. Kaufman: To ask the Secretary of State for Work and Pensions how many mothers in Manchester, Gorton have made use of the Sure Start maternity grant. [167350]

Mr. Pond: The information is not available in the format requested. The available information is in the tables.

Sure Start maternity grants in Manchester Central Social Fund district

	Applications	*Awards*
2000–01	1,102	986
2001–02	1,200	1,065
2002 to December	984	858

Sure Start maternity grants in Manchester Jobcentre Plus district

	Applications	*Awards*
2003 January to March	1,039	889
2003–04	4,708	3,635

Sure Start maternity grants in area covered by Manchester, Oldham and Rochdale, and Bolton and Bury Jobcentre Plus districts

	Applications	*Awards*
2000–01	8,548	7,076
2001–02	10,197	8,036
2002–03	12,138	9,274
2003–04	12,715	9,411

Notes:

1. Data are not available by parliamentary constituency.
2. Manchester Gorton parliamentary constituency used to be part of Manchester Central Social Fund district and is now part of Manchester Jobcentre Plus district. The latter was formed in January 2003 from Manchester Central, Manchester South and Manchester Trinity Social Fund districts, together with part of Oldham Social Fund district. The data for the Social Fund district are not directly comparable with that for the Jobcentre Plus District.
3. In a set of interlocking boundary changes which took place in January 2003, six Social Fund districts were reorganised into the three Jobcentre Plus districts of Manchester, Oldham and Rochdale, and Bolton and Bury. For comparison purposes, data is given for the area covered by these three Jobcentre Plus districts. These data are shown for comparative purposes.
4. Sure Start maternity grants were introduced on 27 March 2000. The very small numbers of cases for 1999–2000 have been excluded for data protection reasons.
5. Data are given for all applications and awards, irrespective of whether the application was made by the mother or her partner.

EDUCATION AND SKILLS

Adoption

Bob Spink: To ask the Secretary of State for Education and Skills what progress has been made on improving the *(a)* efficiency, *(b)* speed and *(c)* effectiveness of the Child Adoption Service; and if he will make a statement. [167203]

Margaret Hodge: In February 2000 the Prime Minister announced a review of adoption by the Performance and Innovation Unit (PIU). The PIU identified key problems and made recommendations in its report, published in July 2000.

Following this review the Government implemented a raft of measures to help improve the adoption service. The Government have:

set an adoption target for the year ending March 2005 for an increase of 40 per cent. in the number of adoptions of looked after children. The baseline for this target is the 2,700 adoptions arranged during the year ending March 2000. Up to the year ending March 2003 there had been an increase of nearly 30 per cent., with 3,500 children being adopted from care;

published statutory National Adoption Standards setting out clear timescales for adoption agencies to make decisions about children and prospective adopters;

set up an Adoption and Permanence Task Force to identify problems in service delivery and to strengthen and promote best practice. The task force has worked with many local authorities to develop and improve their adoption services;

developed an Adopter Recruitment Toolkit and a video for adoption agencies to support their local recruitment of prospective adopters;

established an Adoption Register for England and Wales to help identify potential links between children needing families and those waiting to adopt, and so widen the pool of potential adopters for children;

introduced the Adoption and Children Act 2002, which received Royal Assent on 7 November 2002. The Act overhauls the outdated 1976 Adoption Act and modernises the whole existing legal framework for domestic and inter-country adoption.

The Government have already implemented the following key provisions of the Adoption and Children Act 2002 (the Act):

1 June 2003: restrictions on adoptions from overseas;

31 October 2003: adoption support for adoptive families;

1 December 2003: parental responsibility for unmarried fathers who jointly register the birth of their child with the mother;

1 April 2004: advocacy services for children and young people.

The first phase of the independent review mechanism, which will cover prospective adopters whose adoption agency is minded not to approve them, became operational on 30 April 2004. We expect the provisions on Independent Reviewing Officers to come into force in September 2004.

A series of consultation documents are being published this year on other provisions in the Act. Copies will be available in the Library.

The regulations, court rules and guidance required to implement the core of the Act should be in place by the end of 2004. After a period for preparation and training, we expect the legislation to come into force in September 2005.

Tim Loughton: To ask the Secretary of State for Education and Skills what estimate he has made of the number of birth parents who wish to establish contact with children given up for adoption; and how he proposes to help them. [169045]

Margaret Hodge: The Adoption and Children Act 2002 (the Act) provides for two new access to information frameworks, which could facilitate contact between an adopted adult and his birth relatives. The Government are now consulting on the draft regulations and guidance to implement the provisions in the Act, and a copy of the consultation document is in the Library. Section 98 of the Act provides for access to information in relation to adoptions made before the commencement of the Act and sections 56 to 65 of the Act provide the framework for access to information in relation to post-commencement adoptions.

According to statistics from the Registrar General's Office, approximately 875,000 people have been adopted since the commencement of the Adoption Act 1926. It is only possible to speculate how many people may choose to exercise their right to apply for information under section 98 of the Act. When the numbers of birth parents and other relatives are

considered, there could be over two million people who might have an interest in applying or who may be the subject of an application.

The Government anticipate that there will be an initial surge of applications from those who have been waiting for section 98 of the Act to be implemented. Some adoption stakeholders have suggested that this could amount to around 20,000 to 30,000 initial applications. The Government intend the framework for section 98 to be implemented in two stages to help registered adoption support agencies, adoption agencies, the Registrar General and the courts manage the initial demand for services. We are consulting on this specific point as part of the overall consultation for the regulations and guidance on access to information and we will carefully consider the responses.

Adult Education

Simon Hughes: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Greater London, broken down by local education authority, in each of the last five years. [170497]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in each of the London Learning and Skills Council (LSC) areas is set out in the following table:

£000

LSC Area	*April 2001 to July 2001*[1]		*August 2001 to July 2002*		*August 2002 to July 2003*	
	Basic skills	*Key skills*	*Basic skills*	*Key skills*	*Basic skills*	*Key skills*
London North	8,753	985	14,099	1,395	18,829	1,921
London West	13,671	858	24,013	1,629	29,303	1,652
London Central	18,207	1,119	38,694	1,733	38,130	1,204
London East	14,746	1,476	31,412	2,114	39,783	2,367
London South	5,758	998	13,241	1,488	15,398	1,728

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Mr. Hendrick: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Preston in each of the last five years. [169683]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Lancashire Learning and Skills Council (LSC) area is set out in the following table:

Lancashire Learning and Skills Council (LSC)

£000

	Basic skills	*Key skills*
April to July 2001[1]	3,370	1,270
August 2001 to July 2002	6,577	1,857
August 2002 to July 2003	7,815	1,948

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Mr. Neil Turner: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Wigan in each of the last five years. [169277]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Greater Manchester Learning and Skills Council (LSC) area, is set out in the following table:

£000

	Basic skills	*Key skills*
April 2001 to July 2001[1]	8,925	2,598
August 2001 to July 2002	15,369	3,586
August 2002 to July 2003	27,258	4,210

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Apprenticeships

Mr. Neil Turner: To ask the Secretary of State for Education and Skills how many residents of Wigan have undertaken apprenticeships in each of the last five years. [169364]

Mr. Ivan Lewis: The information requested is not available at parliamentary constituency level. Nor is the information available on a consistent geographical basis over the last five years.

However, the table shows the number of starts on modern apprenticeships in the Greater Manchester Learning and Skills Council (LSC) area between April 2001 and the end of July 2003, as well as the number of starts from April 1996 to March 2001 in the six Training and Enterprise Councils (TECs) that amalgamated into Greater Manchester LSC—Bolton and Bury, Manchester, Oldham, Rochdale, Stockport and High Peak and Wigan.

Time period	*TEC/LSC*	*Advanced MAs*	*Foundation MAs*
April 1998 to March 1999	Bolton and Bury CCTE	800	600
	Manchester	2,400	700
	Oldham CCTE	400	300
	Rochdale CCTE	500	100
	Stockport and High Peak[1]	800	100
	Wigan CCTE	700	300
April 1999 to March 200	Bolton and Bury CCTE	900	1000
	Manchester	2,800	1,800
	Oldham CCTE	500	500
	Rochdale CCTE	500	600
	Stockport and High Peak[1]	700	700
	Wigan CCTE	700	600
April 2000 to March 2001	Bolton and Bury CCTE	700	1,200
	Manchester	3,200	2,600
	Oldham CCTE	500	700
	Rochdale CCTE	400	700
	Stockport and High Peak[1]	800	1,000
	Wigan CCTE	900	800
April 2001 to July 2002	Greater Manchester LSC	4,800	9,800
March 2001 to July 2002	Greater Manchester LSC	2,900	6,800

[1] TECs reported the figures in financial years. LSC reports figures in academic years. The first LSC 'year' was 16 months in order to bring the financial year figures into line with academic years

Autism

Mr. Simmonds: To ask the Secretary of State for Education and Skills what steps his Department is taking to develop education facilities for children with *(a)* autism and *(b)* Asperger's syndrome. [168970]

Margaret Hodge: The Government are playing its part in raising awareness of autism and working in partnership with the voluntary sector and others to improve provision. Some children with autism benefit from mainstream provision, others from specialist provision. The SEN legislative framework and accompanying guidance helps schools and LEAs to support children with autism in the right setting. Children with autistic spectrum disorders, including those with Asperger's syndrome, are benefiting along with others from the considerable additional resources for education and the increase in spending on special educational needs.

My Department has issued, jointly with the Department of Health, guidance from the Autism Working Group to help providers plan and make good quality provision for children with autistic spectrum disorders. In February, we published "Removing Barriers to Achievement—the Government's Strategy for Special Educational Needs." (www.teachernet.gov.uk/senstrategy). The strategy sets out our long term vision for the education of children with special educational needs and a programme of action which incorporates a range of measures to support improvements in provision for these children and young people. These include an Inclusion Development Programme to support partnership projects involving education, health and social care, voluntary organisations, higher education institutions, special and mainstream schools, and early years settings to develop and pilot effective practice. Autistic spectrum disorders will be one of the key areas the programme will focus on initially. The strategy sets out a clear future role for special schools and recognises the part they play in making specialist provision for children with severe and complex needs, including many with autism and Asperger's syndrome.

CAFCASS

Mr. Oaten: To ask the Parliamentary Secretary, Department for Constitutional Affairs what guidance he has given to CAFCASS on its response to the court of appeal ruling, Thorpe, Rix and Arden, 24 October 2002, on the failure of CAFCASS to meet its requirements under European Convention on Human Rights Articles 6 and 8. [167632]

Margaret Hodge: The decision to which the question refers, known as Re T (contact: alienation; permission to appeal) [2002] EWCA Civ 1736 and [2003] 1 FLR 531, did not in fact rule on "the failure of CAFCASS to meet its requirements under the European Convention on Human Rights Articles 6,8" as stated. The Court of Appeal (Lord Justice Thorpe) did, however, indicate that there were issues for the Government and judiciary to consider, including the services CAFCASS can be expected to provide "in order to assist the forensic process to satisfy Convention standards?"

No guidance has been issued from the Department of Constitutional Affairs or the Department for Education and Skills to CAFCASS on this matter.

Child Care (Wigan)

Mr. Neil Turner: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the number of children in Wigan who have benefited from the National Childcare Strategy; [169281]

(2) how many child care places have been created in Wigan since 1997. [169363]

Margaret Hodge: From April 1999 to December 2003 Wigan local authority created 5,072 new child care places helping some 9,169 children. This shows an increase in the stock of child care places, taking into account turnover, of 2,853 helping some 5,245 children.

Computer Learning Centres

Mr. Neil Turner: To ask the Secretary of State for Education and Skills how many Capital Modernisation Fund computer learning centres have been established in Wigan. [169290]

Mr. Ivan Lewis: There are 21 Capital Modernisation funded centres in Wigan.

Education Funding

Jim Dobbin: To ask the Secretary of State for Education and Skills how much money has been

allocated to schools in Heywood and Middleton for information and communications technology since 2001. [168512]

Mr. Charles Clarke *[holding answer 27 April 2004]*: I refer my hon. Friend to my answer to his question on funding spent on computers for schools in Rochdale in each of the last seven years on 29 April 2004, *Official Report*, column 1258W.

James Purnell: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Stalybridge and Hyde in each of the last five years. [168761]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Greater Manchester Learning and Skills Council (LSC) area is set out in the table:

£000

	Basic skills	*Key skills*
April to July 2001[1]	8,925	2,598
August 2001 to July 2002	15,369	3,586
August 2002 to July 2003	27,258	4,210

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Education Expenditure

Mr. Collins: To ask the Secretary of State for Education and Skills how much funding has been allocated for *(a)* marketing, *(b)* consultants, *(c)* advertising, *(d)* administration and *(e)* buildings for (i) the University for Industry, (ii) the learning and skills councils and (iii) the Connexions service, broken down by (A) centrally and (B) locally-allocated funds, in each year since 1997. [167575]

Mr. Charles Clarke: The information is as follows:

(i) *Ufi*

Ufi, launched in 2000, receives an annual grant from my Department which funds their infrastructure and operating costs such as product development. My Department does not specify the exact amount of money which should be allocated by Ufi on individual items. Figures have however, been provided in Table *(a)* following which show the funds expended by Ufi for marketing, consultants, advertising, administration and buildings provided on a central basis in each of the financial years since 1999. Much of the marketing developed centrally is also used locally by Ufi/learndirect centres and hubs. Marketing and advertising at local level does however remain the responsibility of Ufi/learndirect hubs and centres, many of which are private organisations who set their budgets accordingly. No central information is held on this local expenditure. Also, Ufi uses consultants to support the development of the national Ufi/learndirect network and does not allocate consultancy budgets at local level.

Table (a) Ufi

Funding allocated—centrally (£000)

	Financial year					
	1990–2000 17 months1 Actual	*2000–01 12 months Actual*	*2001–02 12 months Actual*	*2002–03 12 months Actual*	*2003–04 12 months Actual*	*2004–05 12 months Budget*
(a) Marketing[2]	1,969	8,224	9,767	10,126	10,156	8,721
(b) Consultants	560	741	1,117	1,637	2,927	389
(c) Advertising[2]	2,990	12,474	12,727	8,652	11,112	9,542
(d) Administration	9,408	12,418	17,309	20,106	21,435	25,007
(e) Buildings[3]	841	1,104	1,120	1,263	1,473	1,631

[1] Ufi Limited's first statutory reporting period was 17 months to 31 March 2000. The figures used are consistent with information filed with Companies House.
[2] The figures provided for 2004–05 have not been finalised and the analysis is based on the 2003–04 ratio.
[3] Accommodation related costs such as rent, rates, facilities management.

(ii) *Learning and Skills Council*

This is a matter for the Learning and Skills Council. I have therefore asked Mark Haysom, the Council's Chief Executive, to write to the hon. Gentleman with the information requested and to place a copy of his reply in the Library.

(iii) *Connexions Service*

(A) *Central*

(a) and *(c)* Marketing and Advertising

The following table shows the amounts allocated in each year since the launch of Connexions in April 2001 for centrally-managed marketing and advertising activity in support of the Connexions Service.

(b) Consultants

No funding is allocated specifically for spending on consultants either nationally or regionally. However, consultants are engaged where this is judged to be the most cost-effective method of achieving objectives.

(d) Administration

Table *(b)* following shows the amounts allocated in each year since the launch of Connexions in April 2001

for the salaries and associated administrative costs of staff managing Connexions and a range of associated initiatives. In addition, the table also shows those amounts allocated to regional Government Offices for the salary and associated administration costs of their staff managing Connexions.

(e) Buildings

It is not possible to disaggregate the building costs associated with DfES Head Office staff working on Connexions from the costs of other Departmental staff using the same head office building, nor those costs associated with Government Office staff working on Connexions from those associated with other Government Office staff.

Table (b) Connexions service

Funding allocated—centrally (£000)

	Financial year					
	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
(a) Marketing	—	—	1,000	1,900	850	[1]—
(b) Consultants	—	—	[2]n/a	[2]n/a	[2]n/a	[2]n/a
(c) Advertising	—	—	4	1,678	2,861	tbc
(d) Administration						
Head Office[3]	—	—	5,637	5,784	6,098	tbc
Government Office	—	—	2,500	2,750	2,625	2,500
(e) buildings	—	—	[4]n/a	[4]n/a	[4]n/a	[4]n/a

[1] No allocation.
[2] No element of funding is earmarked specifically for this purpose.
[3] Head Office (HO) administration figures cover the costs of all staff working on Connexions and a range of associated policies and programmes. It is not possible to disaggregate the costs of staff working specifically in support of Connexions.
[4] It is not possible to disaggregate costs of HO/GO staff working on Connexions.

(B) *Local*

Local Connexions Partnerships have the flexibility to use their funding in a way which best meets local needs; no part of the funding that is allocated to them is ring-fenced for specific activities or purposes such as administration, buildings, marketing, advertising or consultants.

Excellence in Cities

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many children in Manchester, Gorton have benefited from the Excellence in Cities programme; and what the per pupil spending was in each year since the programme's inception. [167446]

Mr. Miliband: The table shows the number of children in Manchester, Gorton benefiting from EiC, and the annual spend per pupil for the years in question.

	Number of children	*Total EiC expenditure*[1] *(£)*	*Spend per pupil (£)*
1999–2000	2,511	[2]132,000	52.57
2000–01	4,714	246,545	52.30
2001–02	4,437	621,273	140.02
2002–03	4,368	617,778	141.43
2003–04	4,361	1,204,434	276.18

[1] All funding figures supplied by Manchester Excellence in Cities Team.
[2] Estimate.

The large increase in the rate of EiC funding in 2003–04 is due to the extra funding provided through the Behaviour Improvement Programme and the Leadership Incentive Grant.

Field Study

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills (1) if he will estimate the number of *(a)* primary and *(b)* secondary pupils who attended at least one (i) field study and (ii) residential field study course in 2002–03; [170411]

(2) whether he plans to make attendance on a field study course a compulsory part of the National Curriculum. [170413]

Mr. Miliband: The Department does not collect information on the number of students attending field study centres on day or residential visits.

The geography curriculum already requires pupils to be taught to use fieldwork skills, which must be developed during investigations outside the classroom. We have no plans to make attendance on a field study course a compulsory part of the National Curriculum.

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills what assessment his Department has made of the impact of field study courses on pupil performance. [170412]

Mr. Miliband: This information is not collected by the Department.

Further Education

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many students in further education failed to complete their course in each year since 1997. [167874]

Mr. Ivan Lewis: The Learning and Skills Council (LSC) routinely present the data in terms of retention rates for qualifications—some learners will be enrolled on more than one qualification. The retention rate is calculated as the number of qualifications completed divided by the number started (excluding transfers). The following table shows the retention rates for further education sector colleges and external institutions for each year since 1997–98.

Retention rates in LSC funded further education (%)

Institution type	*1997/98*	*1998/99*	*Year in which qualification was due to be completed 1999/2000*	*2000/01*	*2001/02*
Further Education Colleges	81	80	78	80	83
External Institutions	n/a	76	77	80	82
All institutions	n/a	79	78	80	83

n/a = not available
Source:
Individualised Student Record

Health Declaration Certificates

Bob Spink: To ask the Secretary of State for Education and Skills what the signature requirements for nursery staff for the Ofsted health declaration certificates are; and if he will reimburse staff for the cost of obtaining a signature from a general practitioner for this certificate. [169758]

Margaret Hodge: The health declaration certificate signature requirements for nursery staff are a matter for the Office of Standards in Education (Ofsted) and I have asked HM Chief Inspector for Schools, David Bell, to write to the hon. Gentleman and place a copy of his letter in the Library. There are no plans to reimburse the cost of obtaining a signed general practitioner's declaration to nursery staff that may require one.

Hospital Education

Mr. Hoban: To ask the Secretary of State for Education and Skills what guidance his Department has produced on the education of children in hospital; and when this guidance was last updated. [170314]

Mr. Miliband *[holding answer 4 May 2004]:* In November 2001 the DfES jointly with the Department of Health issued the statutory guidance, "Access to Education for children and young people with medical needs". The guidance sets out national minimum standards of education for children who cannot attend school because of their medical needs, including children in hospital. There are no current plans to update the guidance. However, the Department have been working to ensure that the guidance is implemented.

In June 2003 joint DfES /NHS Estates Guidance was also issued offering advice on the design of education accommodation in hospital settings. The guidance is designed to assist the process of designing excellent education provision in hospital settings whether new of refurbished.

Learning and Skills Council

Charles Hendry: To ask the Secretary of State for Education and Skills what the total budget of the Learning and Skills Council has been in each year since its establishment; and what it is for 2004–05. [169975]

Mr. Ivan Lewis: The budgets allocated to the Learning and Skills Council in each year since its establishment and for 2004–05, as notified in the relevant Grant Letters to the LSC are as follows:

	£ million
2001–02	5,536.000
2002–03	7,310.890
2003–04	8,095.374
2004–05	8,674.103

The Learning and Skills Council budget however, is subject to in-year changes which have altered the final position as follows:

	£ million
2001–02	to 5,501.507
2002–03	to 7,612.954
2003–04	to 8,420.535
2004–05	to 8,693,613

Looked-After Children

Simon Hughes: To ask the Secretary of State for Education and Skills how many looked-after children there have been in *(a)* Greater London and *(b)* each London borough in each year since 1994; and what proportion of children have been continuously looked after for at least 12 months in (i) Greater London and (ii) each London borough. [168881]

Margaret Hodge *[holding answer 27 April 2004]:* The information requested is shown in the following tables.

Number of children looked after at 31 March, and percentage of those who had been continuously looked after for at least 12 months[1, 2]

	1994		*1995*		*1996*		*1997*

Children Looked After by Local Authorities, Year Ending 31 March 2003

Simon Hughes: To ask the Secretary of State for Education and Skills what proportion of children with parents who have learning disabilities were taken into care in each year since 1996 in *(a)* Greater London and *(b)* each London borough. [168882]

Margaret Hodge *[holding answer 27 April 2004]:* This information is not collected centrally.

Marriage and Relationship Support

Andrew Selous: To ask the Secretary of State for Education and Skills for what reasons the funding application to the Marriage and Relationship Support programme by Care for the Family for a National Couple Support Network was turned down. [168162]

Margaret Hodge: The Care for the Family (CFF)—National Couple Support Network application was a partnership bid involving CFF and two other organisations. The objective of this project was to network with registrars and other agencies to access couples preparing for marriage and/or requiring relationship support. Although a strong bid both in presentation and concept, the application was rejected because of an overlap with pilot projects currently being funded by through the Marriage and Relationship Support (MARS) Grant programme.

Nurseries

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many new nurseries have been established in Birkenhead since 1997. [167647]

Margaret Hodge: Wirral metropolitan borough council is responsible for determining local need for nursery provision in Birkenhead and holding information on current provision. Under the Neighbourhood Nurseries scheme 348 new nursery places have been created in the Wirral, of which 175 are in Birkenhead.

Mr. Randall: To ask the Secretary of State for Education and Skills how many new nurseries have been established in the London borough of Hillingdon since 1997. [168989]

Margaret Hodge: The London Borough of Hillingdon is responsible for determining local need for nursery provision in Hillingdon and holding information on current provision. Under the Neighbourhood Nurseries scheme 8,737 new nursery places have been created in London, of which 70 are in the Hayes Early Years Centre in the London borough of Hillingdon.

Pathfinder Areas

Helen Jones: To ask the Secretary of State for Education and Skills when he expects to announce the results obtained in the 14 to 19 Pathfinder areas. [169453]

Mr. Ivan Lewis: The Report '14–19 Pathfinders: An Evaluation of the First Year' was published in January. A copy is available on the 14–19 pathfinders website www.dfes.gov.uk/14–19pathfinders and can also be accessed at www.dfes.gov.uk/research/.

The second year's evaluation of the complete pathfinder programme, including Warrington's and the other phase two ones which started last September, is currently being undertaken. The Report is expected to be published in February 2005. In the meantime, we are monitoring all pathfinders1 progress through their termly reports which they are required to submit as a condition of their receiving grant. We publish these periodically on the pathfinders website.

Post-16 Education

Martin Linton: To ask the Secretary of State for Education and Skills if he will list the names of the members of the working party on provision of post-16 education and training; how many times it has met; and what its remit is. [166718]

Mr. Ivan Lewis: The Working Group on 14–19 Reform was established in spring 2003, to develop proposals for the long-term reform of 14–19 learning. Its members are: Mike Tomlinson CBE (Chair); John Berkeley OBE, Senior Fellow and Director National Apprenticeship Monitoring Unit, SEMTA (Sector Skills Council for science engineering and manufacturing technologies); Simon Culmer, Operations Director, Cisco Systems UK and Ireland; David Eastwood, Vice Chancellor, University of East Anglia; Carmel Flatley (up to June 2003), Director of HR and Training, McDonald's Restaurants Ltd.; Ian Ferguson (from July 2003), Chairman Data Connection Ltd.; Dr. Helen Gilchrist CBE, Principal, Bury College; Edward Gould, Master, Marlborough College; John Guy, Principal, Farnborough 6th Form College; Carolyn Hayman OBE, Chief Executive, the Foyer Federation; Colin Hilton, Executive Director, Liverpool City council; Professor David Melville CBE, Vice Chancellor, University of Kent; David Raffe, Professor of Sociology of Education, University of Edinburgh; Jennifer Slater, Principal, Northallerton College; Ken Spours, University of London Institute of Education; Kathleen Tattersall OBE, former Director General, Assessment and Qualifications Alliance.

The Working Group has met 13 times to date. It was set up in spring 2003, following publication of "14–19: Opportunity and Excellence", the Government's strategy for reform of 14–19 learning, and asked to make proposals for reforms to achieve:

- strengthened structure and content of full-time vocational programmes, and to offer greater coherence in learning programmes for all young people throughout their 14–19 education;
- assessment arrangements for 14 to 19-year-olds that are appropriate to different types of courses and styles of teaching and learning, with the overall amount of assessment manageable for learners and teachers alike; and
- a unified framework of qualifications that stretches the performance of learners, motivates progression, and recognises different levels of achievement.

Pupil Attainment (London)

Simon Hughes: To ask the Secretary of State for Education and Skills how many and what percentage of 11-year-old pupils in London, broken down by local education authority, have reached level 4 in *(a)* mathematics and *(b)* English in each of the last seven years. [170496]

Mr. Miliband: The information requested is as follows:

Key Stage 2 test results for 1997–2003 (provisional), analysed by local education authority and Government Office Region

	Percentage of pupils achieving level 4 or above

[1] Provisional.

Pupil Behaviour

Charles Hendry: To ask the Secretary of State for Education and Skills what projects his Department has initiated to improve the behaviour and attendance of pupils in schools; and what the total budget for each of the projects is. [170026]

Mr. Ivan Lewis *[holding answer 30 April 2004]:* The present Government spending on behaviour and attendance related activities and projects since 1997 is set out in the table.

Grant/scheme	*Year*	*Amount (£ million)*
Behaviour Grant	1997–98	10.4
	1998–99	11.4
Schools Inclusion:		
Pupil Support Grant (SIPS)	1999–2000	28.5
	2000–01	69.1
	2002–03	84.5
Behaviour Improvement Programme	2002–03	50
	2003–04	85
KS3 Behaviour and Attendance Strand	2003–04	24
Primary Behaviour and Attendance pilot	2003–04	5
Positive Activities for Young People funding	2003–04	24
Funding to EiC areas for Learning Support Units and Learning Mentors	1999–2000	17
	2000–01	69
	2001–02	103
	2002–03	121
	2003–04	134

In December 2002, the Secretary of State launched the Improving Behaviour and Attendance Programme, a coordinated programme with various universal projects including the behaviour and attendance strand of the Key Stage 3 strategy, which provides all secondary schools with audit and training materials and consultancy support (and a primary strategy currently being piloted); new legislation in the Anti-Social Behaviour Bill to reinforce parental responsibility for behaviour and attendance, national truancy sweep campaigns; and the anti-bullying charter. Certain targeted schools, such as those in EiC and high street crime areas, receive more intensive support through the Behaviour Improvement Programme. BIP provides assistance to those most in need, though Learning Mentors; Learning Support Units; multi-agency Behaviour and Education Support Teams; and police in schools.

Pupils (Continence Problems)

Dr. Murrison: To ask the Secretary of State for Education and Skills what assessment he has made of the extent to which continence problems are a factor for exclusion in schools. [171131]

Mr. Ivan Lewis: This information is not available. My Department started to collect data on the reasons for exclusions from summer term 2003, but this does not pick up any continence or other medical-related exclusions. Pupils should only be excluded from school in response to serious breaches of the school's behaviour policy and if allowing the pupil to remain in school would seriously harm the education or welfare of the pupil or others in the school.

Return-to-work Skills

Mr. Neil Turner: To ask the Secretary of State for Education and Skills how many women in Wigan have visited an information and communications technology training centre in order to learn skills to return to work. [169361]

Mr. Ivan Lewis: In the period October 2003[1]—March 2004, 5,200 people visited a UK online centre in Wigan; 2,912 (56 per cent.) of these people were women. Since Learndirect was launched in 1999, 6,066 people from Wigan have enrolled on a Learndirect course. 3,331 (55 per cent.) of these people were women. Of the total number of women who enrolled on a course, 8 per cent. did so in order to learn skills to return to work.

[1] Please note the complete statistics are not available for UK online prior to September 2003 as the DfES did not collect these data on a centre-by-centre basis.

Rights of Access (Fathers)

Mr. Burns: To ask the Secretary of State for Education and Skills if he will make a statement on the legal framework underpinning the rights of access for fathers to children following marital breakdown. [168412]

Margaret Hodge *[holding answer 27 April 2004]:* The Children Act 1989 establishes the legal framework within which most separated parents are able to reach agreement about arrangements for the future of their children without recourse to the courts. However, it is open to any parent to apply for a contact or residence order, regardless of whether the parents are (or have been) married to each other. In all questions that come before the court about the upbringing of a child, including issues of residence and contact, the court is required to treat the welfare of the child concerned as its paramount consideration. In considering contact applications, the court will decide on the facts of each individual case what is in the best interests of the child. There is no automatic "right" of contact for either fathers or mothers. The interests of the child come first.

The Government have no plans to amend the Children Act 1989 in relation to this core principle.

The Government recognise that the facilitation and enforcement of contact orders is a serious issue. I refer the hon. Member to the announcement I made on 19 March regarding the Government's response to the Children Act Sub-Committee Report 'Making Contact Work', and to the on-going work on the facilitation and enforcement of contact by the Department of Constitutional Affairs.

School Computers

Mr. Meacher: To ask the Secretary of State for Education and Skills (1) how much public funding has been spent on computers for schools in Oldham, West and Royton in each of the last seven years; [170925]

(2) how much money has been allocated to schools in Oldham West and Royton for information and communications technologies since 2001. [170931]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However, Oldham, West and Royton is in Oldham LEA and in the last seven years schools in Oldham have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

	Allocation to Oldham LEA (£)
1998–99	570,322
1999–2000	651,147
2000–01	1,132,641
2001–02	1,244,258
2002–03	1,826,832
2003–04	1,828,641
2004–05	2,329,471

Mr. Benton: To ask the Secretary of State for Education and Skills (1) how much public funding has been spent on computers for schools in Bootle in each of the last seven years; [171125]

(2) how much money has been allocated to schools in Bootle for information and communications technology since 1997. [171297]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However, Bootle is in Sefton LEA and in the last seven years schools in Sefton have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

	Allocation to Sefton LEA (£)
1998–99	587,146
1999–2000	813,934
2000–01	955,931
2001–02	1,350,818
2002–03	1,890,315
2003–04	1,925,992
2004–05	2,492,326

Mr. Hendrick: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Preston in each of the last seven years. [168124]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However, Preston is in Lancashire LEA and in the last seven years schools in Lancashire have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

	Allocation to Lancashire LEA (£)
1998–99	2,500,000
1999–2000	1,627,867
2000–01	5,576,036
2001–02	6,483,142
2002–03	8,983,493
2003–04	9,169,124
2004–05	11,892,478

School Results

Mr. Hoban: To ask the Secretary of State for Education and Skills what procedures are used to *(a)* collect information on the results of (i) SATs, (ii) GCSEs and (iii) A levels from schools and *(b)* prepare that information for publication. [170312]

Mr. Miliband *[holding answer 4 May 2004]:* We do not collect test and examination results direct from schools. The National Curriculum test results for Key Stage 2 and Key Stage 3 are provided to the Department by the Qualifications and Curriculum Authority's National Assessment Agency (NAA). The NAA collect those results from the External Marking Agencies at the same time as the results are issued to schools. Similarly, GCSE and A level examination results come to the Department from the Awarding Bodies at the same time as the results issue to students and schools.

To enable publication of accurate information in the school and college performance tables, we collate the test and examination results achieved by pupils and ask schools to check (and if necessary amend) the information held centrally by the Department. This relieves schools of the burden of providing all the information direct, while enabling verification that our data and calculations are correct prior to publication.

Mr. Hoban: To ask the Secretary of State for Education and Skills what steps have been taken to assess the validity of the methodology for producing school value-added results; and how the results have been verified. [170313]

Mr. Miliband *[holding answer 4 May 2004]:* The methodology used by the Department for producing school VA results has been arrived at after a long process of development. This was initiated by the "National Value added project" commissioned by SCAA (a forerunner of QCA) which reported in 1997. The project, carried out by leading academics at Durham university, showed that it was valid to measure school value added using progress between Key Stage tests and public examination results.

The findings of this project were used to develop a detailed methodology for the Autumn Package, which has been used by schools for self-improvement from 1998 onwards, and then piloted for the Performance Tables with a sample of schools within each key stage. As part of each stage of piloting, there was an extensive

evaluation process including discussing both methodological and practical issues with the pilot schools. This showed that that the methodology was broadly understood and accepted as valid by schools. There followed a full consultation exercise, before rolling out publication of a key stage to all schools.

At an early stage in this process the methodology was discussed at a meeting of the Education subgroup of the Royal Statistical Society.

In producing the value added measures each year, the underlying pupil data on prior and current attainment is provided to schools for checking, to ensure that all results are accurate and have been matched correctly.

Schools (Acts of Worship)

Mr. Swayne: To ask the Secretary of State for Education and Skills what action he is taking to ensure that schools meet their obligations in respect of daily acts of worship. [169805]

Mr. Charles Clarke: As part of the basic school curriculum, all maintained schools must provide a daily act of collective worship for all its registered pupils. Schools' compliance with this statutory requirement is considered as part of school inspections. Inspectors are required to report formally on compliance and their overall judgment on governance will take this matter into account.

I am currently considering a range of proposals that are intended to help schools deliver their statutory responsibility on collective worship, and will announce the way forward in due course.

Teachers TV

Mr. Willis: To ask the Secretary of State for Education and Skills what reports he has received on the impact of the Teachers TV pilot; and whether he expects it to go live as planned in August. [170463]

Mr. Miliband *[holding answer 4 May 2004]:* The Teachers TV pilot was comprehensive, testing 44 programmes during February and March with a sample of circa 1,000 teachers, heads, governors and classroom assistants. We have recently received the research data.

Once we have analysed the data from the research we will announce a decision on whether we will be proceeding to full channel launch. We expect to do this in June.

Truancy

Mr. Rosindell: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the measures the Government are taking to deal with truancy; [169950]

(2) what the most recent figures are for truancy rates. [169951]

Mr. Ivan Lewis: Truancy is measured as the percentage of half school days missed due to unauthorised absence and stands at 0.70 per cent. for 2002/03. This is an improvement on the 2001/02 level of 0.72 per cent. and is equivalent to around 1,300 more pupils back in school each day. The 2002/03 level of school attendance of 93.17 per cent. is the highest ever recorded since national records began in 1993/94. These data indicate that the Department's Behaviour and Attendance Strategy, launched in December 2002, is making a positive impact on truancy. For example, 125 of the secondary schools supported by the targeted Behaviour Improvement Programme reduced truancy by 0.09 percentage points between 2001/02 and 2002/03—almost five times the national average. The programme is being evaluated and the good practice identified will be disseminated more widely. In this school year, we have made behaviour and attendance audit materials and training for staff available to every secondary school and we are piloting materials for primary schools in 25 local education authorities. In addition to providing support and good practice, for schools and their pupils, we are making it clear that we do not tolerate any unjustified absence from school. Since December 2002, national truancy sweeps have stopped over 50,000 pupils out of school, almost 40 per cent. of whom were judged to be truanting and, in about half of cases, the truant was with a parent. We have therefore introduced new measures, such as the Fast Track to Prosecution system and parenting contracts and penalty notices, to promote and reinforce parental responsibility for their child's school attendance.

INTERNATIONAL DEVELOPMENT

HIV/AIDS

Sir Archy Kirkwood: To ask the Secretary of State for International Development (1) whether combating the spread of AIDS in Africa will be a UK priority during its period of chairmanship of the G8 in 2005; [170514]

(2) whether combating AIDS in Africa will be a UK priority during its presidency of the EU in 2005. [170599]

Mr. Gareth Thomas: In December 2003 the Government published their "Call for Action on HIV/AIDS". The document was the first stage in stepping up our efforts to tackle the HIV/AIDS epidemic and sets out our clear intentions to provide high-level political leadership, to push for more resources to be made available and to work together more effectively with other donors. The Call for Action also signalled that HIV/AIDS, with a special focus on Africa, would be a centrepiece for our Presidencies of both the G8 and of the EU in 2005. DFID is currently developing ideas about how best to use our G8 Presidency to promote accelerated international action on HIV/AIDS.

Sir Archy Kirkwood: To ask the Secretary of State for International Development what joint activity within the EU is being undertaken to combat AIDS in Africa. [170598]

Hilary Benn: Joint European Union (EU) actions to combat AIDS in developing countries are carried out within the framework of the European Commission's Programme for Action (PfA), entitled: "Accelerated action on HIV/AIDS, malaria and TB in the context of poverty reduction". The PfA entails a series of actions to increase the impact of existing interventions to combat HIV/AIDS; increase the affordability of key

pharmaceuticals; and encourage investment in research for the development of global public goods to tackle HIV/AIDS, tuberculosis (TB) and malaria.

In order to help increase the affordability of medicines the EC supports the provisions of the Doha declaration on Trade-Related Aspects of Intellectual Property Rights (TRIPS). The EC supports a strategy of tiered pricing of essential pharmaceuticals, whereby consumers in developing countries pay only for the basic production costs of patented drugs plus a modest mark-up. During the last two years the tiered pricing concept has become widely accepted within the EU. A major achievement was the adoption in May 2003 by the Council of a Regulation to avoid trade diversion into the EU market of certain key medicines, sold at reduced prices in developing countries.

In terms of increasing investment in research and development of specific global public goods to tackle HIV/AIDS and other diseases affecting the poorest, substantial resources have been allocated from the Research Framework Programmes for HIV/AIDS, malaria and TB research, including the establishment of the new European and Developing Countries Clinical Trials Partnership (EDCTP) initiative. More information on the PfA is available at //europa.eu.int/comm/development/body/eu_africa/docs/maladies_transmissibles_en.pdf.

The EU is committed to increasing the impact of interventions to tackle HIV/AIDS. However, progress has been slow in terms of increased support for health. Notwithstanding the large price reductions obtained since the adoption of the PfA, only few have access to anti-retroviral medicines, and to effective TB and malaria interventions. The proportion of national budgets devoted to health, and donor support needs to be increased.

Globally, the EC has been proactive in addressing the issues covered by the PfA, for example in the context of the G8, at EU/US summits, and at the EU/African Union Forum. The Commission also contributes to and is an active Board Member of the Global Fund to fight AIDS, TB and Malaria (GFATM). HIV/AIDS is among the priority development issues in the 2004–06 multi-annual strategic programme agreed by EU Heads of Government at the December 2003 European Council. The UK will prioritise HIV/AIDS and Africa during its Presidency next year. DFID is co-ordinating it's work closely with initiatives planned under the other five Presidencies during the 2004–06 period.

Malaria

Mr. Stephen O'Brien: To ask the Secretary of State for International Development (1) what recent estimate his Department has made of the number of predicted fatalities from malaria among *(a)* key workers, *(b)* pregnant women and *(c)* children under five years in Sub-Saharan Africa in each year between 2004 and 2014; and if he will make a statement; [170300]

(2) what recent assessment his Department has made of the change in the level of malaria fatalities in Sub-Saharan Africa. [170299]

Hilary Benn: The Department for International Development has not made any estimates of the predicted fatalities among different groups of people from malaria. DFID looks to the World Health Organisation to provide a technical lead on such questions.

Great progress was made in reducing malarial mortality in the 1970s and 1980s, yet many parts of Africa are now seeing an increase in the number of deaths from malaria. Malaria is Africa's leading cause of child mortality and constitutes 10 per cent. of the continent's overall disease burden. Approximately 3000 people die from malaria each day in sub-Saharan Africa (SSA).

A key cause of the recent rise in malaria deaths is an increase in resistance to antimalarial drugs, and the lack of affordable alternatives. In addition the capacity of health systems in Sub-Saharan Africa is often inadequate to respond effectively to malaria.

Nonetheless, malaria remains a disease that is preventable, treatable and curable. This Department remains strongly committed to meeting the Millennium Development Goal to halt and begin reversing the incidence of malaria by 2015, recognising the importance of malaria, not just in terms of disease burden, but also the potential it has to undermine economic growth and human development.

Since 1998 DFID provided in excess of £110 million to support malaria control activities globally and at country level. At the global level this includes support to Roll Back Malaria; a $280 million commitment to the Global Fund to Fight AIDS, TB and Malaria (which will fund distribution of insecticide impregnated bed nets and appropriate ant-malarial medication); support to the Medical Research Council; support to the Malaria Consortium Resource Centre; and initiatives to help find new low-cost malaria treatments.

DFID also supports malaria control activities at country-level through our bilateral county programmes, either through direct support to the health sector or through general budget support. DFID is committed to supporting national governments and their partners to help ensure that effective drugs and commodities including effective anti-malarial drugs are accessible to the poor. Since 1997 DFID has committed £1.5 billion to strengthen health systems to deliver vital drugs and health care treatment.

Baku-Tbilisi-Ceyhan Pipeline

Tom Brake: To ask the Secretary of State for International Development how many *(a)* domestic and *(b)* international representations his Department has received since 2002 concerning opposition to the Baku-Tbilisi-Ceyhan pipeline. [170981]

Mr. Gareth Thomas: The Department for International Development received the following representations on the Baku-Tbilisi-Ceyhan pipeline:

609 letters, either direct from a member of the public, or from/via an MP, or from an NGO,
3,529 emails,
8,587 campaign cards,
and 11 Parliamentary Questions.

DFID also holds meetings with interested parties in the UK. Although some of the representations DFID has received relating to the Baku-Tbilisi- Ceyhan pipeline were from international organisations and individuals, the great majority were from within the UK. Unfortunately our systems do not allow us to determine exact numbers of domestic and international representations without incurring disproportionate cost.

Microfinance Projects

Mrs. Brooke: To ask the Secretary of State for International Development how much money his Department spent on microfinance or microcredit projects *(a)* in total and *(b)* by continent in each year since 1997. [170465]

Hilary Benn: Access to financial services for people living in poverty is a critical condition for the achievement of the Millennium Development Goals. Since 1990, DFID has been working with many partners in the UK and overseas to broaden access for poor people to financial services, including microcredit.

In addition to specific programmes that have microfinance as the central activity, DFID has supported many programmes within which microcredit has played a small but important role. In addition DFID has provided funds for research into microfinance, and innovation funding for new microfinance products. DFID has not maintained a central register of these various applications of funding for microfinance over the past 15 years.

Since 1997, DFID has spent or committed in excess of £150 million on programmes where microfinance has been a core activity. Of this sum, approximately £70 million has been spent or committed in Africa, with the most of the remainder funding microfinance programmes in South Asia, East Asia, Russia and the Caribbean.

Mrs. Brooke: To ask the Secretary of State for International Development (1) what discussions his Department has had with *(a)* the United Nations Development Programme and *(b)* other UN departments in advance of the United Nations Year of Microcredit in 2005; and if he will make a statement; [170466]

(2) what discussions he has had with external organisations regarding the promotion of microfinance and microcredit as a priority during *(a)* the Prime Minister's Commission for Africa over the next 12 months and *(b)* the UN Year of Microcredit 2005. [170512]

Hilary Benn: DFID, alongside other donors, has for many years actively supported the development of policies and institutions to extend the outreach of sustainable microcredit and other financial services to the poor. As an active member of the Consultative Group to Assist the Poor (CGAP), an international agency of 29 donors promoting best practice globally in the microfinance industry, DFID has been instrumental in linking CGAP with the organisers of the International Year of Microcredit.

The UN Capital Development Fund, and the UN's Secretariat's Department of Economic and Social Affairs, will jointly co-ordinate the preparation activities of UN system for the International Year of Microcredit. DFID officials have met with the United Nations Capital Development Fund (UNCDF) Secretariat staff on three occasions in the last six months. In addition DFID has facilitated discussions between CGAP and UNCDF with the objective of enhancing joint messages on microfinance, and possibly jointly participating in events during the year.

DFID officials have also met with Citigroup, one of the private sector sponsors of the year, and plan to meet with other international and UK organisations currently involved in the provision of microfinance overseas.

DFID is committed to the growth of small enterprise, and issues of trade and growth are being considered as among the UK's priorities for the Presidency of the G8 in 2005. The first meeting of the Commission for Africa is being held on the 4 May, and this meeting will consider themes and priorities for detailed study. Support for promoting private sector development to accelerate the continent's growth is clearly a likely topic, and such support may have linkages with financial sector development objectives.

Following additional debate with other donors, and through CGAP, the UK will further contribute to the preparations for the International Year of Microcredit. Following very recent discussions, Consultative Group on Aid for the Poorest (CGAP) has issued a set of "Key Microfinance Messages for the UN Year of Microcredit" as a contribution to international knowledge messages for dissemination during the International Year. DFID plans to support specific UN Year events in the UK next year, and hope to finalise and announce them in the autumn of this year.

Mrs. Brooke: To ask the Secretary of State for International Development which 20 non-governmental organisations working in *(a)* Africa and *(b)* Asia received the highest amount of grant from his Department for microfinance or microcredit projects in each year since 1997. [170467]

Hilary Benn: DFID provides financial support according to local needs and circumstances. DFID does not maintain figures to provide detailed comparisons between NGOs. A small NGO, with a few thousand borrowers living within a small locality, might benefit as much from a small DFID development grant as a large microfinance NGO, with hundreds of thousands of borrowers, might from a more significant grant.

In Asia, many local NGOs have benefited from grants provided by DFID and other donors to "apex" organisations such as PKSF in Bangladesh, and the Small Industries Development Bank of India. DFID has also provided significant support directly to large NGOs in Bangladesh such as BRAG and Proshika, and to the Aga Khan Foundation in Pakistan.

In Africa, DFID has supported both UK, international, and local microfinance NGOs. International organisations supported include Opportunity International, CARE International, Oxfam, and World Vision. Local NGO microfinance organisations supported include CETZAM in

Zambia, WEDCO in Kenya, and Concern in Malawi. Others include Sinapi Aba in Ghana, K-REP in Kenya, and CRESCE in Mozambique.

DFID is seeking to build financial systems that work for the poor. NGOs are not the only route to achieve successful financial services. Private banks and other commercial institutions can also provide useful financial services on a sustainable basis, and informal mechanisms, such as rotating savings and credit clubs also have an important role to play, particularly in hard to reach locations. Finally, savings and credit co-operatives, in many developing countries, serve more poor clients than microfinance organisations. It is therefore important for DFID to support many players in the financial sector so as to achieve sufficient outreach to poor people, and to ensure financial sustainability.

Mrs. Brooke: To ask the Secretary of State for International Development what assessment his Department has undertaken on the effectiveness of *(a)* microfinance and *(b)* microcredit programmes in (i) specific African countries and (ii) other developing world countries; and if he will make a statement. [170542]

Hilary Benn: DFID agrees that microfinance is a powerful weapon against poverty, and that access to financial services enables poor people to both increase their incomes, and to reduce their vulnerability to external shocks. DFID is committed to ensuring that microfinance is used effectively, both to create sustainable institutions, and to impact on the livelihoods of poor people.

DFID has commissioned microfinance impact assessment surveys in many African countries, including Kenya, Malawi, Mozambique and Zambia. Similarly, DFID has supported impact assessment in Bangladesh, India, Russia and other countries in Asia and Europe. DFID has also commissioned substantial international research activities into microfinance.

Several UK academic institutions, such as the Institute of Development Studies in Sussex, are continuing this tradition of detailed research into the impact of microfinance. With the assistance of other international partners, such as the Ford Foundation, microfinance impact research more recently has been examining the wider impact of microfinance, in other words its impact on the local and national economy rather than just the impact on households participating in direct microfinance.

Mrs. Brooke: To ask the Secretary of State for International Development how many women and children *(a)* worldwide and *(b)* in Africa his Department estimates have been lifted out of poverty as a result of microfinance or microcredit programmes (i) in total and (ii) in each year since 1995. [170543]

Hilary Benn: DFID has supported microfinance for many years, as a means to allow poor people in developing world to escape poverty. However, microfinance is not a magic solution to the problem of poverty in the developing world. Even where detailed impact assessment has shown that microcredit has assisted a household to, say, increase its income to a level about a national "poverty line", there are invariably many factors at work simultaneously. The status of education and health, whether local markets function well, and the development of skills and competition, will all have a part to play in reducing poverty.

DFID does not seek to estimate figures on poverty reduction by type or cause. In its 2003 "State of the Microcredit Summit Campaign Report", figures collected from some 2,500 microcredit institutions globally indicate that they have reached some 42 million clients among the poorest people in their countries. According to this source, of these poorest clients, 79 per cent. were women.

On regional basis, microfinance is reaching many more people in Asia than in Africa. The challenge of expanding the outreach of financial services for poor people in Africa cannot be left to specialist microfinance institutions alone. Non-bank institutions such as post offices, savings and credit cooperatives, and building societies already reach many more people than microfinance organisations. Commercial banks are also expanding their outreach in many cases in Africa. DFID's objective is to contribute to the widening of the whole financial sector so as to better serve poor people in Africa.

Safe Water Projects

Tom Brake: To ask the Secretary of State for International Development if he will list the *(a)* names and *(b)* funding amounts of projects aimed at improving access to safe clean water funded (i) directly, (ii) on a multi-lateral basis and (iii) on a bi-lateral basis by his Department in the last two years. [167771]

Hilary Benn: DFID's overall aim is to reduce global poverty and promote sustainable development, in particular through achieving the internationally agreed Millennium Development Goals (MDGs). DFID's goal in the water sector is to enable poor people to lead healthier and more productive lives by helping to increase and sustain their access to safe drinking water supply and appropriate sanitation.

The recent Water Action Plan shows that DFID's total bilateral expenditure on water and sanitation was £82 million in 1999–00, £91 million in 2000–01 and £87 million in 2001–02. These levels represent around 6 per cent. of DFID's total bilateral aid budget respectively in each year. DFID channels a significant proportion of its assistance through multilateral organisations such as the World Bank and UN organisations (£1.3 billion in 2001–02). DFID's contribution to multilateral spending on water and sanitation is estimated at around £40 million per annum.

The information on DFID's regional based development assistance to the water sector is currently being updated and will be available later this year. DFID's key focus at the moment is taking the Water Action Plan forward to help achieve the MDG's.

Water and Sanitation

Mr. Don Foster: To ask the Secretary of State for International Development what analysis he has made of the implications of the World Bank Report, Global Development Finance 2004 for *(a)* public and *(b)* private financing of water and sanitation

infrastructure in developing countries; and if he will ensure that his Department's budget for 2005 to 2008 provides the UK's full share of the increases in public financing indicated as necessary by that report. [170036]

Mr. Gareth Thomas: The Department for International Development (DFID) endeavours to consider all of the latest information on the world economy and development finance, including the World Bank's Global Development Finance 2004. This information informs DFID policies and the methods that it uses to provide funding to developing countries, including for the water and sanitation sector. It also informs the budgeting process, and will therefore be considered in relation to DFID's budget for 2005 to 2008.

DEPUTY PRIME MINISTER

Buildings (Energy Performance) Directive

Mr. Laurence Robertson: To ask the Deputy Prime Minister what progress has been made on implementing the EC directive on the energy performance of buildings; and if he will make a statement. [170971]

Phil Hope: Considerable progress has been made with preparing our proposals for implementation, which will be published this summer as part of the wider consultation on proposed amendments to the energy efficiency provisions in the Building Regulations. As indicated in the 2003 Energy White Paper, the Office of the Deputy Prime Minister aims to bring these amendments into effect by the end of 2005 as part of our programme to reduce carbon emissions, and also in order to implement the Directive by the due date of 4 January 2006.

Camping Sites (West Sussex)

Mr. Gray: To ask the Deputy Prime Minister what recent discussions she has had on exempting camping sites in West Sussex from revised planning controls. [170754]

Keith Hill: While DEFRA has policy responsibility for campsite certificates, under section 269 of the Public Health Act 1936, the responsibility for planning policy on campsites lies with the Office of the Deputy Prime Minister.

Currently, Part 27 of the "Town and Country Planning (General Permitted Development) Order 1995" permits the use of land and the erection of tents by members of certain recreational organisations for the purposes of recreation or instruction, unless the land in question is a building or within the curtilage of a dwelling house.

The hon. Member will appreciate, however, that I am not able to comment on specific cases due to the appellate nature of the First Secretary of State, my right hon. Friend the Deputy Prime Minister.

Housing

Mr. Neil Turner: To ask the Deputy Prime Minister how the change in the level of council funding for housing has affected the residents of Wigan since 1997. [169267]

Keith Hill: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Wigan's allocations in the period 1997 to 2003–04 have risen by over 645 per cent. Wigan and Leigh Housing, an Arms Length Management Organisation (ALMO), was set up on 1 April 2002 to manage and maintain council homes on behalf of Wigan council.

Mr. Meacher: To ask the Deputy Prime Minister what assessment he has made of how the change in the level of council funding for housing has affected the residents of Oldham, West and Royton since 1997. [170877]

Phil Hope: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Oldham's allocations in the period 1997 to 2003–04 have risen by over 430 per cent. following the creation of First Choice Homes Oldham, an arms length management organisation which manages and maintains council properties on behalf of Oldham council. These allocations have been supplemented by the announcement of £53.5 million to be made available to the Oldham/Rochdale Housing Market Renewal pathfinder project between 2003–04 and 2005–06.

Mortgage Repossession Orders

Mr. Sarwar: To ask the Deputy Prime Minister if he will make a statement on the number of *(a)* home owners, *(b)* private tenants and *(c)* other occupiers who become homeless as a result of mortgage repossession orders in each of the last 10 years. [170634]

Keith Hill: Annual figures for the total number of repossession orders made since 1997 are as follows:

	Number
1997	57,056
1998	66,055
1999	60,194
2000	52,081
2001	45,723
2002	39,748
2003	39,732

About three in five of such orders are usually suspended, and need not result in actual repossession so long as the borrower complies with the repayment arrangements set out in the suspended order. When an order is not suspended the parties can still negotiate a compromise to avoid repossession.

Mr. Sarwar: To ask the Deputy Prime Minister if he will make a statement on the support provided by central and local government to homeowners facing mortgage repossession orders in 2003. [170635]

Keith Hill: 229,000 people were assisted through income support for mortgage interest in 2002–03 at a cost of £320 million. Local housing authorities have a duty to ensure that advice and information about homelessness and prevention of homelessness are available free of charge to anyone in their areas.

Mr. Sarwar: To ask the Deputy Prime Minister if he will make a statement on the number of mortgage repossessions carried out in each of the past 10 years. [170646]

Keith Hill: The following figures cover UK mortgage lending by Council of Mortgage Lenders members. The figures for repossessed properties include those that were voluntarily surrendered.

	Number of mortgages at the end of the period	*Properties repossessed by the lenders during the period*	
		Number	*Percentage*
1993	10,137,000	58,540	0.58
1994	10,410,000	49,210	0.47
1995	10,521,000	49,410	0.47
1996	10,637,000	42,560	0.40
1997	10,738,000	32,770	0.31
1998	10,821,000	33,870	0.31
1999	10,981,000	29,990	0.27
2000	11,169,000	22,860	0.20
2001	11,243,000	18,280	0.16
2002	11,360,000	11,970	0.11
2003	11,458,000	7,630	0.07

Planning

Mr. McLoughlin: To ask the Deputy Prime Minister what guidance his Department issues to ensure that local authorities take account of economic importance in planning decisions. [170380]

Keith Hill: A number of planning policy statements set out the important role which planning policies and decisions can play in promoting sustainable economic growth, for example, draft Planning Policy Statement 1—Creating Sustainable Communities—on which we are currently consulting. The Office of the Deputy Prime Minister is currently working on a revision of Planning Policy Statement 4—Planning for Economic Development—on which we expect to consult later in the year.

The Planning and Compulsory Purchase Bill has been amended to require the applicant in respect of a development which is designated as a major infrastructure project, to prepare an economic impact report if the Secretary of State directs. Details on the form and content of such a report will be set out in secondary legislation on which we will consult in due course.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister if he will list the value of the contract with Robson Brown for each component of the Your Say campaign. [169257]

Mr. Raynsford: I refer the hon. Member to the answer given on 19 April 2004, *Official Report*, column 366W. With reference to the main components of the Your Say campaign, Robson Brown spend to date and projected future spend is as follows:

	£
(a) Production and distribution of leaflets	45,305
(b) Posters	[1]20,000
(c) Broadcast media	438,560
(d) Newspaper advertising	54,894
(e) Events	67,303

[1] TBC.

These are not final costs. At this time, the Office of the Deputy Prime Minister is still awaiting final estimates for further paid activity, in particular any outdoor, and press activity.

Regional Government

Mr. Clifton-Brown: To ask the Deputy Prime Minister what the *(a)* cost was in 2003 and *(b)* projected cost is over the next three years of staffing and infrastructure for each of the eight regional assemblies; and how each is funded. [166893]

Mr. Raynsford: The Regional Chambers are voluntary bodies and not agencies or arms of the Government. They have specific responsibilities that are supported through the provision of Government grant, including: scrutiny of the work of the Regional Development Agency; acting as the Regional Planning Body; and the development and articulation of a representative regional voice.

For the financial years 2003–2004 and 2004–2005 the levels of grant allocated to each Chamber are set out in the following table:

		Grant £
Chamber	*2003–04*	*2004–05*
East of England	1,874,000.00	2,112,000.00
East Midlands	1,631,000.00	2,056,000.00
North East	1,408,000.00	1,708,000.00
North West	1,837,000.00	2,536,000.00
South East	2,186,000.00	3,280,000.00
South West	1,613,000.00	2,101,000.00
West Midlands	1,671,000.00	2,071,000.00
Yorkshire and the Humber	1,655,000.00	1,923,000.00
Total	13,875,000.00	17,787,000.00

Grant allocations for future years have not yet been agreed. In regions where elected regional assemblies are set up, the designated responsibilities of the Regional Chamber will pass to the new assembly, and Government grant will cease to be made to the Chamber.

The Office of the Deputy Prime Minister does not hold information on the staffing and infrastructure costs incurred by each Chamber.

Some Chambers also receive funding from other sources within the region, including their constituent local authorities, through their payment of membership subscriptions.

Retained Distribution Centre

Mr. Jenkin: To ask the Deputy Prime Minister what the annual cost of his retained distribution centre was in 2003–04. [169261]

Yvette Cooper: The annual cost of the Office of the Deputy Prime Minister's distribution centre was some £620,000 in 2003–04. This included £343,000 for fulfilling requests for ODPM publications and £277,000 for distributing other material to specific target audiences for individual projects.

Roadside Advertising

Mr. Ben Chapman: To ask the Deputy Prime Minister what advice his Department offers local authorities regarding the sale of roadside and roundabout advertising. [171122]

Keith Hill: The Office of the Deputy Prime Minister does not give specific advice to local authorities regarding the sale of roadside and roundabout advertising.

Scottish Power

Mr. George Osborne: To ask the Deputy Prime Minister on what occasions in the last two years Ministers in his Department have had meetings with representatives of Scottish Power. [164252]

Yvette Cooper: Neither my right hon. Friend the Deputy Prime Minister nor any other Minister in the Office of the Deputy Prime Minister has held meetings with representatives of Scottish Power UK Plc, on issues relating to the commercial interests of the company, during the last two years.

Supporting People Overspend

Mr. Drew: To ask the Deputy Prime Minister if he will identify by local area the impact of the savings expected to be made to meet the requirements of the Supporting People overspend. [167891]

Yvette Cooper: There has been no overspend of the Supporting People budget. The Supporting People budget was fixed at the total level of funding spent on housing related support as at the 31 March 2003 and has been capped. Given that the budget was much higher than predicted, the Government launched an Independent Review into the programme to look at value for money issues. The review found that £1.8 billion was too much to pay for the legacy programme with the result that the Government required authorities to make a small level of efficiency savings. The majority of these savings have been re-allocated back into the programme to pay for new supported schemes that came on stream in 2003–04.

Undeveloped Land

Mrs. Spelman: To ask the Deputy Prime Minister if he will publish figures for the estimated amount of undeveloped land zoned for industrial use in England. [171110]

Keith Hill: The information requested is not held centrally and could be provided only at disproportionate cost.

CONSTITUTIONAL AFFAIRS

1911 Census

Mr. Horam: To ask the Parliamentary Secretary, Department for Constitutional Affairs when the contract was signed *(a)* to digitise and *(b)* to micro film the returns for the 1911 Decennial Census of population for England and Wales; when the census returns for 1911 will be made available to the contractors; and if he will make a statement about the progress which has been made with the 1911 Census project. [169821]

Mr. Leslie: The National Archives is beginning to develop plans so that the public will enjoy the widest possible access to the 1911 census returns for England and Wales when they are released in 2012. At the present time no contract for the digitisation or microfilming of the census returns has been signed.

House Repossessions

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many house repossessions there have been in each region per quarter since 2002. [171164]

Keith Hill: I have been asked to reply

The number of properties repossessed by lenders was 11,970 in 2002 and 7,630 in 2003. These figures cover UK mortgage lending by Council of Mortgage Lenders members and include properties that were voluntarily surrendered. Figures are not published on a regional or quarterly basis.

FOREIGN AND COMMONWEALTH AFFAIRS

Ethiopia (Anuak People)

Ann McKechin: To ask the Secretary of State for Foreign and Commonwealth Affairs what action the Government propose to take pursuant to Article 2 of the 2004 Stockholm International Forum Declaration regarding the Anuak people of Ethiopia. [170047]

Mr. Mullin: We are concerned about the violence in Gambella and the loss of life among the Anuak people there. Our ambassador in Addis Ababa raised our concerns with the Ethiopian Prime Minister on 13 April and I plan to raise the matter with Prime Minister Meles in London on 5 May.

EU Constitution

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what rights will be afforded to elected regional assemblies and parliaments under the proposed draft EU Constitution. [170183]

Mr. MacShane: The draft Constitutional Treaty does not intervene in member states' internal constitutional arrangements. However, the draft Constitutional Treaty does introduce a mechanism for national parliaments to monitor the application of subsidiarity, and provides for national parliaments to consult regional parliaments with legislative powers on the application of that mechanism.

Iraq

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the countries to which Iraqi oil has been sold, stating the volume in each case; and if he will make a statement. [169156]

Mr. Straw: The Iraqi State Oil Marketing Organisation (SOMO) is the body responsible for the sale of Iraqi oil on the international market. Information on the countries to which Iraqi oil has been sold since April 2003 and the volume in each case has not been published by the SOMO and is not in the public domain.

Information on the countries to which Iraqi oil was sold before April 2003 under the Oil for Food programme is available on the US Department of Energy—Energy Information Administration website at http://www.eia.doe.gov/emeu/ipsr/t417.xls.

Liberia

John Barrett: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the success or otherwise of the demobilisation effort in Liberia; and if he will make a statement. [169901]

Mr. Mullin: The UN Mission in Liberia restarted the disarmament and demobilisation of all sides in the Liberian conflict on 15 April 2004. 18,415 fighters had already been disarmed since the conflict ended. Since April a further 4,924 former combatants have entered the disarmament and demobilisation process. There have been no reports of any major security incidents. In the long term, the real test will be how effectively those who have been disarmed and demobilised can be reintegrated and rehabilitated back into Liberian society.

Sudan

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will consult other members of the United Nations Security Council with a view to a resolution under Chapter VII of the Charter to address the situation in Darfur, Sudan. [169440]

Mr. Mullin: On 8 April the Sudanese Government and the Sudan Liberation Movement and Justice and Equality Movement signed a ceasefire agreement.

Our priority now is to encourage the parties to implement the agreement. We do not consider that a Resolution under Chapter VII of the United Nations Charter would be appropriate. However we remain in close contact with other Security Council members about Darfur. The UN Under-Secretary General for Humanitarian Affairs briefed the Security Council about Darfur on 2 April, and we expect that there will be another briefing soon.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what developments have been made to establish a clear international mechanism to monitor *(a)* the attack on civilians and *(b)* the access of agencies providing humanitarian assistance in Darfur, Sudan. [169325]

Mr. Mullin: The 8 April Ceasefire Agreement provides for a Ceasefire Commission, with a role for the international community. We hope that such a monitoring mechanism will help ensure the protection of civilians and also the effective disbursement of humanitarian assistance. We are in close contact with the parties and other members of the international community, including the African Union, to try to help set up such a monitoring mechanism as quickly as possible. The AU chaired a meeting on this matter in Addis Ababa on 19–20 April, and we understand that they are currently in consultation with the parties. We are in almost daily contact with the Government of Sudan and the Darfur groups about the crisis in Darfur.

HEALTH

Drug Services

Mr. Laws: To ask the Secretary of State for Health what his latest estimate is of the number of clients being managed by each drug service in England; and if he will make a statement. [163899]

Miss Melanie Johnson: The Department does not collect this information centrally.

The latest national data for December 2003 show that there are 140,900 drug misusers in treatment, a 41 per cent. increase on the 1998–99 baseline. These figures indicate that we are on track to meet the Government's target of doubling the numbers of drug misusers in treatment by 2008.

Food Additives

Phil Sawford: To ask the Secretary of State for Health what action he has taken to encourage the *(a)* reduction and *(b)* removal of additives from food. [166616]

Miss Melanie Johnson: I am advised by the Food Standards Agency that legislation on food additives is harmonised throughout the European Union. Food additives are only authorised following a rigorous safety assessment by independent scientific experts.

As part of the authorisation process limits are established to restrict the level at which an additive can be added to food. These legal limits are set to ensure that safety levels are not exceeded and that additives are only added at the minimum level necessary to achieve their intended technological function.

When additives are used in food, they must be declared in the list of ingredients, either by name or E number. There are no plans to encourage the removal of additives from food.

Abortion

Mr. Amess: To ask the Secretary of State for Health how many pregnancies have been terminated at four weeks gestation in the last five years for which statistics are available; and if he will make a statement. [169011]

Miss Melanie Johnson: The information requested is shown in the table.

Terminations performed at four weeks gestation in England and Wales.

	Number
1998	264
1999	290
2000	185
2001	169
2002	187

Source:
Statistics Division, Department of Health.

The most common gestation period at which terminations are carried out is eight weeks.

Agency Nurses (Weston Area)

Brian Cotter: To ask the Secretary of State for Health how much money was spent by the Weston Area Health NHS Trust on agency nurses in each year since 1997. [167525]

Ms Rosie Winterton: The table shows expenditure by the Weston Area Health National Health Service Trust for non-NHS nursing, midwifery and health visiting staff from 1997–98 to 2002–03.

	Expenditure (£)
1997–98	82,802
1998–99	138,981
1999–2000	164,014
2000–01	506,890
2001–02	1,306,195
2002–03	2,239,507

Source:
Annual financial returns of NHS Trusts1997–87 to 2002–03

Autism

Mrs. Iris Robinson: To ask the Secretary of State for Health what estimate he has made of the percentage of autistic spectrum disorder sufferers of working age who are in full-time employment. [167713]

Maria Eagle: I have been asked to reply.

We have made no estimate of the percentage of people living with autistic spectrum disorder of working age who are in full-time employment.

Blood Transfusion

Mr. Burstow: To ask the Secretary of State for Health (1) when the revised approach to the Better Blood Transfusion Strategy will be published; [163478]

(2) what progress has been made in implementing the Better Blood Transfusion Strategy. [163479]

Miss Melanie Johnson: Since the publication of the Health Service Circular 2002/009, "Better Blood Transfusion—Appropriate Use of Blood", in July 2002 we have seen some improvements including greater participation in the serious hazards of transfusion reporting system and an increase in the number of hospital transfusion committees. As indicated by my right hon. Friend, the Secretary of State for Health in his statement to the House on 16 March, the Chief Medical Officer is producing a revised approach to better blood transfusion and work on this is under way.

Mr. Burstow: To ask the Secretary of State for Health what steps he is taking to identify whether there is a causal connection between the donor and recipient of the blood transfusion where a variant vCJD transmission may have occurred. [163613]

Miss Melanie Johnson: A paper by Llewelyn CA. *et al* (2004); Lancet; Vol.363, pp 417–421 reported more details of the possible link between a donor and a recipient of blood where variant Creutzfeldt-Jakob disease (vCJD) transmission may have occurred. The paper has been placed in the Library. This paper concluded that human prion diseases, including vCJD, may be transmissible through blood transfusion but that through the study only of natural disease can evidence of an actual iatrogenic (caused by medical examination or treatment) risk be identified. With the current extent of scientific knowledge, it is unlikely it will be possible to prove that there was a definite causal link between donor and recipient.

Breastfeeding

Mrs. Brooke: To ask the Secretary of State for Health how much his Department spent on promoting breast feeding in 2001–02 and 2002–03. [166465]

Miss Melanie Johnson: The Department produces a number of educational resources and promotional materials to communicate positive messages about breastfeeding to mothers, families, friends, health professionals and others in the community. The materials are available year round but are actively promoted during the national breastfeeding awareness week in May of every year. The awareness week is also the focus of specific regional promotional events.

In addition, during 2001–02, the Department spent just under £1 million as part of the infant feeding initiative, which provided support for 79 best practice community-based projects on breastfeeding and funded two part time national infant feeding advisers as well as other work related to promoting breastfeeding. The Department continues to have a national infant feeding adviser and the 79 projects have been evaluated. The evaluation will form the basis of best practice guidance to health professionals; to be launched at this year's awareness week from 9 to 15 May.

The total spend on promotion of breastfeeding is shown in the table.

	Amount spent (£)
2001–02	1,115,000
2002–03	263,000

Capio Healthcare (Newcastle)

Mr. Cousins: To ask the Secretary of State for Health what the *(a)* value and *(b)* target capacity for the independent treatment centre awarded to Capio Healthcare in Newcastle is; what types of treatment it will offer; and when he expects the treatment centre to be functioning. [168700]

Mr. Hutton: The treatment centre at Newcastle is part of the independent sector treatment centre spine chain. The final contract has not yet been signed. It is expected that the treatment centre will open in April 2005 and will provide approximately 1,600 procedures per year for five years across a range of specialties including hernia repair, skin surgery, breast surgery, varicose vein, and ear, nose and throat and oral surgery; and 2,000 associated outpatient assessments.

Carcinogen Exposure

Vera Baird: To ask the Secretary of State for Health (1) what the Committee on Carcinogenicity's conclusions were concerning the relative safety for young girls and adult women of exposure to dioxins through the vagina; [168993]

(2) what basis the Committee on Carcinogenicity concluded that *(a)* exposure to dioxins through the vagina would be a form of background exposure and *(b)* safe exposure to dioxins through the vagina should be measured on the basis of daily levels of absorption. [168951]

Miss Melanie Johnson *[holding answer 27 April 2004]:* The risk assessment of exposure to dioxins in young girls and adult women through the vagina has not been considered by the committee on carcinogenicity in food, consumer products and the environment.

Chlamydia

Mr. Burstow: To ask the Secretary of State for Health (1) whether it is possible to introduce chlamydia screening for all women aged 16 to 24 years immediately; and what the possible barriers to providing such screening are; [164862]

(2) if he will estimate the cost of providing chlamydia screening for *(a)* all women aged 16 to 24 years, *(b)* all women over 16 years, *(c)* men aged 16 to 24 years and *(d)* all men; [164864]

(3) if he will estimate the cost in 2003–04 of treating complications in chlamydia, including the cost of treating infertility; and if he will make a statement. [164871]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave him on 25 March 2004, *Official Report*, column 1066W, which set out the reasons why the nationally chlamydia screening programme is being phased in rather than implemented immediately.

Estimates of the cost of providing chlamydia screening for the groups stated are not available.

An estimate of the cost in 2003–04 of treating complications in chlamydia, including the cost of treating infertility is not available.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 25 March 2004, *Official Report*, columns 1065–66W, on chlamydia screening, what the cost of implementing the programme in each of the primary care trusts has been so far; and what estimate he has made of the cost of the third phase of the programme. [165676]

Miss Melanie Johnson: The chlamydia screening programme incorporates 26 programmes, covering consortiums of 84 primary care trusts (PCTs). The cost of implementing each programme varies, dependant upon the size and the number of tests the programmes plans to undertake. The cost of implementing the programme in each PCT is not available, but the total estimated costs of the first three years of the chlamydia screening programme, from 2000 to 2003, are £13.5 million. The estimated costs for the third phase of the programme are £5.5 million over three years.

Competent Authorities (EU Accession States)

Miss McIntosh: To ask the Secretary of State for Health what action the European Commission proposes to take in relation to accession states which are not compliant with their EU obligations, with particular reference to requirements on regulation and training in the health professions. [165903]

Mr. Hutton: The Commission's assessment is that training in all the acceding countries will meet minimum requirements after 1 May. It is for the Commission to determine what action to take in relation to any acceding countries which do not meet these requirements.

Diagnostic Testing

Mr. Burstow: To ask the Secretary of State for Health what action his Department is taking to encourage the use of diagnostic tests in *(a)* general practitioner surgeries and *(b)* pharmacies to reduce referrals to secondary care; and if he will make a statement. [169710]

Mr. Hutton: The Department is committed to improving access to diagnostic services in primary and community settings to prevent inappropriate hospital visits.

Work is under way to develop the role of practitioners with special interests in primary care to undertake outpatient appointments and to help improve access to diagnostics and treatment. The National Primary and Care Trust Development Programme is providing specific support to strategic health authorities and primary trusts to help expand the range of services provided locally.

The new contractual framework for community pharmacy, once agreed, will recognise the increasing role community pharmacies are playing in providing access to diagnostic testing.

Elective Admissions (Manchester)

Mr. Kaufman: To ask the Secretary of State for Health if he will make a statement on the levels of elective admissions to the NHS in Manchester, Gorton in the past five years. [167389]

Miss Melanie Johnson: The information is not collected on a constituency basis, but at National Health Service trust level. Data for NHS trusts are shown in the table.

In year elective admission Episodes for Manchester NHS trusts, 1998–99 to 2002–03

NHS Trusts	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Central Manchester Healthcare NHS Trust	49,071	47,969	46,217	n/a	n/a
Central Manchester and Manchester Children's Hospital NHS Trust	n/a	n/a	n/a	55,824	58,663

Notes:
1. N/A—not available.
2. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
3. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Source:
Hospital Episode Statistics (HES) Department of Health

Elective Surgery

Mr. Frank Field: To ask the Secretary of State for Health what guidance he has made available on the maximum amount of time that a patient seeking elective surgery should have to wait *(a)* for an appointment with a consultant and *(b)* for an operation following that consultation before being offered the choice of faster treatment in an alternative hospital. [170657]

Mr. Hutton *[holding answer 4 May 2004]:* The NHS Plan sets out the maximum waiting time targets for consultant led services. As at 1 April 2004, the current maximum waiting time standard for first outpatient appointment following a referral from a general practitioner or general dental practitioner is 17 weeks. The maximum waiting time for inpatient admission following the decision to admit by the consultant is nine months.

Choice of hospital for patients who are expected to wait longer than six months for elective surgery is being rolled out between April and August this year. "Guidance (Choice of Hospital, Guidance for PCTs, NHS Trusts and SHAs on offering patients choice of where they are treated)" issued in July 2003 sets out the responsibilities of national health service organisations in delivering choice of hospital to patients waiting longer than six months.

The guidance advises that patients who are expected to wait more than six months for elective surgery should be contacted at the earliest opportunity and certainly before they have waited five and a half months. Patients may need to be contacted earlier to allow an offer of faster treatment.

Strategic health authority plans for the implementation of choice of hospital for patients waiting longer than six months set out the local arrangements for offering patients faster treatment in an alternative hospital.

Erectile Dysfunction

Dr. Gibson: To ask the Secretary of State for Health what the recorded incidence of erectile dysfunction was, broken down by age group, in the last year for which figures are available. [168445]

Miss Melanie Johnson: We do not hold information centrally about diagnosis of erectile dysfunction.

Food Labelling

Ms Atherton: To ask the Secretary of State for Health what plans the Secretary of State has to replace sugar and carbohydrate labelling of food products with the glycaemic index. [167650]

Miss Melanie Johnson: Nutrition labelling rules are agreed at European Union level and there are currently no proposals to introduce requirements to replace sugar and carbohydrate labelling of food products with a declaration of the glycaemic index.

The Food Standards Agency (FSA) recommends that the amount of carbohydrate and sugar present be given as part of the nutrition label of a food product, even when such information is not required by law. Research shows that consumers value this information and would prefer it to be accompanied by an indication as to whether the level is high, medium, or low. The FSA is developing advice on how this might be done.

Health Infrastructure Funding

Adam Price: To ask the Secretary of State for Health if he will list the health infrastructure developments in England funded through the European Investment Bank in the last five years. [169806]

Mr. Hutton *[holding answer 30 April 2004]:* In England, the European Investment Bank has part funded the private finance initiative (PFI) schemes at Dudley Group of Hospitals National Health Service Trust, East Lancashire Hospitals NHS Trust (Blackburn) and Barking, Havering and Redbridge Hospitals NHS Trust.

Health Ombudsman

Mr. Burns: To ask the Secretary of State for Health if he will publish the guidance which his Department has given strategic health authorities for reviewing long-term care assessments in the light of the Ombudsman's report. [169230]

Dr. Ladyman *[holding answer 4 May 2004]:* No official guidance was issued. A suggested process to assist strategic health authorities was provided, copies of which have been placed in the Library. All strategic health authorities now have systems in place to review past continuing care cases.

Mr. Burns: To ask the Secretary of State for Health (1) pursuant to the answer of 1 March 2004, *Official Report*, column 703W, on Health Ombudsman's Report (Long-term Care), in which areas of the country the reviews of this issue have *(a)* been fully completed and *(b)* not been fully completed; [169231]

(2) when he expects all the cases of people suspected of wrongly paying for their long-term care following the Health Ombudsman's report on the subject will be *(a)* reviewed and *(b)* resolved; [169232]

(3) how many of the reviews of long-term care have been completed; whether the deadline of the end of March 2004 was met; and when he expects all the reviews to be completed. [169233]

Dr. Ladyman *[holding answer 4 May 2004]:* All strategic health authority areas have some investigations outstanding. The Department has set no new time-scales for the completion of currently outstanding cases, or any further cases which may arise, but the national health service is expected to complete them all in a thorough and timely manner.

Health Services (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Health if he will make a statement on the effect on residents of Birkenhead of the Health Development Agency. [166568]

Miss Melanie Johnson: The work of the Health Development Agency (HDA) is focussed on service delivery that supports the whole of the region's public health development.

The HDA manages the national healthy school standard, which is part of the Government's national strategy to reduce health inequalities for children. The regional management of the programme is delivered in partnership with Sefton local education authority.

The North West HDA organised the largest ever regional public health conference in March 2004 to address the problem of obesity. Over 300 regional public health professionals, including representatives from health services responsible for Birkenhead, learned of the latest obesity data for the region and collaboratively planned a regional obesity action plan. The workshop drew together best practice from across the region and in addition to the HDA guidance on obesity, this will provide the basis for local and regional work to tackle obesity in the coming years.

The North West HDA is currently working with the North West public health observatory and the regional cancer registries to review the main causes of cancer related deaths across the region.

The HDA, in partnership with Liverpool John Moores University and the North West public health observatory, is currently completing a regional report, "Alcohol: A Situational Analysis for the North West".

Healthy Eating

Mr. Simmonds: To ask the Secretary of State for Health what discussions his Department has had with the fast food industry regarding super size fast food portions and their effect on health. [160793]

Miss Melanie Johnson: The potential impact of super sized food on diet and health is recognised and we are committed to improving the dietary intakes of the whole population. I, and my officials, have met regularly with industry and their trade associations, as well as individual stakeholders, as part of the development of the food and health action plan. The consultation process on the public health White Paper will provide further opportunities for discussions with all stakeholders.

Hip Operations

Miss McIntosh: To ask the Secretary of State for Health how many hip operations in *(a)* North Yorkshire and *(b)* Sheffield he calculates could be done for £30,000 on the basis of the costs of such operations since January. [140571]

Miss Melanie Johnson: Figures are not available for the costs of such operations for the period commencing January 2003. However, based on the average cost for the financial year 2001–02, eight primary hip replacement operations could be carried out for £30,000 in national health service trusts in North Yorkshire. Six primary hip operations could be carried out for £30,000 in Sheffield.

Source:

Reference Costs 2002, Department of Health.

Hospitals (Alert Status)

Mr. Burstow: To ask the Secretary of State for Health how many hospitals were on *(a)* red alert and *(b)* amber alert status in the last month; and if he will make a statement. [167408]

Mr. Hutton: This information is not held centrally. The Department does not use the terms amber or red alert. Some acute trusts use the terms to indicate how busy they are and consequently what escalation procedures need to be taken to reduce pressures. Such escalation procedures are locally agreed and activated by the trusts themselves. The Department does not routinely collect information on when escalation procedures are activated.

Immigrant Medical Inspections

Mr. Randall: To ask the Secretary of State for Health (1) what additional and earmarked funds are made available to support the medical inspection of immigrants at *(a)* Heathrow and *(b)* other ports in England; and which bodies are in receipt of those funds; [156837]

(2) what costs towards the medical inspection of immigrants service are met *(a)* from central Department of Health budgets, *(b)* through budgets held by the Health Protection Agency and *(c)* by primary care trusts from their standard allocations. [156838]

Miss Melanie Johnson: No data are collected centrally on the costs to the national health service of providing medical inspectors to carry out medical examinations of prospective entrants to the United Kingdom.

Some other costs associated with medical inspection were met by the Department of Health, up to and including 2002–03, as shown in the table. From 2003–04, the budget from which these costs are met has passed to the Health Protection Agency.

A Cabinet Office review is considering the issue of imported infections and immigration, including health screening. We will consider when this review is completed whether any changes are needed to funding arrangements in support of medical inspection.

£

Port	Who is reimbursed	Total for 2002–03	What is reimbursed
Heathrow	London borough of Hillingdon	2,005,768	Rent and administration costs, including clerical staff
Gatwick	Crawley borough council	753,597	Rent and administration costs, including clerical staff
Stansted	Uttlesford district council	81,004	Rent and administration costs, including clerical staff
Manchester	Manchester City council	49,528	Rent and administration costs, including clerical staff
Dover	Maidstone Weald PCT (meeting expenses previously met by the local authority)	35,195	Administration costs, including clerical staff
Waterloo	Home Office	5,745	Rent and utilities
Hull and Goole	Hull and Goole Port health authority	4,888	Rent and utilities
Newhaven	Brighton and Hove City primary care trust (meeting expenses previously met by the local authority)	1,340	Rent and utilities

Mr. Randall: To ask the Secretary of State for Health (1) how port health responsibilities are reflected in the funding formula for primary care trusts; [156840]

(2) whether primary care trusts hosting ports were subject to the same level of top slice as other primary care trusts when the Health Protection Agency was first established. [156849]

Miss Melanie Johnson: Revenue funding is allocated to primary care trusts (PCTs) on the basis of a weighted capitation formula which is used to calculate PCTs' target shares of available resources based on population size, age distribution and additional need and the cost of providing services. The formula does not take into consideration specific responsibilities such as port health. An explanation of resource allocation is in the booklet, "Resource allocation: weighted capitation formula". Copies of this booklet are available in the Library.

The 2003–04 baselines for all PCTs were adjusted to take account of functions to be transferred to the Health Protection Agency, before the allocations were made for that year.

Mr. Randall: To ask the Secretary of State for Health what the cost in 2003–04 to the Hillingdon Primary Care Trust is for *(a)* employing staff at the Health Control Unit at Heathrow and *(b)* other added burdens created by the airport; and what additional central moneys are provided to cover these costs. [156842]

Miss Melanie Johnson: Hillingdon primary care trust estimates the cost of employing the clinical staff at Heathrow airport Health Control Unit at around £750,000 in 2003–04. It is not possible to disaggregate accurately other costs associated with the airport. No additional central moneys are provided to cover these costs.

Immunisation

Mr. Burstow: To ask the Secretary of State for Health what research his Department has commissioned into *(a)* treatment of brain damage as a whole and *(b)* treatment of brain damage caused by immunisations. [166824]

Miss Melanie Johnson: The Department funds the national health service research and development programme, which aims to identify NHS needs for research and to commission research to meet those needs. Commissioning is undertaken through national programmes of research such as the health technology assessment (HTA) programme and new and emerging applications of technology (NEAT) programme.

The HTA programme published "General health status measures for people with cognitive impairment: learning disability and acquired brain injury" in April 2001 as a monograph on the HTA website at www.ncchta.org after a project of a similar name completed at the University of York. The project cost just over £35,000. The NEAT programme has six projects with some bearing on treatment for brain damage; two have just ended. The total cost of the six projects is just over £1 million.

There is no ongoing specific research into the treatment of brain damage caused by immunisations.

The Medical Research Council (MRC), the main agency through which the government supports medical and clinical research, spent £835,000 in 2001–02 on brain injury research. The MRC also has a large portfolio of research relevant to the workings of the brain in both its normal and damaged state. The MRC supports a large amount of basic underpinning work on how the brain responds to injury of all types (including stroke) and neural regeneration, which will inform research on rehabilitation after traumatic brain injury.

Inappropriate Prescribing

Dr. Iddon: To ask the Secretary of State for Health if he will list the doctors struck off by the General Medical Council's Professional Conduct Committee in each of the last 10 years for inappropriate prescribing of drugs to drug addicts, the year they were struck off, and the town or city in which their surgery or clinic was situated. [169293]

Mr. Hutton: This information is not collected centrally, but can be obtained from the General Medical Council, which is an independent statutory body.

Inventures

Tim Loughton: To ask the Secretary of State for Health what the current status is of Inventures; when staff are to be transferred to a new company; and if he will make a statement. [169126]

Mr. Hutton *[holding answer 27 April 2004]:* The future of Inventures and its employees is still being considered. For the time being, Inventures retains its current status as the trading arm of NHS Estates, an Executive agency of the Department.

Mersey Regional Ambulance Service

Helen Jones: To ask the Secretary of State for Health, (1) if he will place in the Library the conclusions of Pearl Brown's report into the Mersey Regional Ambulance Service; [165341]

(2) pursuant to his answer of 10 March 2004, *Official Report*, column 1606W, on NHS trust documents, what changes of policy took place between the date the Department obtained copies of the lone worker policy of the Mersey Regional Ambulance Service and the date it was asked to place a copy of Ms Pearl Brown's report in the Library; what his policy is on the documents and types of documents his Department is prepared to obtain at the request of honourable Members when those documents are not among those it routinely collects; why the Cheshire and Merseyside Strategic Health Authority has been able to obtain a copy of Pearl Brown's report; and what steps his Department is taking to ensure that recommendations made in Pearl Brown's report are implemented. [165479]

Miss Melanie Johnson *[holding answer 19 April 2004]:* There has been no change to the Department's policy on obtaining National Health Service documents. The Department would not generally seek to obtain copies of documents or information which it did not already hold. This approach is in line with the Open Government Code of Practice on Access to Government Information and is consistent with the relationship between the Department and NHS organisations following the Shifting the Balance of Power initiative.

The requested documents were provided because they were publicly available. The Pearl Brown report on the management of the Mersey Regional Ambulance Service is a confidential document. At the time of commissioning the report, Pearl Brown agreed that the Cheshire and Merseyside Strategic Health Authority (SHA) would receive a copy.

The report was commissioned solely by the trust, and neither the Department nor the Cheshire and Merseyside SHA had any input to it. The responsibility for implementing the recommendations of the report lies with the Mersey Regional Ambulance Service NHS Trust.

Musculoskeletal Disease

Dr. Gibson: To ask the Secretary of State for Health what plans he has to include the management of musculoskeletal pain within the terms of the new general practitioner contract; and if he will make a statement. [166205]

Mr. Hutton: Changes to the Quality and Outcomes Framework (QOF) of the new General Medical Services Contract will be negotiated between the NHS Confederation and the British Medical Association, following recommendations from an independent, United Kingdom wide review group. The independent review group will decide what disease areas to consider for addition to the QOF.

NHS Property Sales

Mr. Hoban: To ask the Secretary of State for Health (1) what the cost to the Department was of the decision to terminate the sale of surplus NHS properties to Miller/HBOS, including costs borne by the potential acquirer, for which the Department will have to pay compensation; [168346]

(2) what discussions the Department has had with Miller/HBOS about the compensation for costs incurred on the aborted property transaction. [168347]

Mr. Hutton: Discussions about levels of compensation are continuing. Once concluded any sums agreed will be declared in the Department's accounts.

Mr. Hoban: To ask the Secretary of State for Health when Miller/HBOS were advised that the deal to sell them the surplus NHS sites would no longer go ahead. [168348]

Mr. Hutton: Miller/Halifax Bank of Scotland were formally informed by NHS Estates that they would not be proceeding with the proposed real estate partnership on 19 December 2003.

Mr. Hoban: To ask the Secretary of State for Health what the proceeds of the sale of surplus NHS sites to the Office of the Deputy Prime Minister will be; what they would have been under the aborted sale to Miller/HBOS; when the receipts will be received; when they would have been received from Miller/HBOS, and how many affordable houses *(a)* will be built and *(b)* would have been built on the site under the aborted sale to Miller/HBOS. [168349]

Mr. Hutton: Negotiations concerning the proposed real estate partnership with Miller/Halifax Bank of Scotland had not concluded when the decision was taken not to proceed and it is not possible to say what the final terms would have been, nor the timings of any payments.

Discussions are still underway with the Office of the Deputy Prime Minister (ODPM) on the timing of any transfer and the market value of the sites.

The number of affordable homes to be built on those sites which are transferred will be determined by the ODPM and the planning process.

Mr. Hoban: To ask the Secretary of State for Health if he will list the current owners of each of the surplus NHS sites to be sold to the Office of the Deputy Prime Minister. [168352]

Mr. Hutton: All the properties are owned by the Secretary of State for Health, other than a small number where a leasehold interest is held.

Mr. Hoban: To ask the Secretary of State for Health if he will make it his policy that the proceeds of the sale of each of the surplus NHS sites should be given to the relevant local primary care trust or other local NHS trusts. [168353]

Mr. Hutton: No. All of the sites to be transferred to the Office of the Deputy Prime Minister have been identified as surplus for some time. The cost of managing surplus properties rests with central budgets and these are credited with the benefit of any receipts.

Cash surpluses are added to normal allocations and passed out to the benefit of the entire national health service.

Mr. Hoban: To ask the Secretary of State for Health what proportion of the proceeds of the sale of surplus NHS sites to the Office of the Deputy Prime Minister will be *(a)* retained by the Department for use on (i) capital and (ii) revenue projects that it specifies and *(b)* allocated to the local NHS trust in the areas where land sales will take place. [168354]

Mr. Hutton: Proceeds from the sale of surplus land are treated as capital receipts. The net sale receipts, after holding and sale costs have been paid, is added to the overall capital allocations and passed out to the national health service. No funds are earmarked for use either locally or nationally.

NHS Usage Statistics

Laura Moffatt: To ask the Secretary of State for Health what estimate he has made of the percentage of people using the NHS in *(a)* 2005 and *(b)* 2010 who will be above retirement age. [165878]

Mr. Hutton: The Government Actuary's Department forecasts that in 2005 16 per cent. of the population will be aged 65 or over, and in 2010, 17 per cent.

Older people will typically make greater use of the national health service (NHS). In 2000–01 people aged 65 or over accounted for approximately 41 per cent. of total expenditure, despite accounting for only 16 per cent. of the population (Office for National Statistics). Assuming the same pattern of use, a similar proportion of NHS expenditure will be accounted for by patients aged over 65 in 2005, with perhaps a small rise by 2010. Derek Wanless, in his interim report on the long-term demographic and medical trends that will affect the health service, "Securing our future health: taking a long-term view", November 2001, commented that "the impact of ageing on future expenditure is likely to be comparatively small compared to other cost drivers".

Nursing Provision

Simon Hughes: To ask the Secretary of State for Health how many *(a)* district nurses, *(b)* health visitors and *(c)* midwives there were in each Greater London NHS Trust in each year since 1997, broken down by (i) headcount and (ii) whole-time equivalent. [168941]

Mr. Hutton: The information requested has been placed in the Library.

Obesity

Tim Loughton: To ask the Secretary of State for Health what estimate he has made of the number of excess deaths linked to obesity in each of the last five years. [169048]

Miss Melanie Johnson: The information requested is not available.

Tim Loughton: To ask the Secretary of State for Health (1) how many different anti-obesity drugs are prescribed in the NHS; [169049]

(2) how many prescriptions for obesity drugs have been issued in each of the last five years. [169057]

Miss Melanie Johnson: In 2003, six different chemical entities of drugs used in the treatment of obesity were dispensed in the community in England. However, Orlistat and Sibutramine (the two National Institute for Clinical Excellence-appraised drugs) accounted for virtually all the items (99.96 per cent. of total items).

The table shows the number of prescriptions for obesity drugs issued in the last five years.

Thousand

	Number of prescription items (obesity drugs)
1999	148.1
2000	162.3
2001	470.3
2002	738.9
2003	690.0

Source:
Prescription Cost Analysis (PCA) data from the Prescription Pricing Authority.

Heart Disease and Cancer

James Purnell: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in Stalybridge and Hyde in each of the last five years. [168770]

Helen Southworth: To ask the Secretary of State for Health what the revenue expenditure figures for NHS *(a)* heart disease and *(b)* cancer care in Warrington South was in each of the last five years. [168687]

Miss Melanie Johnson: The information requested is not collected centrally.

Funding is allocated to primary care trusts (PCTs) on the basis of the relative needs of their populations. It is for PCTs, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services.

Jim Dobbin: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in Heywood and Middleton in each of the last five years. [168489]

Miss Melanie Johnson: I refer the hon. Member to the response I gave to my hon. Friends the Members for Stalybridge and Hyde (James Purnell) and for Warrington South (Helen Southworth).

Radon Gas

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the number of cases of lung cancer in England caused by radon gas. [169712]

Miss Melanie Johnson: As with all types of cancer, it is not possible to attribute individual cases of lung cancer to a particular cause. However, from the known radiation risks, the National Radiological Protection Board has calculated that exposure to radon gas causes approximately 2,500 lung cancer deaths per year in the United Kingdom.

Residence Criteria

Mr. Gibb: To ask the Secretary of State for Health (1) what the NHS residence criteria are for entitlement to treatment; [169915]

(2) on what occasions NHS staff are required to ask patients to state their country of residence. [169917]

Mr. Hutton: Anyone who is ordinarily resident in the United Kingdom is entitled to receive free National Health Service treatment, subject to certain statutory charges, such as prescription charges.

General practices check details of an individual's ordinary residence or previous registration before deciding whether to accept the person as a registered patient, either on a permanent or temporary basis. This is set out in Regulations and Guidance. For hospital services, Regulations require the NHS trust providing treatment to establish whether a person is ordinarily resident or if not, whether they are exempt from charges under a number of categories of exemption or liable to be charged. Guidance issued in April 2004 makes clear that in order to establish ordinary residence all patients should be asked the same residence-based baseline questions whenever they begin a new course of hospital treatment.

Shared Service Centres

Mr. Burstow: To ask the Secretary of State for Health pursuant to the Answer of 19 April 2004, *Official Report,* column 268W, on shared service centres, what assessment he has made of whether these services can be rolled out more quickly. [169654]

Mr. Hutton: An assessment of whether the rollout of shared service centres can be made more quickly is being undertaken at present. Whether this is practicable will depend on the anticipated level of demand from the national health service, the potential for new centres to be opened up and the timing of when existing accounting systems become obsolete. It is anticipated a decision will be made before a preferred bidder is appointed.

Smoking

Mr. Drew: To ask the Secretary of State for Health what progress is being made in encouraging smoking cessation; and how much was allocated to each health trust for such services in the last year for which figures are available. [167858]

Miss Melanie Johnson: We are making good progress in helping smokers to stop smoking. Latest figures show that, between April and September 2003, around 129,800 people set a quit date through the national health service stop smoking services, and over 68,600, or 53 per cent., had remained quit at four week follow up.

Health service circular 2002–012, issued on 18 December 2002, set out the financial allocation to NHS stop smoking services in primary care trusts for 2003–04, 2004–05 and 2005–06. A copy of the circular has been placed in the Library.

Solvent Abuse

Tim Loughton: To ask the Secretary of State for Health what research his Department has commissioned into the extent of solvent abuse by children. [169029]

Miss Melanie Johnson: Information on volatile substance abuse (VSA) among young people aged 11–15 years is collected in an annual national survey of secondary school children commissioned by the Department. Latest information is given in the statistical release, "Drug use, smoking and drinking among young people in England in 2003: headline figures", which was published on 31 March 2004.

The Department funds the Department of Public Health Sciences at St. George's Hospital in south London to collect statistics on deaths associated with the abuse of gas fuels, aerosols, glues and other solvent based products. It produces an annual statistical summary of data. The sixteenth annual report highlighting mortality statistics for 2001 was published on 21 July 2003.

The Department also funds the National Children's Bureau, which is working with 'Childline' to analyse calls to the helpline on VSA. This work will provide qualitative data on issues relating to young people's misuse of volatile substances, which will also inform policy and practice on VSA.

Tim Loughton: To ask the Secretary of State for Health what estimate he has made of the number of deaths of children caused by solvent abuse in each of the last 10 years. [169058]

Miss Melanie Johnson: Statistics, collected by St. George's Hospital Medical School on behalf of the Department, on the number of deaths of children by volatile substance abuse for the last available 10 years, are shown in the table.

Number of deaths of children under 18 years by volatile substance abuse

	Deaths
1992	39
1993	30
1994	21
1995	32
1996	35
1997	29
1998	16
1999	25
2000	17
2001	25

St. George's Hospital Medical School: 16th Annual Report on Trends in Death Associated with Abuse of Volatile Substance 1971–2001—Key findings for 2001

St. George's Hospital (Morpeth)

Mr. Cousins: To ask the Secretary of State for Health how much land at St. George's Hospital, Morpeth, is to be transferred to English Partnerships for housing development; and what the *(a)* housing capacity and *(b)* value of the transferred land is. [168698]

Mr. Hutton: Discussions are currently underway to finalise the value of the properties to be transferred to the Office of the Deputy Prime Minister. The area of land in St. George's Hospital which is included in the transaction is approximately 95 hectares. The housing capacity will be for determination by the new owners.

Surgical Site Infections

Mr. Burstow: To ask the Secretary of State for Health how many surgical site infections there were in the NHS in *(a)* England, *(b)* each region and *(c)* each NHS trust in each year since 1997. [167431]

Mr. Hutton: These data are not available but aggregated data from the Health Protection Agency's voluntary surveillance system have been published in "Surveillance of surgical site infection in English Hospitals 1997–2002". Copies have been placed in the Library. This is also available at: http://www.hpa.org.uk/infections/topics_az/hai/SSIreport.pdf.

Surplus Property Sales

Tim Loughton: To ask the Secretary of State for Health if he will make a statement on the sale of surplus NHS properties and Inventures to the Miller/Bank of Scotland Partnership. [169122]

Mr. Hutton *[holding answer 27 April 2004]:* Following a decision by the Department not to pursue a real estate partnership with Miller /Halifax Bank of Scotland, an agreement in principle was given to transfer the surplus land to the Office of the Deputy Prime Minister (ODPM). It was considered that a transfer of the property portfolio to ODPM would enable a greater emphasis to be given to addressing Government policy priorities for sustainable communities.

Tim Loughton: To ask the Secretary of State for Health what the *(a)* transfer value and *(b)* size by hectare is of each of the surplus NHS properties to be transferred to the Office of the Deputy Prime Minister outlined in his news release of 7 April. [169123]

Mr. Hutton *[holding answer 27 April 2004]:* The Office of the Deputy Prime Minister and the Department have agreed in principle to the transfer of the portfolio but the details of the transaction and the price to be paid have still to be settled. The land is currently being independently valued.

Tim Loughton: To ask the Secretary of State for Health what valuations were used in determining the value of surplus NHS sites to be transferred to the Office of the Deputy Prime Minister and from what date. [169124]

Mr. Hutton *[holding answer 27 April 2004]:* The terms of the transfer will be informed by the market value of the sites involved. An independent valuation is underway to determine an overall value for the portfolio of sites. Sites will be physically transferred as and when they become vacant.

Thimerosal

Dr. Tonge: To ask the Secretary of State for Health (1) what vaccines used in the UK contain Thimerosal; [162711]

(2) when the use of Thimerosal as a preservative in vaccines was discontinued in the UK. [162712]

Mr. Burns: To ask the Secretary of State for Health (1) when the Government gave a commitment to phase out the use of thimerosal in whooping cough vaccine; [162205]

(2) for what reason whooping cough vaccine containing thimerosal is still being used in the United Kingdom; [162206]

(3) whether his Department has consulted *(a)* the US, *(b)* Japan, *(c)* Sweden, *(d)* Australia and *(e)* Spain as to the reasons why they have ceased using whooping cough vaccines containing thimerosal; [162207]

(4) when the Government plan to phase out thimerosal in whooping cough vaccine. [162208]

Miss Melanie Johnson *[holding answer 18 March 2004]:* The Medicines and Healthcare products Regulatory Agency (MHRA) has written to manufacturers of vaccines used in the United Kingdom to alert them to the need to phase out the use of thiomersal in vaccines where possible. This follows advice from the European Agency for the Evaluation of Medicinal Products (EMEA), endorsed by the Committee on Safety of Medicines (CSM), to phase out use of thiomersal, wherever possible, as a precautionary recommendation aimed at limiting avoidable exposure to mercury compounds.

Manufacturers are actively developing research programmes to eliminate, substitute or reduce thiomersal in vaccines, and to develop new thiomersal-free vaccines. This may take time, because manufacturers need to ensure that thiomersal-free vaccines are safe and effective.

The UK currently uses a wholecell containing whooping cough vaccine (which contains thiomersal) because this vaccine offers the best protection against the disease. Whooping cough is a serious disease in young babies that can lead to death. Also, there is strong evidence that thiomersal in vaccines does not cause neurological damage to children and the CSM continues to advise that the balance of benefits and risks of thiomersal-containing vaccines is overwhelmingly positive. The UK will move to thiomersal-free vaccines when an equally effective alternative becomes available.

Other countries have moved to acellular whooping cough vaccines because they cause lower levels of adverse reactions, such as a sore arm, in older infants than wholecell vaccines. In the UK, this is not an issue, as babies receive the vaccine when they are young.

Miss Melanie Johnson: Thiomersal (also known as thimerosal) is present in the following childhood vaccines: the combined diptheria-tetanus-wholecell pertussis and Haemophilus Influenzae vaccine for

primary immunisation and the combined diptheria/tetanus vaccine used for boosting teenagers. Details of the vaccines used in the childhood immunisation programme can be found in the national health service Factsheet, Thiomersal and vaccines.

Other vaccines that contain thiomersal are: Anthrax vaccine, some hepatitis A vaccines, some hepatitis B vaccines, some influenza vaccines and the diptheria-tetanus-wholecell pertussis vaccine.

The use of thiomersal in vaccines has not been discontinued in the United Kingdom. The European Agency for the Evaluation of Medicinal Products (EMEA) recommended in 1999 that vaccine manufacturers phase out use of thiomersal wherever possible. This was a purely precautionary recommendation aimed at limiting avoidable exposure to mercury compounds. EMEA acknowledged that there was no evidence of harm caused by thiomersal in vaccines. The Committee on Safety of Medicines (CSM) endorsed this recommendation in 1999 and the Joint Committee on Vaccination and Immunisation also supports the EMEA statement. There is strong evidence that thiomersal in vaccines does not cause neurological damage to children and the CSM continues to advise that the balance of benefits and risks of thiomersal-containing vaccines is overwhelmingly positive.

In line with the EMEA recommendation, manufacturers are actively developing research programmes to eliminate, substitute or reduce thiomersal in vaccines. This may take time because manufacturers are required to ensure that the replacement or elimination of thiomersal does not affect the safety or efficacy of the final vaccine.

Treatment Facilities (Manchester)

Mr. Kaufman: To ask the Secretary of State for Health how many rapid access chest pain clinics there are in Manchester, Gorton. [167390]

Miss Melanie Johnson: A rapid access chest clinic is located at Manchester Royal Infirmary, part of the Central Manchester and Manchester Children's University Hospitals National Health Service Trust.

Mr. Kaufman: To ask the Secretary of State for Health whether there is a diagnostic and treatment centre in Manchester, Gorton. [167391]

Miss Melanie Johnson: There is no treatment centre in Gorton. A treatment centre is located at Withington Hospital, part of South Manchester University Hospitals National Health Service Trust.

Mr. Kaufman: To ask the Secretary of State for Health how many people in Manchester Gorton are receiving drug treatment. [167465]

Miss Melanie Johnson: In 2000–01, there were 3,652 people receiving drug treatment in Manchester. This is the latest available data. Data broken down by drug action team for 2001–02 and 2002–03 are currently being finalised.

Tuberculosis

Dr. Murrison: To ask the Secretary of State for Health pursuant to the answer of 12 February 2004, *Official Report*, column 1700W, on tuberculosis, when the review of imported infections and immigration will be published. [169138]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave to my hon. Friend the Member for Birmingham, Selly Oak (Lynne Jones) on 8 March 2004, *Official Report*, column 1334W.

Waiting Lists

Jim Dobbin: To ask the Secretary of State for Health how many and what percentage of women in Heywood and Middleton with suspected breast cancer saw a specialist within two weeks in each of the last five years. [168490]

Miss Melanie Johnson: The information is not available in the format requested. The following table shows how many and the percentage of suspected breast cancer patients, seen within two weeks of urgent referral by a general practitioner, at the Pennine Acute Hospitals National Health Service Trust and its predecessor organisations for each quarter since the first quarter of 1999–2000. Earlier figures are not available.

Source:
DH form KH07 and Monthly Monitoring

Mr. Kaufman: To ask the Secretary of State for Health how many residents in Manchester, Gorton awaiting heart surgery have had the option of choosing an alternative hospital for quicker treatment in the last 12 months. [167388]

Miss Melanie Johnson: The information is not collected centrally.

Waiting Lists/Times

Mr. Burstow: To ask the Secretary of State for Health if he will make it his policy to record and publish waiting times for both diagnostics and treatment for all types of conditions. [169714]

Mr. Hutton: Data are not collected specifically on waiting times for diagnostic tests. However, depending on the setting in which the procedure takes place, patients waiting for diagnostic procedures may be included within the central waiting list returns.

This is because waiting time data are collected on the consultant's main specialty, not by procedure. Diagnostic procedures may be included as part of the official returns as either an in-patient/day case, or as an out-patient—if it was the patient's first appointment with a consultant.

TRADE AND INDUSTRY

Loan Repayments

Mr. Todd: To ask the Secretary of State for Trade and Industry if she will make the provision of an analysis of a customer's ability to repay a loan an obligation on the lender; and if she will make a statement. [170640]

Mr. Sutcliffe: Our proposed reforms to the current law on extortionate credit bargains (which we will introduce when parliamentary time permits) will include a new test relating to unfair credit transactions. This new test will enable agreements to be more effectively challenged, and creditors who do not want to expose themselves to such challenges must ensure that the loans they make are not unfair. Responsible lending is a key part of this, and while the Government do not propose a 'one size fits all' regime for all credit providers, lenders will be expected to undertake enquiries that are proportionate in the circumstances.

Bankrupt Businesses

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what research her Department has undertaken into the number of UK businesses that have gone bankrupt as a result of being unable to meet their pensions obligations. [168891]

Mr. Sutcliffe: The Department does not hold any statistical data which would enable it to undertake any research into whether any UK businesses have entered a formal insolvency procedure as a result of being unable to meet their pension obligations.

Banned Products

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what consumer products have been banned from sale in the United Kingdom since 1994, stating in each case *(a)* the product, *(b)* the manufacturer or retailer and *(c)* the reason for the action taken. [168976]

Mr. Sutcliffe: I refer the hon. Member to the answer given to the hon. Member for Orkney and Shetland (Mr. Carmichael) on 11 March 2004, *Official Report*, column 1685W.

Businesses (Sittingbourne and Sheppey)

Mr. Wyatt: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Sittingbourne and Sheppey have taken 26 weeks' maternity leave since 1997. [170294]

Mr. Sutcliffe: Take-up of maternity leave is not recorded centrally. It is possible to make an estimate of the numbers of women taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (since 2003 this has covered the first 26 weeks of leave). Figures for the take-up of SMP are not available on a regional basis, but nationally around 300,000 women receive SMP each year.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some

who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

Mr. Wyatt: To ask the Secretary of State for Trade and Industry if she will make a statement on the effects on residents of Sittingbourne and Sheppey of new rights for night-shift workers. [170296]

Mr. Sutcliffe: The Working Time Regulations came into force on 1 October 1998. The regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than six hours.

All night workers should be offered a free health assessment before they start working night and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the regulations. Workers who suffer from problems as a result of working at night, should as far as practicable be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There is no specific data available for night shift workers in Sittingbourne and Sheppey.

Mr. Wyatt: To ask the Secretary of State for Trade and Industry how many residents of Sittingbourne and Sheppey qualify for paid leave entitlements. [170297]

Mr. Sutcliffe: All workers resident in Sittingbourne and Sheppey qualify for paid annual leave entitlements; at least four weeks as set out in the Working Time Regulations. While all women are entitled to 26 weeks ordinary maternity leave, only those who meet the eligibility criteria will be able to claim statutory maternity pay for that period.

All employees in Sittingbourne and Sheppey who are eligible will be entitled to take statutory paternity leave with pay and statutory adoption leave with pay.

Mr. Wyatt: To ask the Secretary of State for Trade and Industry how many residents of Sittingbourne and Sheppey have benefited from a reduction of the working week to 48 hours. [170298]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for Sittingbourne and Sheppey are not available, however it has been estimated that around 400,000 workers resident in the South East stood to benefit from the introduction of the weekly working time limits in 1998.

Christmas Day Working

Mr. Best: To ask the Secretary of State for Trade and Industry what action she has taken to ensure that employers allow workers to celebrate Christmas Day with their families. [170283]

Mr. Sutcliffe: Christmas Day is one of eight bank holidays in the UK each year. Employers are not obliged to give their workers time off on Christmas Day in addition to their paid annual leave, but many do so. Those workers not receiving bank holidays in addition to paid annual leave, can use some of their annual leave entitlement to cover bank holiday periods. The Working Time Regulations provide all workers with four weeks paid annual leave pro rata.

However, the Government always tries to encourage employers to give their workers time off to celebrate Christmas Day and is especially keen for major retailers not to open on this day. The Government supports the Christmas Day (Trading) Bill, which would prevent major retailers opening on this day.

Construction Industry

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will request the Insolvency Service and Small Business Service to carry out a study into the operation of insolvency law and practice in the construction industry to determine whether measures should be taken to protect small businesses from insolvencies among their creditors and customers. [168916]

Mr. Sutcliffe: There are no plans for the DTI to carry out a study of this kind but the Specialist Engineering Contractors' Group has consulted the Department about the possible form of a study it is proposing to carry out in this area. We are yet to hear whether the study is under way but will assist as appropriate.

Consumer Credit Applications

Mrs. Curtis-Thomas To ask the Secretary of State for Trade and Industry what new measures will be introduced by the Office of Fair Trading for improving the fitness checking of consumer credit licence applicants through access to criminal records. [170520]

Mr. Sutcliffe: New procedures for checking criminal records are due to be introduced by the OFT this year. The OFT is currently finalising arrangements for the introduction of these new measures which will be announced later this year.

Consumer Safety

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many people have *(a)* died and *(b)* been injured due to faulty or dangerous consumer goods in each year since 1994, stating the (i) product and (ii) manufacturer or retailer in each instance and (iii) the action taken by her Department. [169167]

Mr. Sutcliffe *[holding answer 28 April 2004]:* Home accident data do not distinguish unsafe products as such, nor the manufacturer or retailer of the products involved. However, research commissioned by the Department on a sample of 11,998 accidents in four

separate years during the 1990s which included follow-up interviews with accident victims found that only 1.6 per cent. of fatal home accidents, 0.4 per cent. of serious injuries and 0.6 per cent. of minor injuries could be attributed solely to a fault with a product, including older products that had not been maintained or serviced properly or which had been used in a damaged condition. This represents approximately 60–70 home accidental deaths and 15,000.

Employment Rights Advice Booklets

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer of 25 March 2004, *Official Report*, columns 962–63W, to the hon. Member for Birmingham, Selly Oak (Lynne Jones), on employment rights booklets, at which of the three meetings of the practitioner group in June, July and October 2002 the members of the group were asked for their views on reducing the number of departmental employment rights advice booklets and leaflets in hard copy. [167281]

Mr. Sutcliffe: The practitioner group met on a number of other occasions. They discussed DTI reducing the number of publications available in hard copy on 19 June 2003.

Estate Agents

Claire Ward: To ask the Secretary of State for Trade and Industry what plans she has to regulate estate agents. [170369]

Mr. Sutcliffe: The Department is currently considering the Office of Fair Trading report on estate agents, which includes recommendations about the future regulation of the industry. We aim to publish a response by 18 June 2004.

EU Enlargement

Keith Vaz: To ask the Secretary of State for Trade and Industry what assessment she has made of the likely effectiveness of the new competition system in Europe after enlargement. [168971]

Mr. Sutcliffe: The new EC Regulation on Competition was drafted with the specific objective of ensuring effective application of competition law across the EU after enlargement. The Commission is committed to reporting on the effectiveness of the new regulation five years after it comes into effect. Both the Commission and the European Competition Network will be monitoring the effectiveness of the new competition system on an on-going basis.

Keith Vaz: To ask the Secretary of State for Trade and Industry how consistency in compliance with new competition rules in Europe will be ensured across the EU after enlargement. [168972]

Mr. Sutcliffe: The National Competition Authorities of all member states are represented on the new European Competition Network which is working to ensure that the new EC Regulation on Competition is applied consistently. The Commission always has the option of taking up any case in which it feels that the ECN are not operating appropriately.

Keith Vaz: To ask the Secretary of State for Trade and Industry what the new competition system in Europe is doing to protect small businesses in local communities from being forced to close as a result of competition from larger businesses. [168973]

Mr. Sutcliffe: There are prohibitions on anti-competitive agreements and the abuse of dominance in competition law at both the EC and UK level. Through these prohibitions, competition law provides remedies to protect all businesses, including small businesses in local communities, from anti-competitive trading practices.

EU Social Chapter

Mr. Wyatt: To ask the Secretary of State for Trade and Industry if she will make a statement on the effects of the EU Social Chapter on the residents of Sittingbourne and Sheppey. [170295]

Mr. Sutcliffe: The residents of Sittingbourne and Sheppey have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to Parental Leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full-time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1,000 employees in total and at least 150 workers in each of the two member states, to establish structures for consulting workers on issues that affect them and;

In addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

Export Licences

Sir Menzies Campbell: To ask the Secretary of State for Trade and Industry if she will list the UK arms export licences to Indonesia approved in 2004. [169153]

Nigel Griffiths: Since 1997 the Government has published an Annual Report on Strategic Export Controls containing details of all UK export licences by destination.

Details of export licensing decisions taken in 2004 will be recorded in the 2004 Report.

Family Friendly Employment Laws

Mr. Best: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of family friendly employment laws in the past 12 months. [170286]

Mr. Sutcliffe: The DTI has collected evidence from a number of sources to help in assessing the impact of the new employment laws which came into force in April 2003.

Between December 2002 and April 2003 fieldwork was carried out for two DTI Work-Life Balance studies. Data was collected from employers and employees to provide a baseline for future evaluation of the impact of the new flexible working law. Details of the results can be found at www.dti.gov.uk/er/emar.

In the first six months after implementation, CIPD and Lovells conducted research into flexible working which indicated that over a quarter (28 per cent) of employers had seen an increase in the total number of requests since April 2003. Seven in ten of the employers surveyed said they were willing to consider flexible working requests from all staff—not just those with children under six. 68 per cent. of employers believed that the opportunity to work flexibly had a positive effect on employee attitudes and morale. Full results are at www.cipd.co.uk.

The Department commissioned questions on flexible working over a number of months in the Office of National Statistics Omnibus survey. The data was collected between September 2003 and February 2004. The results demonstrated that in the last year, around 900,000 parents have asked for a change in their working hours, equating to a quarter of all parents with children under six.

Eight out ten often (77 per cent.) of those requests were granted in full, with a further one in ten (nine per cent.) partly accepted, or a compromise reached.

Since April 2003, the proportion of flexible working requests being declined has nearly halved—from 20 per cent. before April 2003 to 11 per cent. after, which suggests that the regulations have increased employers' willingness to consider requests seriously. The full report is available at www.dti.gov.uk/er/inform.htm.

Data on the impact of the changes to maternity pay and leave, as well as paternity and adoption pay and leave will become available in the summer, extracted from PAYE returns to Inland Revenue due in May.

The Department continues to work with key intermediaries, such as Working Families and Maternity Alliance, to gather evidence through member/supporter surveys. It has also organised a series of roundtable events, currently being held around the country, which are engaging with parents and employers directly. The findings from this ongoing work will feed into the evidence base for a review of the impact of the legislation in 2006.

Holiday Misdescribing

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many complaints were made to the Director General of Fair Trading concerning the misdescribing of holidays by tour operators or travel agents in each year since 1997; how many such complaints were investigated by the Director General of Fair Trading in each year; and how many were upheld in each year. [168869]

Mr. Sutcliffe: The OFT has not kept statistics of the numbers of complaints made to it about misdescriptions of holidays by tour operators or travel agents. In most such cases consumers are in dispute with the operator or agent and will be seeking redress for breach of contract and disappointment. In general they seek advice from their local trading standards service. They can also seek help from the Association of British Travel Agents which offers conciliation and arbitration services to help resolve disputes with its members.

The numbers of consumer complaints made to trading standards departments about misleading claims, lack of availability, or lack of information relating to holidays in the UK and abroad, and, more specifically, about such claims made by travel agents, to 31 December 2002, is as follows:

	Holidays in UK and overseas	*Travel agents*	*Total*
1997	7,244	1,022	8,266
1998	7,234	939	8,173
1999	6,980	1,824	8,804
2000	6,818	1,321	8,139
2001	[1]19,129	1,374	20,503
2002	7,820	1,262	9,082

[1] Complaints in 2001 include a large number of consumer complaints about a single company that was operating a nationwide scam. The company's activities have ceased.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many complaints have been made to the Director General of Fair Trading concerning the conduct of travel agents and travel operators in each year since 1997; how many such complaints were investigated by the Director General of Fair Trading in each year; how many were upheld in each year; and how many, and which, travel agents and travel operators have been banned as unfit to practice by the Director of Fair Trading since 1997. [168870]

Mr. Sutcliffe: The OFT has not kept statistics of the number of complaints made to it about the conduct of travel agents and tour operators. Generally consumers complain to their local trading standards services. While not specifically about the "conduct" of travel agents and tour operators, the total numbers of consumer complaints about holidays in the UK and abroad, and complaints about travel agents, made to trading standards from 1997 until 31 December 2002, are presented in the following table:

	Holidays in UK and overseas	*Travel agents*	*Total*
1997	18,387	2,211	20,598
1998	18,805	1,984	20,789
1999	16,523	3,445	19,968
2000	16,463	3,192	19,655
2001	33,531	3,304	36,835
2002	17,812	2,887	20,699

Members of the Association of British Travel Agents whose conduct is in question are subject to its disciplinary code. The OFT has powers under the Enterprise Act 2002 to prevent conduct, such as breaches of contract or breach of the law, which harms the collective interests of consumers.

The OFT does not have the power to ban travel agents and tour operators. However travel agents or tour operators that offer credit agreements must apply to the OFT for a licence. The OFT considers whether a trader is a fit person to hold a licence and can remove a licence if it regards a trader as no longer fit. Worldscape.Net Limited, an internet package holiday company, was refused a consumer credit licence in 2003.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many *(a)* complaints have been received, *(b)* complaints have been investigated and *(c)* prosecutions have been made under the (i) Package Travel Regulations and (ii) Timeshare Act 1992 in each year since 1992. [169374]

Mr. Sutcliffe: The Department has no enforcement powers in respect of either the Package Travel, Package Holiday and Package Tour Regulations 1992 or the Timeshare Act 1992. We do not investigate individual complaints under either statute.

Generally, consumers complain to their local trading standards service who do have the powers to enforce elements of these Acts. The trading standards service collates statistics of complaints made to them. They are unable to provide figures from this sector which reflect action under specific pieces of legislation.

The Office of Fair Trading maintains a register of returns of convictions under consumer protection legislation. Regrettably, however, the register is currently being upgraded and is incapable of producing accurate figures of the type requested at present. The Office of Fair Trading will write to the hon. Member when this information is accessible.

Maternity Leave

Mr. Hendrick: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Preston have taken 26 weeks maternity leave since 1997. [169669]

Mr. Sutcliffe: Take-up of maternity leave is not recorded centrally. It is possible to make an estimate of the numbers of women taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (since 2003 this has covered the first 26 weeks of leave). Figures for the take-up of SMP are not available on a regional basis, but nationally around 300,000 women receive SMP each year.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

Mr. Neil Turner: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Wigan have taken 26 weeks maternity leave since 1997. [169319]

Mr. Sutcliffe: Take-up of maternity leave is not recorded centrally. It is possible to make an estimate of the numbers of women taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (since 2003 this has covered the first 26 weeks of leave). Figures for the take-up of SMP are not available on a regional basis, but nationally around 300,000 women receive SMP each year.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

Miners' Pension Fund

Tony Wright: To ask the Secretary of State for Trade and Industry what steps the Government is taking to ensure that the Trustees of the Miners' Pension Fund protect *(a)* the pension and *(b)* the bonuses paid from inflation. [168566]

Nigel Griffiths: Members of the Mineworks' Pension Scheme and the British Coal Staff Superannuation Scheme should receive inflation linked increases to both their basic pensions and their bonuses to September 2006 and January 2008 respectively.

National Minimum Wage

Mr. Hendrick: To ask the Secretary of State for Trade and Industry how many workers in Preston have benefited from the national minimum wage. [169671]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Preston. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the National Minimum Wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 uprating of the National Minimum Wage.

Mr. Neil Turner: To ask the Secretary of State for Trade and Industry how many workers in Wigan have benefited from the national minimum wage. [169318]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Wigan. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 uprating of the national minimum wage.

Night-shift Work

Mr. Hendrick: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits to residents of Preston of new rights for night-shift workers. [169668]

Mr. Sutcliffe: The Working Time Regulations came into force on 1 October 1998. The regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than 6 hours.

All night workers should be offered a free health assessment before they start working night and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the regulations. Workers who suffer from problems as a result of working at night, should as far as practicable be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There is no specific data available for night shift workers in Preston.

Mr. Neil Turner: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits to residents of Wigan of new rights for night shift workers. [169321]

Mr. Sutcliffe: The Working Time Regulations came into force on 1 October 1998. The regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than six hours.

All night workers should be offered a free health assessment before they start working night and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the regulations. Workers who suffer from problems as a result of working at night, should as far as practicable be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There is no specific data available for night shift workers in Wigan.

Mr. Meacher: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits to the residents of Oldham West and Royton of new rights for night-shift workers. [170940]

Mr. Sutcliffe: The Working Time Regulations came into force on 1 October 1998. The regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than six hours.

All night workers should be offered a free health assessment before they start working nights and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the regulations. Workers who suffer from problems as a result of working at night should, as far as practicable, be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There is no specific data available for night shift workers in Oldham West and Royton.

Paid Leave Entitlement

Mr. Neil Turner: To ask the Secretary of State for Trade and Industry how many residents of Wigan qualify for paid leave entitlements. [169322]

Mr. Sutcliffe: All workers resident in Wigan qualify for paid annual leave entitlements; at least four weeks as set out in the Working Time Regulations. While all women are entitled to 26 weeks ordinary maternity leave, only those who meet the eligibility criteria will be able to claim statutory maternity pay for that period.

All employees in Wigan who are eligible will be entitled to take statutory paternity leave with pay and statutory adoption leave with pay.

Mr. Hendrick: To ask the Secretary of State for Trade and Industry how many residents of Preston qualify for paid leave entitlement. [169667]

Mr. Sutcliffe: All workers resident in Preston qualify for paid annual leave entitlements; at least 4 weeks as set out in the Working Time Regulations. While all women are entitled to 26 weeks ordinary maternity leave, only those who meet the eligibility criteria will be able to claim statutory maternity pay for that period.

All employees in Preston who are eligible will be entitled to take statutory paternity leave with pay and statutory adoption leave with pay.

Parental Leave

Malcolm Bruce: To ask the Secretary of State for Trade and Industry (1) how many men have *(a)* requested and *(b)* received paternity leave in connection with the birth or adoption of a child born, matched or placed after 6 April 2003; and if she will make a statement on the success of the take-up of this entitlement; [169298]

(2) how many women have *(a)* requested and *(b)* received maternity leave in connection with the birth or adoption of a child born after 6 April 2003; and if she will make a statement on the success of the take-up of this entitlement. [169300]

Mr. Sutcliffe *[holding answer 29 April 2004]:* Take-up of paternity, maternity and adoption leave is not recorded centrally. It is possible to make an estimate of the numbers of mothers taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (SMP) which show that around 300,000 women receive SMP each year.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

It will similarly be possible to estimate the numbers of parents taking paternity or adoption leave based on employer returns to Inland Revenue for payment of Statutory Paternity Pay (SPP) and Statutory Adoption Pay (SAP). Those returns are not due until 19 May 2004 and until the Inland Revenue complete processing them later in the year it will not be possible to provide the figures requested.

Postal Vote

Mr. Coleman: To ask the Secretary of State for Trade and Industry what plans she has to introduce measures to ensure that postal vote ballot forms are efficiently despatched and returned to electoral returning officers in Inner London for the European, Mayoral and Greater London Assembly elections on 10 June; and if she will make a statement. [170271]

Phil Hope: I have been asked to reply.

Under the applicable election rules and regulations, the Greater London Returning Officer has overall responsibility for organising and running the GLA elections (which include the Mayoral election) and, in 2004, the European Parliament elections in the London region, and Constituency Returning Officers in London have responsibility for the issue and receipt of postal ballot papers for both the GLA and European Parliament polls.

The rules stipulate that instructions to the voter should be included on the back of the Declaration of Identity form accompanying each ballot paper sent to postal voters in the GLA and European Parliament elections. Voters will receive a postage paid envelope for the return of their ballot papers by post. They are instructed to return ballot papers to the returning officer without delay by no later than the close of the poll, and have the option of delivering them instead to certain polling stations on polling day.

Product Recalls/Safety

Malcolm Bruce: To ask the Secretary of State for Trade and Industry (1) how many consumer product recalls there were in each year since 1994, broken down by *(a)* item, *(b)* manufacturer or retailer, *(c)* product category, *(d)* cause of recall and *(e)* cost of product; [168977]

(2) how many product recalls in each year since 1994 were a result of *(a)* customer complaints to (i) manufacturers, (ii) trading standards and (iii) other, *(b)* accidents to consumers, *(c)* manufacturers' or retailers' decisions other than in the circumstances of *(a)* and *(b)* and *(d)* other circumstances; [168978]

(3) what estimate she has made of *(a)* the number of companies with recall policies and *(b)* the cost to business of recalling a product. [168979]

Mr. Sutcliffe: This information has not been collected on a regular basis. However research commissioned by my Department into product recall (URN 99/125) estimated that in the period 1990 to 1996 there was an average of 42 consumer product recalls per annum. Over the period electrical goods accounted for 47 per cent. of recalls, non-electrical toys 17 per cent, childcare articles seven per cent., clothing seven per cent., houseware four per cent., furniture four per cent., gas appliances three per cent., personal care products three per cent. and others nine per cent. The main hazards for which recalls were made were electrical 25per cent, choking 15 per cent., fire/overheating 15 per cent., loosening or collapse 13 per cent., fracture nine per cent., electric shock six per cent., sharp object four per cent. and others 14 per cent. There is no corresponding information available about the names of the manufacturers or retailers involved or on the cost of the product.

Customer complaints were the main trigger for 71 per cent. of product recalls, while eight per cent. resulted from contacts made by trading standards officers following complaints made to them by consumers.

The research also shows that two thirds of the companies interviewed had recall policies.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on *(a)* the effectiveness of product recalls and *(b)* what her Department is doing to increase that effectiveness. [168980]

Mr. Sutcliffe: The effectiveness of a product recall depends on a number of factors including the type of product, its value and the way in which the recall is communicated to consumers. In November 1999 the Department, in conjunction with the Confederation of British Industry and the British Retail Consortium, published a guide ("Consumer Product Recall—A Good Practice Guide" URN 99/1172) aimed at helping businesses take prompt action to recall unsafe products from consumers.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many companies have been *(a)* investigated for manufacturing or selling unsafe products and *(b)* prosecuted since 1994; if she will state the (i) manufacturer or retailer and (ii) product in each instance; and how many companies have been prosecuted for failing to withdraw a product, stating the (A) manufacturer or retailer and (B) product in each instance, since 1994. [169148]

Mr. Sutcliffe: The number of prosecutions for breaches of consumer product safety legislation in the period 1 April 1993 to 31 March 2003 totalled 2,184[1].

Further information could only be obtained at a disproportionate cost by polling each of the 220 individual local authority trading standards departments.

[1] *Source:*

Consumer Safety Reports laid under S42 of the Consumer Protection Act 1987.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on implementation of the General Product Safety Directive. [169150]

Mr. Sutcliffe: The Department is in the process of transposing the General Product Safety Directive 2001. This is a difficult process, which we need to get right. It is taking time because of the complexity of some of the new provisions, especially the wording of the last resort power to order product recall. Here we are seeking to ensure that the provision is implemented in a way that is responsive to the needs of consumers while remaining balanced and proportionate to the risk. There have also been delays at the European Commission in providing guidance to support some important practical aspects of the Directive.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry on how many occasions since 1994 a manufacturer has appealed against a decision to recall a product; and in each instance if she will state the *(a)* outcome and *(b)* costs to her Department. [169151]

Mr. Sutcliffe: Recalls in the UK are currently undertaken on a voluntary basis, so the decision whether to recall a product is one for the manufacturer or distributor. The legislation that transposes the revised General Product Safety Directive (2001/95/EC) will introduce a mandatory recall power in the UK for the first time. Following transposition producers will continue to be encouraged to act voluntarily where necessary. There are already powers for enforcement authorities to require companies to withdraw unsafe products from sale.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry on what occasions her Department has *(a)* given information to other countries regarding a product being recalled in the UK, stating the (i) product, (ii) manufacturer or retailer and (iii) the countries notified and *(b)* received information from other countries regarding a product recall, stating the (A) product, (B) manufacturer or retailer and (C) action taken by her Department. [169152]

Mr. Sutcliffe: There are no historic records available on when and whether the UK has notified other countries of a voluntary recall undertaken by producers here or of recalls undertaken overseas and notified to us. However since January 2004 when the revised GPSD (2001/95) requires notification of both voluntary and compulsory measures the UK has received one notification from Germany about a voluntary recall. This concerned a children's jigsaw puzzle presenting a choking hazard. The Department has circulated the alert to the local authority trading standards departments.

Regulatory Impact Assessments

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will estimate the cost of maintaining an up-to-date schedule of regulatory impact assessments, with working lists to the relevant documents. [166453]

Nigel Griffiths: It is estimated that it would cost £1,000 to establish the page and add the Department's current and most recent Regulatory Impact Assessments. Maintenance costs are estimated as £1,200 per annum. The Department's Better Regulation Team has put work in train to create such a schedule on the Departmental website.

Small Businesses

Mr. Hendrick: To ask the Secretary of State for Trade and Industry what steps the Government has taken to help small businesses in Preston since 1997. [169679]

Nigel Griffiths: The Business Link Operator for North and West Lancashire has provided assistance to 3,523 enterprises in the Preston Constituency since 2001. The Small Business Service (SBS) was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 Business Link Operators (seven in the North West) to provide Business Support to small and medium sized enterprises from April 2001. Before this date Government support to businesses was provided through Training and Enterprise Councils and the Small Business Service does not have access to this data.

1,024 of the 3,523 were pre-starts up enterprises, and in addition have provided assistance regarding Investors in people, specialist Business Advice, International, and E-Commerce.

Seventeen companies have received and accepted offers of grant under the Research and Development Scheme (R & D) since 1997 to the value of £2,939,146.

Mr. Neil Turner: To ask the Secretary of State for Trade and Industry what steps the Government have taken to help small businesses in Wigan since 1997. [169316]

Nigel Griffiths: The Business Link Operator for North Manchester has provided assistance to 1,981 enterprises in the Wigan constituency since 2001. The Small Business Service (SBS) was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 Business Link Operators (seven in the North West) to provide business support to small and medium-sized enterprises from April 2001. Before this date Government support to businesses was provided through Training and Enterprise Councils and the Small Business Service does not have access to this data.

The type of assistance provided by the Business Link Operator to the 1,981 enterprises include business finance, environmental, workforce development, international, innovation technology and design, micro support, E-services, high growth, supply chain, and other account management assistance.

Ten companies have received and accepted offers of grant under the Research and Development Scheme (R&D) since 1997 to the value of £530,540.

Sixteen companies have received and accepted offers of grant under the Enterprise Grant Scheme since 1997 to the value of £689,500. The Enterprise Grant Scheme closed from the beginning of April 2004.

Social Chapter

Mr. Hendrick: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits of the EU Social Chapter for the residents of Preston. [169670]

Mr. Sutcliffe: The residents of Preston have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to Parental Leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full-time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1000 employees in total and at least 150 workers in each of the two member states, to establish structures for consulting workers on issues that affect them and;

In addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

Mr. Neil Turner: To ask the Secretary of State for Trade and Industry if she will make a statement on the effect of the EU Social Chapter on the residents of Wigan. [169320]

Mr. Sutcliffe: The residents of Wigan have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to Parental Leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1,000 employees in total and at least 150 workers in each of the two member states, to establish structures for consulting workers on issues that affect them and;

in addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for work force communication and involvement in large firms.

Thin Film Technology

Keith Vaz: To ask the Secretary of State for Trade and Industry what the levy is for thin film technology monitors and televisions imported to the UK; and whether the levy is standardised throughout the EU. [170039]

Mr. Mike O'Brien: The import duty on imports into the EU on thin film technology monitors and televisions is 14 per cent. The Levy is standardised throughout the EU.

Working Time Directive

Mr. Djanogly: To ask the Secretary of State for Trade and Industry how many residents of the Huntingdon constituency have benefited from a reduction of the working week to 48 hours. [170848]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for Huntingdon are not available, however it has been estimated that around 300,000 workers resident in the Eastern region stood to benefit from the introduction of the weekly working time limits in 1998.

Mr. Meacher: To ask the Secretary of State for Trade and Industry how many residents of Oldham West and Royton have benefited from a reduction of the working week to 48 hours. [170942]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for Oldham West and Royton are not available, however it has been estimated that around 100,000 workers resident in Greater Manchester stood to benefit from the introduction of the weekly working time limits in 1998.

Mr. Hendrick: To ask the Secretary of State for Trade and Industry how many residents in Preston have benefited from a reduction of the maximum working week to 48 hours. [169666]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for Preston are not available, however it has been estimated that around 300,000 workers resident in the North West stood to benefit from the introduction of the weekly working time limits in 1998.

Mr. Neil Turner: To ask the Secretary of State for Trade and Industry how many residents of Wigan have benefited from a reduction of the working week to 48 hours. [169323]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for Wigan are not available, however it has been estimated that around 300,000 workers resident in the North West stood to benefit from the introduction of the weekly working time limits in 1998.

Written Answers to Questions

Thursday 6 May 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal and Plant Disease

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs how many outbreaks of each notifiable *(a)* animal and *(b)* plant disease there have been in each of the last 10 years. [165201]

Mr. Bradshaw: The two tables placed in the Library of the House summarise details of outbreaks of each *(a)* notifiable animal and *(b)* plant disease/notifiable pests of plants in each of the last 10 years.

The first table details animal diseases in Great Britain as notifiable under the Animal Health Act 1981.

The second table details outbreaks in England and Wales, as Defra's Plant Health and Seeds Inspectorate are responsible for dealing with outbreaks both in England, and in Wales under a specific plant health concordat.

Animal Fodder

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 19 April 2004, *Official Report*, column 129W, on animal fodder, if she will list the developing countries which exported animal feeding stuffs and cereals into the *(a)* UK and *(b)* EU in 2002. [168796]

Alun Michael: Tables placed in the Library of the House provide details of exports of cereals and feeding stuff for animals to the UK and the EU from developing countries in 2002 as recorded in the UK Overseas Trade Statistics and the equivalent systems of other member states.

Overseas Trade Statistics (and the equivalent systems of other member states are subject to a degree of error. Although the overall level of errors is low, small values are affected disproportionately. Care should therefore be taken when interpreting such data.

Batteries

Rob Marris: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of small, domestic-type batteries were recycled in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [164533]

Mr. Morley *[holding answer 26 April 2004]:* As far as we know, all collected batteries are recycled, but the collection rate is very low. We understand that the UK sold 25,100 tonnes of consumer batteries in 2002 and 125 tonnes were collected separately. This equates to a low collection rate of only 1 per cent.

In 2003, Britannia Zinc recycled 5 tonnes as part of the Bristol Battery Recycling Campaign. All other collected consumer batteries are sent abroad for recycling.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage those using disposable batteries to switch to rechargeable ones. [167748]

Mr. Morley: The environmental case for switching to rechargeable batteries is not straightforward as not all applications are appropriate for rechargeable batteries. The Government are therefore not taking any steps on this matter.

Bovine TB

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research is being undertaken by or on behalf of her Department on bovine TB. [169744]

Mr. Bradshaw: The following table shows the TB research projects currently being funded by Defra (April 2004):

Code	*Research Project*	*Contractor*
SE3004	Multivariate analysis of risk factors affecting tuberculosis incidence in cattle herds—phase 1	Veterinary Laboratories Agency
SE3008	Detection and enumeration of Mycobacterium bovis from clinical and enviromental samples	Veterinary Laboratories Agency
SE3013	Pathogenesis and diagnosis of tuberculosis in cattle—complementary field studies	Veterinary Laboratories Agency
SE3017	Development and evaluation of strain typing methods for Mycobacterium bovis	Veterinary Laboratories Agency
SE3024	Low dose TB infection in cattle: disease dynamics and diagnostic strategies	Queens University Belfast/Veterinary Laboratories Agency
SE3026	Bovine TB transmission in restocked herds: risk factors and dynamics	Warwick University
SE3027	Pathogenesis and immunology of Mycobacterium bovis infection in cattle	Institute of Animal Health
SE3028	The development of improved tests for the diagnosis of Mycobacterium bovis infection in cattle	Veterinary Laboratories Agency
SE3029	An investigation of potential badger/cattle interactions and how cattle husbandry methods may limit these	Central Science Laboratory
SE3030	Application of postgenomics to reveal the basis of virulence, pathogenesis and transmissability of Mycobacterium bovis	Veterinary Laboratories Agency
SE3032	The long term intensive ecological and epidemiological investigation of a badger population	Central Science Laboratory
SE3033	Housing of naturally infected cattle (field reactors) at VLA for immunological and bacteriological analysis	Veterinary Laboratories Agency
SE3107	Develop innovative methods to estimate badger population density	Central Science Laboratory

Code	*Research Project*	*Contractor*
SE3110	A molecular genetic analysis of badger social structure and bovine TB	Central Science Laboratory
SE3116	The economic value in changes in badger populations	Reading University
SE3206	Genome sequence analysis of Mycobacterium bovis	Veterinary Laboratories Agency
SE3208	Generation of vaccine candidates against Mycobacterium bovis	Veterinary Laboratories Agency
SE3209	Testing of vaccine candidates for Bovine Tuberculosis using a low dose aerosol challenge guinea pig model	Veterinary Laboratories Agency
SE3212	Testing TB vaccines in cattle	Veterinary Laboratories Agency
SE3215	Development of immunological assays for the detection of Mycobacterium bovis infection in badgers	Veterinary Laboratories Agency
SE3216	Development and testing of vaccines against badger tuberculosis	Veterinary Laboratories Agency
SE3217	Kinetics of skin test response in bovine TB	Institute of Animal Health
ZF0531	The ecological consequences of removing badgers from an ecosystem	Central Science Laboratory

A full list of Defra's research projects can be found online at: http://www2.defra.gov.uk/research/project_data/Default.asp

Defra is also funding the Randomised Badger Culling Trial and associated research (the Road Traffic Accident Survey in seven English counties and the TB99 Epidemiological Questionnaire), as well as a Gamma Interferon Policy Pilot.

A limited survey of wildlife (badgers, and deer with suspicious lesions) killed on the roads in the Furness Peninsula, Cumbria is also underway.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when she will respond to the Godfrey Report on the Government's tuberculosis strategy. [170134]

Mr. Bradshaw: On 6 April, Defra announced the publication of a report from an independent scientific panel reviewing the progress of the Randomised Badger Culling Trial and associated Defra research, as part of a wider review of Defra's science. The audit panel was chaired by Professor Charles Godfray FRS, director of the Natural Environment Research Council's Centre for Population Biology at Imperial College London, and comprised experts from the fields of veterinary and wildlife population epidemiology, applied statistics and population biology.

The Government will give careful consideration to the complex recommendations of the report. The review's conclusions will inform Defra's wider review of TB strategy. Defra has extended the deadline for the public consultation on the TB Strategy review until 4 June, to allow sufficient time for the assimilation of, and comment on, this report.

BSE

Mr. Waterson: To ask the Secretary of State for Environment, Food and Rural Affairs when it is proposed that the over-30-month scheme for beef will end; and if she will make a statement. [170625]

Alun Michael: The Food Standards Agency (FSA) review of the Over-30-Month rule was completed in July 2003 and recommended that it would be acceptable on public health grounds to replace the rule with BSE testing of cattle in two stages. Cattle born after August 1996 could be allowed into the food chain, after being tested for BSE, with the possibility of complete replacement of the rule from July 2005. Health Ministers are still considering the FSA advice, but it has already been decided that, for practical reasons, cattle born before August 1996 will be permanently excluded from the food chain. We are now unlikely to see any changes to the OTMS before January 2005, due to the legislative process that must take place once a decision has been reached by Ministers.

Carbon Dioxide Emissions

Tim Loughton: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she *(a)* has in place and *(b)* is proposing further to reduce UK emissions of carbon dioxide between 2002 and 2010. [169590]

Mr. Morley: The Climate Change Programme, published in 2000, sets out an integrated package of policies and measures to reduce the UK's emissions of carbon dioxide from all sectors of the economy. Policies in the programme include the Climate Change Levy which is helping to fund measures to promote better energy efficiency in business and the public sector; the UK emissions trading scheme; targets to provide 10 per cent. of the UK's electricity from renewable sources of energy by 2010; the Energy Efficiency Commitment requiring electricity and gas suppliers to help domestic customers to save energy and cut fuel bills and; reforms to vehicle excise duty and company car taxation to support the aims of the European Union (EU) voluntary agreements with car manufacturers to improve fuel efficiency by at least 25 per cent. on 1995 levels by 2008–09.

The Climate Change Programme will be reviewed later this year, which will provide an opportunity to introduce new policies, or strengthen existing ones, if the conclusion is that more needs to be done to keep us on track towards our domestic goal to reduce carbon dioxide emissions by 20 per cent. below 1990 levels by 2010.

The 2003 Energy White Paper set out an ambitious long-term strategy for UK energy policy and real progress has been made towards implementation of the White Paper's commitments. "Creating a Low Carbon Economy—First Annual Report on Implementation of the Energy White Paper", published on 26 April, sets out the progress made to date and summarises the practical steps already taken in pursuit of the long-term goals.

On 26 April, the Government also published its Energy Efficiency Action Plan which details action to meet the energy efficiency commitments set out in the Energy White Paper. The Action Plan sets out a package of policies and measures that are expected to save around 12 million tonnes of carbon by 2010; a 20 per cent. increase on the Energy White Paper's commitment of 10 million tonnes.

Key new measures in the Action Plan include, increasing the activity levels for the Energy Efficiency Commitment (EEC) over the period 2005–08 to be roughly double those under the current EEC, and the EEC to continue to 2011 with a review in 2007; a new commitment by central Government to procure only high standard (top quartile) buildings and; a commitment to consider ways to better communicate about climate change, raising awareness of the links between climate change, energy policy and the choices we make as individuals, businesses and public sector organisations.

Our combined heat and power (CHP) Strategy, published on 26 April, confirmed our belief that CHP has an important role to play in achieving our Energy White Paper aims and our continued aim towards our target of 10 gigawatts of Good Quality CHP capacity in the UK by 2010.

Policies and measures are also being developed at an EU level under the European Climate Change Programme (ECCP). These measures, which include the EU Emissions Trading Scheme, will complement measures being taken at a national level, and reduce emissions across all member states.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what changes she has made to the carbon dioxide reduction target relative to 1990 levels within the National Allocation Plan to implement the EU Emissions Trading Directive following discussions with the DTI. [167753]

Mr. Morley: Government are committed to the key principles for setting the total level of allowances to UK installations as set out in the draft National Allocation Plan (NAP) in January. The key principle of the UK allocation methodology is that the total level of allowances for the first phase will be less than the projected emissions of the UK installations covered by the EU Emissions Trading Scheme. This reduction will be set on the basis that these installations would deliver a further 5.5 million tonnes CO_2 savings by 2010.

We have always said that there may be changes to the total level of allowances, published in the draft NAP in January, as a result of various factors including continued updating and refinements to the energy projections, reclassification of sectors, identification of additional installations and corrections to historical emissions data. The detail of these changes will be set out in the NAP to be published shortly.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assumptions have been made in respect of potential extra cuts in carbon emissions beyond those already anticipated in a business-as-usual scenario in setting the carbon dioxide reduction target relative to 1990 levels within the National Allocation Plan to implement the EU Emissions Trading Directive. [167754]

Mr. Morley: The energy projections used for calculating carbon dioxide emissions are driven by a number of key assumptions, which relate to economic growth, fossil fuel prices and population and industrial output. These assumptions incorporate the projected savings from the UK Climate Change Programme.

The total level of allowances set out in the National Allocation Plan also take into account an additional saving of 5.5 million tonnes of carbon dioxide which emissions trading was envisaged to deliver in the UK's Climate Change Programme by 2010.

In May, the Department for Trade and Industry intends to publish a working paper on the updated emissions projections, the energy and other assumptions underpinning them as they stood for use in the National Allocation Plan to be published shortly.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what weight was given to *(a)* the desired environmental outcome and *(b)* expected energy trends in determining the carbon dioxide reduction target relative to 1990 levels under the EU Emissions Trading Directive. [167756]

Mr. Morley: The EU Emissions Trading Scheme is central to our work to move towards a low carbon economy. In the draft National Allocation Plan, published on 19 January, we demonstrated the UK's commitment to tackling climate change and signalled our plans for an ambitious approach to begin from phase one of the EU Emissions Trading Scheme. The draft plan committed us to reducing UK carbon dioxide emissions by 5.5 million tonnes beyond those measures already set out in the Climate Change Programme and we have no intention of going back on that commitment.

The expected energy trends were incorporated into the baseline for the EU Emissions Trading Scheme and are currently being updated. The total level of allowances to be published in the National Allocation Plan shortly will reflect the most recent energy projections and the UK's commitment to reducing greenhouse gas emissions.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the 20 per cent. cut in carbon dioxide emissions by 2010 she expects to be achieved through reductions in carbon dioxide emissions from the transport sector. [160880]

Mr. Morley: The UK Climate Change Programme, published in November 2000, seeks to reduce emissions from all sectors of the economy. The Programme was intended to be flexible and cost effective and did not set targets for individual sectors.

UK carbon dioxide emissions were around 165 million tonnes of carbon (MtC) in 1990. Reducing emissions by 20 per cent. will correspond to a reduction of around 33 MtC by 2010.

Policies in the Climate Change Programme to reduce emissions from transport include the EU voluntary agreements on carbon dioxide emissions from cars, backed up by changes to company car taxation and vehicle excise duty; the 10 year plan for transport and; sustainable distribution in Scotland and Wales. At the time the Programme was published, it was estimated that these policies could reduce transport emissions by a total of 5.7 MtC below the projected business as usual emissions for 2010 which would have reduced the projected increase in emissions from transport to around 2.5 per cent. above 1990 levels by 2010.

The Government are committed to reviewing the Climate Change Programme later this year, including the measures introduced to reduce transport emissions. The implications of the rolled forward strategy for transport, which the Government expects to publish in the summer after the conclusion of the spending review, will also feed into this review. The Department for Transport is currently consulting stakeholders on the UK's targets for the use of transport biofuels under the Biofuels Directive. Achieving 5 per cent. use of biofuels today would save around £1 million tonnes of carbon per annum—around three per cent. of overall road transport carbon dioxide emissions. To date indications are that the transport sector is not currently on course to deliver the level of carbon savings estimated in the UK Climate Change Programme. Details of this were outlined in the 10 Year Plan Progress Report.

Crop Spraying

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the progress is of her Department's consultation on proposed crop spray buffer zones. [170010]

Alun Michael: The consultation on whether no-spray buffer zones should be introduced between agricultural spray operations and residential areas had a substantial response. I have seen initial papers from officials but all the evidence needs to be considered and the implications of any decision need to be thoroughly thought through. Our priority is to ensure that the right decision is made. It would be counter-productive to rush into making a decision and announce a conclusion as soon as there is something to say.

Disposable Nappies

Mr. Lepper: To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department has commissioned on the potential impact on household waste volumes of introducing charges based upon the volume or weight of domestic waste produced by each household, with particular reference to disposable nappy volumes; and if she will make a statement. [168778]

Mr. Morley: The Government have no plans for the introduction of a national tax, or charge, on household waste. The Strategy Unit Report, "Waste not, Want not", recommended that local authorities who wish to take forward household incentive schemes to help reduce waste amounts and increase recycling, should be allowed to do so. In response to this recommendation work has been carried out to examine the impact of household incentive schemes. This work has looked in particular at the practicalities of operating any such schemes and how potential disadvantages might be overcome.

"Waste Not Want Not" also recommended that the Waste and Resources Action Programme (WRAP) should take forward work supporting re-usable nappy schemes. The aim of this work, now under way, is to achieve an average diversion of 225 kg/year per participating household by 2006. The scheme seeks to reach 550,000 households, equivalent to 24 per cent. of households with children aged 0–3 years. This would reduce arisings by a total of 200,000 tonnes over three years.

Mr. Lepper: To ask the Secretary of State for Environment, Food and Rural Affairs what waste reduction targets have been set for the UK by European directives and regulations; what penalties could be incurred for failure to meet those targets; and what assessment has been made of the contribution of a reduction in the numbers of disposable nappies being sent to landfill to achieving those targets. [168790]

Mr. Morley: There are no European directives or regulations which set UK waste reduction targets.

The UK targets under the Landfill Directive are to reduce the amount of biodegradable municipal waste sent to landfill to 75 per cent. of 1995 levels by 2010, 50 per cent. by 2013 and 35 per cent. by 2020 (using the four-year derogation period). Failure to reach these targets could result in the UK being fined up to £500,000 per day.

In its report "Waste not, Want not", the Strategy Unit estimated that in 2000–01 nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes.

The report recommended that the Waste and Resources Action Programme (WRAP) should take forward work supporting re-usable nappy schemes to aim to reach 550,000 households with the aim of reducing arisings by a total of 200,000 tonnes over three years. This work is currently under way and will help in reducing the amount of waste the UK produces.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has received a copy of the recent report from the Women's Environmental Network on the environmental and economic cost to the national health service of the use in and promotion through NHS facilities of disposable nappies; and if she will make a statement. [168920]

Mr. Morley: The Department has received a copy of the Women's Environmental Network report.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to develop co-ordinated strategies with officials from the Department of Health and the national health service for the reduction in the number of disposable nappies going to landfill; and if she will make a statement. [168935]

Mr. Morley: In its report, "Waste not, Want not", the Strategy Unit estimated that in 2000–01, nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes.

The report recommended that the Waste and Resources Action Programme (WRAP) take forward work supporting re-usable nappy schemes to aim to reach 550,000 households with the aim of reducing arisings by a total of 200,000 tonnes over three years. This work is currently under way.

As well as supporting new re-usable nappy businesses, the WRAP programme will also undertake work with health trusts, hospitals and professionals on re-usable nappies. It is a matter for the individual maternity units and trusts, in consultation with women and their families using the services, to decide on the practicalities of adopting real nappy schemes.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs when officials of her Department last met representatives of the Nappy Alliance to discuss disposable nappies; what action suggestions arose from that meeting; and what progress has been made in implementing them. [168944]

Mr. Morley: Officials from the Department has not met representatives of the Nappy Alliance to discuss disposable nappies.

Energy Efficiency

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how much money was spent on grants to aid energy efficiency in *(a)* Lancashire, *(b)* Chorley and *(c)* the North West in each of the last three years. [161243]

Mr. Morley: Defra currently provides grant funding for energy efficiency through four main routes. These organisations or programmes undertake work at a national or UK level often demand led and with no specific levels of funding attributed to particular regions.

The Carbon Trust—to support and promote energy efficiency and low carbon innovation for business and public sector.

The Energy Saving Trust—to support and promote energy efficiency in the domestic sector.

The Community Energy programme—capital and development funding to refurbish existing and install new community heating schemes.

The Warm Front programme—to provide energy efficiency measures to the vulnerable.

The funding made available by my Department to support and promote efficiency measures in each of the last three years is of the scale set out as follows:

	£ million
2001–02	256
2002–03	225
2003–04	[1]243

[1] Budget

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason she has not met the commitment given in paragraph 3.49 of the Energy White Paper of February 2003 to publish an implementation plan on energy efficiency within one year. [165277]

Mr. Morley: The principal reason for the delay in publication of the Energy Efficiency Implementation Plan was to allow it to be published alongside the First Annual Report of the Energy White Paper.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what studies she has undertaken on the numbers of new jobs which implementing in full the energy efficiency targets contained within the Energy White Paper would provide by 2020. [165278]

Mr. Morley: No specific studies have been undertaken by the Department on the numbers of new jobs that might be created through the implementation of the energy efficiency goals set out in the Energy White Paper. However, in order for the White Paper goals to be met, a significant expansion of energy efficiency industry capacity would be required.

Mr. Ben Chapman: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Wirral, South have benefited from the Warm Front and Home Energy Efficiency schemes. [170272]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 1,600 households in Wirral, South received assistance from the scheme.

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what measures her Department is undertaking to reduce the level of domestic energy consumption in the United Kingdom. [169771]

Mr. Morley: 'Energy Efficiency: The Government's Plan for Action' published on 26 April 2004, sets out how the Government aims to cut carbon emissions by an 12 million tonnes through energy efficiency measures across all sectors by 2010.

In UK households, we have announced a new aim to deliver annual savings of 4.2 million tonnes of carbon by 2010. Measures to achieve this include:

The Energy Efficiency Commitment (EEC)—we intend the activity levels for EEC over the period 2005–08 to be roughly double those under the current EEC, and the EEC to continue to 2011, possibly with changes in the way in which it is delivered. We anticipate that the EEC will continue at the same higher level to 2011, subject to its continuing cost effectiveness in relation to other carbon abatement options and value for money for end consumers;

Updating the Building Regulations in 2005, thus raising standards of all new and refurbished buildings, not just households. Provisions for higher boiler standards will come into force in April 2005. Energy surveys and certification of all buildings, will be among the measures introduced to implement the Energy Performance of Buildings Directive;

A major new training scheme for heating installers, is to precede the revision of the boiler provisions in the Building Regulations in 2005;

In the social sector, social landlords will continue to carry out improvements to the heating and insulation of their housing through the Decent Homes programme. The Warm Front grant programme will continue to tackle fuel poverty by installing heating and other energy efficiency measures;

Fiscal incentives already reduce the cost of professionally installed insulation. Budget 2004 announced additional economic incentives for energy efficiency, including tax relief for landlords installing insulation, and a reduced rate of VAT on ground-source heat pumps;

Negotiating rising standards for energy using appliances via EU-wide agreements and policy instruments. Also, improving product standards, with negotiations underway on the Eco-design of Energy Using Products Directive;

Grants to support community heating (the Community Energy Programme) and small-scale renewable generation (Clear Skies and the major photovoltaic demonstration programme);

The Energy Saving Trust's information and advice programmes for households and local authorities;

There will also be enhanced emphasis on communicating the links between climate change and energy efficiency and a stronger emphasis on communicating the reality of climate change, raising public awareness of the links between climate change and energy.

Mr. Neil Turner: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Wigan have benefited from the home energy efficiency scheme, Warm Front. [169366]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 2,400 households in Wigan received assistance from the Scheme.

Mr. Hendrick: : To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Preston have benefited from the home energy efficiency scheme, Warm Front. [169684]

Mr. Morley: Between the launch of the scheme in June 2000 and the end of March 2004, approximately 4,000 households in Preston received assistance from the scheme.

Jim Dobbin: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Heywood and Middleton have benefited from the home energy efficiency scheme, Warm Front. [168436]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 2,400 households in Heywood and Middleton received assistance from the scheme.

Helen Southworth: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Warrington South have benefited from the Home Energy Efficiency and Warm Front Schemes. [168705]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 1,600 households in Warrington South received assistance from the Scheme.

James Purnell: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Stalybridge and Hyde have benefited from the Home Energy Efficiency and Warm Front Schemes. [168768]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 2,000 households in Stalybridge and Hyde received assistance from the Scheme.

Environmental Protection

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the contribution the Are you doing your bit campaign has made to the Government's efforts to achieve its target of a 20 per cent.reduction in carbon dioxide emissions by 2008 to 2012. [168807]

Mr. Morley: The Are you doing your bit campaign was a successful stage in the Government's effort to raise the general level of public awareness of environmental issues. Research in 1998 showed initial campaign activity had proved effective. Further research in 1999 showed that 9 out of 10 people recognised the campaign and 7 out of 10 understood that everyone should do their bit. A further 9 out of 10 people said they already carried out the simple actions promulgated by the campaign.

It did not, nor was it designed to, radically change behaviour or business practice across society and in any case it would not be possible to positively link the impact of any one information source with levels of carbon dioxide emissions for the UK as a whole.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how much Government funding was available in each of the past three years to the *(a)* Energy Saving Trust and *(b)* Going for Green charity. [168811]

Mr. Morley: The information requested is in the tables.

(a) Energy Saving Trust funding made available by the department over the last three years is as follows.

	£ million
2001–02	24.3
2002–03	23.4
2003–04	24.6 (Budget)

Figures for 2002–03 and 2003–04 include funding for the Housing Energy Efficiency Best Practice programme.

(b) Government funding is provided to the environmental charity ENCAMS annually. The funding supports ENCAMS' work on a range of local environmental quality issues, including the Tidy Britain Group and Going for Green.

Funding over the last three years is as follows:

	£
2001–02	3,762,000
2002–03	[1]4,597,000
2003–04	3,574,000

[1] Defra allocated an additional £1 million to local authorities through ENCAMS for the Local Environmental Quality Pathfinder Programme that forged partnerships between local authorities and the local community. Some of the projects developed reduced fast food litter, railway land litter and schools litter.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the decision not to renew the Government's Are you doing your bit campaign; and what funding was provided for the www.doingyourbit.org.uk website, since the campaign began. [168812]

Mr. Morley: The Secretary of State will not be making a statement on the Are you doing your bit campaign.

Detailed consideration is being given to the options for future communications activity in this area. Thinking will be informed by the current sustainable development consultation, 'Taking it on', launched 21 April 2004.

The campaign website was funded from within the overall campaign budget. No specific records were kept for the website element of the campaign.

Farming

Mr. Hendrick: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the farm income levels for farmers in Preston in the past five years. [169685]

Alun Michael: Due to the small number of farms in Preston, there is no robust data available on farm incomes for farmers in that area over the last five years. Net farm income for farms in the EU north region and for England over the last five years are show in the following table.

Net Farm Income

	EU north region	*England*
1998–99	8,272	10,359
1999–2000	8,659	7,981
2000–01	12,456	9,886
2001–02	16,457	13,558
2002–03	18,512	16,435

Source:
Farm Business Survey

Net farm income is the return to the principal farmer and spouse for their manual and managerial labour and to the tenant-type capital of the business.

Mr. Borrow: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on farm income for farmers in South Ribble in the past five years. [171286]

Alun Michael: Due to the small number of farms in South Ribble, there is no robust data available on farm incomes for farmers in that area. Net farm income for farms in the EU North Region and for England over the last five years are show in the following table.

Net farm income

	EU North Region	*England*
1998–99	8,272	10,359
1999–2000	8,659	7,981
2000–01	12,456	9,886
2001–02	16,457	13,558
2002–03	18,512	16,435

Source:
Farm Business Survey

Net farm income is the return to the principal farmer and spouse for their manual and managerial labour and to the tenant-type capital of the business

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs how much the average *(a)* severely disadvantaged area (SDA) and *(b)* non-SDA payment will be in Cumbria in each year from 2005 to 2013. [169096]

Alun Michael: No estimates are available for the allocation of historic subsides to Single Farm Payment regions at county level. So it is not possible to determine the historic element of the payment during the transition period.

Fertilisers

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 28 April 2004 reference 166842, what assessment she has made of the alternative fertilisers used in countries that have banned ammonium nitrate fertilisers. [170585]

Mr. Morley: The soil and climatic conditions in the countries that have banned ammonium nitrate (AN) fertilisers—China, Colombia, Algeria and the Philippines—are very different from those experienced in the UK. One of the principal alternative fertilisers used in these countries is urea. Urea-based fertilisers give rise to greater ammonia emissions than AN. A switch to urea could, therefore, put at risk the UK's ability to meet internationally-agreed ammonia reduction targets. Crops cannot use urea directly. It must first be converted to ammonium and to nitrate nitrogen in the soil before being taken up by plants. As a result, urea can, in cold conditions, be slower acting than AN. The loss of ammonia from urea can also reduce crop yields, thus adding to the cost of crop production. As mentioned in my previous answer, we have an ongoing dialogue with industry to compare how well other nitrogen fertilisers perform in our soil and climatic conditions and their potential environmental impacts.

Flooding

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her written statement of 20 April 2004, *Official Report*,

columns 7–8WS, on flood defences, what options she is assessing for further reforms to improve accountability and effectiveness. [169850]

Mr. Morley: Implementation of the conclusions of the Flood and Coastal Defence Funding Review represents a significant reorganisation and streamlining of the service. Following the introduction of Flood Defence grant-in-aid to the Environment Agency on 1 April 2004, we are developing output and performance measures to monitor the efficiency and effectiveness of the Agency in reducing flood risk and to ensure optimal allocation of funding. In addition, the Agency are developing targets for reducing overheads associated with processing flood defence projects, which will be included in the Agency's Corporate Plan. We are also developing new procedures for monitoring the effectiveness of Internal Drainage Boards.

As announced in March 2003, we will be undertaking a formal review of the effectiveness of the funding review conclusions after three years effective operation. We intend to commence this review in 2007, at which time we will consider whether any further reforms to the service should be considered. We will keep stakeholders fully involved in this work.

Tim Loughton: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to meet hon. Members representing areas where properties or agricultural land are or might become at risk from flooding from the sea or from tidal inland waterways to discuss the Government's policy on global warming. [169583]

Mr. Morley: The recently published Foresight Report on flood and coastal defence will provide guidance for policy development in relation to managing increasing flood risk in the longer term, including the impact of climate change. I held briefing for hon. Members on the 22 April for this purpose. I will also be meeting the All Party Parliamentary Flood Prevention Group on 26 May. The Foresight Report is on the agenda.

Since the 1980s the Department has provided guidance to operating authorities to make allowance for climate change in the planning and appraisal of new and replacement flood and coastal defence works. This guidance has been regularly reviewed in the light of the latest research findings and supplementary guidance was most recently issued in 2003. The aim is to take a suitably precautionary approach whilst not diverting funds unnecessarily from the solution of problems that affect people today. The approach and guidance will be further reviewed for the new Strategy for Flood and Coastal Erosion Risk Management which is expected to be completed by early next year.

Fuel Poverty

Mr. Best: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the progress of the Government's commitment to end fuel poverty by 2010. [167769]

Mr. Morley: The UK Fuel Poverty Strategy Second Annual Progress Report was published recently, providing an update of progress during the last year. The most recent estimates show a fall in the number of households in fuel poverty in the UK to 2.25 million in 2002, from around 3 million in 2001. The number of fuel poor households in England in 2002 is estimated to have fallen to around 1.4 million.

The Fuel Poverty Implementation Plan, due to be published in the summer, will set out proposals for achieving our target to eradicate fuel poverty, as far as reasonably practicable, by 2010 for all vulnerable households in England and 2016 for all households in England.

Global Warming

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what evaluation she has made of experiments to use oceans to absorb more carbon dioxide by spraying them with iron filings and the impact this will have on global warming. [169239]

Mr. Morley: Experimental studies of iron fertilisation have so far been carried out on a relatively small scale, and computer models are needed to estimate the consequences of large scale fertilisation. Modelling studies of iron fertilisation are currently performed as part of Defra's Climate Prediction Programme at the Hadley Centre.

Iron fertilisation encourages extra growth of phytoplankton, which increases the uptake of carbon dioxide from the water and subsequently the atmosphere. Preliminary studies have indicated that even wide spread and continuous iron fertilisation would reduce levels of atmospheric carbon dioxide by only a small fraction, making it unlikely that there would be a significant impact on global warming. In addition, the consequences of such fertilisation on marine ecosystems could be severe.

Local Authority Smallholdings

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Department has to propose amendments to the law with regard to the reference by a county council of its decision to dispose of all or part of its smallholdings. [170137]

Alun Michael: The operation and management of county council smallholdings estates by local authorities is regulated by the Agriculture Act 1970. I can confirm that we have no plans to amend this Act.

National Allocation Plan

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent the requirements of the Integrated Pollution Prevention and Control Directive with regard to energy efficiency have been taken into account in the design of the UK's National Allocation Plan. [167761]

Mr. Morley: The energy projections, used as the basis for calculating the allocation of allowances under the National Allocation Plan, take into account carbon dioxide emission reductions resulting from the Integrated Pollution Prevention and Control Directive. Therefore the allocation methodology used reflects the reductions in carbon dioxide emissions resulting from

the requirements of the directive. A working paper on the updated energy projections will be published by the Department for Trade and Industry in May.

Under the directive, member states may choose not to impose Integrated Pollution Prevention and Control energy efficiency provisions on installations covered by the EU Emissions Trading Scheme. We are currently deciding how we intend to use this provision in the UK.

Orchards

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the number of *(a)* animal and *(b)* plant species that will be affected by the loss of traditional orchards. [168158]

Alun Michael: Defra regards traditional orchards as an important habitat for a wide range of species including wild flowers, lichens, insects and birds, and funds their conservation through the Countryside Stewardship Scheme.

Quality Parish Councils

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which *(a)* parish and *(b)* town councils have achieved the status of Quality Parish Councils, in the last year broken down by area. [170579]

Alun Michael: *(a)* There are 17 parish councils that have achieved Quality Status in the last year. By area they are:

Name of council	*Area*
Holywell-cum-Needingworth Parish Council	Cambridgeshire
Poynton Parish Council	Cheshire
Upton by Chester Parish Council	Cheshire
Winsford Parish Council	Cheshire
Stokenham Parish Council	Devon
St. Osyth Parish Council	Essex
Hamble-le-Rice Parish Council	Hampshire
Headley Parish Council	Hampshire
Wootton Bridge Parish Council	Isle of Wight
Asfordby Parish Council	Leicestershire and Rutland
Braunstone Parish Council	Leicestershire and Rutland
Lawley and Overdale Parish Council	Shropshire
Selattyn and Gobowen Parish Council	Shropshire
Hurstpierpoint Sayers Common Parish Council	Sussex
Ruckfield Parish Council	Sussex
Curdworth Parish Council	Warwickshire and West Midlands
Melksham without Parish Council	Wiltshire

(b) There are 28 town councils that have achieved Quality Status in the last year. By area are:

Name of council	*Area*
Weston-super-Mare Town Council	Avon
Keynsham Town Council	Avon
Leighton Linslade Town Council	Bedfordshire
Newbury Town Council	Berkshire
Buckingham Town Council	Buckinghamshire
Huntingdon Town Council	Cambridgeshire
Lvybridge Town Council	Devon
Cullompton Town Council	Devon
Tavistock Town Council	Devon
Exmouth Town Council	Devon
Kingsbridge Town Council	Devon
Sedgefield Town Council	Durham
Great Baddow Town Council	Essex
Witham Town Council	Essex
Loughton Town Council	Essex
Maldon Town Council	Essex
Wivenhoe Town Council	Essex
Brading Town Council	Isle of Wight
Edenbridge Town Council	Kent
Halewood Town Council	Merseyside
Cartenton Town Council	Oxfordshire
Oswestry Town Council	Shropshire
Sudbury Town Council	Suffolk
Seaford Town Council	Sussex
Burgess Hill Town Council	Sussex
East Grinstead Town Council	Sussex
Crowborough Town Council	Sussex
Whitnash Town Council	Warwickshire and West Midlands
Caine Town Council	Wiltshire

Pesticides

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to make a statement on the effectiveness of the Pesticides Voluntary Initiative. [169487]

Alun Michael: The Government regularly reviews progress with the Voluntary Initiative on pesticides and reports its broad conclusions in the Budget and Pre-Budget Report. In Budget 2004 the Government confirmed the view that the Initiative will achieve the most effective way of reducing the environmental impacts of pesticide use provided it is fully implemented. However, to cover the potential case that the Initiative might fail to deliver the required environmental benefits within a reasonable time scale, the Government continues to keep the options for a tax or economic instrument under review. This remains the Government's position.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what regulation of sprayers her Department undertakes under the Pesticides Voluntary Initiative. [170135]

Alun Michael: The Voluntary Initiative on Pesticides includes a National Sprayer Testing Scheme. This tests spray equipment to ensure that it can be used safely and effectively. The Scheme had a target to test 5,000 sprayers by 31 March 2004 and, while final figures are not yet in, appears to have achieved that level of uptake.

The Initiative also includes projects to develop and promote best practice in the use of spray equipment. In particular, the National Register of Sprayer Operators helps pesticide users to keep up to date with good practice.

As its name suggests, the Voluntary Initiative is not part of pesticide regulation as such but the Government wishes to see the Initiative succeed and has urged pesticide users to take part.

Pharmaceutical Crops

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many licences for the planting of pharmaceutical crops have been applied for in the United Kingdom in each of the last 10 years; [167832]

(2) what measures have been taken to prevent contamination of other crops from pharmaceutical crops being tested in the UK. [167834]

Mr. Morley: Consent under the deliberate release legislation would be required for the planting of genetically modified crops producing pharmaceuticals, but no applications have been received, and therefore no consents have been issued. As a result, there has been no requirement to take measures to prevent contamination of other crops.

Public Sewers

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 10 March 2004, *Official Report*, column 1538W, what assessment her Department has made of the adequacy of provision of the data maintained by the Environment Agency on the volume of hazardous liquid waste disposed directly to public sewers. [168369]

Mr. Morley: The data collected and made available by the Environment Agency are designed to allow it to regulate effectively such discharges of liquid waste to public sewers in order to protect the aquatic environment from adverse impacts, and to comply with relevant EU Directives and other relevant legislation.

The Department continues to work closely with the Environment Agency and the sewerage industry on the adequacy of data relating to sewers. A new Direction to Sewerage Undertakers has recently been issued requiring the sewerage industry to report to the EA information on emissions from sewage treatment works, for the purposes of the Pollution Inventory, against a revised list of substances.

Raptors

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what consultation she has with *(a)* farmers and *(b)* landowners prior to the release of raptors on their land. [169456]

Mr. Bradshaw *[holding answer 6 May 2004]:* I have had no direct consultations with farmers or landowners about the release of raptors on their land. Re-introduction projects for conservation reasons have been carried out in England for red kite, osprey and barn owl. These projects have involved English Nature (the Government's statutory conservation advisor), voluntary conservation bodies and private individuals. In all cases, those involved have obtained the permission of farmers and landowners before any birds were released. English Nature supports only those re-introduction projects that conform to internationally agreed guidelines produced by the World Conservation Union (IUCN). This includes the requirement that 'the programme should be fully understood, accepted and supported by local communities'.

Refrigerator Decommissioning

Mr. Page: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of decommissioning work on refrigerators is being carried out in the UK; and which counties are carrying out this work in the UK. [165868]

Mr. Morley *[holding answer 19 April 2004]:* Approximately 72 per cent. of refrigerators were treated in England and Wales in 2003; the remainder were exported for treatment in Germany, the Netherlands and Denmark.

Decommissioning of refrigerators through recovery and collection of ODS took place in the following counties and metropolitan areas in England and Wales: Shropshire, Greater Manchester, Derbyshire, Hertfordshire, Middlesex, Wiltshire, Gwent, Norfolk, Powys, Essex, East Sussex, West Midlands, Dyfed, County Durham.

Sea Defences

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on her policy for maintaining sea defences in the Blackwater and Crouch estuaries; [168037]

(3) what her policy is on the payment of compensation to landowners affected by managed realignment; [168039]

(2) what estimate she has made of the cost of maintaining sea walls in *(a)* the Blackwater and Crouch estuaries and *(b)* Essex; [168038]

(4) if she will list the consents necessary to allow landowners to maintain sea walls; [168040]

(5) what assessment she has made of the state of repair of sea walls in the Maldon and East Chelmsford constituency; [168041]

(6) if she will list the length of sea defence in *(a)* the Maldon and East Chelmsford constituency and *(b)* Essex which falls into each of the four categories assigned by the Environment Agency for assessing the economic case for continued maintenance; [168042]

(7) if she will make a statement on the exit strategy for withdrawing from maintenance of uneconomic sea walls; [168043]

(8) if she will make a statement on the division of responsibility for maintenance of sea defences between land-owners, local authorities and the Environment Agency; [168044]

(9) if she will make a statement on the division of responsibility for maintenance of main drainage ditches between land-owners, local authorities and the Environment Agency. [168045]

Mr. Morley: Flood defence works funded by the taxpayer are supported on the basis of a full analysis of economic, environmental and social considerations and a full appraisal of benefits and costs. Doing nothing, maintaining the current line of defence and managed realignment are among the strategic options that Defra's guidance indicates should be considered before establishing a preferred flood management policy for any particular length of defence.

The Environment Agency (EA), with Defra's backing, is now promoting a comprehensive series of Essex estuary strategies that will provide a better understanding of how future flood risk can be reduced in the face of pressures such as sea level rise. The

strategies are being developed over a number of years. The Roach and Crouch Estuary Flood Management Strategy should be launched later this summer, while Blackwater and Colne Estuary Flood Management Strategy is due to go to public consultation later this year. A strategic study on the Stour and Orwell tidal estuaries has just been started.

Where there is insufficient justification for the continued maintenance of an uneconomic sea wall, the EA will pursue a process to withdraw from publicly funded maintenance, as soon as possible. To ensure that the EA act in a reasonable way, they must pay due regard to my Department's policy guidance, and the Human Rights Act.

The EA estimates that the overall cost of maintaining sea walls in the area covered by the Essex Local Flood Defence Committee in 2004–05 is £1.266 million. Approximately 24 per cent. of this is for maintenance works in the Maldon and East Chelmsford constituency.

The EA's assessment of the state of repair of the sea walls in Maldon and East Chelmsford is limited to the Dengie Peninsula from Bradwell to Burnham. Data for the estuary sea walls has not yet been collected. However, visual inspections of these walls are undertaken on a regular basis and areas requiring repair are included in the annual maintenance programme.

The EA will, over the coming years, be categorising its defences into the four categories to which the hon. Member refers in line with the Shoreline Management Plan, and the Estuary Strategies when these are complete. Although the primary responsibility for the maintenance of both sea defences and land drainage watercourses rests with the riparian landowner, the EA has permissive powers to maintain sea defences and has taken responsibility for the majority of them. Local authorities have similar permissive powers and maintain sea defences as part of their coast protection activities.

To maintain sea walls landowners need the formal consent of the EA, in accordance with the Environment Agency Land Drainage and Sea Defence Byelaws, made under Schedule 25 (5) of the Water Resources Act 1991. Local authority consent may also be required depending on the nature and extent of the maintenance work to be carried out. Other consents such as assent from English Nature under the Wildlife and Countryside Act may also be necessary. Individuals should contact the EA in the first instance to establish what consents might be needed. Consent or permission from the owner of the sea wall will be required, where the person wishing to carry out maintenance is not already the owner of the specific sea wall to be maintained.

Where there is no legal requirement to provide flood defence there is similarly no provision for compensation to offset the disadvantage suffered by any landowners that may be flooded as a result of a change in flood management practices. However, if a landowner were refused consent to maintain their own defence on the grounds that allowing them to protect their land would be contrary to the public interest, for example for nature conservation reasons, a case for compensation might arise. There is no general provision for compensation to landowners in cases where an operating authority stops maintaining a seawall and the EA's Exit Strategy should ensure that interested parties are fully aware of their options. Landowners and occupiers must be given enough notice to enable them to make business decisions for the future.

Sustainable Development

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason she did not make her announcement of 21 April 2004 on sustainable development by means of a oral statement to the House. [169859]

Mr. Morley *[holding answer 30 April 2004]:* The Secretary of State announced the consultation 'Taking it on—developing UK sustainable development strategy together', on 21 April, to the House by means of a written statement.

On the same day both the Secretary of State and I spoke at the launch event for the consultation. We were delighted to be joined by ministerial colleagues: Charles Clarke, the Secretary of State for Education and Skills; Hilary Benn, the Secretary of State for International Development; Bill Rammell of the Foreign and Commonwealth Office, Angela Smith of the Northern Ireland Office, Yvette Cooper of the Office of the Deputy Prime Minister and Carwyn Jones from the Welsh Assembly Government; as well as Jonathon Porritt, the Chair of the Sustainable Development Commission and Klaus Topfer, the Executive Director of the UN Environmental Programme.

We are greatly looking forward to considering the responses we receive to the consultation. The consultation closes on 31 July 2004.

EU Directives

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had recently with the industries concerned in the implications of the introduction of the *(a)* Waste Electrical and Electronic Equipment and *(b)* End of Life Vehicles directives. [167890]

Mr. Morley: The Government has been in ongoing talks with affected stakeholders on both of these Directives.

The second consultation on implementation of the WEEE Directive concluded in March. 219 responses were received, and a summary of these can be found at www.dti.gov.uk/sustainability. Further, the Government recently completed a series of large workshops, in eight UK regions, to raise awareness amongst stakeholders. The Government is continuing discussions with all stakeholders in frequent meetings with industry.

The last of 4 public consultations on the ELV Directive closed on 30 March. The Consultation Document set out the Government's proposals for a system, drawn up after extensive discussions with the industry sectors involved, to meet the "free take-back" and recycling requirements of the Directive. 65 responses to the consultation were received. These are now being assessed with a view to finalising the Regulations before presentation to Parliament.

Water Companies

Mr. Hepburn: To ask the Secretary of State for Environment, Food and Rural Affairs which water companies have been found to have been providing water not fit for human consumption in each year since 1997; and what action was taken against them. [168876]

Mr. Morley: It is an offence under section 70 of the Water Industry Act 1991 for a water company to supply water unfit for human consumption, subject to a due diligence defence. The meaning of water "unfit for human consumption" is not defined in the Act and is a matter for the courts to decide on a case-by-case basis. It is usually taken to mean that the water has caused ill health or is rejected for drinking by consumers on the grounds of taste, smell or appearance.

All incidents affecting drinking water quality are investigated by the Drinking Water Inspectorate and proceedings are instituted as appropriate. Since 1997 10 companies have been prosecuted for supplying water unfit for human consumption in respect of 29 separate incidents, with six further incidents taken into consideration. Eight companies have also been cautioned in respect of 16 incidents.

Date of incident	*Date of court case*	*Company*	*Offence*
20 February 1997	20 March 1998	Yorkshire Water	Section 70 Supply of water unfit (discoloured)
6 May 1997	5 November 1998	North West	Section 70 Supply of water unfit (discoloured)
16 May 1997	1 April 1998	Dwr Cymru	Section 70 Supply of water unfit (discoloured)
12 June 1997	10 June 1998	Dwr Cymru	Section 70 Supply of water unfit (discoloured)
24 July 1997	26 January 2000	Thames Water	Section 70 supply of water unfit (discoloured)
25 July 1997	15 July 1998	Dwr Cymru	Section 70 Supply of water unfit (low pH & discoloured)
31 July 1997	19 October 1998	Severn Trent	Section 70 Supply of water unfit (discoloured)
1 October 1997	5 October 1998	Northumbrian Water	Section 70 Supply of water unfit (discoloured)
22 October 1997	17 May 1999	South West	Section 70 supply of water unfit (discoloured)
31 October 1997	6 April 1999	South West	Section 70 Supply of water unfit (discoloured)
14 November 1997	15 November 1999	North West	Section 70 supply of water unfit (discoloured)
15 December 1997	23 April 1999	Severn Trent	Section 70 Supply of water unfit (discoloured)
16 December 1997	5 January 1999	Anglian	Section 70 Supply of water unfit (discoloured)
18 December 1997	3 November 1999	North West	Section 70 supply of water unfit (discoloured)
19 December 1997	11 January 1999	Anglian	Section 70 Supply of water unfit (untreated river water)
29 January 1998	16 August 1999	South East	Section 70 supply of water unfit (discoloured)
6 March 1998	5 November 1999	South East	Section 70 supply of water unfit (discoloured)
21 April 1998	6 October 2000	North West	Section 70 supply of water unfit (discoloured)
8 May 1998 1 June 1998 2 July 1998 5 November 1998	10 December 2000	Yorkshire Water	Section 70 supply of water unfit (discoloured) (Four separate incidents)
June/July 1998	12 March 2001	Mid Kent Water	Section 70 supply of water unfit (discoloured)
13 December 1998	25 January 2000	North West	Section 70 supply of water unfit (discoloured)
13 January 1999	13 October 2000	North West	Section 70 supply of water unfit (taste and odour)
February 1999	11 January 2002	Yorkshire	Section 70 supply of water unfit (discoloured)
July 2000	18 June 2001	Dwr Cymru Cyf	Section 70 supply of water unfit (discoloured)
28 August 2000	5 September 2001	Anglian	Section 70 supply of water unfit (discoloured)
3 April 2002	26 March 2004	Anglian	Section 70 supply of water unfit (taste)

Mr. Hepburn: To ask the Secretary of State for Environment, Food and Rural Affairs what checks are made to ensure that the water companies provide water that is fit for human consumption; and how often they are made. [168877]

Mr. Morley: Water companies in England and Wales have a duty to supply wholesome water. The Water Supply (Water Quality) Regulations 2000, or in Wales the Water Supply (Water Quality) Regulations 2001 set out the numbers and types of samples that water companies must take to fulfil this duty. One of the roles of the Drinking Water Inspectorate is to ensure that water companies carry out the requisite checks. During 2002 more than 2,973,500 regulatory tests were carried out, of which 99.87 per cent. demonstrated compliance with the relevant water quality standards. The Drinking Water Inspectorate investigates all incidents affecting water quality which includes an assessment of additional samples taken to determine water quality.

HOUSE OF COMMONS COMMISSION

Big Ben

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission on which dates Big Ben has *(a)* shown an incorrect time and *(b)* failed to sound since 1 May 1994. [170086]

Sir Archy Kirkwood: Big Ben is the name of the hour bell of the Great Clock rather than of the clock itself. Accuracy adjustments, usually within one or two seconds, are undertaken three times a week. Variations of this nature are caused by changes in temperature. The clock has been stopped for repair purposes for four periods since 1994 and work on the quarter chimes has taken place on seven occasions. In the latter cases the clock was not stopped.

The most recent failure of the quarter chimes took place on 29 April and was caused by an internal stress fracture affecting the brake release shaft. It is intended to install the new shaft during the evening of 8 May, when the hour strike brake release shaft, fly fan and other components will be examined for any similar problem by a specialist company.

Official Report

Mr. Dismore: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission if he will make arrangements to permit hon. Members to proof read the *Hansard* report of their speeches made in Westminster Hall in the *Hansard* office above the Chamber; and if he will make a statement. [170194]

Sir Archy Kirkwood: The Editor of the *Official Report* appreciates that some hon. Members may have been inconvenienced by the need to move staff who report Westminster Hall proceedings to offices at 7 Millbank. He will make arrangements as soon as possible for Members to read Westminster Hall speeches in the *Hansard* offices in the Palace of Westminster before publication.

SOLICITOR-GENERAL

Iraq

Llew Smith: To ask the Solicitor-General whether she discussed with other ministerial colleagues a draft of the Attorney General's legal opinion on the legality of military action against Iraq prior to his presentation of the opinion to the Cabinet. [168729]

The Solicitor-General: It is the established practice not to disclose details of internal discussions between Ministers. This information is withheld in accordance with exemption 2 of Part 2 of the Code of Practice on Access to Government Information.

Unexplained Infant Deaths

Mr. Burstow: To ask the Solicitor General what steps the Government has taken since the statement on 20 January, *Official Report*, column 1215, on unexplained infant deaths, to *(a)* identify civil cases and *(b)* learn from these cases; and if she will make a statement. [167812]

The Solicitor-General: The process of identifying prosecutions which may be affected by the Appeal Court's judgment in the appeal against conviction of Angela Cannings has been completed. Since the Appeal Court's judgment on 19 January the 300 relevant cases have been identified, of which 86 involve defendants in custody. There are three stages to the review process. To date, 167 cases have been reviewed and I will be in a position to tell the House the outcome of those reviews very shortly.

Of the 16 ongoing prosecutions which may have been affected by the Cannings judgment, all have been reviewed and two have been discontinued. A Hampshire case was discontinued before trial and a Coventry case was discontinued before a retrial.

Any lessons to be learnt from the review will be considered at the conclusion of the review process.

LEADER OF THE HOUSE

Sub Judice Rule

Mr. Andrew Dismore: To ask the Leader of the House if he will bring forward proposals for amendment of the House's resolution on matters sub judice to permit parliamentary questions and early day motions to be tabled concerning cases before the Special Immigration Appeals Commission concerning withdrawal of UK nationality in circumstances where the case has become substantially delayed and is unlikely to be heard in the immediate future; and if he will make a statement. [169802]

Mr. Hain: I have no plans to do so, though I am willing to consider suggestions for change on this, as on other matters. I understand that the particular issue to which the hon. Member refers has been resolved.

CULTURE, MEDIA AND SPORT

Free Television Licence

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of how many eligible senior citizens over the age of 75 in Northern Ireland did not avail themselves of the free television licence in 2003. [170485]

Estelle Morris: These figures are unavailable. However, I understand that for the year to 31 March 2004, 86,493 free licences for people over 75 were issued in Northern Ireland. Also, the BBC runs regular publicity campaigns in Northern Ireland, which receive widespread press coverage, to encourage people to take up the concession.

Departmental Annual Report

Norman Lamb: To ask the Secretary of State for Culture, Media and Sport how much the production of her Department's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171138]

Mr. Caborn: The information requested is as follows.

1. The design, typesetting, production and printing of this year's annual report was £57,000

2. 1,500 copies were printed.

3. 700 copies are to be sold at cover price of £26

4. Remaining copies for media, NDPBs, visitors to DCMS and DCMS staff (two copies for each of 28 Divisions)

Libraries (Oldham, West and Royton)

Mr. Meacher: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on the digitisation of content in libraries in Oldham, West and Royton since 1997. [170944]

Estelle Morris: This information is not held centrally.

The New Opportunities Fund £50 million Digitisation of Learning Materials Programme has delivered 150 projects across the UK to enable resources which support learning of all kinds held in libraries as well as museums, archives and other public-sector institutions, to be made available online through the People's Network and the National Grid for Learning. This initiative has created a body of material containing over 2 million images, tens of thousands of sound and video clips and documents and over 1,000 learning packages. All projects can be accessed via the EnrichUK portal at http://www.enrichuk.net

Information on grants awarded to individual local authorities and their expenditure can be obtained from the relevant authority.

Parliamentary Questions

John Thurso: To ask the Secretary of State for Culture, Media and Sport how many *(a)* Ordinary Written and *(b)* Named Day Questions her Department received in (i) 2002–03 and (ii) this parliamentary session up to the most recent date for which figures are available, broken down by month. [170778]

Mr. Caborn: The information requested is as follows:

2002–03 Session

	Named day	*Ordinary written*
November 2002	39	112
December 2002	28	52
January 2003	24	114
February 2003	11	105
March 2003	14	116
April 2003	10	110
May 2003	16	153
June 2003	18	150
July 2003	6	104
August 2003	0	0
September 2003	8	68
October 2003	6	69
November 2003	22	63
Total	202	1,216

2003–04 Session

	Named day	*Ordinary written*
November 2003	1	37
December 2003	12	105
January 2004	23	84
February 2004	9	106
March 2004	20	160
April 2004	13	65
Total	78	557

These figures exclude those questions either withdrawn by the Member or transferred to another Department.

John Thurso: To ask the Secretary of State for Culture, Media and Sport what proportion of *(a)* Ordinary Written Questions to her Department were answered within five sitting days of tabling and *(b)* Questions for a Named Day received a substantive answer on that day in (i) 2002–03 and (ii) this parliamentary session up to the most recent date for which figures are available, broken down by month. [170779]

Mr. Caborn: The information requested is as follows:

2002–03 Session

	Named Day		*Ordinary Written*	
	Number answered on time	*Percentage*	*Number answered within 5 sitting days*	*Percentage*
November 2002	25	64.10	50	43.86
December 2002	9	32.14	20	40.82
January 2003	11	45.83	89	74.79
February 2003	9	69.23	58	56.31
March 2003	9	69.23	79	65.29
April 2003	3	30.00	37	32.17
May 2003	9	60.00	39	27.86
June 2003	8	44.44	96	61.15
July 2003	3	50.00	50	51.02
August 2003	0	0	0	0
September 2003	3	37.50	25	37.31
October 2003	5	83.33	47	56.63
November 2003	18	81.82	52	89.66

2003–04 Session

	Named Day		*Ordinary Written*	
	Number answered on time	*Percentage*	*Number answered within 5 sitting days*	*Percentage*
November 2003	1	25.00	28	75.68
December 2003	6	66.67	73	69.52
January 2004	16	69.57	61	70.93
February 2004	6	66.67	71	61.74
March 2004	14	63.64	131	80.37
April 2004	11	84.62	32	52.46

Sporting Contacts (Ban)

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 24 March 2004, *Official Report*, column 876W, on sporting contacts (ban), whether, on 28 October 1997, Ministers had the power to invoke a ban on sporting contact with other countries taking place outside the UK. [168598]

Mr. Caborn: In October 1997, as now, Ministers did not have specific powers to prevent sports teams travelling abroad.

Tourism

Mr. Meacher: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the work of regional development agencies in developing tourism in Oldham, West and Royton. [170945]

Mr. Caborn: The North West Development Agency (NWDA) is working closely with 'Marketing Manchester', the nominated Destination Management Organisation (DMO) for Manchester. The new DMOs are, in effect, smaller versions of tourist boards. They aim to ensure a strong visitor and market focus to all that is done within the region and strengthen the connection between businesses and other organisations in the tourism sector.

TRANSPORT

A13

Bob Spink: To ask the Secretary of State for Transport what plans he has to *(a)* improve and *(b)* fund improvements to the A13 Sadlers Farm Junction in Benfleet, Essex. [171086]

Mr. Jamieson: The junction at Sadlers Farm between the A13 and the A130 (neither of which is a trunk road at that point) is in the form of a ring roundabout.

Following a review of the transport problems in the South Essex area, Essex county council consider that the junction now requires upgrading to allow for the greater volume of traffic that is using the junction since it was built in 1988.

It is up to Essex county council to submit, through the Local Transport Plan process, details of a new design which has been appraised in accordance with Government guidelines and which will deal with forecast levels of traffic. This assessment will then be used by the Department for Transport to consider whether there is a case for funding the scheme.

Explosives (Detection)

Patrick Mercer: To ask the Secretary of State for Transport how much has been spent by his Department and its predecessors on research into new methods of detecting explosives on board ships before they dock in the UK. [170060]

Mr. Jamieson: The Department funds a £1.4 million research and development programme into technologies and methods used in Transport Security. It would not be appropriate to provide details, but much of this budget goes towards explosives detection technologies.

Foreign Registered Vehicles

John Thurso: To ask the Secretary of State for Transport what estimate he has made of the number of foreign registered *(a)* cars and *(b)* other vehicles in the UK on (i) permanent and (ii) temporary import; and how many he estimates have exceeded the maximum stay period. [170865]

Mr. Jamieson: Since January 2003, 116,000 new vehicles and 167,000 used vehicles have been permanently imported into the UK and registered at DVLA. A breakdown by type of vehicle is not available.

Vehicles brought into the UK on a temporary basis are exempt from UK licensing and registration requirements if they are here for less than six months in any 12. No record is maintained of these vehicles and consequently no figures are available on the numbers of temporary imports.

John Thurso: To ask the Secretary of State for Transport what measures are taken to ensure that vehicles on temporary import are unable to exceed their maximum stay period; and what measures are taken against those vehicles that have exceeded this period. [170866]

Mr. Jamieson: Vehicles on temporary import are exempt from UK licensing and registration requirements, providing they are in this country for less than six months in any 12 and are registered and licensed in their country of origin. If at any time a vehicle used here on foreign plates is stopped by the police, the driver is responsible for demonstrating that he/she is entitled to use it in the UK.

Keepers of foreign registered vehicles who fail to observe these requirements are subject to the same enforcement and prosecution procedures as UK motorists.

DVLA is currently working with the police and local authorities to gather information on temporary imports to clarify the extent of the evasion problem and to introduce effective counter measures.

Potters Bar Accident

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will make a statement on recent developments in the inquiries into the Potters Bar railway accident. [168091]

Mr. Darling: Both the British Transport Police (BTP) and the Health and Safety Executive (HSE) continue to be involved in the investigation. On 18 March 2004 the lead role in the joint investigation transferred from the BTP to the HSE because of HSE's expertise in the areas in which the investigation is now concentrating. However because the investigation has not yet concluded, the prosecuting authorities have not yet come to a decision on prosecutions.

Rail Projects

Mrs. May: To ask the Secretary of State for Transport how many rail projects have been cancelled as being without a sound business case; and how many have been re-scoped since publication of the Strategic Rail Authority's Strategic Plan 2003. [170265]

Mr. Darling: No major rail projects have been cancelled or re-scoped since the publication of the Strategic Rail Authority's Strategic Plan 2003 because they are without a sound business case. Some changes have been made to the West Coast Route Modernisation Scheme and to the scheme to upgrade the power supplies in the south-east. These are intended to provide substantially the same level of outputs at less cost.

Road Noise

Mr. Watson: To ask the Secretary of State for Transport how much his Department has spent on research into quieter road surfaces in each of the last 10 years. [170166]

Mr. Jamieson: The Highways Agency has undertaken research into various aspects of quieter surfaces in the past 10 years, including the measurement of noise characteristics and durability of proprietary surfacing materials within their overall programme of research into improved road construction techniques. Annual expenditure on the development of quieter road surfaces is not available because most of the projects last for more than one year. However, total expenditure on research projects related to road surface noise characteristics completed since 1993 is around £3 million.

Road Safety

Simon Hughes: To ask the Secretary of State for Transport how many *(a)* pedestrians, *(b)* cyclists, *(c)* drivers and *(d)* car occupants have been (i) injured and (ii) killed in each of the last six years for which figures are available in each Greater London borough. [168880]

Mr. Jamieson *[holding answer 27 April 2004]:* A table showing the information requested for the years 1997 to 2002, which is the latest year for which data are available, has been placed in the Libraries of the House.

Helen Southworth: To ask the Secretary of State for Transport what *(a)* percentage and *(b)* number of reported motorway traffic incidents involved a heavy goods vehicle with left hand drive in each of the last three years; and what percentage of those incidents were attributed to poor visibility or blind spots on such vehicles. [170207]

Mr. Jamieson: The information is not available. From January 2005 data relating to heavy goods vehicles with left-hand drive will be collected separately using the STATS19 accident report format. This means the information will be available from June 2006 onwards.

Sea Stores

Mr. Webb: To ask the Secretary of State for Transport what his Department's responsibility is for the Sea Stores building at Yate, South Gloucestershire; for what purpose the building is used; and if he will make a statement on its future use and ownership. [169240]

Mr. Jamieson: The Highways Agency owns the land and the on site storage facilities on Kennedy Way at Yate (the "Sea Stores" site). The site is the central facility for the co-ordination of the bulk purchase and storage of the agency's motorway communications equipment, which serves the national motorway and trunk road network.

As part of the agency's sound business practice, the future use and ownership of the site and its operation remains under continual review.

Transport Energy Best Practice Programme

Mr. Paul Marsden: To ask the Secretary of State for Transport how much has been spent on advertising the activities of the Transport Energy Best Practice programme, broken down by *(a)* year and *(b)* activity. [170019]

Mr. Jamieson: The Department, through the Energy Saving Trust, spent £2.0 million in 2003–04 marketing the range of Transport Energy programmes, rising to £2.6 million in 2004–05. These activities include media events, magazine advertising, newsletters and guides, event and award sponsorship and presentations at exhibitions and seminars. It also maintains a dedicated website, www.transportenergy.org.uk and a central call centre.

The Best Practice programme is promoted as part of these activities but it is not possible to apportion specific marketing costs.

Transport Statistics (Oldham, West and Royton)

Mr. Meacher: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Oldham, West and Royton since 1997. [170960]

Dr. Howells: A total of 3.8 miles of new cycle lanes has been provided using public funds in Oldham, West and Royton since 1997.

Mr. Meacher: To ask the Secretary of State for Transport how many rural bus services in Oldham, West and Royton are supported by rural bus grants. [170961]

Dr. Howells: Rural Bus Subsidy Grant (RBSG) is paid to local transport authorities; in the case of Oldham West and Royton this is the Greater Manchester Passenger Transport Executive (PTE). It is for the authority to decide which services should be supported with the grant. We understand from the PTE that no bus services in Oldham, West and Royton are provided by RBSG as this area is predominantly urban.

Mr. Meacher: To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Oldham, West and Royton since 1997. [170962]

Dr. Howells: There have been 1.65 miles of priority bus lanes introduced in Oldham, West and Royton since 1997.

Mr. Meacher: To ask the Secretary of State for Transport if he will make a statement on the effect of investment in railway improvements over the next 10 years upon residents of Oldham, West and Royton. [170963]

Dr. Howells: Residents of Oldham, West and Royton will benefit from the new TransPennine Express franchise, which commenced in February. The franchise secures investment of around £260 million, which will include the introduction of a new fleet of 100 mph diesel trains leading to increased capacity, improved service quality and performance across the region. A new Northern franchise, which will include local and regional services through Oldham, is out for tender. Work continues on the West Coast Main Line upgrade, which will see reduction in journey times along the route and increases in service frequency.

Tyres

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will make a statement on the availability of energy efficient tyres and the number *(a)* produced at present and *(b)* likely to be produced in the future. [170020]

Mr. Jamieson: The major tyre manufacturers all produce tyres that offer energy savings compared to other tyres in their ranges. But, the Government does not have detailed data relating to the production and availability of these more energy efficient tyres.

DEPUTY PRIME MINISTER

Council Housing (South Ribble)

Mr. Borrow: To ask the Deputy Prime Minister if he will make a statement on how the change in the level of council funding for housing has affected the residents of South Ribble since 1997. [171283]

Mr. Raynsford: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. South Ribble transferred its housing stock to New Progress Housing Association in 1994 for £32.3 million. South Ribble's allocation for 2003–04 totalled £1.8 million.

Council Tax (Greater London)

Simon Hughes: To ask the Deputy Prime Minister what the percentage council tax change, including all precepts, has been in Greater London, broken down by borough, in each of the last five years. [170503]

Mr. Raynsford: The information requested is tabled as follows.

Percentage change in average (Band D 2 adults) council tax area

	2000–01	2001–02	2002–03	2003–04	2004–05
London area	6.4	8.1	6.4	18.2	5.8
City of London	3.9	4.1	7.0	19.6	4.3
Inner London					
Camden	1.1	4.8	5.9	15.0	3.7
Greenwich	0.0	3.2	4.7	14.1	4.8
Hackney	6.6	9.7	10.9	13.2	5.4

Islington	-2.7	-1.1	-1.1	21.0	5.5
Kensington and Chelsea	7.3	11.9	10.6	17.3	5.4
Lambeth	2.2	13.0	9.3	22.8	5.6
Lewisham	9.7	9.8	9.2	13.0	5.5
Southwark	4.6	6.4	5.6	8.9	3.5
Tower Hamlets	7.8	7.4	4.6	17.2	5.4
Wandsworth	7.4	13.6	-11.7	45.1	2.9
Westminster	7.1	9.3	8.5	28.1	6.1
Outer London					
Barking and Dagenham	6.3	8.2	7.4	15.0	5.9
Barnet	7.1	7.3	4.7	23.9	7.0
Bexley	6.9	9.9	6.3	17.5	7.5
Brent	9.0	8.1	9.8	22.5	6.1
Bromley	9.8	12.3	6.5	10.6	6.9
Croydon	6.5	2.0	3.6	27.3	7.3
Ealing	7.5	8.9	7.5	25.9	7.0
Enfield	8.8	11.0	7.9	17.6	6.3
Haringey	3.8	3.0	2.4	19.4	7.3
Harrow	8.3	10.1	7.5	21.4	4.1
Havering	8.0	12.4	8.1	17.3	5.6
Hillingdon	7.9	10.6	8.9	16.2	5.4
Hounslow	8.1	11.0	7.0	15.5	7.0
Kingston-upon-Thames	8.8	9.7	11.9	15.3	7.1
Merton	10.2	9.8	6.9	12.3	5.8
Newham	9.0	7.7	6.9	13.6	5.4
Redbridge	8.1	7.3	6.9	16.0	5.9
Richmond-upon-Thames	8.9	9.9	9.9	15.6	5.6
Sutton	6.3	9.7	9.4	15.0	7.4
Waltham Forest	4.4	5.8	5.5	19.6	6.3

Simon Hughes: To ask the Deputy Prime Minister what the level of council tax receipts collected by local authorities was in Greater London, irrespective of the financial year to which they relate, broken down by borough, in each year from 1996–97 to 2002–03; and what the population of each authority was in each year. [170504]

Mr. Raynsford: I refer the hon. Member to the answer given on 26 March 2004, *Official Report*, column. 1112–3W for information on the amounts of council tax received by each London borough in each financial year, irrespective of the financial year to which they relate, from 1996–97 to 2002–03.

The latest population estimates for years 1996 to 2002 are in the following table. Population estimates for 1992 to 2000 are subject to revision, and revised estimates are due to be published later in the spring.

Estimated mid-year resident population 1996 to 2002 for Greater London and each London borough

£000

	1996	1997	1998	1999	2000	2001	2002
Greater London (including City of London)	6,901.3	6,927.7	6,968.8	7,041.3	7,104.4	7,307.9	7,355.4
Greater London (excluding City of London)	6,895.7	6,922.1	6,962.7	7,034.8	7,097.5	7,300.5	7,347.5
City of London	5.5	5.6	6.1	6.5	6.9	7.4	7.8

Office for National Statistics.

Simon Hughes: To ask the Deputy Prime Minister what percentage of council tax was collected within Greater London, broken down by borough, in each year since 1997; and what the total cost of administering council tax collection was in each year. [170505]

Mr. Raynsford: Tabled as follows are the reported in-year council tax collection rates for each London borough and the City of London for each year from 1997–98 to 2002–03. Figures for 2003–04 are not yet available. The collection of council tax continues after the end of the financial year to which it relates. This means that the percentage of council tax ultimately collected for any financial year is greater than that shown in the table.

In-year council tax collection rates[1]

Percentage

	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03
Inner London						
City of London	97.5	97.4	98.2	98.3	98.4	97.6
Camden	88.5	91.1	92.3	92.7	93.5	92.7

RO6 returns (1997–98 to 2002–03) and RA returns (2003–04)

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Deputy Prime Minister what his latest estimate is of the amount spent by his Department on official entertainment in each year from 1996–97 to 2004–05. [169010]

Yvette Cooper: The Office of the Deputy Prime Minister was created following the machinery of Government changes on 29 May 2002. The figures in the following table show how much the Office spent on official entertainment in 2002–3 and 2003–4. Details of the planned expenditure for 2004–5 are not yet available, but are expected to be on similar lines to earlier years.

Entertainment

	£000
2002–03	3,350
2003–04	1,869

All expenditure on official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on the principles set out in "Government Accounting".

The expenditure figures for the Government Offices and the Office's executive agencies for official entertainment are not held centrally and could only be provided at disproportionate cost

Elected Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister if he will give the *(a)* total and *(b)* individual costs of the public hearings on elected regional assemblies held in (i) Sheffield, (ii) Newcastle, (iii) Hull, (iv) Liverpool, (v) Kendal, (vi) Halifax and (vii) Middlesbrough. [170097]

Mr. Raynsford: The total cost of the seven hearings mentioned is £66,800. The latest costs of the individual hearings are in the following table:

Location	*£000*
Sheffield	11,600
Newcastle	10,900
Hull	7,600
Liverpool	13,800
Kendal	6,500
Halifax	5,100
Middlesbrough	11,300

Energy Efficiency Grants

Mr. Wiggin: To ask the Deputy Prime Minister how much was spent on grants to aid energy efficiency in each year since 1997. [160875]

Mr. Morley: I have been asked to reply.

Defra currently provides grants to aid energy efficiency through four main routes:

The Carbon Trust—to support and promote energy efficiency and low carbon innovation for business and public sector;

The Energy Saving Trust—to support and promote energy efficiency in the domestic sector;

The Community Energy programme—capital and development funding to refurbish existing and install new community heating schemes;

The Warm Front programme—to provide energy efficiency measures to the vulnerable.

The funding made available by my Department and its predecessors to support and promote efficiency measures in each year since 1997 (including the Energy Saving Trust and the Carbon Trust) is of the scale set out in the following table.

	£ million
1997–98	110.5
1998–99	109.0
1999–2000	112.0
2000–01	119.0
2001–02	256
2002–03	225
2003–04	[1]243

[1] Budget.

These figures include the Energy Efficiency Best Practice programme, support for the Energy Saving Trust (from 1996), Fuel Poverty and for the Carbon Trust (from 1 April 2001). Energy Saving Trust funding for Scotland was devolved from 1 July 1999. The new Home Energy Efficiency Scheme (now marketed as the Warm Front Team) was launched in England in June 2000. Between 1991–1999, the Home Energy Efficiency Scheme covered the whole of Great Britain. Funding was devolved to Scotland in July 1999 and to Wales in April 2000.

Houses in Multiple Occupation

Jon Trickett: To ask the Deputy Prime Minister what estimate he has made of the percentage of houses in multiple occupation in England and Wales which will fall within the scope of the mandatory licensing scheme in the Housing Bill. [171220]

Keith Hill: The 1996 English House Condition Survey estimates that there were approximately 543,000 Houses in Multiple Occupation in England and the National Assembly for Wales estimates that there are approximately 20,000 HMOs in Wales. It is estimated that about 120,000 HMOs in England and 5,000 in Wales will be subject to licensing under the mandatory scheme proposed in the Housing Bill. This will represent approximately 22.2 per cent. of the total HMO stock in England and Wales.

Local Authority Funding

Ann Winterton: To ask the Deputy Prime Minister how much central funding was provided to local authorities in the *(a)* North West, *(b)* North East and *(c)* Yorkshire and the Humber regions in 2002–03. [171497]

Mr. Raynsford: Central Government grant *(a)* provided to local authorities in the North West, North East and Yorkshire and the Humber regions in 2002–03 is tabled as follows:

	Amount (£ million)
North West	7,237
North East	2,765
Yorkshire and the Humber	5,031

Source:
2002–03 RS forms.

(a) Includes Specific and special grants inside 'Aggregate External Finance', Police grant, Revenue support grant, Redistributed non-domestic rates.

Planning

Bob Russell: To ask the Deputy Prime Minister whether there is a time period after which a temporary structure is deemed to be permanent in respect of *(a)* planning legislation and *(b)* commencement of enforcement proceedings; and if he will make a statement. [171737]

Keith Hill: The rules governing temporary structures provided in connection with temporary uses of land are set out in Part 4 of Schedule 2 to the Town and Country Planning (General Permitted Development) Order 1995. If such a structure were to remain on site after the temporary use had ended, it would be unlawful and could be the subject of enforcement action.

Mrs. Helen Clark: To ask the Deputy Prime Minister how much the planning inspectorate has spent on external consultants, not including consultant inspectors, since 2002. [170043]

Keith Hill: Information is provided for financial years 2002–03 and 2003–04.

£

	2002–03	*2003–04*
Consultants—non IT	477,206.65	541,424.91
IT consultants	512,586.01	375,231.00
E-business consultants	2,785,132.94	1,720,815.83
Total	3,774,925.60	2,637,471.74

Mrs. Helen Clark: To ask the Deputy Prime Minister what mechanisms are in place to assess the effectiveness of the contribution made by external consultants, not including consultant inspectors, to the planning inspectorate. [170044]

Keith Hill: External consultants are engaged by The Planning Inspectorate when it is not possible to provide the required expertise from in-house resources. All consultants are contracted to undertake tasks relevant to the particular requirement and to deliver specific products.

The effectiveness of the contribution made by external consultants is assessed through an ongoing process of performance measurement and sound contract management. This seeks to ensure that contractual obligations are met as efficiently and effectively as possible, quality products delivered to time, business objectives met and benefits realised.

All projects are subject to Office of Government Commerce gateway Reviews.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister how many copies of *(a)* Your Say: A New Opportunity for the North East, *(b)* "Your Say: a New Opportunity for the North West", *(c)* "Your Say: A New Opportunity for Yorkshire and the Humber", *(d)* "Your Say: Business and Jobs", *(e)* "Your Say: Assembly Powers and Responsibilities" and *(f)* "Your Say: Housing, Planning and Transport" have been requested by members of the public in (i) the North East, (ii) the North West and (iii) Yorkshire and the Humber. [169258]

Mr. Raynsford: The Office of the Deputy Prime Minister's free leaflet distributor has issued 6201 "A New Opportunity for the North East" leaflet, 6603 "A New Opportunity for the North West" and 2132 "A New Opportunity for Yorkshire and the Humber" to members of the public and organisations who have requested them.

620 copies of "A New Opportunity for the North East" leaflet and of each individual fact sheet were given to attendees of the regional hearings in the North East.

628 copies of "A New Opportunity for the North West" leaflet and of each individual fact sheet were given to attendees of the regional hearings in the North West.

605 copies of "A New Opportunity for Yorkshire and the Humber" leaflet and of each individual fact sheet were given to attendees of the regional hearings in Yorkshire and the Humber.

Copies of all this literature are also available upon request from the three northern Government Offices. However, requests for leaflets are not logged by Government Offices on an individual basis.

Scottish Power

Ann Winterton: To ask the Deputy Prime Minister when he last met representatives of Scottish Power Plc; who was present; and what was on the agenda for discussion. [167338]

Yvette Cooper: I refer the hon. Member to the answer given to the hon. Member on 5 May 2004.

Starter Homes Initiative (South Ribble)

Mr. Borrow: To ask the Deputy Prime Minister if he will make a statement on how the Starter Homes Initiative has affected the residents of South Ribble. [171284]

Keith Hill: I refer my hon. Friend to the answer given to my hon. Friend the Member for Bootle (Mr. Benton) on 29 April 2004, *Official Report*, column 1228W.

Sustainable Communities Plan (Milton Keynes/South Midlands)

Mr. Boswell: To ask the Deputy Prime Minister what studies he has commissioned in connection with the Milton Keynes/South Midlands sustainable communities plan

concerning *(a)* impacts on (i) stocks of aggregates, (ii) flooding and (iii) water supply and *(b)* other environmental impacts. [170098]

Keith Hill: In July 2001 the Government, along with the three Regional Assemblies covering the Milton Keynes-South Midlands sub-region: East of England, East Midlands and South East, commissioned the Milton Keynes-South Midlands Study. This study considered in detail a range of issues, including the impact of growth on natural resources and the environment. Supporting the sub-regional study are more detailed local area assessments and further environmental assessments will be carried out as part of the Local Development Framework process. In addition work on these issues is being taken forward through the Inter-Regional board for Milton Keynes-South Midlands, where a Utilities sub-group and an Environment and Quality of Life sub-group have been established.

HOME DEPARTMENT

Community Events

John Barrett: To ask the Secretary of State for the Home Department (1) what assessment he has made of *(a)* the impact of changes in the cost of public liability insurance on community events and *(b)* the ability of community organisations to pay for public liability insurance; [169898]

(2) what representations his Department has received from community organisations about changes in the cost of public liability insurance. [169900]

Fiona Mactaggart: I am aware of the problems being experienced by those in the voluntary and community sector, as a result of the volatility in the insurance market since 11 September 2001. It is deeply worrying that small groups of volunteers who are making a real contribution to their communities are being faced with such difficulty.

The Active Community Unit in my Department set up the "Insurance Cover Working Group (ICWG)" to look into the situation and advise on practical solutions. A study was undertaken into the current position regarding the provision of insurance for the voluntary and community sector, including public indemnity liability, which made suggestions as to possible solutions.

A response to these possible solutions will be made in May following close working with other Government Departments, as a number of initiatives are already being taken forward by the Government to understand better and tackle the difficulties being experienced. In that context, the Government welcomes the current study being undertaken by the Better Regulation Task Force on litigation and compensation. This work will contribute to the analysis of pressures in this area, as other studies have already, for example; The Department for Work and Pensions (DWP) undertook a review of the operation of Employers' Liability Compulsory Insurance (ELCI), and published a first stage report on 3 June 2003, and the second stage and final report on 4 December 2003. Following that initiative the DWP is at present holding a review of the requirement for Employers' Liability Compulsory Insurance for Limited Companies that employ only their owner. Also, the Office of Fair Trading conducted a fact-finding study into the UK Liability Insurance reporting in June 2003, and the Department for Constitutional Affairs (DCA), is working to ensure that legal costs are proportionate and that meritorious claims are resolved quickly and at minimum cost.

I am very much aware that the increasing costs for the provision of liability insurance have impacted on the ability of voluntary and community groups to deliver services and community events. Therefore the outcomes of the work across Government will have important implications for the Voluntary and Community Section (VCS) as practical solutions are being sought in partnership with the voluntary and community sector, the insurance industry, local authorities and government departments.

Animal Experiments

Dr. Gibson: To ask the Secretary of State for the Home Department what steps the Government take to tackle intimidation of workers and firms providing services to companies and universities carrying out research on animals. [167400]

Caroline Flint: We have made a number of changes to strengthen the law to deal with extremists. The Anti-social Behaviour Act 2003 strengthened police powers to deal with smaller, intimidatory protests and office occupations by extremists. The police are using these new powers effectively. A new police unit has been set up with Government funding to provide tactical guidance on policing extremists. The new unit complements work already going on in local forces and nationally.

A National Forum on policing and prosecution of animal rights cases has been established in order to pull together individual areas of expertise within the police, Crown Prosecution Service and the courts to create a national strategic approach to dealing with animal rights extremists.

We have produced guidance for security managers of companies who might be targeted by extremists, to help ensure their employees' personal safety. A ministerial committee is meeting regularly to look at the problem of animal rights extremism.

Animal Rights Activists

Michael Fabricant: To ask the Secretary of State for the Home Department what steps his Department is taking to limit the activities of animal rights activists. [168981]

Caroline Flint: The Government are determined to ensure that business activities in this area are not prevented by the unlawful activities of a small number of people. A ministerial committee is meeting regularly to look at the problem of animal rights extremism.

There are extensive powers available to the police in the general law. In addition we have made a number of changes to strengthen the law to deal with extremists. The Anti-social Behaviour Act 2003 strengthened police powers to deal with smaller, intimidatory protests and

office occupations by extremists. A new police unit has been set up with Government funding to provide tactical guidance on policing extremists. The new unit complements work going on in local forces and nationally.

A National Forum on policing and prosecution of animal rights cases has been established in order to pull together individual areas of expertise within the police, Crown Prosecution Service and the courts to create a national strategic approach to dealing with animal rights extremists.

We have produced guidance for security managers of companies who might be targeted by extremists, to help ensure their employees' personal safety.

Antisocial Behaviour Orders

Martin Linton: To ask the Secretary of State for the Home Department how many persons have been subject to antisocial behaviour orders in Wandsworth since 1 January 2002; and how many breaches of anti-social behaviour orders have resulted in court action in the London borough of Wandsworth since 1 January 2002. [169769]

Ms Blears: Three Anti-social Behaviour Orders (ASBOs) have been issued within the London borough of Wandsworth, as notified to the Home Office, from 1 January 2002 up to 31 December 2003 (latest available).

Data on breaches of ASBOs are currently available up to December 2002. The Home Office Court Proceedings Database, from 1 January 2002 up to 31 December 2002, does not show any court proceedings for breaches of ASBOs in the London borough of Wandsworth.

Asylum Seekers

Sandra Gidley: To ask the Secretary of State for the Home Department what assessment he has made of the impact of section 55 of the Nationality, Immigration and Asylum Act 2002 on female asylum seekers; and what assessment he has made of the number that are forced into prostitution. [171041]

Mr. Browne: Assessment of the impact of section 55 on female asylum seekers is integral to the close monitoring of the operation of the policy since implementation on 8 January 2003. As part of these arrangements the National Asylum Support Service maintains an open dialogue with the voluntary sector agencies, local government and other stakeholders. The Government have reviewed section 55 in the light of experience of its operation, the changing pattern of asylum applications since implementation and concerns raised about the impact of the policy.

The Government believes that these arrangements for monitoring and reviewing the operation of section 55 and working with stakeholders, together with the statutory safeguards and the adjustments that have been made to section 55 processes, provide a balanced but firm policy that discourages economic migration, while continuing to offer refuge to those seeking asylum, and providing support for those who qualify or who are vulnerable.

No evidence has been produced to indicate that female asylum seekers have been forced into prostitution as a result of section 55.

Dangerous Driving

Tim Loughton: To ask the Secretary of State for the Home Department how many people have been prosecuted in each of the last 10 years for causing the death of a child whilst driving. [169073]

Caroline Flint: It is not possible to identify deaths involving children in the statistics collected centrally on prosecutions for causing death by dangerous driving etc as the details collected do not include the ages of the victims of such offences.

Drugs (Stalybridge and Hyde)

James Purnell: To ask the Secretary of State for the Home Department how many people in Stalybridge and Hyde are receiving drug treatment; and what public funds were spent on tackling drugs misuse in Stalybridge and Hyde in *(a)* 1997–98 and *(b)* 2003–04. [168734]

Caroline Flint: Stalybridge and Hyde is part of Tameside Drug Action Team. There were 733 people receiving drug treatment in Tameside in 2000–01. This is the latest available data. Data broken down by Drug Action Team for 2001–02 and 2002–03 have not yet been finalised and published.

Breakdown of financial allocation to local constituencies is not available in the form requested as funding is allocated to Drug Action Team (DAT) area.

The figure spent on tackling drug misuse in 1997–98 in West Pennine, which covered Oldham and Tameside, was £279,000. This was prior to the formation of the National Drugs Strategy, and this figure has been provided from locally held information.

In 2003–04 the figures for Tameside as a whole were:

	£
Pooled Treatment	921,000
Young People	169,000
Building Safer Communities[1]	267,000
DAT CAD	31,000
DAT Development	40,000
Throughcare and Aftercare	35,000
Total	1,463,000

[1] Please note that the Building Safer Communities Fund is only partly spent on tackling drugs.

In order to ensure consistency figures supplied are based on funding streams associated with the National Drug Strategy and are readily verifiable. These funding streams are specifically targeted at tackling the harm caused to individuals, families and communities by the misuse of drugs. Other mainstream funding is made available at a local level, this varies and both in amount and origin as a result it is not possible to provide robust financial information.

Emergency Services

Mr. Hancock: To ask the Secretary of State for the Home Department on how many occasions in each of the last 12 months police vehicles on emergency calls have contravened speed cameras, broken down by police authority area. [170738]

Ms Blears: The information is not collected centrally.

Extradition

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether district judges are monitored to ensure that they ascertain whether individuals who consent to extradition have had access to legal advice. [165890]

Caroline Flint: Section 45(5) and section 127(6) of the Extradition Act 2003 require that a person may not give his consent to extradition before the appropriate judge unless he is legally represented at the time he gives consent. If he is not legally represented then he must have been advised of the right to apply for legal aid and has either refused to do so, had his legal aid application refused or legal aid has been withdrawn.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether the *(a)* 1989 and *(b)* 1965 Extradition Acts have been repealed. [165888]

Caroline Flint: Except for requests that were received on or before 31 December 2003, the Extradition Act 1989 was repealed by the Extradition Act 2003, which came into force on 1 January 2004.

Prior to the coming into force of the new extradition legislation, the UK's extradition relations with the Republic of Ireland were governed by the Backing of Warrants (Republic of Ireland) Act 1965 which has also been repealed by the Extradition Act 2003. The Republic of Ireland has been designated as a Category 1 territory and, as such, is a partner in the European Arrest Warrant. As with the 1989 Act, any cases received from the Republic of Ireland on or before 31 December 2003 will be considered under the Backing of Warrants Act 1965.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether countries which allow the death penalty as a form of punishment are prohibited from designation for the purposes of part 1 of the Extradition Bill. [165889]

Caroline Flint: Section 1(3) of the Extradition Act 2003 states that a territory may not be designated for the purposes of part 1 of the Extradition Act 2003 if a person found guilty in the territory of a criminal offence may be sentenced to death for the offence under the general criminal law of the territory.

Identity Cards

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what penalty he proposes will apply to an individual who discloses information from the National Identity Register. [170325]

Mr. Browne: The criminal offences and civil penalties that will be used to ensure that an identity card scheme operates effectively are set out in "Legislation: A Consultation" (Cm 6178) published on 26 April.

Clause 29 of the draft Bill includes an offence for any person to disclose information from the National Identity Register without lawful authority, which will be punishable by a maximum penalty of two years imprisonment or a fine, or both.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what penalties will be applicable to hackers attempting to access the National Identity Register. [170326]

Mr. Browne: Clause 31 of the draft Identity Cards Bill published by my right hon. Friend the Home Secretary on 26 April (Cm 6178) deals with cases where someone modifies information held on the Register to falsify it. This includes hacking into the Register. Such an act would be an offence under the Computer Misuse Act 1990, however it would attract only a maximum penalty of five years.

The draft Identity Cards Bill includes a provision to increase the maximum penalty in cases involving the National Identity Register to 10 years to ensure consistency with the false identity documents offences in the draft Bill.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department who will have access to the information recorded on the National Identity Register; and under what circumstances. [170345]

Mr. Browne: Proposals to permit information held on the National Identity Register to be disclosed with and without an individual's consent are set out in "Legislation on Identity Cards: A Consultation" (Cm 6178) published on 26 April.

It is incorrect to say that any body or person will have "access" to the Register, rather the legislation will permit the Secretary of Sate to disclose information where a person consents or, where a person does not consent, only for specified purposes to specified persons.

Clause 14 provides for the provision of an identity verification service with the consent of the registered individual.

Clause 16 provides a power to enable checks to be made of information recorded in the Register by a person providing a public service for the purposes of ascertaining or verifying information of an individual applying for the public service. Clause 17 (1) sets out who may make regulations under Clause 16.

There will be a general power to disclose information to the security and intelligence agencies for their statutory purposes under clause 20.

In addition, law enforcement agencies will be able to seek disclosure of information from the National Identity Register for the prevention or investigation of crime under clause 20 (3). For these groups, disclosure of "audit trails" of card usage would be permitted only in cases of serious crime under clause 20 (8). The police in Scotland will have similar powers but will only be permitted to apply for disclosure in relation to matters that arereserved under clause 20 (7)*(b)*.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what use will be made of data-sharing powers in background checks of applicants for identity cards. [170346]

Mr. Browne: "Identity Cards: The Next Steps" (Cm 6020) published in November 2003 made it clear that applications for one of the family of identity cards will require checks to be made against other databases, held by the public or private sector, in order to help establish that an application for a card is genuine. This followed recommendations on identity verification included in the Cabinet Office study on Identity Fraud, published in July 2002.

Clause 11 of the draft Bill includes a power to require organisations to provide information which will help to ensure that a person who applies to register is the person he or she claims to be. This power will only be used where there is no existing legal basis for this information to be obtained and will only apply for the purposes of processing applications for an identity card or for related purposes (for example, issuing a replacement). These powers do not confer any general right to share data for wider purposes.

Under clause 11 (6) Parliament would have to approve each "gateway" via an affirmative order.

Checks such as these could, for example, confirm that a person had been known by a certain identity and lived at known addresses for a number of years. This information is more difficult to know, to change, or to fabricate and will guard against registration of bogus identities and avoids relying solely on documents that can be stolen or forged, such as birth certificates.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what information will be required to be provided by an applicant for an identity card. [170347]

Mr. Browne: When applying for an identity card, it will be necessary to make an application in person so that biometric information can be recorded. Applicants will also be asked to bring along existing identity documentation, which will be checked for authenticity and validity.

The precise arrangements for what information will be necessary for making an application will be decided as the identity cards programme progresses following further preparatory work and testing of different options. It may also be necessary to make changes to the application process over time. These arrangements are therefore not spelt out on the face of the draft Identity Cards Bill. Rather provision is included for the detailed arrangements to be set out in Regulations. Clause 5(3) of the draft Bill makes clear that an application for registration and thus the issue of an ID card must be accompanied by information to be prescribed and Clause 5(4) enables further information to be required in order to verify the information the applicant has already provided. These arrangements must be approved by Parliament and no information may be required unless it is required for the statutory purposes of the scheme as set out in the primary legislation.

Keith Vaz: To ask the Secretary of State for the Home Department on what grounds it will be permitted for members of the public to be stopped and asked to produce their identity card; and what safeguards will be put in place to ensure that people are not asked to produce their identity cards for other reasons. [170647]

Mr. Browne: The introduction of identity cards will make it much easier and simpler for people to prove their identity when they wish to do so. However, the draft Identity Cards Bill has made clear that it will not be a requirement to carry an identity card and there are no new police powers to stop people and require them to produce a card.

The draft Bill does allow for Regulations to be made for identity checks, including production of a card, to access public services. Regulations for each service would need to be approved by Parliament. Before regulations are laid, the Government must explain why its existing powers in relation to a particular service are not sufficient (Clause 17(4)) and steps must be taken to ensure that members of the public are informed and consulted about the proposal. Clause 17(5) requires there to be consultation with interested parties if there is an equivalent requirement in other legislation to consult these interested parties.

Until it became compulsory to register, the ID card could not be the only way of proving identity to access social security benefits or free public services. In addition the intention of Clause 19 is to prohibit a private sector service provider making production of an ID card the only way of accessing its services before there is compulsion to register.

Keith Vaz: To ask the Secretary of State for the Home Department what the exceptional circumstances will be under which disclosure of information from the National Identity Register is allowed without an individual's consent. [170648]

Mr. Browne: Proposals to permit information held on the National Identity Register to be disclosed with and without an individual's consent are set out in "Legislation on Identity Cards: A Consultation" (Cm 6178) published on 26 April.

There will be an exception to the general bar on disclosing information without consent, but disclosure will only be allowed to specified persons for specified purposes approved by Parliament and will be subject to an internal authorisation and independent oversight procedure.

There will be a general power to disclose information to the security and intelligence agencies for their statutory purposes under clause 20.

In addition, law enforcement agencies will be able to seek disclosure of information from the National Identity Register for the prevention or investigation of crime under clause 20 (3). For these groups, disclosure of "audit trails" of card usage would be permitted only in cases of serious crime under clause 20 (8). The police in Scotland will have similar powers but will only be permitted to apply for disclosure in relation to matters that are reserved under clause 20 (7)*(b)*.

Madrid Bombing

Mr. Dismore: To ask the Secretary of State for the Home Department whether he has received requests from *(a)* Spain and *(b)* Morocco for the extradition of persons in connection with the Madrid train bombing; and if he will make a statement. [167172]

Caroline Flint: Before an arrest has been made, it is long-standing Home Office policy and practice not to confirm or deny whether any extradition requests for certain individuals have been made to, or received by, the UK for obvious reasons.

Ministerial Meetings

Keith Vaz: To ask the Secretary of State for the Home Department when he last met the Lord Chief Justice. [169887]

Mr. Blunkett: I have regular bilateral meetings with the Lord Chief Justice.

National Identity Register

John Thurso: To ask the Secretary of State for the Home Department what information that pertains to public services for which the devolved administrations have responsibility he plans will be held by the National Identity Register. [171294]

Mr. Browne: The information which may be held in the National Identity Register is specified in Clause 1 and Schedule 1 of the draft Identity Cards Bill which was published on 26 April. The Register's function is to verify identity and residential status and it therefore has no need to hold information which is specific to a particular public service.

NCIS

Mr. Brady: To ask the Secretary of State for the Home Department what the budget of the National Criminal Intelligence Service was in each of the last five years. [166460]

Paul Goggins: The information is as follows:

	£ million
2000–01	47.5
2001–02	49.5
2002–03	68.5
2003–04	72.2
2004–05	83.3

The year-on-year position may not be directly comparable because the figures shown exclude cost of capital and depreciation charges that were introduced in 2002–03 under Resource Accounting and Budgeting. In addition, the figures shown also exclude funding for specific projects. It should also be noted that during 2002–03, the funding of the National Criminal Intelligence Service changed from police levy funding to core Home Office grant under the Criminal Justice and Police Act 2001.

Policing/Crime Statistics

Mr. Meacher: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Oldham, West and Royton has been since 1997. [170953]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Oldham, West and Royton are part of the Oldham BCU. Between March 2002 and March 2003 police strength for the Oldham BCU increased by 3.5 per cent. (from 423 to 438). The deployment of officers to BCUs is a matter for the Chief Constable (Michael Todd) and within the Oldham BCU deployment of officers is a matter for the Divisional Commander.

Mr. Hendrick: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts in Preston has been since 1997. [169694]

Ms Blears: The information requested is not available centrally.

Preston is a Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk.

Mr. Hendrick: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Preston has been since 1997. [169698]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Preston is part of Lancashire Constabulary's Central BCU. Between March 2002 and March 2003 police strength for the Central BCU increased by 1.1 per cent. (from 381.4 to 385.7). The deployment of officers to BCUs is a matter for the Chief Constable (Paul Stephenson) and within the Central BCU deployment of officers is a matter for the Divisional Commander.

Mr. Neil Turner: To ask the Secretary of State for the Home Department how many police officers were employed in Wigan in *(a)* 1997 and *(b)* 2003. [169334]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

In March 2002 there were 442.5 officers and in March 2003 there were 473.0 full time equivalent officers employed in the Wigan Basic Command Unit. The deployment of officers to BCUs is a matter for the Chief Constable (Michael Todd) and within the Wigan BCU deployment of officers is a matter for the Divisional Commander.

Mr. Neil Turner: To ask the Secretary of State for the Home Department what percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* thefts in Wigan there has been since 1997. [169335]

Ms Blears: The information requested is not available centrally. Wigan is a Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level have only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk.

Mr. Neil Turner: To ask the Secretary of State for the Home Department how many community safety officers are allocated by Greater Manchester Police to Wigan 'L' Division. [169340]

Ms Blears: As of 1 April 2004 there were 32 community safety officers working in the Wigan 'L' Division of Greater Manchester Police.

Prisons

Mr. Dismore: To ask the Secretary of State for the Home Department how value for money will be shown to have been achieved if in-house bids for the running of existing establishments are not permitted under the current performance testing programme in the Prison Service. [168398]

Paul Goggins: The public sector are given the opportunity to demonstrate their ability to provide a value for money service in their proposals for improvement. Only if they failed to do so, or if they subsequently failed to deliver the necessary improvements, would the management of the prison be put to tender to the private sector only. As is the case in all competitions for the management of prisons, the bid which offered the best combination of cost and quality of service would be selected.

Mr. Gerrard: To ask the Secretary of State for the Home Department what the total cost was to the Prison Service for each prison constructed under the Private Finance Initiative in each year of operation. [167360]

Paul Goggins: The requested information, extrapolated from Prison Service Annual Reports and Accounts, is shown in the table for the years up to 2002–03. The final outturn for 2004–05 will be available shortly.

£

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Altcourse	[1]—	29,962,583	33,113,688	35,036,594	35,261,148	32,154,593
Ashfield	—	—	[1]—	15,834,762	14,426,845	9,820,999
Dovegate	—	—	—	—	[1]—	24,511,442
Forest Bank	—	—	[1]—	22,480,153	22,040,504	20,821,813
Lowdham Grange	[1]—	15,942,120	15,450,822	15,975,509	14,893,288	13,159,649
Parc	[1]—	27,888,480	29,766,258	31,676,362	32,386,551	31,322,995
Rye Hill	—	—	—	[1]—	15,344,851	14,103,266

[1] Represent the year in which the prison opened. Part years are excluded from the accounts.

Mr. Gerrard: To ask the Secretary of State for the Home Department what the construction costs were for each prison built under the Private Finance Initiative. [167361]

Paul Goggins: The construction costs for each prison built under the Private Finance Initiative, derived from the original financial model on which payment to the contractor is based, are:

	£ million
Altcourse	68
Ashfield	26
Dovegate	64
Forest Bank	45
Lowdham Grange	25
Parc	47
Rye Hill	37

Mr. Gerrard: To ask the Secretary of State for the Home Department what estimate he has made of the saving that has been made by the Prison Service through building prisons through the Private Finance Initiative compared to alternative methods of financing such construction; and if he will make a statement. [167362]

Paul Goggins: Savings achieved through the Private Finance Initiative (PFI) in respect of prisons are calculated on the basis of comparing the total cost of the contract, including construction, finance and operating costs, against the public sector comparator. On that basis, the PFI process has delivered savings in the range of 10 per cent. to 15 per cent. compared with conventional procurement.

Mr. Gerrard: To ask the Secretary of State for the Home Department when the most recent assessment was made of the cost of a privately built, publicly run prison; what the outcome was; and if he will make a statement. [167364]

Paul Goggins: The latest assessments of a privately built, publicly run prison were the public sector comparators (PSCs) used in evaluating the bids for the contracts for Bonzefield and Peterborough prisons. The PSC for Bronzefield was 11 per cent. higher and the PSC for Peterborough 8.2 per cent. higher than the Net Present Values of the winning bids.

Public Sector Workers (Assaults)

Helen Jones: To ask the Secretary of State for the Home Department what information his Department collects on assaults on public sector workers during the course of their work. [169450]

Ms Blears: In January 2004, the Home Office published an on-line report entitled "Violence at Work: Findings from the 2002–2003 British Crime Survey". This report includes information regarding the occupation of victims of violence at work. It is

available on the Home Office Research and Statistics website at: http://www.homeoffice.gov.uk/rds/pdfs2/rdsolr0404.pdf

Assaults on public sector workers which are recorded by the police are included in Home Office recorded crime statistics. However, the only assaults on public sector workers which are identified separately are 'Assaults on a constable' Statistics on these offences for England and Wales are given in Table 3.04 of HO Statistical Bulletin 7/03 'Crime in England and Wales 2002–03'. This is also available on the website at: http://www.homeoffice.gov.uk/rds/pdfs2/703chap3.xls

Road Safety

Mr. Amess: To ask the Secretary of State for the Home Department how many prosecutions have been brought against people speaking on a mobile phone whilst driving. [171104]

Ms Blears: The specific offence of driving while using a hand held mobile phone came into effect on 1 December 2003.

Data on police action (written warnings, fixed penalty notices and court proceedings) for the new offence of driving while using a hand held mobile telephone will not be available until the Autumn of 2004. Use of a hands free mobile phone is not an offence.

Serious Organised Crime Agency

Michael Fabricant: To ask the Secretary of State for the Home Department whether the Serious Organised Crime Agency will include in its remit the activities of animal rights activists; and if he will make a statement. [168933]

Caroline Flint: Proposals for the Serious Organised Crime Agency were set out in the White Paper 'One Step Ahead: A 21st century strategy to defeat organised crime' (CM6167), published on 29 March. We have invited comments on the proposals by 30 July and will consider those carefully before making decisions as to the full remit of the new agency.

Terrorism

Patrick Mercer: To ask the Secretary of State for the Home Department when he plans to make the results of the recent consultation questionnaire regarding the level of preparedness of each council known to individual councils and their emergency planning officers. [170070]

Mr. Raynsford: I have been asked to reply.

The Government Offices in the Regions are currently providing written reports on this exercise for the Regional Resilience Forums (on which local authorities are represented). If individual local authorities want to discuss the exercise, they should approach the relevant Government Office, who will be happy to brief them.

Traffic Police (Sussex)

Mr. Gibb: To ask the Secretary of State for the Home Department how many traffic police there are in Sussex Police. [169443]

Ms Blears: Published information on police strength by police force area is available for rank, gender and ethnicity but not function. Figures on police atrength for March 2003, were published in Home Office Statistical Bulletin 11/03, copies of which are available in the Library or on the internet site: http://www.homeoffice.gov.uk/rds/hosbpubs1.html.

UK/US Extradition

Mr. Russell Brown: To ask the Secretary of State for the Home Department if he will make a statement on progress with implementation of the UK-US Extradition Treaty set up in March 2003. [164220]

Caroline Flint: The new Treaty was signed by my right hon. Friend the Home Secretary and the US Attorney General on 31 March 2003. It was approved by both Houses of Parliament on 16 and 17 December 2003 and it has already been given effect in the UK by the Extradition Act 2003,which came into force on 1 January 2004. The Treaty will be brought into force in the United States when it has been approved and ratified by the US Senate.

INTERNATIONAL DEVELOPMENT

Bilateral Aid

Tom Brake: To ask the Secretary of State for International Development if he will list the top 20 countries in receipt of bi-lateral aid from his Department, and the amount of aid given to each, in *(a)* 1998–99 and *(b)* 2002–03. [170982]

Hilary Benn: The top 20 recipients of bilateral aid from the Department of International Development in each of the years in question were as follows:

DFID bilateral programme—Top 20 recipients

	£ million
1998–99	
India	82
Bangladesh	67
Ghana	53
Uganda	53

HIV/AIDS

Sir Archy Kirkwood: To ask the Secretary of State for International Development what projects his Department funds to combat the spread of AIDS in Africa; how much expenditure is committed to each project; and what the time scale is of each project. [170596]

Hilary Benn: I have arranged for a copy of a table entitled 'Africa—Operational Projects/Programmes to combat HIV/AIDS' to be placed in the Library of the House. This identifies all those programmes or projects currently funded by the Department for International Development, which have a policy objective of "combating HIV/AIDS ". The total commitment is more than £1 billion. This figure includes expenditure already incurred against these ongoing activities as well as some future planned spending.

Sir Archy Kirkwood: To ask the Secretary of State for International Development what plans he has to increase expenditure levels for projects in Africa to combat the spread of AIDS over the next three years. [170597]

Hilary Benn: In December 2003, the UK Government's Call for Action on HIV/AIDS announced that DFID will make HIV/AIDS a priority for the additional funds that the UK will be devoting to Africa by 2006. Many of those African countries worst affected by HIV/AIDS are among the DFID's bilateral country partners, (over 80 per cent. of AIDS' deaths occur in DFID's 16 African partner countries). The new UK Strategy on HIV/AIDS, to be published this summer, will cover the level of the UK's future resource commitments for HIV/AIDS.

Several DFID African bilateral country programmes have recently stepped up expenditure in support of programmes to help combat HIV/AIDS; for example: a £25 million project for strengthening Nigeria's capacity to respond effectively to HIV/AIDS, and in Tanzania, DFID is working with the Tanzanian Government to set up an HIV/AIDS Fund of around £15 million per year over the next three years. In Malawi a programme is being designed that focuses on actions to help address the impact of HIV/AIDS on human resources in health and other sectors.

However, scaling-up the HIV/AIDS response will not only require additional expenditure for HIV/AIDS-specific programmes. The socio-economic impact of HIV/AIDS and the vulnerability of the poor people in developing countries to HIV/AIDS mean that DFID's overall development effort around support for country owned Poverty Reduction Strategies remain of central importance. DFID's continuing work in the area of capacity building, education, public and financial sector reform and strengthening of civil society will all contribute to combating HIV/AIDS.

DFID will make HIV/AIDS and Africa a centrepiece of the UK's Presidencies of the G8 and the EU in 2005. This creates an opportunity to work with the international community to increase the global HIV/AIDS response in Africa. If DFID is to succeed with our efforts we shall need to focus on four challenges that are seen as key to unlocking faster progress: Stronger political direction, better funding, better donor co-ordination and better HIV/AIDS programmes.

Mr. Bercow: To ask the Secretary of State for International Development (1) when the Department will report progress on its targets *(a)* to reduce maternal mortality and *(b)* to tackle HIV/AIDS in Asia; [171682]

(2) if he will make a statement on progress on *(a)* the reduction of the under five mortality rate and *(b)* the TB treatment rates in Asia. [171684]

Hilary Benn: DFID's Departmental Report for 2004 (Reference code CM 6214), published on 5 May, reports on progress against the targets to reduce maternal mortality and to tackle HIV/AIDS and also to increase TB treatment rates in Asia. Copies of this report have been placed in the Library of the House.

International Plan of Action on Ageing

Tom Brake: To ask the Secretary of State for International Development what action his Department *(a)* has taken and *(b)* intends to take in relation to the findings of the International Plan of Action on Ageing 2002. [170984]

Hilary Benn: DFID was closely involved in the preparations for the Second World Assembly on Ageing, held in Madrid in 2002. For example DFID supported the UN secretariat for the Assembly and also provided funding for the African Union's leadership and for the non-governmental organisation HelpAge International (HAI) to participate in the policy development process. DFID's support helped to ensure that poverty reduction and other development issues were fully reflected in the International Plan of Action, so that it provides a good basis for further action by the international community.

The eradication of poverty is a fundamental aim of the International Plan of Action. DFID's aim is also the elimination of poverty in poorer countries. Older people are often among the poorest. The problems faced by many older people are therefore included in the policy

analyses currently being carried out by DFID on chronic poverty and on social exclusion. DFID is also funding research at the Centre for Chronic Poverty and Development Policy at Manchester, in partnership with HelpAge International, into elderly people living in poverty. Other recently completed research projects looked at the migration of older people from South Asia and at non-contributory pensions and poverty prevention.

The Action Plan advocates the active participation of older people in society and development. DFID's approach recognises the human rights of poor people, including older people and seeks to ensure that they are consulted on policies and decisions that affect them. DFID encourages their participation in research and in the development of policies that affect them. This increases understanding of how they perceive their rights and of the obstacles they face in obtaining their entitlements.

DFID has had a strategic Programme Partnership Agreement with HelpAge International (HAI) since 2002. The purpose is to influence the development of policies and practices that promote rights and opportunities for older people and to maximise their contribution to society. DFID has provided funding of £2.46 million under this Agreement over the financial years 2002–03 to 2004–05. Funding for future years has still to be negotiated.

HAI's work includes support for setting up effective groups of older citizens in developing countries. This includes strengthening them to monitor how their governments carry out their commitments to reduce the poverty of older people, including the Madrid International Plan of Action on Ageing. This project also encourages dialogue between governments, civil society and older people to ensure that effective policies and programmes are developed to reduce poverty among older people. A major objective of HAI is to raise awareness of the impact of HIV/AIDS on older people. They also support work to inform older people of their rights—for example a programme in South Africa to train older people to give affordable legal advice at village level on issues such as widowhood and inheritance.

Examples of projects funded by DFID country programmes include support for the development of services for older people in the Kemerovo region of Russia and projects in the Overseas Territories of Montserrat and St. Helena to provide sheltered housing and other support for elderly people to live in the community.

Primary Schools (Developing Countries)

Sir Archy Kirkwood: To ask the Secretary of State for International Development if he will list the projects being funded by his Department which will lead to more primary school places being made available in developing countries in the current financial year. [169373]

Mr. Gareth Thomas: The UK Government are working in the poorest countries in the world and with the international community to help governments provide education for millions of children who are out-of-school. Total investment in education from 1997–2002 was around £820 million. During the last financial year of 2003–04 DFID has spent over £170 million on education in developing countries, providing books and equipment, building new schools, paying teacher salaries and providing training for teachers. This figure is set to rise to over £250 million per year for the next four years.

Progress has already been made in many countries; global enrolment in primary education increased from £596 million in 1990 to £648 million children in 2000.

There are projects supporting primary education in several countries including Bangladesh, China, Democratic Republic of Congo, Ethiopia, Ghana, India, Kenya, Malawi, Nigeria (with the World Bank), Pakistan, Rwanda, South Africa, Sudan, Tanzania, Vietnam and Zambia. Projects in Nepal are also under development. In addition, DFID supports education in Mozambique and Uganda through budget support.

In Vietnam, DFID supports the implementation of the Governments recently approved National Education for All action plan. This includes support for a range of actions to ensure sufficient primary school places of reasonable quality for all children in educationally disadvantaged districts.

In India for example, the UK Government are providing funds to the Indian Government to help children from four of the poorest states attend and complete a full cycle of basic schooling. In Kenya, the Government recently stopped school fees at primary school. Making education free has brought a dramatic rise in the number of children going to school—over one million extra children. DFID is supporting the Kenyan Government to provide enough school places to keep up with demand and to ensure that quality is sustained. Finally, in Ethiopia the Government has prioritized primary education. Although enrolment is among the lowest in sub-Saharan Africa, progress is on track and the Gross Enrolment Rate has doubled over the last 10 years to 65 per cent.

Uganda

Tom Brake: To ask the Secretary of State for International Development which consultants are retained by his Department to provide the Government of Uganda with advice on delivery of public services; what the value of the contracts with the consultants is; and what the nature of the consultants' brief is. [171207]

Hilary Benn: The requested information is shown as follows.

Consultant name	*Contract purpose*	*Contract value (£)*
Marine Resources Assessment Group (MRAG)	Integrated lake management project	4,527,051
Agrisystems Ltd.	Improving rural livelihoods in north and east Uganda through innovative systems for client led agriculture	4,428,843
Maxwell Stamp plc	Uganda Revenue Authority phase 2—Uganda	2,483,210

Consultant name	Contract purpose	Contract value (£)
The Media Company	Radio for Gulu and Kitgum	771,135
Local Government International Bureau	City-Community Challenge Fund pilot project number 1	500,000
International Book Development Ltd.	Instructional Materials Reform Programme	864,190
Maxwell Stamp plc	Support to Privatisation and Utility reform (SPUR) Project	585,840
LTS International Ltd.	Uganda Forest Sector Policy and Strategy Framework Project	1,730,153
KPMG	Results oriented management adviser, Uganda	323,980
International Book Development Ltd.	Instructional Materials Reform Programme (phase 2)	331,010
EASP Ltd.	Financial management systems and technical support	93,170
Water Engineering and Development Centre (WEDC)	Development of performance measurement for the Uganda water and sanitation sector	118,136
HTS Development Ltd.	DFID support for development of Uganda Bureau of Statistics	88,909
John Snow International	HIV mainstreaming follow up and PEAP revision visit	45,857
The Law and Development Partnership Ltd.	A study on remuneration and pay policies for public service institutions and other Government agencies	139,821
University of Sussex	Social Protection phase 2 and 3: Uganda	54,548

Water Supplies

Helen Jones: To ask the Secretary of State for International Development what assistance he is giving to projects which improve access to clean water in the developing world. [171017]

Hilary Benn: DFID is committed to supporting implementation of the Millennium Development Goals on access to safe water and provision of basic sanitation, and to the commitments made at the World Summit on Sustainable Development for better management of water resources. DFID's goal in the water sector is to enable poor people to lead healthier and more productive lives by helping to increase and sustain their access to safe drinking water supply and appropriate sanitation. DFID supports an integrated approach to sustainable water resource management, water supply, sanitation and hygiene promotion.

DFID currently has bilateral programmes in many countries and supports several major multilateral initiatives to improve access to clean water and sanitation. DFID is also working with other bilateral and multilateral agencies to develop more effective ways of attracting financing at a global level that are linked to the development of effective national water sector strategies and policies.

DFID's recent Water Action Plan sets out how DFID will contribute to meeting the Millennium Development Goals (MDGs), through ongoing commitments to water supply, sanitation and water resource management.

DEFENCE

Army Air Corps (Medical Care)

Miss McIntosh: To ask the Secretary of State for Defence what assessment he has made of the standard of medical care available to personnel serving at Army Air Corps stations. [169986]

Mr. Caplin: The Defence Medical Services provide the Armed Forces with a comprehensive medical service in peace, war and operations other than war to standards at least equal to the National Health Service (NHS). Military Personnel serving at Army Air Corps stations will receive primary health care, including specialist aviation medicine advice, from their units; psychiatric care from their local Defence Community Mental Health Centre; and secondary care from the NHS, including those NHS Trusts which host Ministry of Defence Hospital Units.

The Defence Medical Services ensure and monitor the quality of care provided through robust Clinical Governance process. This includes the practice of evidence based medicine, clinical audit, supervision of clinicians performance, patient feedback, risk management, complaints management and the development of clinical leadership skills.

Crash Investigation (Norway)

Norman Lamb: To ask the Secretary of State for Defence if he will make a statement on the assistance being provided by the Royal Air Force and his Department to the inquiry into allegations that a Royal Air Force Harrier aircraft was involved in the crash of a civilian Twin Otter near Mehamn in Norway in 1982. [171052]

Mr. Ingram: The Ministry of Defence has undertaken to provide all possible assistance to the Norwegian Parliamentary Commissions inquiry into the Mehamn tragedy. However, owing to the passage of time since the accident, we are having difficulty in finding the records relevant to the questions posed to us by the Commission.

Defence Bills Agency

Angus Robertson: To ask the Secretary of State for Defence pursuant to the answer of 15 March 2004, *Official Report*, column 46W, on Defence Bills Agency, how many of the bills processed by the Defence Bills Agency in 2002–03 related to procurement contracts; what the total value of those bills was; and what the figures were in *(a)* 2000–01 and *(b)* 2001–02. [170432]

Mr. Ingram: The information is not held centrally and could be provided only at disproportionate costs.

Defence Housing (Rubbish Disposal)

Miss McIntosh: To ask the Secretary of State for Defence what assessment he has made of the standard of the household rubbish collections services at defence housing associated with *(a)* RAF Leeming, *(b)* RAF Linton on Ouse, *(c)* AAC Dishforth and *(d)* Alanbrooke Barracks; and if he will make a statement. [169997]

Mr. Caplin: No assessment has been made by the Ministry of Defence of the standard of household rubbish collection services in the areas named, other than that Service families in those locations receive the same service as civilian residents and, like other contributors to council tax revenue, are entitled to present any concerns to the council, either as individuals or residents' groups.

Defence Medical Personnel

Miss McIntosh: To ask the Secretary of State for Defence whether the civilian medical practitioners based at *(a)* RAF Leeming, *(b)* RAF Linton on Ouse, *(c)* AAC Dishforth and *(d)* Alanbrooke Barracks are stationed at these bases on a full-time basis. [170005]

Mr. Caplin: Civilian medical practitioners at RAF Leeming and RAF Linton on Ouse are employed on a full-time basis. At AAC Dishforth and Alanbrooke Barracks medical cover is provided through civilian GPs working part-time on a job share arrangement or through arrangements with local NHS practitioners.

Defence Medical Services

Miss McIntosh: To ask the Secretary of State for Defence what provision his Department makes for access to private medical treatment or diagnosis for personnel who are unduly affected by delays in receiving such treatment and diagnosis from the Defence Medical Services. [170007]

Mr. Caplin: Limited use is made of private healthcare providers to enable Service personnel to be diagnosed or treated and returned to medical fitness. The Army Training and Recruitment Agency (ATRA) provide access to private medical care for recruits, and their instructors, who are injured during Phase 1 training in order that they may return to training more quickly. The Royal Navy run a limited scheme whereby essential personnel who are urgently required for operational deployment can be treated by a private healthcare provider in order to allow them deploy medically fit. Defence Medical Service (DMS) Regional Rehabilitation Units are able to obtain diagnostic Magnetic Resonance Imaging (MRI) scans through local private providers, although any treatment identified by the scans would normally be carried out within the DMS system. RAF station commanders are able to use station funds to provide private treatment for individuals if they are urgently required for military operations.

Defence Scientific and Technology Laboratory

Mr. George Howarth: To ask the Secretary of State for Defence how the operations and financial transactions of the Defence Scientific and Technology Laboratory will be related to the Ministry of Defence's Top Level Budget for Corporate Science and Technology established on 1 April 2004. [169386]

Mr. Ingram: The Defence Science and Technology Laboratory (Dstl) will remain one of the single largest suppliers of research to the new Top Level Budget (TLB). Dstl is a Trading Fund of the Ministry of Defence and it will continue to carry out all such work which, for reasons of sensitivity or security, must be done within Government. Research tasking will continue to be managed through formal tasking orders placed by the Department on the Dstl Trading Fund in accordance with the established Terms of Business Agreement. The new TLB will maintain financial accounts as the customer and the Trading Fund will maintain separate accounts as supplier. The day-to-day operation of the Trading Fund will be a matter for the Chief Executive, directed at a strategic level by the Ministerial owner's board in the Ministry of Defence. The key change represented by the new TLB is a move towards an output based approach for research planning and delivery and this will impact progressively on all research suppliers including Dstl by bringing a sharper focus on the priority needs of key stakeholders in the defence and security area.

Equipment Costs

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the forecast cost was on 31 March 2000 for the Extended Range Ordnance/Modular Charge System. [170363]

Mr. Ingram: The forecast cost of the Extended Range Ordnance/Modular Charge System programme at 31 March 2000 was £188 million.

HMS Trafalgar

Dr. Julian Lewis: To ask the Secretary of State for Defence what assessment he has made of allegations by crew members that major defects in HMS Trafalgar remain to be rectified. [170664]

Mr. Ingram *[holding answer 4 May 2004]:* HMS Trafalgar returned to sea to test equipment and systems following a major period of maintenance and repair. Before a submarine undertakes such a period at sea it goes through a complex and exhaustive testing procedure by a number of authorities which is fully documented. HMS Trafalgar passed that inspection. If she had any major defects or failing systems she would not have been allowed to return to sea. The allegations made by members of her crew have been assessed by appropriately qualified engineering personnel. The allegations that HMS Trafalgar had major defects which should have prevented her return to sea are unfounded.

Harry Cohen: To ask the Secretary of State for Defence whether HMS Trafalgar is seaworthy; and if he will make a statement. [170720]

Mr. Ingram *[holding answer 4 May 2004]:* HMS Trafalgar would not have returned to sea if she had not been seaworthy. Our nuclear submarines have been operating for over 40 years and have a safety record that is second to none. Before any submarine goes to sea, particularly as with HMS Trafalgar, after a period of maintenance and defect repair, it undergoes a rigorous series of safety checks and a number of authorities are involved in that process.

Mr. Hancock: To ask the Secretary of State for Defence if he will make a statement on the safety concerns of the crew members who left HMS Trafalgar. [170739]

Mr. Ingram: The Royal Navy have been operating nuclear powered submarines for over 40 years and have a safety record that is second to none. We would not send a submarine to sea unless it was safe to do so.

Of the 124 crew members on board HMS Trafalgar, 12 expressed general reservations over the material state of the submarine following a period of maintenance and repair. These concerns centred on three areas. These being:

the release, as a result of human error, of diesel exhaust fumes into the submarine;

a leak into the submarine, resulting from faulty equipment not related to recent maintenance, during pressurisation of the Freon domestic refrigerant gas system; and concerns related to faults to the paint finish of the escape hatch docking seat which had been inspected and judged to be minor and insufficient to prevent successful docking of a rescue submersible if that extremely unlikely event should prove necessary.

Following these individual expressions of concern, made through the appropriate channels, and the levels of stress shown by 11 of these individuals, the Commanding Officer quite properly decided to remove these sailors from the submarine for medical assessment. In doing so, he acted in the best interests of those individuals and the Service. The twelfth member of the crew who discussed his concerns with the Commanding Officer elected to remain on board and sailed with Trafalgar.

Iraq

Mr. Evans: To ask the Secretary of State for Defence what payments his Department has made to private military companies working in Iraq. [166132]

Mr. Ingram: The Ministry of Defence has not employed private military companies in Iraq. It has not, therefore, made any payments to such companies.

Nuclear Installations (Aircraft Incidents)

Llew Smith: To ask the Secretary of State for Defence if he will list each near miss incident involving RAF aircraft and United Kingdom nuclear installations reported to his Department in each year since 2000; and if he will place copies of the report on each incident in the Library. [165158]

Mr. Ingram: [*Pursuant to his reply, 27 April 2004 Official Report, columns 873–74W*] Further work identified some inconsistencies in the recording of the alleged incidents. The table now reflects the year that the alleged incident occurred.

	Total number of alleged incidents	*Total confirmed breach*	*Under investigation*
2000	12	—	—
2001	20	1	—
2002	13	2	—
2003	13	2	—
2004 (up to 31 March 04)	1	—	1

Nuclear Safety

Dr. Julian Lewis: To ask the Secretary of State for Defence what monitoring programmes are in place to assess the health of present and former Royal Naval and MoD contracted personnel who have worked on nuclear submarine refits. [170230]

Mr. Caplin: The Ministry of Defence and its contractors carry out medical surveillance of radiation workers as required by Ionising Radiation Regulations 1999, Regulation 24. These regulations lay down monitoring and medical surveillance requirements for personnel while occupationally exposed to ionising radiation. The main purpose of medical surveillance is to determine an individual's fitness or continuing fitness for the intended work with ionising radiation. There is no mandatory requirement for a health monitoring programme for former personnel who have worked on nuclear submarine refits and I refer the hon. Gentleman to the answer given by my hon. Friend the Under-Secretary of State for Health on 15 December 2003, *Official Report*, column 785W to the hon. Member for Portsmouth, South (Mr. Hancock).

MOD and its contractors at the Royal Dockyards however, provide an independent counselling service for radiation workers, former radiation workers and their families who have concerns about their health consequent of their work with radiation.

Individuals may request counselling by telephoning the Counselling Telephone line (02392 768098) and leaving their names and addresses or by writing to the MOD Counselling Registry at DSTL Radiological Protection Services, Crescent Road, Alverstoke, Gosport, Hants, PO12 2DL. Further details are available on the world wide web at: http://www.mod.uk/dsef/hp/rwc.htm.

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) what estimates have recently been made of the safety of levels of radiation regarded as acceptable when early generations of nuclear submarines were being refitted; and if he will authorise a new assessment; [170231]

(2) what assessment his Department has made of the likelihood that individuals involved in past nuclear submarine refits have *(a)* been exposed to cancer-causing levels of radiation and *(b)* developed cancer as a result. [170229]

Mr. Ingram: Radiation exposure is kept as low as reasonably practicable and within the dose limits recommended by the International Commission on Radiation Protection (ICRP) and specified in the United Kingdom legislation. Both the ICRP and UK regulations are regularly reviewed and updated. Therefore, there is no need for the Ministry of Defence to make its own assessment.

Those workers most exposed to ionising radiation, known as classified persons, have their exposure assessed using radiation dosimeters issued by an Approved Dosimetry Service and entered into their radiation dose record. The Ministry of Defence contributes its data on classified persons to the National Registry of Radiation Workers (NRRW) managed by the National Radiological Protection Board (NRPB). The NRRW data are used in epidemiological studies. In an analysis of the data, published in July 1999, the NRPB concluded that overall death rates among radiation workers are below those in the general population. The analysis contained 124,743 workers, of which about one third were Ministry of Defence radiation workers or former radiation workers. The NRPB is intending to undertaker the next analysis in 2005–06.

RAF Medical Centres

Miss McIntosh: To ask the Secretary of State for Defence what assessment he has made of the standard of medical care available to aircrew manning Quick Reaction Alert aircraft at *(a)* RAF Leeming, *(b)* RAF Leuchars and *(c)* RAF Coningsby. [169993]

Mr. Caplin: All RAF medical centres are regularly inspected as part of the RAF's Formal Governance Visit programme. This programme involves a formal command level inspection of medical standards and working practices every two years, with self-assessment questionnaires being completed in the intervening years. All of the Quick Reaction Alert medical centres were assessed as satisfactory at their last inspections.

RAF Benson

Mr. Boris Johnson: To ask the Secretary of State for Defence (1) what representations he has received from members of the local community with regard to the future of RAF Benson; [169789]

(2) what assessment he has made of the economic costs to the local community were RAF Benson to close. [169791]

Mr. Caplin: I made clear to the House in my Written Statement of 23 March *Official Report*, columns 47WS-48WS, that the Ministry of Defence is continually examining ways of improving military capability and value for money for the taxpayer. As part of this approach, we therefore keep the size and location of our bases under constant review. No decisions have been made regarding the future of RAF Benson. No assessment on the economic costs to the local community of any closure has been made.

In addition to the two letters from the hon. Gentleman, the Ministry of Defence has received one letter from the hon. Member for Wantage (Mr. Jackson). RAF Benson has received a letter from the local Chamber of Commerce.

Royal Navy (Job Titles)

Dr. Julian Lewis: To ask the Secretary of State for Defence for what reason the title of engineering artificer is to be replaced by that of engineering technician in the Royal Navy; what consultations were undertaken with non-commissioned Royal Naval personnel before the decision was taken; and if he will make a statement on the future of engineering apprenticeships in the Royal Navy. [170227]

Mr. Caplin: The title artificer no longer adequately describes the professional role that those personnel undertake in the modern Navy. Replacing it with Engineering Technicians will align the Navy with the standards of competence published by the Engineering Council United Kingdom, and refresh the image of this key role against increasingly competitive recruitment market forces.

There has been wide consultation with Royal Navy Engineering Branch personnel of all ranks and rates during this review, covering all aspects of the proposals, including the title change.

It is expected that satisfactory completion of Technician training will be recognised by the award of a Foundation Degree, providing the opportunity, for those who wish, to study to Bachelor Degree level, thereby enabling them to aspire to accreditation as Incorporated Engineers. The quality of the skilled, technically trained men and women provided to support the Fleet will be undiminished.

Trident Nuclear Warhead

Mr. Keetch: To ask the Secretary of State for Defence what the *(a)* life of the current design of the Trident missile and *(b)* maximum life of the Trident missile system is; and if he will make a statement. [170350]

Mr. Hoon: I refer the hon. Member to the answer I gave on 11 February 2004, *Official Report*, column 1458W to the hon. Member for New Forest, East (Dr. Julian Lewis).

NORTHERN IRELAND

Arts Funding

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much money was allocated by *(a)* the Arts Council of Northern Ireland, *(b)* the Department of Culture, Arts and Leisure, *(c)* the Ultach Trust and *(d)* Foras na Gaeilge towards the arts in each year since 1999. [168559]

Angela Smith: Expenditure on the arts since 1999 by the Arts Council of Northern Ireland is as set out in the following tables:

	£ million
1999–2000	15,522,314
2000–01	11,699,055
2001–02	13,040,613
2002–03	14,997,581
2003–04 (Subject to audit)	16,074,500

Expenditure on the arts since 1999 by the Department of Culture, Arts and Leisure is as follows (excluding grant in aid to the Arts Council):

	£000
1999–2000	367,910
2000–01	469,500
2001–02	730,000
2002–03	756,672
2003–04	492,405

The Ultach Trust is a registered charitable trust. The Government are not responsible for the Trust's expenditure.

Expenditure on the arts since 1999 by Foras na Gaeilge is as follows:

	£000
1999	—
2000	150,000
2001	170,000
2002	200,000
2003	200,000

Bank Charges

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what action he is taking to bring about the reduction of charges to customers by banks operating in Northern Ireland; and if he will make a statement. [165784]

Mr. Gardiner: Banking is a reserved matter under Schedule 3 to the Northern Ireland Act 1998 and Northern Ireland Departments have no powers in this area. The hon. Lady will, however, wish to note that the General Consumer Council for Northern Ireland (GCCNI) produced a report, "Short Changed", in 2002, which highlighted the need to make banking easy, affordable and accessible for all Northern Ireland's consumers. In subsequent press releases, GCCNI has advised consumers to shop around and has called on local banks to scrap unnecessary charges and advertise the existence of their low-cost basic bank accounts. It is also promoting financial education initiatives. Powers in relation to the areas referred to by the hon. Lady are vested in the Office of Fair Trading. I have asked my officials to bring the hon. Lady's concerns to the attention of that organisation to which further questions should be directed.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether all bank charges in Northern Ireland meet the code and ethics laid down by the UK banking industry; what steps the Government can take to protect Northern Ireland bank customers; and if he will make a statement. [165785]

Mr. Gardiner: Banking is a reserved matter under Schedule 3 to the Northern Ireland Act 1998 and Northern Ireland Departments have no powers in this area. Compliance with the Banking Code and the Business Banking Code is a matter for the Banking Code Standards Board. In relation to the steps the Government can take to protect Northern Ireland bank customers, I would refer the hon. Lady to the answer I gave today to Question Number 165784.

Benefit Fraud

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what his estimate is of the extent of benefit fraud in Northern Ireland; and what measures are in place to deal with it. [170482]

Mr. Spellar: I am totally committed to a robust approach to tackling fraud and error and abuse of the social security system wherever it occurs.

The Social Security Agency is unable to measure the amount of fraud across all benefits on an annual basis. However, a programme of Benefit Reviews is carried out on a regular basis across all of the major Social Security benefits. During the 2003–04 year the following levels were estimated:

Income support, 1.6 per cent. (£7.625 million) of benefit expenditure;

Jobseekers allowance, 6.1 per cent. (£6.626 million) of benefit expenditure;

Housing benefit, 2.2 per cent. (£6.967 million) of benefit expenditure.

During 2002–03, a Benefit Review was carried out in Incapacity Benefit. A total of 591 cases were examined of which only 2 (0.3 per cent.) were found to be fraudulent. Based on this small number of fraudulent cases, it is anticipated that this equates to £0.94 million of benefit expenditure.

The Social Security Agency has a comprehensive and rigorous strategy for combating fraud designed to ensure that:

claims entering the system are legitimate;

once in the system claims are maintained properly; and

where fraud does enter the system it is detected and appropriate action is taken.

In the period from April 2003 to March 2004, 7,761 cases of suspected fraud were investigated. Of these cases, 3,944 (51 per cent.) resulted in withdrawal of claims or changes in the rate of benefit paid and 345 were referred for prosecution. In the same period there were 101 cases where administrative penalties were imposed and 54 cases where cautions were issued.

Childhood Tumours

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will take steps to ensure that *(a)* the new regional cancer unit at the Belfast City Hospital and *(b)* local research prioritise childhood tumours; and if he will make a statement. [171030]

Angela Smith: I have been asked to reply.

(a) The Royal Belfast Hospital for Sick Children is responsible for the management of childhood cancers and this will not change when the new Cancer Centre opens at the Belfast City Hospital in 2006. Children requiring radiotherapy will continue to be referred to Belfast City Hospital Trust, which currently provides radiotherapy for around 15 children each year.

The effective management of childhood cancers is already a key priority for the Royal Belfast Hospital for Sick Children. The Hospital is a member of the United Kingdom Children's Cancer Study Group, comprising 22 specialist centres. Each of the centres adheres to agreed protocols for the treatment of childhood cancers, developed in collaboration with European and worldwide oncology centres.

(b) In Northern Ireland, there is an active research base in both cancer and child health and welfare, through the Recognised Research Groups, supported by the R&D Office for the HPSS.

Hotel Accommodation

Mr. Trimble: To ask the Secretary of State for Northern Ireland how much capital grant has been paid by the Northern Ireland Tourist Board for the provision of upgrading hotel accommodation in each of the last five financial years. [170435]

Mr. Pearson: In April 2002 the Capital Investment Programme for accommodation development moved from the Northern Ireland Tourist Board (NITB) to Invest Northern Ireland (Invest NI). Invest NI has responsibility for allocation of resources to accommodation infrastructure projects through the Tourism Development Scheme whilst the NITB retains responsibility for investment in visitor attractions, visitor amenities and visitor servicing.

From April 1999 to March 2004 inclusive, £3,961,879 has been paid by the NITB and Invest NI towards the upgrading of hotels in Northern Ireland. The payment figure can be broken down as set out in the following table:

	Payments made (£)
1999–2000	1,048,199
2000–01	946,826
2001–02	1,045,610
2002–03	567,430
2003–04	353,814
Total	3,961,879

Housing Executive (Rent Levels)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the annual changes in Northern Ireland housing executive rents were over the last six years. [171001]

Mr. Spellar: I refer the hon. Gentleman to the reply I gave on 26 April 2004, *Official Report*, column 820W, which provides information about the Housing Executive rents in Northern Ireland over the five year period 2000–01 to 2004–05. The increase for 1999–2000 was 4.5 per cent.

Road Safety

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many motorists have been prosecuted since the introduction of the legislation on the use of mobile phones in Northern Ireland. [169759]

Mr. Pearson: The Motor Vehicles (Construction and Use) (Amendment No. 5) Regulations (Northern Ireland) 2003 came into operation on 1 February 2004 and I am advised that during that month the PSNI gave advice and warnings to motorists that committed an offence. I understand that the PSNI have issued 835 fixed penalty notices from 1 March 2004 in respect of contraventions. Statistics on the number of prosecutions in respect of hand-held mobile telephones are not yet available and could be obtained only at disproportionate cost.

Northern Ireland Police Board (Fair Employment)

Mr. McNamara: To ask the Secretary of State for Northern Ireland how many formal complaints alleging breaches of fair employment and equal opportunity legislation by the Northern Ireland Policing Board have been made to the Office of Industrial Tribunals and the Office of Fair Employment Tribunals in *(a)* 2002, *(b)* 2003 and *(c)* 2004 to date. [170728]

Mr. Pearson: I have been advised by the Northern Ireland Policing Board of the following statistics relating to the number of formal complaints made to the Office of Industrial Tribunals and the Office of Fair Employment Tribunals alleging breaches of fair employment and equal opportunity legislation by the Northern Ireland Policing Board:

2002: None.

2003: Two Cases.

2004: None to date.

Mr. McNamara: To ask the Secretary of State for Northern Ireland what assessment he has made of *(a)* the adequacy of the Northern Ireland Policing Board's equal opportunities policy and *(b)* the supply of appropriately qualified and trained staff to implement it; and what assessment he has made of the ability of the Board to comply with (i) equal opportunities and (ii) fair employment legislation, with particular reference to the requirement to preserve all relevant records and papers. [170404]

Mr. Pearson: The Northern Ireland Policing Board is designated as a public authority and is therefore required by Section 75 of the Northern Ireland Act 1998, in carrying out its functions to have due regard to the need to promote equality of opportunity and regard to promote good relations.

The Policing Board's Equality Scheme, which was approved on 12 February 2003 sets out how it proposes to fulfil its statutory duties. As like all other public

authorities the Policing Board produces an annual progress report on its Equality Scheme and submits this to the Equality Commission for Northern Ireland.

In addition as an employer I have been informed by the Policing Board that it has in place all the necessary procedures and processes to ensure that it complies with all relevant employment law. The Board has recently implemented their Equal Opportunities policy and undertaken the associated training for all staff.

I have also been advised that all relevant records and papers in respect of recruitment are retained in accordance with equal opportunities policies and legislative requirements.

Planning Policy

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will reverse the practice of planning authorities in Northern Ireland of presuming in favour of development. [169920]

Angela Smith: This matter will be considered as part of the forthcoming review of Planning Policy Statement 1 which sets out among other matters the general principles that my Department observes in exercising control of development. This review, which will involve public consultation, is due to be completed by the end of 2005.

Public Administration Review

Mr. Trimble: To ask the Secretary of State for Northern Ireland what progress has been made with the Review of Public Administration; when interim proposals will be published; and if he will make a statement. [170437]

Mr. Pearson: Consultation on high level models of public administration concluded on 27 February 2004 with some 170 responses being received. These have now been published on the Review's website.

On 27 and 29 April 2004 I met representatives of all the main political parties to outline the key messages emerging from the consultation responses, and to discuss the core elements of a new system of public administration that reflects the views expressed in these responses. The parties have agreed to work with me over the coming months, and I hope to be in a position to publish firm proposals for consultation in the autumn.

Mr. Trimble: To ask the Secretary of State for Northern Ireland what the total cost incurred by the Review of Public Administration has been since the beginning of financial year 2001–02. [170438]

Mr. Pearson: In May 2002 the Northern Ireland Executive agreed an overall budget of £3 million for the Review of Public Administration. To date a total expenditure of £1 71 million has been incurred by the Review. Prior to that, some preparatory work was undertaken on the Review before a dedicated budget was established. This work was completed by officials in OFMDFM who were engaged on a variety of issues, and therefore it is not possible to identify these costs separately.

Respiratory Illnesses

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what steps are being taken to assist those people in Northern Ireland who suffer from respiratory illnesses and as a result of their condition have severe restriction in their mobility. [171003]

Angela Smith: A number of initiatives are currently under way to help people who are affected by chronic respiratory disease in Northern Ireland. For those people who are disabled with respiratory disease, many Trusts have developed multi-professional Pulmonary Rehabilitation Services. Further work is currently being undertaken by Trusts, in association with Boards, to ensure that the full range of these services is available to everyone in Northern Ireland.

Recognising the impact of respiratory diseases on the health of people in Northern Ireland, my Department intends to initiate a major review of respiratory services in 2004–05. The scope of the review is not yet finalised, but key themes will include: primary prevention and the development of links with other health promotion strategies; the encouragement and facilitation of self-care; the promotion of multi- disciplinary team working; and, the development of integrated care pathways across the primary, secondary and tertiary healthcare sectors.

Social Economy (Public Bodies)

Mr. Swayne: To ask the Secretary of State for Northern Ireland where the first meeting of the Social Economy Forum in June 2003 was held; and how many attended, and what the cost of the meeting was. [170071]

Mr. Pearson: The first meeting of the Social Economy Forum was held at the Northern Ireland Council for Voluntary Action premises in Belfast. There were 26 attendees, evenly split between social economy sectoral representatives and Government officials. Room hire and catering costs were £310.

Mr. Swayne: To ask the Secretary of State for Northern Ireland what the *(a)* 2003–04 and *(b)* 2004–05 budget at the disposal of the (i) Social Economy Forum and (ii) Social Economy Agency is. [170072]

Mr. Pearson: The Social Economy Forum is a policy platform. The Forum of itself has no budget but as a policy platform it seeks to influence how others utilise their resources to develop the social economy sector.

£600,000 has been made available to the Social Economy Agency over a four-year period (2002–06). This is to establish and service a new high-level sectoral representative body, the Social Economy Network and its committees.

Mr. Swayne: To ask the Secretary of State for Northern Ireland how many staff are employed in the Department of Enterprise, Trade and Investment's inter-departmental steering group on the social economy. [170073]

Mr. Pearson: None. The Inter-Departmental Steering Group (IDSG) consists of senior officials from all 11 Northern Ireland Departments. It meets three to four

times per year and considers how departmental policies and programmes can support the growth of the sector, encourage greater cross-departmental co-operation and identify key action points to increase the sector's potential to build 'social capital' and create wealth and jobs, particularly in disadvantaged areas.

PRIME MINISTER

Middle East

Llew Smith: To ask the Prime Minister what assessment he has made of the recent open letter on Government policies on Iraq and the Israel/Palestine situation, signed by former British diplomats; and whether he plans to respond to the letter. [170994]

The Prime Minister: I set out my response to the letter at the press conference I gave with the Italian Prime Minister on 27 April. A full transcript of this is available on the Number 10 website.

Immigration

Keith Vaz: To ask the Prime Minister what steps he proposes to take to bring the immigration procedures and rules up to date. [171080]

The Prime Minister: I refer my hon. Friend to the written ministerial statement made by my right hon. Friend the Home Secretary on 22 April 2004, *Official Report*, columns 23–25WS.

Iraq

Mr. Howard: To ask the Prime Minister pursuant to his statement of 19 April 2004, *Official Report*, columns 21–3, on Iraq and the Middle East Peace Process, (1) whether he raised in Washington the role of the British representative in Baghdad; [171165]

(2) whether he asked President Bush to designate the British representative as Ambassador Bremer's deputy. [171168]

The Prime Minister: I refer the right hon. and learned Gentleman to the answer I gave to the hon. Member for South Staffordshire (Sir Patrick Cormack) during my statement on 19 April 2004, *Official Report*, column 33.

Mr. Howard: To ask the Prime Minister pursuant to his statement of 19 April 2004, *Official Report*, columns 21–3, on Iraq and the Middle East Peace Process, what proposals were agreed with President Bush to improve the training and effectiveness of Iraqi security forces. [171166]

The Prime Minister: As I have made clear, discussions are still continuing on this.

Mr. Howard: To ask the Prime Minister pursuant to his statement of 19 April 2004, *Official Report*, columns 21–3, on Iraq and the Middle East Peace Process, (1) what arrangements are being made to replace the Spanish contingent; [171167]

(2) whether British commanders in Iraq have asked for reinforcements; and whether any such request has been made by the US Administration. [171169]

The Prime Minister: I refer the right hon. and learned Gentleman to the answer I gave him at Prime Minister's questions on 5 May 2004, *Official Report*, columns 1331–32.

MINISTER FOR WOMEN

Equal Pay

23. **Tony Lloyd:** To ask the Minister for Women what steps are being taken to erode the differential between male and female earnings. [170672]

Jacqui Smith: We are taking a number of steps to increase women's opportunities in the labour market such as increasing support for child care, flexible working and work-balance and the help we, together with the EOC, have provided employees to tackle unequal pay where it exists. Indeed, we welcome yesterday's publication of the EOC's interim report on modern apprenticeships, which looks at the issue of occupational segregation, one of the causes of the gender pay gap.

Employment

24. **Hugh Bayley:** To ask the Minister for Women what change there has been in the number of women in employment since 1997. [170673]

Ms Hewitt: The Government have implemented a substantial package of measures to give women greater choice when entering the labour market, including new rights for working parents, tax credits, New Deal for Lone Parents and New Deal for Partners. There are now more women in employment than ever before, 13 million, up from 12 million in spring 1997. This Government's initiatives have contributed to the significant increase.

Rape (Rwanda)

25. **Tom Brake:** To ask the Minister for Women what discussions she has had with the Secretary of State for International Development regarding rape survivors in Rwanda. [170674]

Ms Hewitt: I fully support the work of my colleague the Secretary of State for International Development to assist women in post-conflict situations. The UK Government are providing direct assistance to the survivors of the genocide which is currently running at £200,000 per annum. I welcome the planned additional support of up to £850,000 which will include advice and counselling on issues around HIV/AIDS. I also welcome the financial assistance his Department is providing to witnesses, including rape survivors, at the International Criminal Tribunal for Rwanda.

Teenage Pregnancy

26. **Bob Russell:** To ask the Minister for Women what discussions she has had with the Secretary of State for Health regarding teenage pregnancy. [170675]

Jacqui Smith: My hon. Friend the Secretary of State for Health and my hon. Friend the Minister for Women are pleased with the early signs that the Government's Teenage Strategy is working. The under 18 conception rate has fallen by 9.4 per cent. between 1998 and 2002.

Maternity Leave (Dismissals)

27. **Dr. Cable:** To ask the Minister for Women to how many companies she has made representations over the dismissal of women on return from maternity leave. [170676]

Jacqui Smith: Our message to employers is that those who discriminate against women returning from maternity leave are breaking the law. I welcome the EOC's formal investigation into pregnancy discrimination, as I am too aware that this type of unlawful discrimination still takes place. Hard evidence of the scope, nature of and reasons for such discrimination will enable us to tackle it more effectively.

Criminal Justice

28. **Vera Baird:** To ask the Minister for Women how she intends to respond to the Fawcett Society's Commission on Women and the Criminal Justice System. [170677]

Ms Hewitt: I welcome the wide-ranging and valuable contribution that the Fawcett Society's Commission on Women and the Criminal Justice System.

The recommendations will strengthen the work already in hand to support victims as outlined in the Domestic Violence, Crime and Victim's Bill, the three-year Action Plan to implement the Women's Offending Reduction Programme and Gender Equality PSA targets to increase women's participation in the criminal justice system.

TRADE AND INDUSTRY

Consumer Credit

11. **Mr. Plaskitt:** To ask the Secretary of State for Trade and Industry if she will make a statement on responses received from businesses consulted on recommendations contained within the White Paper on reforming consumer credit legislation. [170688]

Mr. Sutcliffe: We have received a substantial number of responses to the Consumer Credit White Paper and its associated consultation. The responses represent views from a wide cross section of the credit industry; business, consumer groups and enforcement agencies.

The Department is currently analysing these comments with a view to publishing a full Government response in early June.

Aerospace Industry

13. **Mr. Todd:** To ask the Secretary of State for Trade and Industry what progress has been made in pursuing the recommendations of the Aerospace Innovation and Growth Team report. [170690]

Jacqui Smith: Good progress has been made across the wide range of recommendations contained in the report, covering the areas of technology, skills, process excellence, socio-economic environment and environment, safety and security.

EU (New Members)

14. **Chris Bryant:** To ask the Secretary of State for Trade and Industry if she will make a statement on trade with the 10 new member states of the EU. [170691]

Mr. Mike O'Brien: Accession of the 10 new states to the EU creates a market of 450 million people (bigger than US and Japan combined).

It will be the largest single market in the world, creating unprecedented opportunities for business and workers.

The UK should be well-placed to compete in this market on the basis of our supportive business environment and highly skilled and flexible workforce.

Miners Compensation

15. **Mr. Barnes:** To ask the Secretary of State for Trade and Industry if she will arrange for a compensation scheme for ex-National Coal Board workers employed as cokemen and surface workers who contracted chest diseases. [170692]

Nigel Griffiths: Two coal compensation schemes were established following court judgements on vibration white finger and chronic obstructive pulmonary disease. To date 4,143 payments have been made to miners in North-East Derbyshire. There have been no similar court judgements in the case of the other diseases, but claimants are entitled to seek compensation through the common law.

Science Research

16. **Dr. Cable:** To ask the Secretary of State for Trade and Industry if she will make a statement on the cost effectiveness of the Department's programme of financing science research. [170693]

Ms Hewitt: Since 1997, the Department of Trade and Industry has doubled the investment in science and research through the Science Budget—reaching £3 billion in 2005—and my right hon. Friend the Chancellor has confirmed that investment will continue to grow over the next Spending Review period.

The UK science and research base is recognised not only for its excellence: UK researchers are the most productive in the G8 countries, and I am confident that our investment will continue to pay dividends for our economy and our society.

Call Centres (Employment)

18. **Helen Jones:** To ask the Secretary of State for Trade and Industry what assessment she has made of future employment prospects in the UK call centre industry. [170695]

Mr. Mike O'Brien: The Department is today publishing a report of the study we commissioned to look at the competitiveness of the UK call and contact

centre industry. The study which covers a wide range of call centre issues forecasts that the UK industry is to gain around 200,000 jobs in the next three years, directly employing over a million people by 2007.

19. **Colin Burgon:** To ask the Secretary of State for Trade and Industry what assessment she has made of future employment prospects in the UK call centre industry, with particular reference to Leeds. [170696]

Mr. Mike O'Brien: The Department is today publishing a report of the study we commissioned to look at the competitiveness of the UK call and contact centre industry. The study covers a wide range of call centre issues but does not specifically cover employment prospects for Leeds. The UK industry is forecast to gain around 200,000 jobs in the next three years, directly employing over a million people by 2007.

Equal Pay

20. **Mr. Denham:** To ask the Secretary of State for Trade and Industry what further action she will take to close the pay gap between women and men in the south-east. [170697]

Ms Hewitt: I am taking forward a number of measures to address the pay gap nationally. These include the introduction of the Equal Pay Questionnaire, and last month we launched plans to streamline equal value tribunal procedures. We know that the large pay gaps in London and the south-east are driven by the very high salaries of men in the finance sector, that is why we are already working with the EOC to promote pay reviews in retail finance and city sectors.

BNFL Strategy Review

Llew Smith: To ask the Secretary of State for Trade and Industry if she will list in respect of the BNFL strategy review, to which reference is made at paragraph 15.27, page 126 of her Department's Annual Report, Cm 6216, *(a)* where the conclusions of the review were published, *(b)* who the members of the review were and *(c)* why neither the Thorp reprocessing plant nor the Sellafield Mox plant were included in the review. [170979]

Nigel Griffiths: The conclusions of the Joint Strategy Review of BNFL were announced in a written statement by my right hon. Friend the Secretary of State in the House of Commons on 11 December 2003 and were placed in the Libraries of the House. Full copies of the statement and the explanatory note are available at: http://www.dti.gov.uk/nuclearcleanup/wn.htm

The Review was a joint process between HMG, the company and their respective advisers. Mike Parker, the CEO at BNFL, led the BNFL team and was advised by N. M. Rothschild and Freshfields; the Government side was led by the DTI, and advised by HSBC, Deloitte and Touche and Herbert Smith. Other Government Departments, including HMT and the Shareholder Executive, were closely involved in the review process.

The joint review of BNFL was necessary to determine the future structure and broad strategic direction of the company before the NDA came into being. The Government White Paper, "Managing the Nuclear Legacy—a Strategy for Action", published in July 2001 had already stated that responsibility for THORP and the Sellafield MOX plutonium fuel plant would pass to the NDA. This policy has not changed, and accordingly, was not considered as part of the Strategy Review.

Disconnections

Jonathan Shaw: To ask the Secretary of State for Trade and Industry what discussions she has had with the Office of Gas and Electricity Markets on expanding the moratoria on disconnections for vulnerable groups beyond the winter months. [171307]

Nigel Griffiths: The Department has discussed, and will continue to discuss as appropriate, disconnections issues with Ofgem. With DTIs encouragement, Ofgem has been in discussion with gas and electricity suppliers about the arrangements governing disconnections, particularly for vulnerable customers. Last month, Ofgem issued an industry consultation paper that set out proposed revisions to, and clarification of, those arrangements. This should ensure that vulnerable customers are not, in the future, disconnected.

Energy Supplies

Mr. Best: To ask the Secretary of State for Trade and Industry what assessment she has made of the delivery of secure energy supply over the winter. [170282]

Nigel Griffiths: We saw evidence this winter that the Government's market-based approach to delivering secure energy supplies is working well. Generators brought mothballed plant back into service in response to rising electricity prices, and signals from NGT that they would like greater capacity going into the winter. The plant margin for winter 2003–04 rose from a projected level of 16.5 per cent. in July to 21.6 per cent. (January 2004 updated to National Grid Seven Year Statement), and electricity supply was sufficient to meet demand throughout the winter. The gas market also worked effectively, and there was sufficient supply to meet market demand throughout the winter.

In June, Ofgem are due to publish their next report into the performance of the electricity and gas industries in delivering security, covering the winter period. This follows from the commitment made in the Energy White Paper that Ofgem would publish six monthly retrospective reports on the delivery of energy security.

Fluorspar

Mr. McLoughlin: To ask the Secretary of State for Trade and Industry what assessment she has made of the economic importance of a domestic marketable source of the vein mineral fluorspar; and what assessment she has made of its downstream value to the economy in associated industries, in particular those situated in *(a)* the north-west of England and *(b)* Derbyshire. [170379]

Nigel Griffiths: The DTI is aware of the economic importance of a domestic source of fluorspar and the value of the industry to the economies of the north-west, Derbyshire and the south-west. There have been no specific assessments made of the economic importance of a domestic marketable source of the fluorspar. However, currently deposits in the Peak Park district of Derbyshire are being worked economically providing jobs and contributing to the local economy. In what is a highly competitive global market the high quality of the

mineral being extracted is needed to underpin a viable fluorine producing industry in the north-west, that is itself providing a significant number of jobs and contributions to the local economy in that region. Officials are working with the companies concerned and local stakeholders to ensure that the UK continues to reap the economic benefits of working these deposits with minimal impact on the environment.

Free Parcel Postage (British Forces)

Michael Fabricant: To ask the Secretary of State for Trade and Industry if she will make a statement on the future provision of free parcel postage to British Forces Post Offices in regions of combat and theatres of peacekeeping operations. [169141]

Mr. Ingram: I have been asked to reply.

I refer the hon. Member to my written ministerial statement of 27 February 2004, *Official Report*, column 70WS, and subsequent answers of 5 March 2004, *Official Report*, column 1155W, to the hon. Member for Portsmouth, South (Mr. Hancock), and 1 April 2004, *Official Report*, column 1605W, to the hon. Member for Mid-Norfolk (Mr. Simpson) and 5 May 2004, *Official Report*, columns 1526–1527W, to the hon. Member for Uxbridge (Mr. Randall).

Internet Fraud

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what the estimated cost of internet fraud has been to United Kingdom *(a)* consumers and *(b)* businesses in each of the last five years. [169376]

Ms Blears: I have been asked to reply.

The Government do not collect figures on the cost of credit card fraud. The Association for Payment Clearing Services (APACS) has estimated the total cost of losses due to fraudulent possession of card details (card-not-present fraud), which includes internet fraud, over the last five years is as follows:

	£ million
2003	116.4
2002	110.1
2001	95.7
2000	72.9
1999	29.3

Specific figures for costs to consumers or businesses are not available.

Postal Votes

Mr. Dismore: To ask the Secretary of State for Trade and Industry what plans the Royal Mail has to ensure *(a)* prompt delivery to electors and *(b)* the prompt return to the returning officer after posting by electors of postal votes for the forthcoming London and European elections in Hendon constituency; and if she will make a statement. [170193]

Nigel Griffiths: Royal Mail's plan for ensuring the prompt delivery and return of postal votes is an operational issue for the company. I understand that Royal Mail has developed a best practice guide on postal voting, which is designed to be used by Royal Mail's local operational staff, contacts within local authorities and regional returning officer departments. This operational guide is based on the company's experience of previous postal voting pilots and was drawn up in close co-operation with the Electoral Commission and local authority associations.

Royal Mail

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry if she will make a statement on the Royal Mail's single delivery project. [170694]

Ms Hewitt: Royal Mail is currently undertaking a complete restructure of the business with the full backing of the Government. A key element of that change, and the most visible to Royal Mail's customers, is the move to a single delivery. The Royal Mail is the last postal company in the world to move to a single delivery and it is essential that it do so if the business is to become competitive. The second delivery is an anachronism. It accounted for 20 per cent. of Royal Mail's cost, but only 4 per cent. of post carried.

Once the single delivery changes have been made, the target will be for everybody to receive his or her post by lunchtime. Many households will receive their post at the same time as before; others, however, will receive their post later in the morning. I fully appreciate that this will be disappointing to some but continuing the second delivery with its high costs makes no sense.

This is a huge undertaking for the company. Single delivery has now been introduced in 1,100 out of 1,450 delivery offices. The process takes six to eight weeks to bed in, as postmen and women get used to new and longer delivery routes. I understand that for the most part the change has gone reasonably smoothly and is now working well. There have been some problems and Royal Mail has apologised for the fall in service. I have Allan Leighton's personal assurance that the problems customers are experiencing in certain areas while the single delivery is being introduced are being vigorously tackled and solutions being found.

Michael Fabricant: To ask the Secretary of State for Trade and Industry (1) what assessment she has made of *(a)* the effect of size-based pricing on mail order companies and *(b)* the accuracy of Royal Mail's assertion that 30 per cent. of mail will be affected by these changes; [171010]

(2) if she will make a statement on the introduction of size-based pricing by Royal Mail. [171011]

Nigel Griffiths: The introduction and the assessment of the effect of size-based pricing are matters for the Royal Mail and for the postal regulator, Postcomm.

Wind Farms

Mrs. Dunwoody: To ask the Secretary of State for Trade and Industry what representations she has made to other Government Departments regarding obstruction to shipping lanes from wind farms. [168355]

Mr. Timms: I refer to the reply which my right hon. Friend the Secretary of State for Transport made on 4 May 2004, *Official Report*, column 1390W.

Adam Price: To ask the Secretary of State for Trade and Industry what evidence she has examined on low frequency noise emitted by wind turbines. [170186]

Nigel Griffiths: Research on low frequency noise emitted from wind turbines has been carried out under the Department's New and Renewable Energy Programme and reported in "Low Frequency Noise and Vibrations Measurement at a Modern Wind Farm" ETSU W/13/00392/REP.

The results of that study show that low frequency noise emitted from wind farms falls well within recognised acceptable limits.

FOREIGN AND COMMONWEALTH AFFAIRS

Brazil

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 27 April 2004, *Official Report*, column 965W, on Brazil, whether inspectors were denied access by Brazilian officials on 4 April. [170586]

Mr. MacShane: The Government's understanding of the situation remains as set out in my previous answer.

Departmental Annual Report

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the production of his Department's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171144]

Mr. Straw: Production of the Foreign and Commonwealth Office's departmental report 1 April 2003 to 31 March 2004 cost £24,453, of which £13,930 was for printing and £10,838 was for design and editorial work. These costs to the Department are 25 per cent. lower than for the 2003 report. Other costs are met by the publisher.

1,900 copies of this year's report were printed, of which 1,350 are distributed internally at a price which covers printing costs. The Stationery Office publishes the report, and as a legal requirement, provides six copies free to the Copyright Library. As the current report was only published on 29 April 2004, information on sales is not yet available. Last year the Stationery Office issued 425 copies of the 2003 Foreign and Commonwealth Office departmental report.

Eritrea

Mr. Win Griffiths: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Eritrea about the persecution and imprisonment of Eritrean Christians; and under what circumstances he would support the imposition of sanctions by the *(a)* UK and *(b)* EU. [170490]

Mr. Mullin: I raised this issue with President Isaias in Asmara on 15 January. Our Ambassador in Asmara raised the issue most recently on 29 March. The Government has no plans to introduce sanctions against Eritrea.

EU General Affairs and External Relations Council

Mr. Hood: To ask the Secretary of State for Foreign and Commonwealth Affairs what the outcome was of the General Affairs and External Relations Council held on 26 and 27 April; what the Government's stance was on the issues discussed, including its voting records; and if he will make a statement. [169788]

Mr. MacShane: The information is as follows.

Outcome of the 26 April 2004 General Affairs and External Relations Council

My right hon. Friend the Foreign Secretary and I represented the UK at the General Affairs and External Relations Council (GAERC) in Luxembourg on 26 April.

Conclusions were agreed on the Middle East Peace Process, Western Balkans, Cyprus and Africa.

General Affairs Session

Progress of work in other Council configurations

The Council took note of a progress report from the Presidency on work under way in the Council's other configurations (the Justice and Home Affairs Council and the Agriculture and Fisheries Council.)

Follow-up to the spring European Council: Intergovernmental Conference

The Council discussed the Presidency's plans for resuming negotiations in the Intergovernmental Conference on the draft EU Constitutional Treaty, with a view to reaching agreement no later than the 17–18 June European Council.

Enlargement

Commissioner Verheugen gave a presentation on the preparedness of the 10 Accession States (Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia) for membership of the European Union from 1 May.

He acknowledged their efforts to address the remaining areas of concern. He confirmed that implementation of the EU's rules and policies have been satisfactory and that no safeguard measures would be necessary at this stage, pending a definitive assessment once they had joined.

External Relations Session

WTO/DOHA Development Agenda (DDA)

Commissioner Lamy briefed on recent developments in the Doha Development Agenda (the negotiation agenda launched by the World Trade Organisation in November 2001 on Doha). The Council supported the Commission in its efforts and hoped to see progress by the end of July.

Commissioner Lamy also briefed on negotiations with Russia on its accession to the WTO, and on negotiations with Mercosur, which were aimed at concluding an Association Agreement.

Western Balkans

Conclusions were agreed on Serbia and Montenegro, Macedonia and the ESDP mission to Bosnia. There was a separate discussion on the planning and preparation for the Bosnia ESDP mission. The Council requested the Presidency and Secretary General/High Representative Solana to take forward the remaining strategic planning steps before the Istanbul NATO Summit in June.

EU-Africa

The Council agreed Conclusions on Africa. The Presidency debriefed on the recent EU-Africa Troika meeting, highlighting the African peace and security agenda, development, governance and multilateralism. There was also Conclusions on Sudan, which expressed concern about humanitarian situation in Darfur region.

China arms embargo

The Council exchanged views on the arms embargo against China. The Council agreed that the issue required further discussion and asked the Permanent Representatives Committee (Coreper) and the Political and Security Committee to take this forward.

Cyprus

Ministers discussed the situation in Cyprus following the 24 April referendum on the United Nations settlement plan. The Council also adopted Conclusions.

Middle East Peace Process

The Council discussed the Gaza disengagement proposals ahead of the forthcoming Ministerial Quartet meeting. The Council adopted Conclusions based on the Presidency statement made at the 15–16 April informal Foreign Ministers' meeting.

EU-Russia

The Council briefly discussed preparations for the 21 May EU/Russia summit in Moscow. The summit is expected to address progress achieved in the creation of the four 'common spaces' (economic; freedom, security and justice; research, education and culture; and external security).

AOB: EU-Canada—seal hunting

The Netherlands raised its concern about an increase in Canada's seal hunting quota. They were most concerned about the effect of hunting on the seal population and an absence of humane killing methods.

Iraq

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 26 April 2004, *Official Report*, column 774W, on Iraq, what form the second intelligence source reported in September 2002 took. [170513]

Mr. Straw: I regret that it would not be appropriate to comment publicly on the detail of this intelligence reporting. The security and intelligence agencies are not within the scope of the Code of Practice on Access to Government Information (Part 1, Paragraph 6). An inquiry chaired by Lord Butler of Brockwell is currently examining the accuracy of the intelligence on Iraqi Weapons of Mass Destruction up to March 2003, and any discrepancies between the intelligence gathered, evaluated and used by the Government before the conflict, and what has been discovered by the Iraq Survey Group since the end of it.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 30 January 2004, *Official Report*, column 581W, on Iraq, whether his reference to the intelligence that the Government understand was discussed with the International Atomic Energy Authority is to the second source referred to in paragraph 93 of the Intelligence and Security Committee's report, Iraq Weapons of Mass Destruction. [171178]

Mr. Straw: I refer my hon. Friend to the answer I gave her today (UIN 170513).

Maghreb

Mr. Gordon Marsden: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the countries of the Maghreb about assistance with the development of financial and banking institutions under the framework of the Euromed and Barcelona processes. [170306]

Mr. MacShane: We have no bilateral assistance programmes to the countries of the Maghreb, and have therefore had no direct discussions with them about assistance for the development of banking and financial institutions. But Foreign and Commonwealth Office and Department for International Development officials do discuss such matters, and other aspects of economic development, with members of the EuroMed Partnership (which includes the countries of the Maghreb) under the economic and financial chapter of the Barcelona Process.

Mr. Gordon Marsden: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his Department has to take forward the Euromed process in the context of *(a)* the G8 summit in June, *(b)* the US-EU summit in June and *(c)* the NATO summit in June, with specific reference to the countries of the Maghreb. [170307]

Mr. MacShane: As the Barcelona Process is an equal partnership between its 35 members (the EU, the Maghreb and Israel, Jordan, Syria, Lebanon, Turkey and the Palestinian Authority), it would not be appropriate to take the process forward in other fora. The Government will work with others to ensure that any discussions relating to the region with NATO, the G8 or at the EU-US Summit are consistent with the objectives of EuroMed. At the Istanbul Summit in June, Allies are expected to agree a package of measures to enhance security co-operation between NATO and the seven members of the Mediterranean Dialogue. We believe that by operating in its area of expertise, and focussing on practical co-operation, NATO's strengthened partnership will complement the Barcelona Process.

Mr. Gordon Marsden: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his Department has to increase engagement with non-EU Mediterranean countries in the context of the Barcelona Process, with specific reference to the countries of the Maghreb. [170309]

Mr. MacShane: The Maghreb is a region of increasing importance to the UK. As part of the UK's engagement with the non-EU members of the Barcelona Process, we will host, jointly with Morocco, a EuroMed Conference to look at the social consequences of economic reform in Marrakech on 20–21 May.

Middle East

Mr. Gordon Marsden: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the relationship between the EU EuroMed process and the US Greater Middle East Initiative. [170308]

Mr. MacShane: The Barcelona Process (or EuroMed Partnership) and the US Greater Middle East Initiative share common objectives of promoting stability and prosperity in the region. They seek to assist the region's development through broad-based reform. The Barcelona Process is a structured process of engagement and assistance across a broad range of issues with those countries on the southern shore of the Mediterranean. The US initiative offers programme assistance in focussed areas to a broader range of countries in the Middle East region and beyond. The Government believes the Barcelona Process and the US Greater Middle East Initiative have complementary roles to play in the pursuit of common objectives.

Parliamentary Questions

John Thurso: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) how many *(a)* ordinary written and *(b)* named day questions his Department received in (i) the 2002–03 and (ii) this parliamentary session up to the most recent date for which figures are available, broken down by month; [170768]

(2) what proportion of *(a)* ordinary written questions to his Department were answered within five sitting days of tabling, and *(b)* questions for a named day received a substantive answer on that day, in (i) 2002–03 and (ii) this parliamentary Session up to the most recent date for which figures are available, broken down by month. [170769]

Mr. Straw: In the 2002–03 parliamentary Session my Department received 591 named day parliamentary questions (PQs) and 2,779 ordinary written PQs. My Department answered 74 per cent. of named day PQs on time and 76 per cent. of ordinary written PQs within five working days.

As of 4 May in the 2003–04 parliamentary Session my Department has received 250 named day PQs and 1,161 ordinary written PQs. My Department has answered 76 per cent. of named day PQs on time and 86 per cent. of ordinary written PQs within five working days.

I have placed a copy of the Foreign and Commonwealth Office PQ statistics, broken down by month, for both parliamentary Sessions in the Library of the House.

Visa Application Centres

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to establish a visa application centre in Goa, India. [170400]

Mr. Mullin: There are currently no plans to establish a visa application centre in Goa. However, the situation is kept under review.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visa application centres outsourced operations assisting British High Commissions. [170398]

Mr. Mullin: Our most developed and largest outsourced visa application centre scheme is in India, where there are 11 visa application centres. There are another three visa application centres worldwide that are similar to the outsourced operation in India. Two are situated in Bangladesh and one in Singapore. However, there are other types of outsourced visa operations worldwide, the most common being designated couriers or designated travel agents where applications can be submitted.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total cost is of operating visa application centres. [170399]

Mr. Mullin: All visa application centres are self-financing and are therefore of no cost to UK visas or the UK taxpayer.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last visited a visa application centre. [170401]

Mr. Mullin: My right hon. Friend the Foreign Secretary has not visited a visa application centre, and has no plans to do so presently. Visa application centres accept visa applications only and then forward them to our visa sections. All visa application decisions are still made at a visa section of one of our missions.

TREASURY

Efficiency Gains

Mr. Letwin: To ask the Chancellor of the Exchequer what progress has been made in implementing 2.5 per cent. per year efficiency gains since the 2004 Budget Statement. [168601]

Mr. Boateng: I refer the right hon. Gentleman to my answer to him of 1 April 2004, *Official Report*, column 1677W, which gave more specifics of reductions in the tax—and in particular that of the 14,000 job reductions by 2007–08, 8,000 will be made by Inland Revenue, 3,000 by HM Customs and Excise and 3,000 will result from the merger.

Employment (Oldham, West and Royton)

Mr. Meacher: To ask the Chancellor of the Exchequer if he will make a statement on the levels of long-term *(a)* adult and *(b)* youth employment in Oldham, West and Royton in the last seven years. [170947]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Michael Meacher, dated 6 May 2004:

As National Statistician I have been asked to reply to your Parliamentary Question about unemployment. (170947)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Oldham, West and Royton Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (ISA) for local areas including parliamentary constituencies.

The attached table gives the annual average number of people claiming JSA for over 12 months, and the annual average number of these claimants aged 18 to 24 years, in the Oldham, West and Royton constituency, for each year since 1997. The table also shows the annual average total number of JSA claimants in the constituency for these years.

Annual average number of people claiming jobseeker's allowance (JSA), and number claiming for at least 12 months

Oldham, West and Royton parliamentary constituency, 1997–2003	*All claimants*	*Claimants for at least 12 months*[1] *All ages*	*Aged 18–24*
1997	2,615	664	107
1998	2,319	417	53
1999	2,364	388	14
2000	2,092	337	15
2001	2,033	267	8
2002	2,013	232	11
2003	1,868	175	9

Source:

Office for National Statistics.

Mr. Meacher: To ask the Chancellor of the Exchequer how many people were employed in tourism-related jobs in Oldham, West and Royton on the latest date for which figures are available. [170905]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Michael Meacher, dated 6 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about tourism-related jobs in Oldham, West and Royton. (170905)

The latest available data, from the 2002 Annual Business Inquiry, shows that the total number of jobs in tourism related industries in Oldham, West and Royton Parliamentary Constituency was 2,600. This total is obtained by combining figures for those working in the following industries, as identified by Standard Industrial Classification 2003:

hotels

restaurants

bars

activities of travel agencies

library, archives, museums etc

sporting activities

other recreational activities.

Government Revenue

John Mann: To ask the Chancellor of the Exchequer what assessment he has made of which significant economic factors have had an effect on the level of Government revenue over the last seven years. [171258]

Ruth Kelly: An assessment on the main economic factors effecting Government revenues is made available each year in the public finances chapter of the pre-Budget report and Budget.

National Insurance Contributions/Numbers

Mr. Webb: To ask the Chancellor of the Exchequer if he will estimate the effect on revenue from employee national insurance contributions (NICs) if the rate of NICs for employees who are not contracted out of the state second pension were to be reduced to the rate currently paid by employees who are contracted out. [171034]

Ruth Kelly *[holding answer 5 May 2004]:* The Government Actuary's Department estimates that rebates worth £1.9 billion would be accrued if all contracted-in employees were to pay national insurance contributions that were reduced by 1.6 per cent. of earnings between the lower earnings limit and upper earnings limit in 2004–05. This estimate excludes the additional age-related or employer rebates that would be paid for a contracted-out person.

Norman Lamb: To ask the Chancellor of the Exchequer what checks are made on the national insurance numbers used by employment agencies and gangmasters; what action is taken if a non-valid national insurance number is being used for an individual employed by an agency or a gangmaster; and if he will make a statement. [171050]

Ruth Kelly: The Inland Revenue check the validity of national insurance numbers which are notified to them by an employer (including as appropriate gangmasters or employment agencies) when a new employee joins, and at the end of each tax year as part of the employer's annual return. Where a non-valid national insurance number has been used, the Inland Revenue will attempt to trace a valid number for the individual involved. Where this cannot be done, the Inland Revenue will write to the employer asking him to provide a valid national insurance number for that employee.

Tax Credits

Mr. Pickthall: To ask the Chancellor of the Exchequer how many families in West Lancashire have received child tax credit. [171494]

Ms Dari Taylor: To ask the Chancellor of the Exchequer how many families in Stockton, South have received child tax credit. [171466]

Ruth Kelly: I refer my hon. Friends to the answer given to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Ms Dari Taylor: To ask the Chancellor of the Exchequer how many senior citizens in Stockton, South qualified for the 10p rate of income tax in each year since its introduction. [171465]

Ruth Kelly: All income taxpayers benefit from the 10p starting rate. The Survey of Personal Incomes estimates there are about 6,000 and 7,000 state retirement pension age taxpayers in the Stockton, South constituency in 2000–01 and 2001–02 respectively. However, year on year comparisons should be treated with caution because of sampling variation. Figures for 1999–2000 are currently not available.

Tax Avoidance

Mr. Cousins: To ask the Chancellor of the Exchequer what recent agreements he has reached with regard to the creation of an international tax avoidance prevention task force; and what contribution he proposes to make to such a task force. [171040]

Ruth Kelly: As a result of a Memorandum of Understanding signed in Williamsburg, Virginia on 23 April 2004, the Tax Commissioners of Australia, Canada, the United Kingdom and the United States will establish a joint task force, within the framework of bilateral tax treaties, to increase collaboration and coordinate information about abusive tax transactions, arrangements and schemes.

The task force will be comprised of officials from the respective tax administrations. It will supplement the on-going work of these administrations in addressing the challenges arising from abusive tax transactions.

Tax Rates

Mr. Hendrick: To ask the Chancellor of the Exchequer how many senior citizens in Preston qualified for the 10p rate of income tax in each year since its introduction. [169680]

Ruth Kelly: All income taxpayers benefit from the 10p starting rate. The Survey of Personal Incomes estimates there are about 5,000 and 6,000 state retirement pension age taxpayers in the Preston constituency in 2000–01 and 2001–02 respectively. However, year-on-year comparisons should be treated with caution because of sampling variation. Figures for 1999–2000 are currently not available.

Mr. Djanogly: To ask the Chancellor of the Exchequer how many senior citizens in the Huntingdon constituency qualified for the 10p rate of income tax in each year since its introduction. [170847]

Ruth Kelly: All income taxpayers benefit from the 10p starting rate. The Survey of Personal Incomes estimates there are about 10,000 state retirement pension age taxpayers in the Huntingdon constituency in 2000–01 and 2001–02. Estimates should be treated with caution because of sampling variation. Figures for 1999–2000 are currently not available.

Mr. Meacher: To ask the Chancellor of the Exchequer how many senior citizens in Oldham, West and Royton qualified for the 10p rate of income tax in each year since its introduction. [170899]

Ruth Kelly: All income taxpayers benefit from the 10p starting rate. The Survey of Personal Incomes estimates there are about 5,000 state retirement pension age taxpayers in the Oldham, West and Royton constituency in 2001–02. In the Survey of Personal Incomes the sample size of pensioners living in this constituency is relatively small compared to other constituencies so a reliable estimate cannot be given for 2000–01 and the estimate for 2001–02 should be treated with caution because of sampling variation. Figures for 1999–2000 are currently not available.

Unemployment (Huntingdon)

Mr. Djanogly: To ask the Chancellor of the Exchequer what the level of unemployment was in the Huntingdon constituency in each year since 1997. [170844]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jonathan Djanogly, dated 6 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (170844)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Huntingdon Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The table below gives the annual average number of JSA claimants for the Huntingdon constituency for each year since 1997.

Annual average number of JSA claimants—Huntingdon constituency, 1997–2003

	Number of claimants
1997	1,451
1998	1,214
1999	1,198
2000	964
2001	712
2002	786
2003	870

CABINET OFFICE

Recycled Paper

Norman Baker: To ask the Minister for the Cabinet Office by what date his Department expects to implement in full the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [167736]

Mr. Alexander: The Cabinet Office has already implemented in full the quick win targets for copying paper and paper for printed publications.

Regulatory Impact Assessments

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office which of the regulatory impact assessments used in the Burdens Barometer 2004 published by the British chambers of commerce relate to legislation originating from *(a)* the UK Parliament and *(b)* the EU. [170310]

Mr. Alexander *[holding answer 4 May 2004]:* The Regulatory Impact Assessments which the British Chambers of Commerce used in their "Burdens Barometer 2004" are a matter for them.

CONSTITUTIONAL AFFAIRS

CPS Guidance

Mr. Hawkins: To ask the Parliamentary Secretary, Department for Constitutional Affairs what guidance on which matters to prosecute his Department and its predecessor have given to the Crown Prosecution Service since May 1997; and if he will publish all such guidance issued. [169865]

Mr. Leslie: None. Ministerial responsibility for Crown Prosecution Service (CPS) lies with the Law Officers. CPS Prosecution decisions are undertaken in accordance with the Code for Crown Prosecutors. Specific guidance on prosecuting particular offences is contained in the CPS Prosecution Manual. This guidance and the Code are published under the CPS Freedom of Information publication scheme.

Juries

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the consultation paper on jury research and investigations into juror impropriety has been published. [170518]

Mr. Leslie: The consultation paper has not yet been published.

Operation Payback

Mr. Ben Chapman: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the implementation of Operation Payback on the Wirral; [170213]

Mr. Leslie: I refer the hon. Member to the answer I gave to him on 4 May 2004, *Official Report*, column 1453W.

Queen's Counsel

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what discussions he has had with the legal professions concerning the future of the QC system. [167092]

Mr. Leslie: The Secretary of State and his officials have discussed the future of the QC rank with representatives of the legal professional bodies for England and Wales and Northern Ireland.

Speed Cameras

Mr. Gregory Campbell: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much money was received by central Government funds in 2003 in Northern Ireland in fines paid by motorists who were prosecuted for speeding as a result of the location of fixed cameras. [169760]

Mr. Leslie: Between 1 July 2003, when the fixed speed camera initiative commenced and 31 December 2003, the money received in fines paid by motorists prosecuted for speeding as a result of the location of fixed cameras was £412,223.

Trials (Merseyside)

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps he is taking to reduce the percentage of ineffective trials in Merseyside. [170533]

Mr. Leslie: From 1 April 2003 to 31t March 2004 the ineffective trial rate in Merseyside decreased from 36.7 per cent. to 34.8 per cent..

The following initiatives have recently been implemented in Merseyside to further reduce ineffective trials. The Effective Trial Management Programme (ETMP) was rolled out in February 2004. ETMP is part of the Government's Criminal Case Management Programme which incorporates the "Charging" and "No Witness, No Justice" initiatives, with a view to improving the criminal justice process. A fifth District Judge and an extra Deputy District Judge have been appointed to the Liverpool Magistrates' Court and a case progression system has been initiated to track the progress of all cases listed for trial. The impact of these will continue to improve performance in the Magistrates' Courts.

In the Crown Courts the latest figure for March 2004 is 25.1 per cent.

EDUCATION AND SKILLS

Adoption

Tim Loughton: To ask the Secretary of State for Education and Skills how many children aged *(a)* under two and *(b)* over two years were adopted in each of the last five years. [169041]

Margaret Hodge: The following table shows the number of looked after children adopted in England during the years ending 31 March 1999 to 2003.

Looked after children adopted during the years ending 31 March[1]

Age at adoption	*1999*[2]	*2000*[2]	*2001*[3]	*2002*[3]	*2003*[3]
Under 2	600	680	800	900	1,000
2 and over	1,600	2,100	2,200	2,500	2,500
Total	2,200	2,700	3,100	3,400	3,500

[1] Figures exclude children looked after under an agreed series of short-term placements.
[2] Figures are based on the Key Statistics Return (KS1) and the SSDA903 sample return.
[3] Figures are based on the AD1 return.

Tim Loughton: To ask the Secretary of State for Education and Skills how many adoption placements broke down in each of the last five years. [169042]

Margaret Hodge: The following table shows the estimated number of placements for adoption in England that ended without the making of an adoption order during the years ending 31 March 1999 to 2003.

	Number of placements that ended without the making of an adoption order[1, 2]
1999	320
2000	260
2001	270
2002	270
2003	250

[1] Figures exclude children looked after under an agreed series of short-term placements.
[2] Figures are rounded to the nearest 10.
Source:
The information provided is derived from the SSDA903 return, a one-third sample survey of all looked after children in England, and as such these are estimated figures.

African Educational Institutions

Hugh Bayley: To ask the Secretary of State for Education and Skills what assistance his Department gives to English schools to work with schools in Africa. [165706]

Alan Johnson: My Department is committed to international school linking and partnership activity, which can provide a powerful and enjoyable framework for the delivery of curriculum objectives, increase motivation, and raise awareness of citizenship and global issues within schools.

To encourage and support this aim the Global Gateway, our new one-stop-shop website for international education, was launched in February 2004. Managed on our behalf by the British Council, the Global Gateway, enables schools to find partner schools in other countries and provides information about development programmes.

My Department funds various programmes through which schools are supported in their work with Africa. This includes:

grant funding to the British Council to provide school linking services and advice, grants for schools to go on linking visits, and to deliver specific programmes such as the linking of 150 schools to South African schools;

grant funding to the League for the Exchange of Commonwealth Teachers, to pay for teacher exchange and linking throughout the Commonwealth including a range of African countries;

the Teachers International Professional Development (TIPD) Programme, introduced in May 2000, which promotes links between UK schools and schools in other countries by providing for teacher study visits. To date 1,053 teachers have visited Africa on this programme;

support for the teacher development work and opportunities offered by Voluntary Services Overseas, including support for the Sabbatical Guide booklet (produced in 2003). We are also developing new work, such as with the Link Community Development on the 'Global Teachers Awards' under which 50 teachers a year will work on educational projects in Africa;

In addition, our Sustainable Development Action Plan in Education and Skills aims to raise awareness of global development issues and developing countries in our schools, and we are working closely with the Department for International Development and other organisations to deliver this goal.

Apprenticeships

Mr. Meacher: To ask the Secretary of State for Education and Skills how many residents of Oldham, West and Royton have undertaken apprenticeships in each of the last five years. [170933]

Mr. Ivan Lewis: The information requested is not available at parliamentary constituency level. Nor is the information available on a consistent geographical basis over the last five years. However, the following table shows the number of starts on modern apprenticeships in the Greater Manchester Learning and Skills Council (LSC) area between April 2001 and the end of July 2003, as well as the number of starts from April 1996 to March 2001 in the six Training and Enterprise Councils (TECs) that amalgamated into Greater Manchester LSC—Bolton and Bury, Manchester, Oldham, Rochdale, Stockport and High Peak and Wigan.

TEC/LSC	Advanced MAs	Foundation MAs
April 1998 to March 1999		
Bolton and Bury CCTE	800	600
Manchester	2,400	700
Oldham CCTE	400	300
Rochdale CCTE	500	100
Stockport and High Peak[1]	800	100
Wigan CCTE	700	300
April 1999 to March 2000		
Bolton and Bury CCTE	900	1000
Manchester	2,800	1,800
Oldham CCTE	500	500
Rochdale CCTE	500	600
Stockport and High Peak[1]	700	700
Wigan CCTE	700	600
April 2000 to March 2001		
Bolton and Bury CCTE	700	1,200
Manchester	3,200	2,600
Oldham CCTE	500	700
Rochdale CCTE	400	700
Stockport and High Peak[1]	800	1,000
Wigan CCTE	900	800
April 2001 to July 2002		
Greater Manchester LSC	4,800	9,800
March 2001 to July 2002		
Greater Manchester LSC	2,900	6,800

[1] Denotes TEC also became part of Derbyshire LSC

Notes:

TECs reported the figures in financial years. LSC reports figures in academic years.

Source:

TEC management information

LSC Individualised Learner Record

The first LSC 'year' was 16 months in order to bring the financial year figures into line with academic years.

Boarding Schools

Mr. Maude: To ask the Secretary of State for Education and Skills how many boarding schools the National Care Standards Commission has inspected; how many were identified as having a significant defect; and if he will estimate the cost of such inspections in each year since the inspections began. [164263]

Margaret Hodge: Boarding schools are inspected once every three years.

Between 1 April 2002 and 29 February 2004, 116 boarding schools have been inspected by the National Care Standards Commission. The estimated cost of each of these inspections was £1,477 for 2002–03 and £1,566 for 2003–04.

Where the National Care Standards Commission had concerns about services failing to safeguard the welfare of children provided with accommodation by a school or college, they were required under section 105(2) of the Care Standards Act 2000, to make a statutory notification to (i) the relevant education authority or (ii) the Secretary of State. Two such notifications have been made between 1 April 2002 and 29 February 2004.

Building Schools for the Future

Dr. Kumar: To ask the Secretary of State for Education and Skills what progress he is making with his Building Schools for the Future programme. [169301]

Mr. Miliband: We have made excellent progress on Building Schools for the Future, working closely with local government and other partners. This is starting to deliver our commitment to a 10 to 15-year programme of rebuilding and renewal to ensure that secondary education in every part of England has facilities of 21-Century standard.

Four in five respondents to our consultation last year supported our new approach to capital investment. In February 2004, we announced the first wave of 16 projects, involving an estimated 180 schools across 19 local authorities. We also published 11 exemplar designs which show what the schools of the future may look like. This month, we have established Partnerships for Schools, a new body to ensure that the investment is good value for money. Lastly, following the Chancellor's announcement of this Department's spending review settlement, we are well placed to announce the next waves of projects later this year.

Child Care Subsidies

Mrs. Brooke: To ask the Secretary of State for Education and Skills what discussions he has had with providers of subsidies for child care places; and which three sources provided the highest subsidy for child care places in the latest year for which figures are available. [168367]

Margaret Hodge: We hold discussions with a range of organisations that help with the cost of child care in variety of ways, on both the supply and demand sides. Government provides the following substantial support for key groups of parents with their child care costs:

The working tax credit where working parents can receive help with up to 70 per cent. of the costs of child care, subject to limits of £200 a week, or £135 a week for one child. This is paying out well over £700 million a year and can help families with incomes up to £42,500, where the family has two or more children;

The Care to Learn scheme for teenage parents that can provide up to £5,000 a year for those returning to education;

The new deal for lone parents can cover child care costs for lone parents going on training, attending interviews or working up to 16 hours a week, up to the same limits as the child care element of the Working Tax Credit;

The Childcare Grant pays full time HE students with dependent children up to 85 per cent. of actual child care costs up to the same limits as for the WTC;

The national health service provided over £70 million since April 2001 for child care for NHS staff, with a significant amount of that being capital costs for building nurseries or direct subsidies to parents to help with child care costs.

Help with the cost of child care was considered as part of the child care review and in the Budget we announced that:

From April 2005 a new tax exemption will apply to both employer-contracted child care and child care vouchers to encourage more employers to support their staff with child care.

Government will be consulting in Summer 2004 on a voluntary light touch approval scheme extending access to the child care element of the working tax credit to users of a broad range of additional types of child care, to be implemented by April 2005.

It is not possible to make meaningful comparisons between organisations that subsidise the cost of child care but the recently published National Audit Office report (Early Years: Progress in developing high quality child care and early education accessible to all, HC 268,

27 February 2004) provides a helpful overview of the situation, showing, on page three, how much different sectors contributed to the total cost of child care across the country in 2002–03:

	£ million	*Percentage*
Private individuals (parents)	3,010	45
Local government	2,540	38
DfES and Sure Start	680	10
Childcare Tax Credit	315	5
Private companies	140	2

Child Abuse

Ms Shipley: To ask the Secretary of State for Education and Skills what restrictions there are on convicted child abusers working *(a)* as private tutors and *(b)* in private schools. [165944]

Margaret Hodge: My Department's guidance to employers in the education service makes it clear that thorough checks should be carried out on all people who are appointed to work with children, including people who are employed as private tutors by agencies, and people who work in private schools. We recommend that employers check a person's identity, academic qualifications, professional and character references, previous employment history, criminal record, List 99 status, health, and in the case of teachers, whether they are registered with the General Teaching Council.

Parents and other individuals are not able to obtain criminal record or List 99 checks on self-employed private tutors, but can safeguard against employing a convicted child abuser by engaging a private tutor through a tuition agency.

Connexions

Paul Holmes: To ask the Secretary of State for Education and Skills how many young people with learning disabilities have used the Connexions Service, broken down by region, in each of the last three years; and if he will make a statement. [170397]

Margaret Hodge: Information on the use of Connexions services by young people with learning disabilities is not collected centrally.

In support of their key target of reducing the proportion of young people who are not in education, employment or training, many Connexions Partnerships have agreed a local target to increase the proportion of 16–19 year olds with learning difficulties and disabilities in education, employment and training. It is encouraging that there was a small increase of two percentage points in the numbers of young people with learning difficulties and disabilities in education, employment or training between June 2003 and March 2004.

Charles Hendry: To ask the Secretary of State for Education and Skills what representations he has received concerning the effect on private contractors of his Department's encouragement of Connexions partnerships to improve tax efficiency; and if he will make a statement. [169977]

Margaret Hodge: My Department has received a number of representations from private companies, Connexions Partnerships and other organisations regarding the effect on private contractors of the need to reduce VAT transition funding.

The decision about what tax efficiency means for each partnership, is the responsibility of individual Boards. Establishing a tax efficient delivery model does not necessarily affect the relationship with private sector companies. But the Department remains in discussion with representatives from Connexions service providers and will continue to consider any issues that they bring forward.

Some partnerships have for some time been in the process of changing their model of governance. The need for tax efficiencies has not always been the catalyst for this but it does bring these partnerships in to line with others looking at how they structure themselves to become more tax efficient.

Charles Hendry: To ask the Secretary of State for Education and Skills how many contracts between the Connexions Service and private contractors have been terminated in the last year; and if he will make a statement. [169978]

Margaret Hodge: One private sector contract has been terminated in the last year by Essex Southend and Thurrock Connexions Partnership. In addition, Lifetime Careers (part of the Nord Anglia group) were not selected by Greater Manchester Connexions to deliver services in Stockport and Bury in 2004–05 following a competitive tendering exercise.

Charles Hendry: To ask the Secretary of State for Education and Skills how many subcontracting Connexions Partnerships have a local authority as the lead body for the receipt of grant. [169979]

Margaret Hodge: Of the 47 Connexions Partnerships, there are three subcontracting Connexions Partnerships who have a local authority as the lead body—Hertfordshire Connexions, Norfolk Connexions and Central London Connexions.

Charles Hendry: To ask the Secretary of State for Education and Skills how many private sector contractors have been used by the Connexions Service in each year since its establishment. [169981]

Margaret Hodge: Connexions Partnerships are themselves private companies. Many will also sub contract some services to other private sector companies. Information on the numbers involved is not collected centrally.

Dyslexia

Charles Hendry: To ask the Secretary of State for Health what steps his Department is taking to identify cases of dyslexia at the earliest opportunity; and if he will make a statement. [169133]

Margaret Hodge: Early intervention is one of the key themes of "Removing Barriers To Achievement", our strategy for special educational needs, published in February. Guidance on identifying and assessing special educational needs is given in the SEN Code of Practice, to which schools and local education authorities must

have regard. A range of material for teachers on dyslexia and dyscalculia has also been produced as part of the National Literacy and Numeracy Strategies to help promote inclusion of pupils with specific learning difficulties. The guidance has been well received and other material is in preparation.

The Department continues to work closely with the British Dyslexia Association and the Dyslexia Institute to help raise awareness and develop new resources that will be of practical assistance to teachers and other staff. We have, for example, supported a dyslexia friendly schools pack and a handy hints poster for primary schools. The Department has also supported research into eye movement characteristics as a possible means of identifying dyslexia.

Early Years Education

Mr. Simmonds: To ask the Secretary of State for Education and Skills what steps have been taken to deliver Early Years education in rural areas; and if he will make a statement. [167876]

Margaret Hodge: All authorities have received sufficient funding to enable them to fund free places for all three and four-year-olds whose parents want one, through the under-fives sub-block of their Education Formula Spending Share (EFSS)—the main source of funding for education. For 2004–05, over £2.6 billion of EFSS was distributed through the under-five sub-block. The funding includes 'top ups' which relate to the LA's local circumstances i.e. deprivation and area costs.

Education (Heywood and Middleton)

Jim Dobbin: To ask the Secretary of State for Education and Skills (1) how many and what percentage of pupils in Heywood and Middleton reached the *(a)* mathematics and *(b)* English standard in each of the last seven years; [168502]

(2) how many and what percentage of 11-year-old pupils in Heywood and Middleton reached level four in *(a)* mathematics and *(b)* English in each of the last seven years. [168503]

Mr. Miliband: The information requested is as follows:

	Pupils achieving Level 4+: Mathematics			*Pupils achieving Level 4+: English*		
	Heywood and Middleton		*England*	*Heywood and Middleton*		*England*
	Number	*Percentage*	*Percentage*	*Number*	*Percentage*	*Percentage*
2003	936	69	73	927	69	75
2002	1,031	72	73	1,069	75	75
2001	981	69	71	1,056	74	75
2000	975	72	72	991	73	75
1999	993	72	69	997	72	71
1998	790	58	59	882	65	65
1997	787	61	62	780	61	63

Jim Dobbin: To ask the Secretary of State for Education and Skills how much public funding was spent on higher education in Heywood and Middleton in each of the last seven years. [168505]

Alan Johnson: The only publicly-funded institution providing higher education in Heywood and Middleton is Hopwood Hall College. The amounts of public funding spent in the years for which figures are available are shown in the table. Expenditure was by the Higher Education Funding Council for England (HEFCE) and by the Student Loans Company (SLC). The latter relates only to spending on tuition fees, student loans (cash cost) and the dependants grant. Data prior to 1999/2000 are not available. The figures for student support do not include spending on other additional grants, namely, disabled students allowance, care leavers grant and travel grant. These were paid through local education authorities, up to 2003/04, and figures are not held centrally.

£000

Academic Year	*HEFCE funding*	*SLC funding*
1999/2000	264	183.9
2000/01	273	232.5
2001/02	342.5	367.3
2002/03	443	405.7
2003/04	508.2	n/a

In addition, institutions located outside Heywood and Middleton may be undertaking activities in the area, for example, outreach to raise the attainment and aspirations of potential higher education entrants, or special arrangements with schools and colleges to improve progression into higher education. This information is not held centrally.

Education (Stalybridge and Hyde)

James Purnell: To ask the Secretary of State for Education and Skills how much public funding has been spent on higher education in Stalybridge and Hyde in each of the last seven years. [168752]

Alan Johnson: The only publicly funded institution providing higher education in Stalybridge and Hyde is Tameside college. The amounts of public funding spent in the years in which figures are available are shown in the following table. Expenditure was by the Higher Education Funding Council for England (HEFCE) and by the Student Loans Company (SLC). The latter relates only to spending on tuition fees, student loans (cash cost) and the dependants grant. Data prior to 1999–2000 are not available. The figures for student support do not include spending on other additional grants, namely, disabled students allowance, care leavers grant and travel grant. These were paid through local education authorities, up to 2003–04, and the figures are not held centrally.

£000

Academic year	HEFCE funding	SLC funding
999/2000	455	336.1
2000/01	562	363.4
2001/02	636	431
2002/03	670	495.3
2003/04	724	n/a

In addition, institutions located outside Stalybridge and Hyde may be undertaking activities in the area, for example outreach to raise the attainment and aspirations of potential higher education entrants, or special arrangements with schools and colleges to improve progression into higher education. This information is not held centrally.

James Purnell: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Stalybridge and Hyde reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [168754]

Mr. Miliband: The information requested is as follows:

	Pupils achieving Level 4+: Mathematics			Pupils achieving Level 4+: English		
	Stalybridge and Hyde		England	Stalybridge and Hyde		England
	Number	Percentage	Percentage	Number	Percentage	Percentage
2003	855	71	73	893	74	75
2002	902	72	73	904	72	75
2001	875	71	71	914	74	75
2000	904	70	72	933	72	75
1999	824	64	69	861	67	71

1997	650	54	62	695	58	63

Education (Oldham, West and Royton)

Mr. Meacher: To ask the Secretary of State for Education and Skills (1) how much funding each school in Oldham, West and Royton has received from the New Deal for Schools; [170918]

(2) how much public funding has been spent on repairing schools in Oldham, West and Royton in each year since 1997. [170916]

Mr. Miliband: Table A shows schools in Oldham, West and Royton constituency that benefited from investment through the New Deals for Schools (NDS) programme, which ran between 1997–98 and 2000–01.

Since 2001, the majority of capital support has been allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level; this should be held locally. Table B sets out the capital support provided by the Department to Oldham local education authority and its schools since 1997–98, in total and by programme (including all allocations through NDS mentioned in table A).

Table A: NDS allocations to schools in Oldham and Royton constituency

Year/School	Project	Package	Grant (£)
NDS1[1] 1997/98			
Whitegate End Junior and Infant School	Roof renewal	LEA wide grant	784,000
South Chadderton School	Laboratory refurbishment	LEA wide grant	784,000
Grange School	Re-roofing of main block and sports hall	LEA wide grant	784,000
Yew Tree Junior School	Roofing security measures	LEA wide grant	784,000
Corpus Christi RC Primary School	Security fencing	LEA wide grant	784,000
Grange School	Security CCTV	LEA wide grant	784,000
Broadfield Primary School	Security fencing	LEA wide grant	784,000
St. Martin's CofE Junior Infant and Nursery School	Security fencing	LEA wide grant	784,000
NDS2 1998/99			
The Hathershaw Technology College	Replacement of the heating system	—	641,580
Grange School	Replacement of the heating system	—	542,790
The Hathershaw Technology College	Re-roofing and associated window replacements	—	625,000
Byron Street Infant and Nursery School	Renewal of the roof covering and rainwater goods and upgrading of insulation	—	194,997
The Radclyffe School	Improved access and escape arrangements	—	71,500
Mills Hill Primary School	Replacement of the Early Years Building	—	515,500
NDS3 1999/2000			
Burnley Brow Community School	Replacement of School	—	3,344,291
NDS4 2000/01			
The Radclyffe School	Re-roofing and asbestos removal	—	149,336
Freehold Community Junior Infant and Nursery School	New Roof	—	103,351
Holy Rosary RC Junior Infant and Nursery School	Electrical re-wire	—	112,284

Table A: NDS allocations to schools in Oldham and Royton constituency

Year/School	*Project*	*Package*	*Grant (£)*
Fitton Hill Infant and Nursery School	Replacement of Boiler/Heating system	—	109,697
Firbank Junior and Infant School	Replacement of boiler plant	—	51,884
Bare Trees Junior School	Replacement of boiler/heating system	—	159,935
Royton and Crompton School	Replacement of dilapidated temporary classrooms	—	105,934
St. Hilda's CofE Primary School	Replacement of boiler/heating system	—	202,768
South Chadderton School	Re-roofing	—	57,923
St. Anne's CofE Junior and Infant School	Replacement of Boiler Plant and Heating System	—	214,447
North Chadderton School	Window replacements	—	193,949

[1] For NDS 1, the grant of £784,000 was allocated for Oldham local education authority as a whole, part of which was used for capital investment at each of the schools mentioned in the Oldham and Royton constituency. The LEA will be able to say how much was allocated to each school.

Table B: Capital allocations—Oldham education authority

£000

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*

Total	4,624	6,904	6,262	8,195	7,908	16,400	14,042

To date we have allocated £75.4 million capital funding for 2004–05 and 2005–06, including £60 million of PFI credits.

Education (Huntingdon)

Mr. Djanogly: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in the Huntingdon constituency in *(a)* each of the last seven years and *(b)* on the latest date for which figures were available. [170840]

Mr. Miliband: The following table gives the full-time equivalent number of teaching assistants employed in maintained schools in Huntingdon constituency in each January between 1997 and 2003, the latest year for which data are available.

	Number
1997	210
1998	240
1999	260
2000	260
2001	320
2002	340
2003	370

Source:
Annual School Census.

Mr. Djanogly: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in schools in the Huntingdon constituency on the latest date for which figures are available; and what steps he has taken to reduce them. [170841]

Mr. Miliband: Information on teacher vacancies is not available by constituency as it is collected at local education authority level. In January 2003, the latest information available, there were 32 full-time teacher vacancies in Cambridgeshire local education authority.

Like other areas, since 1997 Cambridgeshire has benefited from the initiatives that the Government has put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in the former Cambridgeshire LEA area has risen by 450 from 5,400 to 5,850 in 2003. Over the same period, the number of full-time equivalent school support staff in the area has grown by 1,080 from 2,470 to 3,550 in 2003.

Education Maintenance Allowance

Mr. Simmonds: To ask the Secretary of State for Education and Skills what estimate his Department has made of the number of young people who will continue in education as a result of the education maintenance allowance. [167988]

Mr. Ivan Lewis: The estimated number of young people of compulsory school leaving age expected to continue in full time education in 2004–05 is 505,000. This is out of a population of 666,000. Based on evidence from the pilot evaluation the Centre for Research in Social Policy and the Institute of Fiscal Studies an additional 72,000 young people will be participating in further education by 2006–07 as a result of the EMA.

Tim Loughton: To ask the Secretary of State for Education and Skills (1) in which education authority areas pupils are able to benefit from the education maintenance allowance; and how many qualify in each; [169119]

(2) in which education authority areas pupils are not able to benefit from the education maintenance allowance; and how many would have qualified for the allowance in each; [169120]

(3) what estimate he has made of the likely take-up of education maintenance allowance and the costs. [169121]

Mr. Ivan Lewis: At present, young people are able to receive an education maintenance allowance (EMA) if they live in one of the 56 LEA pilot areas listed in table one. This table also shows for each LEA area the numbers of young people who have benefited from EMA in each area. It should be noted that different LEAs have been testing different versions of the scheme, in order to inform our decisions about the best national model.

Table one: EMA pilot areas and recipients in 2003/04

Local education authority	*Number of students who have received EMA in 2003/04*
Barking and Dagenham	924
Barnsley	1,377
Birmingham	9,780
Bolton	2,227
Bradford	4,417
Brent	1,767
Camden	1,206
Cornwall	4,968
Coventry	1,089
Doncaster	2,492
Ealing	1,618
Gateshead	1,780
Greenwich	1,404
Hackney	1,887
Halton	1,127
Hammersmith and Fulham	853
Haringey	1,183
Hartlepool	807
Islington	1,324
Kingston upon Hull	2,025
Knowsley	1,943
Lambeth	1,603
Lancashire (East)	2,268
Leeds	4,764
Leicester	3,554
Lewisham	1,903
Lincolnshire (N.E.)	1,364
Liverpool	4,821
Luton	1,796
Manchester	4,554
Middlesbrough	1,112
Newham	2,577
North Tyneside	1,500
Northumberland	2,632
Nottingham	2,907
Oldham	2,510
Salford	1,212
Sandwell	1,872
Sheffield	3,876
Southampton	1,285
Southwark	1,370
South Tyneside	1,604
St. Helens	1,428
Stoke on Trent	2,705
Suffolk	2,460
Sunderland	2,287
Tameside	2,117
Tower Hamlets	2,754
Wakefield	2,249
Walsall	2,473
Waltham Forest	1,140
Wandsworth	1,055
Wigan	2,453
Wirral	2,457
Wolverhampton	2,377
Worcestershire	2,960
England—total	128,197

From September 2004, the national EMA scheme will be available throughout England to all young people aged 16 at the start of the 2004/05 academic year who meet the eligibility criteria. It will also to be available to 17 and 18-year-olds in the pilot areas. Our forecast is that around 270,000 young people will take up EMA in 2004/05. By 2006 EMA will provide support to over 400,000 young people.

The Department estimates the cost of the education maintenance allowance Scheme over the next three financial years to be:

	£ million
2004–05	275
2005–06	403
2006–07	476

These estimates take account of the phased roll-out to one cohort at a time and the cost of administering, promoting and evaluating the scheme.

English/Mathematics

Mr. Pike: To ask the Secretary of State for Education and Skills how many and what percentage of 11-year-old pupils in Burnley reached level four in *(a)* mathematics and *(b)* English in each of the last seven years. [167928]

Mr. Miliband: The information requested is as follows:

	Pupils achieving Level 4+: Mathematics			*Pupils achieving Level 4+: English*		
	Burnley		*England*	*Burnley*		*England*
	Number	*Percentage*	*Percentage*	*Number*	*Percentage*	*Percentage*
2003	876	67	73	918	70	75
2002	939	69	73	931	68	75
2001	879	68	71	905	70	75
2000	896	70	72	935	73	75
1999	913	66	69	909	66	71
1998	775	58	59	830	62	65
1997	784	59	62	785	59	63

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many and what percentage of 11-year-old pupils in Preston reached level four in *(a)* mathematics and *(b)* English in each of the last seven years. [168125]

Mr. Miliband: The information requested is as follows:

	Pupils achieving Level 4+: Mathematics			*Pupils achieving Level 4+: English*		
	Preston		*England*	*Preston*		*England*
	Number	*Percentage*	*Percentage*	*Number*	*Percentage*	*Percentage*
2003	851	68	73	850	68	75
2002	864	68	73	843	66	75
2001	827	62	71	894	67	75
2000	819	65	72	844	67	75
1999	794	61	69	798	62	71
1998	655	51	59	762	60	65
1997	664	52	62	666	53	63

Field Trips

Norman Lamb: To ask the Secretary of State for Education and Skills (1) what steps his Department is taking to increase the number of field trips available to *(a)* GCSE science and *(b)* A-level biology students; [171054]

(2) if his Department will commission research to evaluate the strengths and weaknesses of the state of fieldwork in secondary science education for 14 to 19 year olds; [171055]

(3) what assessment he has made of the report by the National Foundation for Educational Research on Outdoor Learning; and if he will make a statement. [171056]

Mr. Miliband: We have no plans to commission further research to evaluate the strengths and weaknesses of fieldwork in secondary science education for 14 to 19 year olds, having only just received the findings of NfER's "Outdoor Learning Review", which we partly funded. My officials will meet the English Outdoor Council, who also partly funded the review, in the near future to discuss ways forward.

We are already working with the Field Studies Council, subject associations and others, together with our new national network of Science Learning Centres, to develop continuing professional development to improve teachers' confidence and skills in the planning, risk assessment and management of fieldwork. We see these as the key to developing both the quantity and quality of fieldwork in 14–19 science. This is in addition to the Science and Geography teaching resources provided by our Growing Schools programme.

Further Education (Level 2)

Mr. Drew: To ask the Secretary of State for Education and Skills what plans he has to expand the number of places available on level two courses in further education colleges. [169327]

Alan Johnson: The availability of learning at level two in further education institutions is key to meeting our Skills Strategy objective, outlined in the White Paper 21st Century Skills—Realising Our Potential, of reducing the number of adults without the foundation of skills needed for employability. Local Learning and Skills Councils are prioritising level two provision for those lacking such skills in their discussions with colleges about their plans for 2004–05. From September this year we will be trialling, in the North East and South East regions, a new entitlement enabling adults in the labour force without a full level two qualification to have access to free learning for their first full level two qualification.

Higher Education

Huw Irranca-Davies: To ask the Secretary of State for Education and Skills how many admissions to the higher education sector there have been of students from *(a)* overseas, *(b)* the Gulf States and *(c)* the United Arab Emirates in each of the last 10 years. [168567]

Alan Johnson: The available figures covering all overseas entrants to higher education in UK HE institutions are given in the table.

Overseas domiciled entrants[1] to UK HE institutions

Academic year	*All non-EU overseas*	*Gulf States[2]*	*United Arab Emirates*
1994/95	47,776	1,337	231
1995/96	50,332	1,504	256
1996/97	51,604	1,639	338
1997/98	57,133	1,739	302
1998/99	58,481	2,144	357
1999/2000	61,385	2,407	427
2000/01	68,879	2,439	466
2001/02	78,625	2,419	498
2002/03	98,538	3,027	528

[1] Figures are a snapshot as at 1 December and cover both postgraduate and undergraduate study.

[2] Includes: Bahrain, Kuwait, Oman, Saudi Arabia, United Arab Emirates, Yemen and Qatar.

Source:

Higher Education Statistics Agency.

Mr. Kaufman: To ask the Secretary of State for Education and Skills how much public funding has been spent on higher education in Manchester, Gorton in each of the last seven years. [167440]

Alan Johnson: There is no higher education institution in Manchester Gorton receiving funding from the Higher Education Funding Council for England. We are aware of a small number of students (less than 10 in the 2002/03 academic year) at the Partnership for Theological Education receiving financial support via the Student Loans Company (SLC). The available figures for funding for these students are shown below. These relate only to funding for tuition fees, student loans (cash cost) and the Dependants Grant. Data prior to 1999/2000 are not available. The figures do not include any spending on other additional grants, namely Disabled Students Allowances, Care Leavers Grant and Travel Grant. These were paid through local education authorities, up to 2003/04, and figures are not held centrally.

Academic year	*SLC funding (£000)*
1999/2000	29.2
2000/01	49.5
2001/02	47
2002/03	28.4

In addition, institutions located outside Manchester Gorton may be undertaking activities in the area, for example outreach to raise the attainment and aspirations of potential higher education entrants, or special arrangements with schools and colleges to improve progression into higher education. This information is not held centrally.

Industry Interchange

Helen Jones: To ask the Secretary of State for Education and Skills what steps he is taking to encourage a greater interchange of staff between education and industry; and what discussions he has had *(a)* with other departments and *(b)* with employers on how best to facilitate such an interchange. [169454]

Mr. Ivan Lewis: My Department supports a number of schemes that encourage greater interchange of staff between education and industry: the Learning and Skills Council's Professional Development Placement scheme enables teachers in schools and further education colleges to undertake short placements in business; the Centre for Excellence in Leadership in co-operation with the Association of Colleges runs a work shadowing programme open to colleges and training providers involving exchanges of managers; and the Higher Education Funding Council supports a range of activities, often in partnership with the DTI, to make university staff more aware of business needs, including Business Fellowships.

There are regular discussions with DTI and Treasury on promoting links between education and business. The Government's approach to promoting such links draws on a number of consultations with business including, for example, through Howard Davies' review of enterprise education in 2002

Information and Communication Technologies

Malcolm Bruce: To ask the Secretary of State for Education and Skills pursuant to his answer of 27 April 2004, *Official Report*, column 975W, on information and communication technologies, if he will place in the Library the independent research to which he refers. [171289]

Mr. Charles Clarke: I have today placed in the Library copies of the ImpaCT2 Pupil Attainment report.

Key Workers

Mr. Horam: To ask the Secretary of State for Education and Skills for what reasons further education lecturers are not permitted to apply for higher equity loans under the Key Worker Living housing programmes announced in March. [169822]

Alan Johnson *[holding answer 4 May 2004]:* FE teachers, like school teachers and other key workers, in London and other high housing cost areas in the South East and East regions, are eligible for equity loans of up to £50,000 under the Key Worker Living initiative announced by the Deputy Prime Minister on 23 March. This is the first time FE teachers have been eligible for such support.

In addition, as part of the London Challenge, there is a specific scheme in London to retain school teachers who have the potential to be future leaders of the education service in London. This was developed in the light of evidence that, although London is very attractive to young school teachers, many leave London when they want to settle down and start a family. This is just the moment when they are beginning to take on crucial middle leadership roles in schools. The London Challenge Key Teacher Homebuy Scheme therefore offers school teachers in London equity loans of up to £100,000 to enable them to afford family homes.

Learning and Skills Council

Mrs. Spelman: To ask the Secretary of State for Education and Skills if he will make a statement on the transfer of the learning and skills councils to the proposed regional assemblies. [170091]

Alan Johnson: In our White Paper "Your Region, Your Choice" we set out proposals for each assembly to appoint two members to the Board of each local Learning and Skills Council (LSC) in its region, and for the national LSC to consult assemblies on its guidance to the local LSCs. We also propose that local LSCs will be required to have regard to assembly strategies, including in drawing up their spending plans; and to consult the relevant assembly about their local plans.

Mr. Dismore: To ask the Secretary of State for Education and Skills if he will make a statement on achievement levels of *(a)* young people and *(b)* adults in relation to basic skills in the North London Learning and Skills Council area. [170661]

Mr. Ivan Lewis: This is a matter for the Learning and Skills Council (LSC). The Local LSC will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the Library.

Learning Disabilities

Paul Holmes: To ask the Secretary of State for Education and Skills how many local education authorities have provided parent partnership services for families of children with special educational needs; what proportion of families have been provided with the service; and if he will make a statement. [170611]

Mr. Miliband: Every local education authority is required under Section 332A of the Education Act 1996 to make arrangements for parent partnership services. Arrangements vary, with some authorities providing the service themselves, while others buy in the service from another provider such as a voluntary organisation or another local authority. Information on the proportion of families that have used the service is not collected centrally.

Paul Holmes: To ask the Secretary of State for Education and Skills how many schools have increased accessibility to children with learning disabilities through the School Access Initiative; what funding will be provided for the initiative over the next three years; and if he will make a statement. [170612]

Mr. Miliband: The Schools Access Initiative is designed to increase the accessibility of mainstream schools for pupils with disabilities. Over £274 million has been made available since the scheme began in 1996. A further £100 million will be made available each year for 2004–05 and 2005–06. Funding for the scheme beyond 2005–06 is subject to decisions relating to the outcome of the 2004 Spending Review.

It is for local education authorities to decide which of the capital projects proposed by their schools should be supported in the light of local needs and circumstances detailed in their Accessibility Strategy. They are not required to provide us with information detailing how they have spent their allocation of the School Access Initiative to increase access to pupils with specific disabilities. It is therefore not possible to say how many schools have increased their accessibility for children with learning disabilities.

Medical Courses/Schools

Sandra Gidley: To ask the Secretary of State for Education and Skills how many places were available for *(a)* UK nationals and *(b)* fee paying students from overseas to study medicine in each of the last five financial years; and how many places are available in 2004, broken down by academic institution. [151237]

Alan Johnson: The available figures from the Higher Education Funding Council for England (HEFCE) are given in tables 1 and 2. Data are given for English medical schools only. Allocation of places for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved administrations.

Target figures for overseas students have remained constant during this period and are given separately in table 2.

Figures for UK nationals only are not available.

Mr. Clappison: To ask the Secretary of State for Education and Skills what recent representations he has received on access to medical degree courses. [168913]

Alan Johnson: I have discussions from time to time with various groups on such matters, including the British Medical Association (BMA) Medical Students Committee and the Brightside Trust.

Mr. Steen: To ask the Secretary of State for Education and Skills what the intake into medical schools was in *(a)* England and Wales, *(b)* Scotland and *(c)* Northern Ireland in each year since 1997. [166859]

Alan Johnson: The latest available figures for medical schools in England are shown in the table.

Information for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved administrations.

Actual intakes of medical schools: England

Year of entry	*Intake*
1997	3,749
1998	3,735
1999	3,972
2000	4,300

Universities and Colleges Admissions Service

Bob Russell: To ask the Secretary of State for Education and Skills if he will list the universities, colleges and medical schools which provide places for the training of medical practitioners. [155879]

Alan Johnson: The institutions in England which offer undergraduate courses of medicine are listed as follows. Information for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved administrations.

University Medical Schools and Colleges:

Birmingham
Brighton/Sussex[1]
Bristol
Cambridge
East Anglia
Hull/York[2]
Leeds
Leicester Warwick[3]
Liverpool
Manchester/Keele[4]
Newcastle/Durham[5]
Nottingham
Oxford
Peninsula[6]
Sheffield
Southampton
Imperial
Kings College
Queen Mary and Westfield
St. Georges Hospital Medical School
University College London

[1] A joint partnership by the University of Brighton and the University of Sussex, taught at the University of Brighton.

[2] A joint partnership by the University of Hull and the University of York, taught at both institutions.

[3] Those with a degree in Biological Sciences can study at the University of Warwick for the 4 year graduate medicine program from the University of Leicester.

[4] The University of Manchester medicine course can be studied at the University of Keele. The University of Keele is developing it's own curriculum, expected for 2007 entry.

[5] Option to study the first two years of the University of Newcastle-upon-Tyne medicine programme at the University of Durham.

[6] A joint partnership by the University of Exeter and the University of Plymouth, taught at both institutions.

Bob Russell: To ask the Secretary of State for Education and Skills how many places for the training of medical practitioners at each university, college and medical school were available in 1997; and how many will be available this September. [155880]

Alan Johnson: The information is shown in the table. Information for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved administrations.

Medical school intake targets: England

University medical school	*1997*	*2004*
Birmingham	213	372
Brighton/Sussex[1]	—	128

Bob Russell: To ask the Secretary of State for Education and Skills how many students who entered medical training in the current academic year were from *(a)* the UK, *(b)* other countries in the European Union and *(c)* outside the European Union; and what the corresponding figures were for each of the past 10 years for which figures are available. [155881]

Alan Johnson: The available information for England is shown in the table. Information for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved Administrations.

Intake of medical students in English higher education institutions, by domicile and fee-paying status

Academic year	*Total intake*	*Estimate of students from the UK*[1]	*Estimate of students from other countries in the European Union*[2]	*Estimate of students from countries outside the European Union*[3]
2003–04[4]	6,030	5,507	105	418
2002–03	5,277	4,835	88	354
2001–02	4,713	4,315	84	314
2000–01	4,300	3,923	82	295
1999–2000	3,972	3,640	77	255
1998–99	3,735	3,378	71	286
1997–98	3,749	3,431	39	279
1996–97	3,594	3,271	53	270
1995–96	3,486	3,187	38	261
1994–95	3,514	3,231	33	250
1993–94	3,374	3,125	34	215

[1] These are UK domiciled students with home and overseas fee-paying status.

[2] Tese are overseas domiciled students with home fee-paying status.

[3] These are overseas domiciled students with overseas fee-paying status.

[4] The intake for year 2003–04 is a provisional figure based on institutions' estimates in October 2003.

Note:
All student numbers relate to a headcount.

Source:
HEFCE Medical and Dental Survey.

Mr. Kevin Hughes: To ask the Secretary of State for Education and Skills how many new undergraduates were admitted to each medical school in 2003–04. [161510]

Alan Johnson: The latest available figures are shown in the table. Information for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved administrations.

Actual intakes of medical schools 2003: England

University medical school	*Intake*
Birmingham	428
Brighton/Sussex	135
Bristol	272
Cambridge	299
East Anglia	110
Hull/York	130
Leeds	279

Imperial	334
Kings College	401
Queen Mary and Westfield	309
St. Georges	251
University College London	341
Total England	6,030

Source:
Higher Education Funding Council for England.

Mr. Lansley: To ask the Secretary of State for Education and Skills how many students *(a)* entered and *(b)* graduated from medical schools in England in each year since 1997; and how many graduates from medical schools in England in each year since 1997 have commenced full-time employment in the NHS. [162097]

Alan Johnson: The latest intake and output data for medical schools are shown in the first table. There is no precise data on how many students either do not complete undergraduate medical degree courses or do not join the NHS medical workforce after graduating. However, these figures do not include overseas students who return home immediately upon graduating based on figures from the annual NHS workforce survey as shown in the second table, the Department of Health believe that virtually all graduates from English medical schools take up posts as Pre-Registration House Officers (PRHOs) in the NHS within 18 months of graduating apart from those overseas students who return home immediately upon graduating.

Actual Intake and Output of Medical Schools in England 1997–98 to 2002–03

Academic year	*Intake*	*Graduate output*
1997–98	3,749	3,261
1998–99	3,735	3,097
1999–2000	3,972	3,373

Actual Intake and Output of Medical Schools in England 1997–98 to 2002–03

Academic year	*Intake*	*Graduate output*
2000–01	4,300	3,286
2001–02	4,713	3,280
2002–03	5,277	3,522
2003–04	[1]6,030	[2]—

[1] Provisional until November 2004 when a finalised figure will be declared.
[2] Not available until November 2004.

UK Qualified Pre-Registration House Officers in England 1997–2003

	Number of House Officers
1997	3,028
1998	3,173
1999	3,122
2000	3,297
2001	3,176
2002	3,205
2003	3,344

Source:
Department of Health medical and dental workforce survey

Mr. Clappison: To ask the Secretary of State for Education and Skills what the average cost is of the education of a medical student up to registration with the General Medical Council; and what the expected average cost is of educating a medical student who commences on a clinical sciences foundation year up to registration with the General Medical Council. [168185]

Alan Johnson: The cost of training a doctor from entry to medical school to full registration with the General Medical Council is estimated to be of the order of £200,000 to £250,000, including the year as a Pre-Registration House Officer (PRHO). This is a considerable investment in medical training from public funds. Some students commence their medical training with a foundation year, for which the Higher Education Funding Council for England provides funding to the institution of £5,922.

Modern Universities

Mr. Yeo: To ask the Secretary of State for Education and Skills to which universities he was referring in his statement to the House on 8 January when he made reference to modern universities which have strong records in recruiting students from poorer backgrounds. [148532]

Alan Johnson: The Secretary of State was not referring to specific universities but making a general point. The following table, taken from data published by the Higher Education Funding Council for England, shows the 11 universities with the highest proportion of entrants from the three lowest social classes.

Proportion of young full-time first degree entrants from social classes IIIN, IV, V[1] 2001–02

	Proportion
University of Wolverhampton	45
University of East London	42
University of North London	42
London Guildhall University	41
University of Luton	41
University of Westminster	40
University of Sunderland	39
University of Central England	39
Coventry University	39
Middlesex University	38
University of Teesside	38

[1] Skilled manual, semi-skilled and unskilled.

Performance Indicators in Higher Education in the UK Table T1A, published by HEFCE.

National Childcare Strategy

Mr. Meacher: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the number of children in Oldham, West and Royton who have gained from the National Childcare Strategy; [170915]

(2) how many child care places have been created in Oldham, West and Royton since 1997. [170932]

Margaret Hodge: The Department is unable to provide details of child care places for Oldham, West and Royton. However, from April 1999 to March 2004 Oldham local authority created 5,489 new child care places helping some 9,979 children. This shows an increase in the stock of child care places, taking into account turnover, of 4,114 helping some 7,551 children.

New Deal for Schools

Mr. Djanogly: To ask the Secretary of State for Education and Skills (1) how much funding each school in the Huntingdon constituency received from the New Deal for Schools; [170845]

(2) how much money has been invested in the Huntingdon constituency since 1997 to build long-term sustainable facilities for school sports. [170839]

Mr. Miliband: Table A shows the schools in the Huntingdon constituency that benefited from investment through the New Deal for Schools (NDS) programme, which ran between 1997–98 and 2000–01.

Since 2001, the majority of capital support has been allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level; this should be held locally. Table B sets out the capital support provided by the Department to Cambridgeshire Local Education Authority and its schools since 1997–98, in total and by programme (including all allocations through NDS mentioned in table A).

Table A: NDS allocations to schools in the Huntingdon constituency

Year	School	Project	Package	Grant (£)
NDS1 1997–98	Longsands College	Extensive repair and refurbishment work to roof, gas and electrical supplies, damaged floor surfaces and toilets	LEA wide grant	1,065,000
NDS2 1998–99	Ernulf Community School	Replacement of unsafe and defective lighting fittings in science block and other lower school buildings	—	45,600
	Priory Park Infant School	Electrical work	—	34,200
	Middlefield Primary School	Replacement of 3 condemned mobiles	—	192,110
NDS3 1999–2000	Thorndown Community Infant School	Asbestos Removal	Project including 8 schools	185,516
	Thongsley Infant School	Replacement of mobiles	Project including 14 schools	2,181,348
	Thorndown Junior School	Asbestos Removal	Project including 8 schools	185,516
	Wheatfields Infant School	Asbestos Removal	Project including 8 schools	185,516
	St. Ivo School	Asbestos Removal	Project including 8 schools	185,516
NDS4 2000–01	Spring Common School	Replacement of Mobiles	—	225,605
	Hinchingbrooke School	4 Science Laboratories	—	255,103
	Barnabas Oley CofE Primary School	Provision of School Hall	—	239,702
	Hemingford Grey Primary School	Asbestos Removal	Project including 17 schools	229,153
	Offord Primary School	Replacement of Temporaries-	Project including 27 schools	734,693
	Huntingdon Infant School	Replacement of Temporaries-	Project including 27 schools	734,693
	Thorndown Community Infant School	Asbestos Removal	Project including 17 schools	229,153
	Eastfield Infant and Nursery School	Replacement of Temporaries	Project including 13 schools	1,542,906
	Eastfield Infant and Nursery School	Replacement of Temporaries-	Project including 27 schools	734,693
	Thorndown Junior School	Asbestos Removal	Project including 17 schools	229,153
	Little Paxton Primary School	Asbestos Removal	Project including 17 schools	229,153
	Wheatfields Infant School	Asbestos Removal	Project including 17 schools	229,153
	Alconbury CofE Primary School	Replacement of Temporaries	Project including 13 schools	1,542,906
	Holywell CofE Primary School	Asbestos Removal	Project including 17 schools	229,153
	Eynesbury CofE C Primary School	Replacement of Temporaries-	Project including 27 schools	734,693
	Wheatfields Junior School	Asbestos Removal	Project including 17 schools	229,153
	Crosshall Infant and Junior Schools	Replacement of Temporaries	Project including 13 schools	1,542,906
	Crosshall Infant and Junior Schools	Replacement of Temporaries-	Project including 27 schools	734,693

Note:

1. For NDS 1, the grant of 1,065,000 was allocated for Cambridgeshire local education authority as a whole, part of which was used for capital investment at the school mentioned in the Huntingdon constituency. The LEA will be able to say how much was allocated to the school.

2. Where the project includes a package for a number of schools, each school received a share of the funding available.

Table B: Capital allocations—Oldham education authority

£000

	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04

Total	9,146	10,986	11,382	22,250	19,590	24,062	39,142

To date we have allocated £44.6 million capital funding for 2004–05 and 2005–06.

Overseas Students

Mr. Simmonds: To ask the Secretary of State for Education and Skills if he will make a statement about the number of overseas students attending UK universities following the recent report published by the British Council, Vision 2020: Forecasting International Student Mobility—A UK Perspective. [168969]

Alan Johnson: This is an important and valuable report. We have every intention of remaining one of the most popular destinations for overseas students. That is why we launched the Prime Minister's Initiative in 1999 to recruit an additional 50,000 international higher education students by 2005. UK Higher Education institutions have already exceeded that target by recruiting an additional 64,635 international students. We remain confident that overseas students will continue to choose to come here to take advantage of the high quality higher education which is on offer.

Positive Activities for Young People

Diana Organ: To ask the Secretary of State for Education and Skills if he will make a statement about the Positive Activities for Young People Initiative. [169875]

Mr. Ivan Lewis: The Department for Education and Skills and New Opportunities Fund have joined forces with the Youth Justice Board, Home Office and Department for Culture Media and Sport to combine existing holiday activity schemes and deliver a Positive Activities for Young People (PAYP) programme. It is designed to divert and develop those young people aged 8–19 most at risk of social exclusion and committing crime and to steer their energy in a positive direction. It is being delivered across England from May 2003 to March 2006. £25 million funding for activities is available for the first year of the three year programme. A further £13.75 million is provided, annually, by the Connexions Service to fund Keyworkers throughout England.

Provision takes place in all of the school holiday periods. Easter activities have already taken place but it is too early to measure it's success. In addition to activities one to one support is available for the most at risk young people.

The programme comprises of quality arts, sports and cultural activities and encourages young people to continue in these activities after the programme ends. It aims to bring together young people from different geographical and ethnic minority communities to help break down prejudices and misunderstanding.

Evaluation is scheduled to take place across the three year period but feedback indicates that at least 75,000 young people participated during summer 2003 and a further 40,000 in October half term in line with planned delivery targets.

Pre-school Education (Wigan)

Mr. Neil Turner: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four year olds in Wigan in each of the last seven years. [169280]

Margaret Hodge: The information is not available in the form requested. Figures on the number of free nursery education places taken up by three and four year olds in Wigan local education authority area are shown in the table.

The latest figures on provision for three and four year olds in England were published in a 'Statistical Bulletin Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes. gov.uk/rsgateway/.

From April 2004, six months ahead of our original target, all three year olds in England whose parents want one, will be eligible for a free, part-time early education place.

Psychology Postgraduates

Mrs. Brooke: To ask the Secretary of State for Education and Skills how many education psychology training places have been available for postgraduate study in each year since 1997. [168633]

Alan Johnson: The information is not held centrally.

Quality Protects

Paul Holmes: To ask the Secretary of State for Education and Skills what the original target number was for families to be included in the Quality Protects Programme; how many families have been included in the programme; and if he will make a statement. [170178]

Margaret Hodge: Specific information on the number of families who benefited from the Quality Protects Programme was not collected centrally.

School Funding

Mr. Collins: To ask the Secretary of State for Education and Skills how much school funding *(a)* in 2003–04 was and *(b)* is planned for 2004–05 will be provided from (i) central Government and (ii) council tax revenue, broken down by local education authority. [171083]

Mr. Miliband: The Government does not fund local education authorities for school funding separately. Rather, they receive an amount of revenue support grant which provides revenue support for all their services. The amount of council tax revenue is a matter for local education authorities to decide.

School Nurses

Mrs. Brooke: To ask the Secretary of State for Education and Skills how many school nurses were employed in *(a)* 2003, *(b)* 2002, *(c)* 2001, *(d)* 2000, *(e)* 1999, *(f)* 1998 and *(g)* 1997. [170371]

Mr. Miliband: The number of nurses working in schools is not identified separately. The following table shows the full-time equivalent number of medical staff employed in maintained nursery and primary, secondary, PRUs and all special schools in each January between 1997 and 2003.

	Number
1997	1,190
1998	1,220
1999	1,190
2000	1,180
2001	1,200
2002	1,780
2003	1,750

Source:
Annual School Census.

Numbers include matrons, nurses and other medical staff.

The increase in numbers between 2001 and 2002 may reflect the change in data collection methods between these two years.

Sex Education

Bob Spink: To ask the Secretary of State for Education and Skills what assessment he has made of whether there is a correlation between teenage sex education *(a)* advice programmes and *(b)* clinics and the prevalence of (i) sexually transmitted diseases and (ii) teenage pregnancy rates; and if he will make a statement. [167064]

Margaret Hodge: Increasing rates of sexually transmitted infections and high levels of teenage pregnancy have complex underlying causes. The best international research evidence supports the multifaceted approach being taken by our Teenage Pregnancy and Sexual Health and HIV Strategies.

Increasing and improving access to contraception and sexual health advice services is one essential part. We are also helping young people to resist pressure to have sex, improving sex and relationship education to increase their knowledge and skills, promoting condom use for those who are sexually active and supporting parents to talk to their children about sex and relationships without embarrassment.

The number of family planning sessions aimed at young people has increased to tackle high levels of teenage pregnancies and sexually transmitted infections. In turn, increased provision will have created greater opportunities for raising awareness of sexually transmitted infections, increased screening and testing and identification of previously undiagnosed infections.

Since 1998, the baseline year for the Teenage Pregnancy Strategy, there has been a 9.4 per cent. reduction in the under 18 conception rate with 80 per cent. of local authorities seeing declining rates.

Special Educational Needs

Mr. Collins: To ask the Secretary of State for Education and Skills what the average age for identification of special needs has been in each year since 1997, broken down by *(a)* local education authority and *(b)* ethnic group. [167556]

Margaret Hodge: The information requested is not collected centrally.

A table has been placed in the House of Commons Library giving the most relevant information. This shows the age group of children for whom statements were made for the first time.

Specialist Speech and Language Support

Mrs. May: To ask the Secretary of State for Education and Skills (1) what assessment has been made of the need for children with severe speech difficulties to have access to specialist speech and language support within mainstream schools; [169942]

(2) what guidelines exist for the minimum level of specialist speech and language teaching support to be provided by each local education authority. [169943]

Margaret Hodge: Speech and language needs and the necessary the collaboration between education and health to meet those needs were considered in a research report published in November 2000, "Provision for children with speech and language needs in England and Wales: facilitating communication between education and heath services" (Department for Education and Employment Research Report RR239). This was published alongside the report of the Working Group on Speech and Language Therapy Services to Children with Special Educational Needs (England).

Local education authorities, maintained schools, early years settings and others have to have regard to the Special Educational Needs Code of Practice published in November 2001. This gives practical advice on carrying out their statutory duties to identify, assess and make suitable provision for children with SEN. The Code includes a section on speech and language therapy support.

No guidance has been issued in relation to the minimum level of specialist speech and language teaching support, since provision should reflect the assessed needs of individual children, some of whom may have severe or complex needs or multiple disabilities. The DfES and Department of Health have however established an Action Forum to improve provision for children with speech, language and communication needs in mainstream schools or other settings. This group brings together key interests with a view to identifying and promoting good practice.

Staff Disciplinary Cases

Mr. Todd: To ask the Secretary of State for Education and Skills whether he has reviewed the handling of serious staff disciplinary cases in colleges following the publication and distribution of the Newby Report, Review of complaints against St. Austell College. [170641]

Mr. Miliband: Further Education institutions are independent corporate bodies and are therefore responsible for their own employment policies. The Government does however expect colleges to have robust and defensible policies and practices in place. In July 1996, at the request of the Secretary of State for

Education and Employment, the Further Education Funding Council (FEFC) commissioned Professor Howard Newby to review the actions of and disciplinary and grievance procedures used by St. Austell College whilst conducting a staff disciplinary case. In his review Professor Newby concluded that serious errors had been made by the College, The FEFC published the review in June 1998 to advise and inform other Further Education institutions in reviewing their procedures.

Student Finance

Mr. Willis: To ask the Secretary of State for Education and Skills if he will estimate for each English university the net benefit from tuition fees if *(a)* the maximum fee is charged to all students, *(b)* the maximum fee is charged to 50 per cent. of students and *(c)* the maximum fee is charged to 25 per cent. of students. [166853]

Alan Johnson *[holding answer 21 April 2004]:* Information on the additional income from fees in different scenarios is contained in the Regulatory Impact Assessment published on 8 January alongside the HE Bill. Because of the nature of a variable scheme, the additional net income from fees will vary not only according to the number of students an institution recruits, but also depending on decisions the higher education institutions themselves take on the level of fee and the cost of any measures, such as bursaries for students from lower income backgrounds, that they put in place to safeguard access. Figures for extra fee income cannot therefore be estimated precisely. Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

Sure Start/Early Excellence Centres

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many *(a)* Sure Start centres and *(b)* early excellence centres have been created in Birkenhead. [166302]

Margaret Hodge: There are three Sure Start local programmes in Birkenhead-Birkenhead North, Birkenhead Central and Ferries. Five neighbourhood nurseries are being developed in Birkenhead. Of these, four are open and offering 175 Places. Two of these are linked to the Birkenhead North and Ferries programmes and are operating from temporary accommodation while the main building is completed. The fifth is due to open in the next few weeks. There are no Early Excellence Centres in Birkenhead.

Mr. Benton: To ask the Secretary of State for Education and Skills (1) how many *(a)* Sure Start centres and *(b)* Early Excellence centres have been created in Bootle; [169081]

(2) how many new nurseries have been established in Bootle since 1997. [169082]

Margaret Hodge: There are two Sure Start local programmes in Bootle constituency; Litherland Bootle and Orrell and Seaforth and Bootle. Seaforth and Bottle local programme have built a Sure Start centre in Seaforth. Litherland Bootle and Orrell have not yet created any new buildings. Sefton local authority have submitted their strategic plans for Children Centres and these two Programmes are included in these plans.

No Early Excellence Centres have been created in Bootle.

Sefton local authority are responsible for determining local need for nursery places in Bootle they maintain information on current provision. Under the Neighbourhood Nursery Scheme three nurseries were opened in Bootle constituency providing a total of 110 places. A further two nurseries are to be opened in June providing another 115 places.

Mr. Pike: To ask the Secretary of State for Education and Skills (1) how many *(a)* Sure Start centres and *(b)* Early Excellence centres have been created in Burnley; [167919]

(2) how many new nurseries have been established in Burnley since 1997. [167920]

Margaret Hodge: No early excellence centres have been created in Burnley since 1997. There are three Sure Start Local Programmes in Burnley. The first Local programme Burnley (Daneshouse and Stoneyholme) was approved in August 2000 and has spent all of their capital funding of 1,548,000, The other two Local Programmes Duke Bar and Burnley Wood and South West Burnley were approved by the Sure Start Unit with indicative capital funding of 1,000,000 for each of the programme. Duke Bar and Burnley Wood and South West Burnley have not yet submitted their capital plan for this money. This money will support the development of new nurseries places in Burnley.

Lancashire local authority is responsible for determining the local need for nursery in Burnley. They collect information on current provision. Under the Neighbourhood Nurseries scheme 97 new nursery places have been opened in Burnley.

Lancashire county council is currently developing plans to implement Children's Centres in the 20 per cent. most disadvantaged wards, Burnley will be included in these plans.

Mr. Hendrick: To ask the Secretary of State for Education and Skills (1) how many *(a)* Sure Start Centres and *(b)* Early Excellence Centres have been created in Preston; [168136]

(2) how many new nurseries have been established in Preston since 1997. [168133]

Margaret Hodge: No Sure Start Centres have yet been completed in Preston. There are five Sure Start local programmes in Preston. Sure Start Ribbleton has commenced work on a Sure Start Centre which is due to be completed in December 2004. Sure Start Preston West is building a Sure Start Centre as an extension to a nursery school which will be completed in August 2004. The other three programmes have yet to submit plans for the use of the majority of their capital funding.

One Early Excellence Centre has been created in Preston, based at Stoneygate Nursery School.

Lancashire county council is responsible for determining local need for nursery places in Preston and maintaining information on current provision. Under the Neighbourhood Nurseries scheme 198 new nursery places have been created in Preston in six nurseries.

Lancashire county council is currently developing plans to implement Children's Centres in the 20 per cent. most disadvantaged wards, Preston will be included in these plans.

Teacher Recruitment/Vacancies

Mr. Rosindell: To ask the Secretary of State for Education and Skills if he will make a statement on progress with the recruitment of teachers; and how many new teachers have been appointed as a direct result of his Department's initiatives. [169954]

Mr. Miliband: Although difficulties persist in some individual schools and areas, the overall teacher supply position is continuing to improve. Recruitment to courses of initial teacher training in England fell for eight years in a row from 1992/93, but has risen for four successive years since the introduction of training bursaries and Golden Hellos in September 2000. This is having an impact on the numbers of teachers in schools. National Statistics published by my Department on 29 April showed that there were 427,800 full-time equivalent regular teachers working in maintained schools in England in January 2004. That is 28,600 more than in 1997 and more than at any time since 1981. The teacher vacancy rate is now 0.7 per cent., down from 0.9 per cent. the previous year. There were 2,670 full-time teacher vacancies in January 2004, compared to 3,410 in January 2003.

Mr. Meacher: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Oldham, West and Royton on the latest date for which figures are available; and what steps he is taking to reduce them. [170909]

Mr. Miliband: Information on teacher vacancies is not available by constituency as it is collected at local education authority level. In January 2003, the latest information available, there were 19 full-time teacher vacancies in Oldham local education authority.

Like other areas, since 1997 Oldham, West and Royton has benefited from the initiatives that the Government have put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in Oldham LEA has risen from 2,240 to 2,250 in 2003. Over the same period, the number of full-time equivalent school support staff in the area has grown by 520 from 720 to 1,240 in 2003.

Mr. Meacher: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Oldham, West and Royton *(a)* in each of the last seven years and *(b)* on the latest date for which figures are available. [170910]

Mr. Miliband: The following table gives the full time equivalent number of teaching assistants employed in maintained schools in Oldham, West and Royton constituency in each January between 1997 and 2003, the latest year for which data are available.

	Number
1997	200
1998	210
1999	230
2000	250
2001	290
2002	310
2003	350

Source:
Annual School Census.

Unexplained Infant Deaths

Mr. Burstow: To ask the Secretary of State for Education and Skills how many civil cases relating to unexplained infant deaths have been reviewed since the statement on 20 January 2004, *Official Report*, column 1215; what the outcome was of each; and if she will make a statement. [167813]

Margaret Hodge: I refer the hon. Member to the statement that I made on 23 February 2004, *Official Report*, column 37, and the answer given in the other place by my right hon. Friend Baroness Ashton of Upholland on 30 March 2004, *Official Report*, column WA153.

University Fees (EU Enlargement)

Mr. Sheerman: To ask the Secretary of State for Education and Skills what assessment he has made of the cost to United Kingdom universities of the changed fee obligations of students from the accession countries after EU enlargement. [166735]

Alan Johnson: In 2002–03 around 3,400 full-time undergraduate students in UK higher education institutions came from countries about to join the EU. Assuming that international students pay upwards of £6500 in 2004–05 in tuition fees, the likely loss of that direct fee income to higher education institutions—the difference between the "overseas" and the "home" fee rate—from those students would be at least 18 million.

From the start of the 2004–05 academic year, higher education institutions will be eligible for funding from the HE funding councils in respect of students from the accession countries, on the same basis as other EU students and home students. The exact amount will depend on the course of study. The students themselves will generally pay a means-tested fee contribution. Higher education institutions have been aware of this change for some years and of the need to budget accordingly.

University Science Departments

Mr. Amess: To ask the Secretary of State for Education and Skills (1) if he will list in the last five years, universities which have closed science departments, broken down by subject; and if he will make a statement; [165526]

(2) how many chemistry departments have been closed in UK universities since 1997; and if he will make a statement. [169936]

Alan Johnson: Information on the closure of particular university departments is not collected by either the Department for Education and Skills or the Higher Education Statistics Agency (HESA). Higher Education Institutions are autonomous bodies and any decisions on closures of departments are made by the institutions themselves and not Government or the Higher Education Funding Council for England (HEFCE).

However, I am aware of two recent chemistry course closures; one at Kings College London and one at Queen Mary and Westfield College (University of London). These closures were largely due to lack of demand for the undergraduate Chemistry courses. Sir Gareth Robert's Review into the supply of people with Science Technology Engineering and Maths Skills made a number of recommendations concerning this issue and we are making good progress in their implementation.

WORK AND PENSIONS

Asthma

Dr. Stoate: To ask the Secretary of State for Work and Pensions how many cases of occupational asthma there were in *(a)* the United Kingdom and *(b)* England in each of the last five years. [170236]

Jane Kennedy: Information on estimated numbers of new cases of occupational asthma reported in Great Britain and in England by consultant chest physicians and occupational physicians in each of the last five years for which data are available is in the table.

Occupational asthma: estimated number of cases reported by chest physicians and occupational physicians, 1998 to 2002

	Great Britain	*England*
1998	808	665
1999	1,128	887
2000	785	688
2001	649	524
2002[1]	670	596

[1] Provisional data

Source:
The Health and Occupation Reporting (THOR) network.

Cases of occupational asthma may not be seen by consultant physicians and may go undiagnosed. It has been estimated that the actual number of new cases may be around 5,500 per year.

Information regarding Northern Ireland is a matter for the Northern Ireland Office.

Chemical Plants

Paul Holmes: To ask the Secretary of State for Work and Pensions what the average length of time was for the Health and Safety Executive to produce reports on leaks at chemical sites in 2003; and if he will make a statement. [165639]

Mr. Pond: HSE only prepares publicly available reports on the most serious incidents (including significant leaks) at chemical sites. The length of time for their publication is dependent on the nature and complexity of the incident and the action that was taken. If there were a prosecution, a report would not be published until that had concluded.

Paul Holmes: To ask the Secretary of State for Work and Pensions how many gas leak incidents have occurred at chemical plants in the UK in each of the last 10 years; and if he will make a statement. [165640]

Jane Kennedy: The number of releases from chemical plants in Great Britain reported to the Health and Safety Executive under RIDDOR[1] since 1996–97 is as follows:

[1] Reporting of Injuries, Diseases and Dangerous Occurrences Regulations

	1996–97	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*[1]
Pipeline defect	12	15	7	6	10	12	4	7
Release of flammable substance	58	63	55	45	33	31	26	36
Release of other substance	112	91	84	80	62	74	57	48
Totals	182	169	146	131	105	117	87	91

[1] (provisional only)

Note:
Information is not readily available prior to 1996–97 and the statistics include all reported chemical releases.

Child Support Agency (Solihull)

Mr. John Taylor: To ask the Secretary of State for Work and Pensions if he will cause enquiries to be made into the conduct of the Child Support Agency case of Mary Ahern of Haslucks Croft, Shirley in the Solihull constituency. [170654]

Mr. Pond *[holding answer 4 May 2004]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. John Taylor, dated 6 May 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will cause enquiries to be made into the conduct of the Child Support Agency case of Mary Ahern of Haslucks Croft, Shirley in the Solihull constituency.

As individual cases, are confidential, I will write to you separately about Mary Ahern when I respond to your letter dated 22 April 2004. This is in line with paragraph 12, part 2 of the Code of Practice on Access to Government Information.

Civil Partnerships

John Barrett: To ask the Secretary of State for Work and Pensions whether those registering a civil partnership will be entitled to the same pension rights as married couples; and if he will make a statement. [171111]

Malcolm Wicks: Provisions in the Civil Partnership Bill would extend state pension rights and contracted-out survivor pension rights to same-sex couples who have formed a civil partnership.

Schedule 17 of the Bill amends state pensions legislation. These amendments would extend those state pension benefits that are equally available to husbands and wives to civil partners when the Bill comes into force. Other state pension benefits would be extended to civil partners from 2010, when the conditions of entitlement for all state pension benefits will be the same for husbands and wives.

The Civil Partnership Bill contains a pensions enabling power (Clause 187) which would allow my Department to amend the contracting out rules in relation to survivor pensions. The intention is to use this power to require:

contracted-out defined benefit pension schemes to take account of periods of pensionable service after commencement of the Civil Partnership Bill for the purposes of calculating survivor pensions for civil partners; and

contracted-out defined contribution schemes to provide survivor pension for civil partners from the protected rights accrued after commencement of the Civil Partnership Bill, if the member is in a registered civil partnership at the point of retirement.

Jobcentre Plus

Mrs. Brooke: To ask the Secretary of State for Work and Pensions if he will list the membership organisations of the Job Centre Plus Provider Liasion Group. [168632]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mrs. Annette Brooke, dated 6 May 2004:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply direct to your question about the membership organisations of the Jobcentre Plus Provider Liaison Group. This is something which falls within the responsibilities delegated to me as Chief Executive of the Agency.

The Jobcentre Plus Provider Liaison Group's membership includes representatives from several of our largest work-based private sector providers, together with providers in the voluntary and community sector, smaller private providers and Further Education establishments. In addition, membership includes the Association of Learning Providers (ALP), a trade body for the work-based sector who represent approximately 30 per cent. of Jobcentre Plus providers. The Group is supported by a small secretariat from Jobcentre Plus. Full membership of the Group is set out in Annex 1.

The purpose of the Group is to provide a forum in which providers are consulted on changes to policy and operational processes. In practice this gives them the opportunity to comment upon policies from their perspective as organisations that deliver these policies. The Group enables Jobcentre Plus to obtain the views of providers from a wide background and should help ensure that our business can be delivered more effectively and efficiently.

I hope this is helpful.

Charles Hendry: To ask the Secretary of State for Work and Pensions (1) what the duties and responsibilities of Jobcentre Plus personal advisors are; [169973]

(2) what the set-up costs of Jobcentre Plus have been; [170023]

(3) how many *(a)* Jobcentre and *(b)* Jobcentre Plus centres there are in England. [170025]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Charles Hendry, dated 6 May 2004:

The Secretary of State has asked me to reply to your questions concerning the cost of introducing Jobcentre Plus, the numbers of offices delivering our services to the public and what the duties and responsibilities of personal advisors are. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The total cost recorded for Jobcentre Plus Implementation to the end of March 2004 is £608.9 million. Some financial adjustments still need to be made and the final figure for the year end is expected to show an increase on this amount.

In England our delivery network comprises:

388 Jobcentre Plus offices

454 Jobcentres

237 Social Security offices

We plan to complete the rollout of the new integrated service across Great Britain by 31 March 2006.

Jobcentre Plus is helping a wider range of customers than ever to secure employment with special focus on those customers who have to overcome particular barriers. Jobcentre Plus services are work focused for all customers, with personal advisers addressing individual customer needs.

Personal advisers make a key contribution to realising the Jobcentre Plus vision of a welfare system for people of working age that promotes work as the best form of welfare while providing appropriate help and support for those without jobs. They also deliver the service through which Jobcentre Plus will meet many of its aims, objectives and performance targets.

The key responsibilities for personal advisers are to:

carry out diagnostic, work targeted interviews to help customers understand the benefits of working and agree a realistic course of action to gain or move them closer to employment;

submit customers to appropriate vacancies;

manage a caseload of customers;

develop and maintain partnership working with Jobcentre Plus colleagues and employers/relevant external organisations to improve and extend the range of support for customers; and

help to protect the integrity of the benefit system by making sure people fulfil their responsibilities and remain entitled to benefit.

I hope this is helpful.

Jobcentres

Chris Ruane: To ask the Secretary of State for Work and Pensions what degree of flexibility he will give jobcentres over their budgets *(a)* to improve local skills and *(b)* to target jobless blackspots. [166681]

Jane Kennedy: Jobcentre Plus has a wide range of employment programmes to support clients improve their employability and help them to move into work. Within the framework of national programme design, District Managers are responsible for ensuring that the provision meets the needs of their local labour market. Programme budget management processes support this local tailoring.

Since 26 April 2004, the District Manager's Discretionary Fund (DMDF) has been made available to all District Managers and will run for two years, with lessons learned being taken forward.

DMDF will allow greater freedom and flexibility to tackle local problems, including local skills gaps, and allow investment in local partnerships.

In addition, since 1 April 2004 we have launched the Working Neighbourhoods pilots in 12 of the most deprived neighbourhoods in the country. The pilots include a flexible, discretionary fund for each neighbourhood to allow personal advisers in cooperation with local strategic partners to tackle the substantial and varied barriers that prevent residents in these neighbourhoods from returning to work.

New Deal for Lone Parents

Mr. Pickthall: To ask the Secretary of State for Work and Pensions how many lone parents in West Lancashire have gained work through the New Deal programme. [171723]

Jane Kennedy: 650 lone parents in West Lancashire have gained work through the New Deal for Lone Parents since the start of the programme in October 1998. Figures for lone parents who have gained work through other New Deal Programmes are not available.

Mr. Meacher: To ask the Secretary of State for Work and Pensions how many lone parents in Oldham, West and Royton have gained work through the New Deal programme. [170948]

Jane Kennedy: 480 lone parents in Oldham, West and Royton have gained work through the New Deal for Lone Parents since the start of the programme in October 1998. Figures for lone parents who have gained work through other New Deal programmes are not available.

Mr. Meacher: To ask the Secretary of State for Work and Pensions how many women in Oldham, West and Royton have benefited from *(a)* the New Deal for Lone Parents and *(b)* the New Deal for Partners since 1997; and if he will make a statement. [170950]

Jane Kennedy: Through the New Deal we have introduced a wide range of initiatives to help individuals improve their employment prospects by giving them the skills, support and confidence they need to move into work. From 12 April we enhanced the New Deal for Partners in order to offer partners taking part in that programme the same level of help and support as our successful New Deal for Lone Parents programme. Also from this April we have started to roll out Work Focused Interviews for Partners, offering greater support to partners of benefit recipients.

720 women have started New Deal for Lone Parents in Oldham, West and Royton since the beginning of the programme in October 1998, of whom, 460 have gained a job. Information on the number of women who have benefited from the New Deal for Partners is not available.

Martin Linton: To ask the Secretary of State for Work and Pensions how many lone parents have *(a)* gained work and *(b)* entered training or education through the New Deal for Lone Parents in Battersea. [169768]

Jane Kennedy: Since the beginning of the programme in October 1998, 400 lone parents have gained work, and 70 have participated in training or education, through the New Deal for Lone Parents in Battersea.

Part-time Employees' Pension Rights

Mr. Grogan: To ask the Secretary of State for Work and Pensions when the Government intends to lay regulations before the House amending the Pensions Act 1995 and the Occupational Pension Schemes (Equal Treatment) Regulations to reflect the time limits of the European Court of Justice ruling in the Preston case. [169883]

Malcolm Wicks: Draft regulations were prepared and issued for consultation in July last year. They will be finalised as soon as possible but in the meantime employment tribunals are making decisions in light of the judgments of the courts about access to pension schemes.

Pension Entitlements

Mr. Willetts: To ask the Secretary of State for Work and Pensions what steps the Government are taking to calculate the cost of compensating those people who have already lost some or all of their pension entitlement; and if he will make a statement. [170103]

Malcolm Wicks: We are currently working with trustees to gather data about defined benefit schemes that are winding up under-funded. Using these data we will establish firm estimates of the extent of the problem and the potential scale of losses. The potential cost of any assistance would depend on these estimates and on the nature of any assistance provided.

State Pension

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will estimate the cost, net of savings in means-tested benefits and additional tax revenues, of paying a full basic state pension to each individual *(a)* regardless of contribution record and *(b)* on the current system of entitlement at the rate of the guarantee credit, from the age of 80 years; and if he will estimate in each case the cost in each of the following four years on the assumption that the pension was then indexed to earnings. [168860]

Malcolm Wicks: The information is not available in the format requested. However, such information as is available is in the table.

£ billion

	(a) Net cost of guarantee level basic state pension paid to those over 80 regardless of contribution record	*(b) Net cost of guarantee level basic state pension paid to those over 80 on current system of entitlement*
2005–06	2.4	2.0
2006–07	2.6	2.1
2007–08	2.8	2.2
2008–09	2.9	2.4

Notes:

1. Figures are for Great Britain in 2004–05 price terms, rounded to the nearest £100 million. It is assumed the change comes into effect from April 2005 and basic state pension is up-rated in line with earnings thereafter. It is assumed that part *(a)* would not apply to those overseas, and so for consistency, part *(b)* also does not include any changes to the state pensions of those who are overseas.
2. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002-based population projections.
3. For part *(a)* it is assumed that for those over 80 the basic state pension has been increased to the guarantee credit rate, any additional pension is then added to the full basic state pension.
4. In addition, no allowances are made for couples, and individuals aged over 80 have been assumed to receive basic state pension at the single rate of the guarantee credit, including those previously receiving no basic state pension through their own contributions.
5. For part *(b)* for those over 80, the maximum rate of category A basic state pension is raised to the level of the guarantee credit and those receiving less than the maximum category A basic state pension and other categories of basic state pension will receive an increased pension according to the rules of the current system.
6. Income related benefit offsets are calculated using the DWP policy simulation model and April 2004 benefit rates. It is assumed that the savings credit is left unchanged from the existing system and the current rules apply. Consistent with previous answers it is assumed that the offset for the first year will remain constant for subsequent years.
7. Additional income tax revenue is estimated by the Inland Revenue using 2004 tax rates. The income tax estimates for 2004–05 to 2006–07 are based on the 2001–02 Survey of Personal Incomes and are projected in line with March 2004 Budget assumptions. For illustrative purposes, it is assumed income tax revenue will be a fixed percentage of the gross cost for this option in 2007–08 and 2008–09.

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many *(a)* divorced and *(b)* widowed people who have made a claim for state retirement pension have yet to receive it; and how long they have been waiting in each case. [167336]

Malcolm Wicks: The number of claims to state pension from divorced and widowed customers who have yet to receive their award, as at 21 April 2004, is broken down as follows:

	Number
Divorced	4,349
Widowed	1,083
Total	5,432

Information on how long they have been waiting in each case can be provided only at a disproportionate cost.

StepUP Programme

Sir Archy Kirkwood: To ask the Secretary of State for Work and Pensions what plans he has to extend the StepUP programme. [170042]

Jane Kennedy: StepUP builds on the New Deal for Young People and New Deal 25 plus by providing transitional jobs for people who have not secured sustained employment through New Deal. There are currently 20 StepUP pilots operating in selected wards across Great Britain.

An interim report (Evaluation of StepUP:Interim Report 186/2004) was published on 16 March and is available in the Library. It is too soon to say whether StepUP will be rolled out nationally. However, a final report on the programme, which will establish its effectiveness in helping people into sustained work, work, will include recommendations on roll out.

The report is due to be published in July 2005 and a copy of this will be placed in the Library.

Sure Start Maternity Grant

Mr. Pike: To ask the Secretary of State for Work and Pensions (1) how many mothers in Burnley have taken up the Sure Start maternity grant; [167888]

(2) how many mothers in Burnley have received the Sure Start Maternity Grant. [168323]

Mr. Pond: The information is not available in the format requested. The available information is in the table.

Sure Start Maternity Grants in Greater Manchester Lancashire Social Fund District/East Lancashire Jobcentre Plus District

	Applications	*Awards*
2000–01	2,936	2,405
2001–02	3,746	2,998
2002–03	4,637	3,452
2003–04	5,297	3,539

Notes:

1. Data are not available by parliamentary constituency. Burnley parliamentary constituency is part of East Lancashire Jobcentre Plus District, which was previously called Greater Manchester Lancashire Social Fund District.

2. Sure Start Maternity Grants were introduced on 27 March 2000. The very small number of cases for 1999–2000 has been excluded for data protection reasons.
3. Data are given for all applications and awards, irrespective of whether the application was made by the mother or her partner.
Source:
DWP Social Fund Policy, Budget and Management Information System.

Toilet Soaps

Bob Spink: To ask the Secretary of State for Work and Pensions what plans he has to amend the current Cosmetic Products (Safety) Regulations and Biocidal Products Regulations for toilet soaps. [167222]

Jane Kennedy: There are no such plans. The legislation applying to toilet soaps is clear: where they are already regulated under the Cosmetic Products (Safety) Regulations they are excluded from the scope of the Biocidal Products Regulations.

Winter Fuel Allowance

Mr. Neil Turner: To ask the Secretary of State for Work and Pensions how many senior citizens in Wigan have benefited from the winter fuel allowance since 1997. [169313]

Malcolm Wicks: The number of senior citizens in the Wigan constituency who benefited from a winter fuel payment in each year since 1999–2000 (including provisional figures for 2003–04) is in the table. Information relating to the 1997–98 and 1998–99 winters is not available.

	Payments made
1999–2000	14,650
2000–2001	16,665
2001–2002	16,780
2002–2003	16,820
2003–2004	16,990

Notes:
1. Numbers are rounded to the nearest 5.
2. Please note that the figures for 2003–04 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.
Source:
IAD Information Centre, 100 per cent. samples.

Mr. Hendrick: To ask the Secretary of State for Work and Pensions how many senior citizens in Preston have benefited from the winter fuel allowance since 1997. [169726]

Malcolm Wicks: The number of senior citizens in the Preston constituency who have benefited from the winter fuel payment in each year since 1999–2000 (including provisional figures for 2003–04) is in the table. Information relating to the 1997–98 and 1998–99 winters is not available.

	Payments made
1999–2000	15,375
2000–01	16,830
2001–02	16,735
2002–03	16,570
2003–04	16,425

Notes:
1. Numbers are rounded to the nearest 5.
2. Please note that the figures for 2003–04 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

HEALTH

Drug Addicts

Mr. Clapham: To ask the Secretary of State for Health what estimate he has made of the number of addicts in the UK using *(a)* class A drugs and *(b)* heroin in each of the last five years for which figures are available. [168723]

Miss Melanie Johnson: It is estimated that there are 250,000 Class A problem drug users in England and Wales (Home Office Research Study 2002). Problem drug users are defined as people who use illegal drugs and experience social, psychological, physical or legal problems.

The Government is committed to tackling substance misuse and launched the updated drugs strategy in 2002. The Government is on track to meet the target in this strategy to double the number of people in treatment from 100,000 in 1998 to 200,000 by 2008 and to increase year on year the numbers retained in, or successfully completing treatment.

Mr. Kilfoyle: To ask the Secretary of State for Health how many people from Liverpool, Walton are receiving drug treatment. [166985]

Miss Melanie Johnson: There were 2,191 people receiving drug treatment in Liverpool in 2000–01. This is the latest available data. Data broken down by drug action team for 2001–02 and 2002–03 have not yet been finalised and published.

Accident and Emergency Departments

Helen Southworth: To ask the Secretary of State for Health how many patients were seen at Warrington hospital accident and emergency in each of the last five years. [168689]

Miss Melanie Johnson: The information requested is shown in the table.

First attendances at accident and emergency department

		Number
2002–03	North Cheshire Hospitals NHS Trust	84,465
2001–02	North Cheshire Hospitals NHS Trust	84,171
2000–01	Warrington Hospital NHS Trust	55,978
1999–2000	Warrington Hospital NHS Trust	57,786
1998–99	Warrington Hospital NHS Trust	56,796

Source:
Department of Health.

Helen Southworth: To ask the Secretary of State for Health what the cost is of the new accident and emergency unit at Warrington hospital; and what facilities it will provide. [168690]

Miss Melanie Johnson: The new accident and emergency unit at Warrington hospital will cost a total of £6 million. It will include major and minor injury areas, four bed resuscitation area, a chest pain area, a seven bed coronary care unit, a paediatric area and x-ray facilities. The unit will provide a dedicated paediatric unit for the first time for residents of North Cheshire and comprehensive coronary care.

Source:

North Cheshire Hospitals National Health Service Trust

Alcohol

Mr. Amess: To ask the Secretary of State for Health what plans he has to place health warning labels on alcoholic products; and if he will make a statement. [169938]

Miss Melanie Johnson: The Government's alcohol harm reduction strategy for England, published in March 2004, recommends that the Department of Health and the Home Office consult the alcohol industry on the introduction of a voluntary social responsibility scheme. As part of this scheme, the strategy urges that the drinks industry should be encouraged to display information on sensible drinking and on the unit content of drinks.

Allergies

Jon Cruddas: To ask the Secretary of State for Health (1) whether he uses the estimates of the extent of allergies in the June 2003 report by the Royal College of Physicians, "Allergy: the Unmet Need", as a basis for NHS planning; and what other evidence-based planning data he proposes to use; [169904]

(2) what his latest estimate is of the annual cost to the NHS of allergies; and what assessment he has made of the recent changes in the incidence of more serious systemic allergies. [169905]

Dr. Ladyman: We welcomed the Royal College of Physicians' report and believe it is a useful contribution to the debate on how to improve national health service allergy services. It is the role of primary care trusts, in partnership with local stakeholders, to decide what services to provide for their populations, including those with allergies. They are best placed to understand local health care needs and commission services to meet them.

Information about the annual cost to the NHS of allergies is not centrally available.

We are aware that there has been a particular increase in severe allergic disease, including anaphylaxis; severe reactions to food and drugs are now common.

Asthma

Mr. Drew: To ask the Secretary of State for Health what strategies the Department plans to put in place to deal with an increased incidence of asthma. [170139]

Dr. Ladyman: A number of initiatives are underway in the national health service in England to improve services for patients with asthma. These include:

The national service framework (NSF) for children: asthma, as one of the most common childhood conditions, will be used as a key exemplar that will accompany the main NSF report.

The chronic disease management programme provides arrangements for health promotion under the general practitioner contract including fixed annual payments for participating GPs, around 94 per cent. of the total, for running organised programmes of care for patients with asthma.

The general medical services contract, launched in February 2003, includes a specific quality indicator for treatment and care of people with asthma.

Breast Screening Sites

Sandra Gidley: To ask the Secretary of State for Health what percentage of breast screening sites are providing screening for women aged 65–70 years; and if he will make a statement. [170975]

Miss Melanie Johnson: As at 31 March 2004, 44 per cent., of the 81 local breast screening programmes in England had begun inviting women aged 65–70 for breast screening. All local programmes are on track to begin inviting the older women by the target date of December 2004. Since the age extension began in April 2001, over 200,000 more women have been invited for breast screening. 400,000 more women a year will be invited once the extension is fully implemented.

Cancer

Mr. Burstow: To ask the Secretary of State for Health when the Coalition for Cancer Information was established; what its budget is; what its remit is; what its membership is; how often it has met; and if he will make a statement. [169715]

Miss Melanie Johnson: The coalition for cancer information (CCI) was formed in June 2002 as a result of a recommendation from the cancer information advisory group and is chaired by Professor Mike Richards, National Cancer Director. The CCI does not hold a budget, but is supported by departmental secretariat. The CCI brings together producers and consumers of cancer information from national voluntary organisations, the National Cancer Research Institute, the national health service and the Department. It was established to oversee the development and dissemination of high quality information materials for those affected by cancer.

Since being established, the coalition has met approximately three times a year.

Chest Pain Clinics

Mr. Pike: To ask the Secretary of State for Health how many rapid access chest pain clinics there are in Burnley. [167947]

Miss Melanie Johnson: The East Lancashire Hospitals National Health Service Trust holds rapid access chest pain clinics at Burnley General Hospital. The Trust is meeting the national service framework two week target for patients to be seen from date of referral by general practitioner.

Mr. Hendrick: To ask the Secretary of State for Health how many rapid access chest pain clinics there are in Preston. [168107]

Miss Melanie Johnson: Lancashire Teaching Hospitals National Health Service Trust has rapid access chest pain clinics at both the Royal Preston Hospital and Chorley and South Ribble Hospital. Both clinics are meeting the national service framework two week target for patients to be seen from date of referral by general practitioner.

Cystic Fibrosis Screening

Mr. Watson: To ask the Secretary of State for Health pursuant to his answer of 17 March 2004, *Official Report*, column 386W, on cystic fibrosis screening, if he will make a statement on the conclusions of the National Screening Committee on implementation of the Government's commitment to newborn screening for cystic fibrosis. [170582]

Dr. Ladyman: Following discussion at its meeting in March 2004 the United Kingdom National Screening Committee (NSC) has asked the UK newborn screening programme centre, a collaboration between Great Ormond Street Hospital for Children, the Institute of Child Health and the Institute of Education to develop an implementation plan.

The expectation is that, in England, with the emphasis in the current year on bringing existing provision up to high standards, this will enable a rollout within two to three years. The precise pace of the roll-out will be determined by local priorities. However the NSC will be providing advice and help on costs, feasibility and timetables and learning from the experience of other UK countries.

Dentistry

Miss McIntosh: To ask the Secretary of State for Health if he will make a statement on the provision of NHS dental services in North Yorkshire. [169970]

Miss Melanie Johnson: 49.9 per cent. of adults and 68.2 per cent. of children in North Yorkshire were registered with a National Health Service dentist at the end of February 2004. There has been very little change in these numbers over the previous 12 months. There were 248 dentists treating NHS patients in north Yorkshire at the end of 2003.

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Secretary of State for Health what his latest estimate is of the amount spent by his Department on entertainment in each year from 1996–97 to 2004–05. [169003]

Ms Rosie Winterton: Expenditure arises on hospitality and entertainment only in the context of promoting the Department's business objectives. All such expenditure is made in accordance with published departmental guidance on financial procedures and propriety/based on the principles set out in "Government Accounting".

Information for 2004–05 is not available. The total amount spent by the Department on hospitality for years since 1996–97 is shown in the table.

£

	Expenditure
1996–97	105,192
1997–98	90,883
1998–99	67,953
1999–2000	50,114
2000–01	93,091
2001–02	121,968
2002–03	125,291
2003–04	76,742

Direct Payments

Paul Holmes: To ask the Secretary of State for Health what the original target was for the extension of direct payments; to how many people direct payments have been extended; and if he will make a statement. [170201]

Dr. Ladyman: In 2002–03, 9,600 people received a direct payment. The Department has not set a target for the extension of direct payments. Increasing the take up of direct payments will contribute to the annual overall assessment of a council's performance. To achieve a performance rating of 'very good', councils must have at least 150 people receiving direct payments per 100,000 population aged 18 or over. The national average for 2002–03 was 23.

Drug Treatment (Burnley)

Mr. Pike: To ask the Secretary of State for Health how many people in Burnley are receiving drug treatment. [168319]

Miss Melanie Johnson: Information on the number of people receiving drug treatment on a constituency basis is not gathered centrally.

In 2000–01, there were a total of 2,874 people receiving drug treatment in the are covered by the drug action team for Lancashire. These are the latest available data. Data broken down by drug action team for 2001–02 and 2002–03 have not yet been finalised and published.

Source:

Department of Health Statistics

Employment-Health Link

Mrs. Brooke: To ask the Secretary of State for Health what research his Department has *(a)* undertaken and *(b)* commissioned into the link between employment and a person's health; and if he will make a statement. [168718]

Miss Melanie Johnson: There are two recent studies; working with the Employment Service, the Department undertook a study of the health impact of the new deal for young people which was published in 2002.

More recently the Department has, in collaboration with the Office of the Deputy Prime Minister, commissioned a further study on the health impact of the new deal for communities.

Erectile Dysfunction

Dr. Gibson: To ask the Secretary of State for Health what guidance he issues to general practitioners on what constitutes severe distress for the purposes of the treatment of erectile dysfunction. [168446]

Miss Melanie Johnson: Health Service Circular (HSC) 1999/177, issued on 6 August 1999 contains guidance to general practitioners on the treatment of erectile dysfunction and severe distress.

Eye Tests

Mr. Pike: To ask the Secretary of State for Health (1) how many senior citizens in Burnley have access to free eye tests; [167949]

(2) how many residents in Burnley aged over 60 years have benefited from the abolition of charges for eye tests. [167950]

Miss Melanie Johnson: Data for the number of sight tests by constituency or by the number of senior citizens are not collected centrally.

The total number of sight tests paid for by Cumbria and Lancashire Strategic Health Authority in the year 2002–03 for people aged 60 and over was 189,100.

The total number eligible for a free sight test for those aged 60 and over was 429,300. Sight tests cannot be equated to the number of patients.

Mr. Kaufman: To ask the Secretary of State for Health (1) how many residents in Manchester, Gorton aged over 60 years have benefited from the abolition of charges for eye tests; [167382]

(2) how many senior citizens in Manchester, Gorton have access to free eye tests. [167381]

Miss Melanie Johnson: Data for the number of sight tests by constituency or by the number of senior citizens is not collected centrally.

The total number of National Health Service sight tests paid for by the Greater Manchester Strategic Health Authority in 2002–03 for patients aged 60 and over was 189,900. The total number eligible for a free sight test for those aged 60 and over was 493,100. Sight tests cannot be equated to the numbers of patients.

Mr. Hendrick: To ask the Secretary of State for Health (1) how many senior citizens in Preston have access to free eye tests; [168098]

(2) how many residents in Preston aged over 60 years have benefited from the abolition of charges for eye tests. [168099]

Miss Melanie Johnson: Data for the number of sight tests by constituency or by the number of senior citizensis not collected centrally.

The total number of sight tests paid for by Cumbria and Lancashire Strategic Health Authority in the year 2002–03 for those aged 60 and over was 189,100.

The total number of eligible for a free eye test for those aged 60 and over was 429,300. Sight tests cannot be equated to the number of patients.

Source:

Department of Health Statistics.

GM Foods

Mr. Whittingdale: To ask the Secretary of State for Health (1) what discussions have been held by officials of the Food Standards Agency with, and what representations have been received by the Agency from, *(a)* the Food and Drink Federation, *(b)* the European Federation of European Food Additives and Food Enzymes Industries, *(c)* the Confederation of Food and Drink Industries of the European Union, *(d)* individual companies involved in the fermentation sector and *(e)* other stakeholders about the interpretation of the new traceability and labelling regulations in relation to products produced with genetically modified micro-organisms; [169958]

(2) what the policy objectives of the Food Standards Agency are for the forthcoming discussions with the European Commission and other member states about the interpretation of the new traceability and labelling regulations in relation to products produced with genetically modified micro-organisms; and what communication the Agency *(a)* has had and *(b)* intends to have with other member states to secure those objectives; [169959]

Miss Melanie Johnson: The Food Standards Agency (FSA), in conjunction with the Department for Environment, Rural Affairs and Food, has held stakeholder meetings with a number of interested parties, including industry bodies and associations, to discuss the implications and scope of both the Genetically Modified Food and Feed Regulation (EC) 1829/2003 and the Traceability and Labelling Regulation (EC) 1830/2003.

The food and feed industry has raised specific concerns in relation to the labelling of products arising from a fermentation process using either genetically modified micro-organisms and/or genetically modified substrates. This issue has been raised throughout Member States and the Commission has undertaken to take forward a discussion at Standing Committee where the FSA will seek clarification on the status of these products.

Heart Disease

Mr. Kaufman: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in Manchester, Gorton in each of the last five years. [167378]

Miss Melanie Johnson: The information requested is not collected centrally. Allocations of funding for particular treatments are matters for the local primary care trust.

Health Expenditure

Mr. Pike: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in Burnley in each of the last five years. [167956]

Miss Melanie Johnson: The information requested is not collected centrally. Allocations of funding for particular treatments are matters for the local primary care trust.

Mr. Hendrick: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in Preston in each of the last five years. [168103]

Miss Melanie Johnson: The information requested is not collected centrally. Allocations of funding for particular treatments are matters for the local primary care trust.

Health Service Publications

Dr. Cable: To ask the Secretary of State for Health what estimate he has made of the cost of publications in 2003 by *(a)* his Department, *(b)* primary care trusts and *(c)* hospital trusts. [167850]

Ms Rosie Winterton: The estimated cost of publications, including posters, leaflets, fact-sheets and resource packs produced by the Department's Communications Directorate in 2003–04 is £14.85 million. The estimated costs of publications produced by primary care trusts and hospital trusts cannot be given, as these figures are not held centrally.

Health Services (Bootle)

Mr. Benton: To ask the Secretary of State for Health how much public funding was spent on *(a)* heart disease and *(b)* cancer care in Bootle in each of the last five years. [170536]

Miss Melanie Johnson: The information requested is not collected centrally. Allocations for funding for particular treatments are matters for the local primary care trust.

Mr. Kilfoyle: To ask the Secretary of State for Health on how many occasions the Accident and Emergency Department of University Hospital, Aintree exceeded a four-hour wait for treatment between February 2002 and February 2004. [166952]

Miss Melanie Johnson: The Department began collecting accident and emergency performance figures from the second quarter of 2002–03. The available information is shown in the table.

Total time spent in Accident and Emergency from arrival to admission, transfer or discharge, Aintree Hospitals NHS Trust, July 2002 to December 2003

	Quarter	*Name*	*Total attendances*	*Percentage of patients who spent less than four hours in A&E*	*Actual number of patients spending over four hours in A&E*
2002–03	2	Aintree Hospitals NHS Trust	19,630	52.1	9,394
2002–03	3	Aintree Hospitals NHS Trust	18,931	59.3	7,702
2002–03	4	Aintree Hospitals NHS Trust	18,360	75.4	4,516
2003–04	1	Aintree Hospitals NHS Trust	20,106	77.4	4,547
2003–04	2	Aintree Hospitals NHS Trust	21,348	90.8	1,957
2003–04	3	Aintree Hospitals NHS Trust	19,016	85.0	2,853

Source:
Department of Health dataset QMAE.

Mr. Kilfoyle: To ask the Secretary of State for Health how many hospital beds were available in Liverpool for each year between 1997 and 2003. [166953]

Miss Melanie Johnson: The information requested is shown in the table.

Average daily number of available beds by sector, NHS organisations in Liverpool, 1997–2003

ID	*Organisation*	[1]*2002–03*	[1]*2001–02*	[1]*2000–01*	[1]*1999–2000*	[1]*1998–99*	[1]*1997–98*

Department of Health form KH03

Heart Surgery

Jim Dobbin: To ask the Secretary of State for Health how many residents in Heywood and Middleton awaiting heart surgery have had the option of choosing an alternative hospital for quicker treatment in the last 12 months. [168492]

Miss Melanie Johnson: The information requested is not held centrally.

Hospices

Mr. Hoyle: To ask the Secretary of State for Health if he will make a statement on funding for hospices in the NHS. [169854]

Miss Melanie Johnson: The latest survey by the National Council for Hospice and Specialist Palliative Care Services indicates the National Health Service allocation in 2000 to specialist palliative care was

£130 million, of which £65 million went to voluntary hospices and the remainder to specialist palliative care services provided by the NHS.

The Government subsequently pledged in the NHS cancer plan to increase NHS investment in specialist palliative care, including hospices, by an extra £50 million per annum by 2004. This pledge has been met and represents an increase of nearly 40 per cent. in the amount of funding provided by the NHS over 2000 figures.

Human Fertilisation and Embryology

Mr. Amess: To ask the Secretary of State for Health (1) how many prosecutions have been brought since 1991 for breach of the prohibition in section 3 (4) of the Human Fertilisation and Embryology Act 1990 on the keeping or using for treatment or research of embryos beyond the 14 day limit; [166909]

(2) when the Human Fertilisation and Embryology Authority will publish the results of its work with the Medical Research Council on the long-term effects of IVF; [166911]

(3) how many cases of ovarian hyper stimulation syndrome have been reported since 1991; and if he will make a statement. [166912]

Miss Melanie Johnson: The Human Fertilisation and Embryology Authority (HFEA) has advised me that no prosecutions have been brought in respect of a breach of section 3(4) of the Human Fertilisation and Embryology Act 1990.

No date has yet been set for publication of the outcome of the work that the Medical Research Council and the HFEA have been doing on the long term health effects of assisted conception treatments, including in vitro fertilisation.

Data on incidences of ovarian hyper stimulation syndrome are not collected centrally nor routinely recorded by the HFEA.

Inflammatory Bowel Disease

Mr. Watson: To ask the Secretary of State for Health what assessment he has made of trials using pigs' whip worm eggs to treat inflammatory bowel disease. [170164]

Dr. Ladyman: We are aware of the promising results from the research trials in the United States. The product, however, has not yet been licensed by the European Agency for the Evaluation of Medicinal Products.

Learning Disabilities

Paul Holmes: To ask the Secretary of State for Health how many people with learning disabilities are inappropriately accommodated in long-stay hospitals; when he expects to be able to provide more appropriate accommodation; and if he will make a statement. [170198]

Dr. Ladyman: The Government are committed to the closure of the remaining long stay hospitals: it is not right that people with learning disabilities should live in national health service accommodation on a long term basis. Strategic health authorities are responsible for ensuring that primary care trusts and NHS trusts are working in partnership with local authorities to develop and deliver plans that will achieve the closure of the remaining hospitals.

The latest information available (April 2004) is that 622 people are still living in long stay hospitals; this compares with about 1,500 when the White Paper, "Valuing People: A New Strategy for Learning Disability for the 21st Century", was published in March 2001. It is disappointing that the 2004 closure date in "Valuing People" has been missed, but each remaining hospital now has an individually agreed closure date between now and April 2006.

Liquid-based Cytology

Dr. Gibson: To ask the Secretary of State for Health (1) how much has been allocated for liquid-based cytology in 2004–05; [167460]

(2) what assessment he has made of the use made of the £1.2 million funding for liquid-based cytology in 2003–04. [167490]

Miss Melanie Johnson: The Government provided £1.2 million in 2003–04 and is providing a further £6 million in 2004–05 to kick start the national implementation of liquid based cytology (LBC) across the cervical screening programme. Funding for further years is in primary care trust baselines. The intention is that cytology training centres should be converted first in order to be in a position to train the rest of the programme.

The £1.2 million funding for 2003–04 was distributed to the service, and eight of the nine cytology training centres are at various stages of training in LBC techniques. The ninth is assessing which of the two main LBC technologies to implement before commencing training.

Lupus

Helen Jackson: To ask the Secretary of State for Health what action he is taking to raise awareness of the particular problems of patients and carers suffering from lupus. [170726]

Dr. Ladyman: We are taking no specific action to raise awareness of the problems of patients and carers with lupus. Ministers however, have had two meetings with the All Party Parliamentary Group on Lupus in the past year.

Mental Health Services

Paul Holmes: To ask the Secretary of State for Health how much funding has been provided to improve child and adolescent mental health services over the last three years; what the planned spending on these services is; and if he will make a statement. [170613]

Dr. Ladyman: In the three years to March 2004, we have invested an additional £83.6 million for the development of child and adolescent mental health services (CAMHS) delivered by the national health service and local authorities.

A number of positive outcomes have been reported including improved access to specialist services, the development of new services for groups that traditionally have found it difficult to access CAMHS and better support to other agencies. In particular, this additional investment has led to a significant increase in multi-disciplinary and joint working across professions and agencies, engaging key local players in the development of the service.

This is only the first stage in a continuing programme of radical improvements in the quality and quantity of CAMHS. Our current public service agreement target provides for an expansion of the service by at least 10 per cent., per year for the three years to March 2006. This development is further underpinned by £252 million of additional funding over the next two years.

Mobile MRI Scan Units

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the ability of mobile MRI scan units to share data with the NHS; and if he will make a statement. [167711]

Miss Melanie Johnson: Data produced by mobile magnetic resonance imaging units, including images acquired, will be provided in a format that is compatible with current national health service systems.

MRSA

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 20 April 2004, *Official Report*, column 427W, on MRSA, whether the Commission for Social Care Inspection will collect and publish information on MRSA infections in care homes. [169719]

Miss Melanie Johnson: I understand from the Chairman of the Commission for Social Care Inspection (CSCI) that the Commission does not collect information specifically about methicillin resistant *Staphylococcus aureus* (MRSA), although regulated service providers must notify CSCI of death, illness and other events.

National Information Centre

Paul Holmes: To ask the Secretary of State for Health (1) how many people have used the National Information Centre in each of the last three years; and if he will make a statement; [170605]

(2) how much the National Learning Disability Information Centre and Helpline has cost to set up; and if he will make a statement. [170200]

Dr. Ladyman: The National Learning Disability Centre and Helpline was launched in December 2001. In 2002, the Helpline answered 6,482 enquires. The equivalent figure for the period from January to December 2003 was 10,522.

The Department and Mencap each gave £250,000 per year to run the National Learning Disability Centre and Helpline from 2001 until March 2004. We have recently confirmed that Government funding will continue for another two years from April 2004. The first year's allocation included set up costs.

National Service Framework for Older People

Sandra Gidley: To ask the Secretary of State for Health what age-related policies have been reported by local health authorities in response to the National Service Framework for Older People; and if he will make a statement. [171020]

Dr. Ladyman: I refer the hon. Member to the response I gave to her on 28 April 2004, *Official Report*, column 1091W.

NHS Staff

Jim Dobbin: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses there were in Heywood in each of the last seven years; and if he will make a statement. [168484]

Miss Melanie Johnson: The table shows the number of doctors and nurses within the Greater Manchester Strategic Health Authority area, the number of general medical practitioners and practice nurses in Heywood and Middleton and the number of doctors and nurses in the Pennine Acute Hospitals National Health Service Trust (including its predecessor organisations) each year since 1997.

Hospital, Public Health Medicine and Community Health Services (HCHS) Doctors[1], General Medical Practitioners (excluding retainers)[2] Qualified Nursing, Midwifery and health visiting staff and Practice Nurses employed by Unrestricted Principals and Equivalents (UPEs)[3] for Greater Manchester Strategic Health Authority and specified organisations

Osteoporosis

Diana Organ: To ask the Secretary of State for Health if he will make a statement on services for people with osteoporosis. [169870]

Dr. Ladyman: Services to identify, treat and offer preventative advice are available on the National Health Service. The Government's response to osteoporosis has been to include it in the falls standard of the national service framework for older people. The standard requires local health services to establish appropriate interventions and advice to prevent osteoporotic fractures.

To support this requirement, the Department has asked the National Institute for Clinical Excellence to develop clinical guidance on osteoporosis and undertake a technology appraisal on new treatments.

Diana Organ: To ask the Secretary of State for Health when he expects the National Institute for Clinical Excellence to report its recommendations on a technology appraisal on *(a)* the newer osteoporosis treatments and *(b)* a clinical guideline on osteoporosis. [169871]

Dr. Ladyman: The National Institute for Clinical Excellence (NICE) is due to publish its appraisal of technologies for the secondary prevention of osteoporotic fractures in postmenopausal women in October 2004. A clinical guideline on the assessment of fracture risk and the prevention of osteoporotic fractures in individuals at high risk is expected to be published in June 2005. A further appraisal of technologies for the primary prevention of osteoporotic fragility fractures in postmenopausal women is being informed by work being carried out by the World Health Organisation and the NICE guideline development group, and is also expected to be published in 2005. Copies of the draft guidance and information on their progress can be found on the NICE website at www.nice.org.uk.

Diana Organ: To ask the Secretary of State for Health which primary care trusts provide preventative osteopososis services. [169873]

Dr. Ladyman: This information is not collected centrally.

Dr. Murrison: To ask the Secretary of State for Health what assessment he has made of preventative measures likely to be of help in the management of osteoporosis; and if he will make a statement on how he will encourage an increase in *(a)* dietary calcium, *(b)* dietary vitamin D and *(c)* weight-bearing exercise. [169922]

Dr. Ladyman: The Department gives general lifestyle messages for preventing osteoporosis, revolving around diet, exercise, reducing smoking and avoiding excessive consumption of alcohol.

We are linking the national service framework for older people with wider work on healthy active life in older age to encourage older people to increase levels of physical activity and to assist with accident prevention.

We are funding projects around increasing and encouraging physical activity in residential care settings and increasing the availability of training for those offering exercise as part of falls prevention.

In June 1998, the Department issued guidelines to general practitioners and primary healthcare teams entitled, "A quick reference Primary Care Guide on the Prevention and Treatment of Osteoporosis". It recommends that adequate intakes of calcium and vitamin D at the reference nutrient intake are maintained.

The Royal College of Physicians guidelines on osteoporosis recommended to health authorities that they should put arrangements in place so that those at particularly high risk of osteoporosis have the opportunity to receive appropriate investigation, prophylaxis, such as hormone replacement therapy or calcium and vitamin D or calcium and bisphosphonates, and advice, for example, about smoking and physical activity.

PCTs (North Derbyshire)

Mr. Barnes: To ask the Secretary of State for Health what information he collates on the workings of the out-of-hours patient service in the areas of the three primary care trusts in North Derbyshire. [170095]

Dr. Ladyman: Information on the workings of local general practitioner out-of-hours services is not collected centrally. Strategic health authorities have responsibility for the performance management of their primary care trusts in their delivery of out-of-hours services.

Prostate Cancer

Mr. Watson: To ask the Secretary of State for Health pursuant to his answer of 21 April, *Official Report*, column 558W, on prostate cancer, if he will make an assessment of the recent findings of research by the US National Cancer Institute on the effect of frequent ejaculation in protecting men against prostate cancer. [170162]

Miss Melanie Johnson: We are aware of the research undertaken by the United States national cancer institute on the effect of frequent ejaculation in protecting men against prostate cancer. The prostate cancer risk management programme is supported by a scientific reference group. This issue will be discussed when the group next meets in the summer.

Public Funding

Jim Dobbin: To ask the Secretary of State for Health how much public funding has been spent on health in Heywood and Middleton in each of the last seven years. [168491]

Miss Melanie Johnson: The information is not available in the format requested. Expenditure per weighted head of the population in the Greater Manchester Strategic Health Authority (SHA) area, which includes the constituency of Heywood and Middleton, has increased from £582.33 in 1997–98 to £992.61 in 2002–03 (the latest year available). This does not represent the total expenditure per head as an element of health expenditure cannot be identified by SHA area.

James Purnell: To ask the Secretary of State for Health how much public funding has been spent on health in Stalybridge and Hyde in each of the last seven years. [168769]

Miss Melanie Johnson: The information is not available in the format requested. Expenditure per weighted head of the population in the Greater Manchester Strategic Health Authority (SHA) area, which includes the constituency of Stalybridge and Hyde, has increased from £582.33 in 1997–98 to £992.61 in 2002–03 (the latest year available). This does not represent the total expenditure per head as an element of health expenditure cannot be identified by SHA area.

Radon Gas

Mr. Burstow: To ask the Secretary of State for Health if he will assess the risk to health of radon gas in the United Kingdom. [169711]

Miss Melanie Johnson: Radiation-induced lung cancers have been reported in uranium and hard rock miners for a long time. However, the aetiological role of radon was not recognised until 1951, when it was discovered that the lung hazard was due to radiation dose from the decay products of radon. Since the 1980s, the National Radiological Protection Board has kept the risk to health from radon gas under review. The main risk is still lung cancer, although it has been suggested that radon may also cause other types of cancer. On theoretical grounds, some such radon-induced cancers would be expected, but these would be far fewer than the lung cancers and have not been detected in well-designed epidemiological studies.

School Blood Donations

Tim Loughton: To ask the Secretary of State for Health how many children donated blood at mobile blood units visiting schools in 2003–04. [169481]

Miss Melanie Johnson: The age limit for first time donors is 17 to 60 years, although regular donors can continue to give blood until the age of 70 as long as they continue to meet all the donor selection criteria.

During 2003–04 across all donor sessions:

20,776 donors aged 17 (as at 1 April 2003) made a total of 30,344 donations; and

22,826 donors aged 18 (as at 1 April 2003) made a total of 32,309 donations.

The national blood service (NBS) actively targets 17-year-olds. In March 2004, the NBS launched a new direct marketing campaign targeting 17-year-olds. This mailing encourages individuals who have just turned 17 to pre-register to give blood. So far, 3,266 17-year-olds have signed up as blood donors because of this campaign.

Surplus Property Sales

Tim Loughton: To ask the Secretary of State for Health what the total costs associated with the proposed sale of surplus NHS sites and Inventures to date have been. [169125]

Mr. Hutton *[holding answer 27 April 2004]*: The total project and property selling costs associated with the proposed real estate partnership was some £13.4 million at the end of 2003–04, a very small proportion of the likely eventual value of the property portfolio.

Waiting Lists

Jim Dobbin: To ask the Secretary of State for Health what changes there have been to NHS waiting list time in the last seven years for the residents of Heywood and Middleton. [168486]

Miss Melanie Johnson: The information is not available in the form requested. The table shows the number of patients waiting for admission to the Pennine Acute Hospitals NHS Trust (including its predecessor organisations) each year since 1997.

Patients waiting for elective in-patient admission

		Patients waiting for admission by months waiting

DH form KH07 and Monthly Monitoring.

Jim Dobbin: To ask the Secretary of State for Health how many and what percentage of suspected cancer patients in Heywood and Middleton saw an NHS consultant within two weeks in each of the last seven years. [168487]

Miss Melanie Johnson: The information is not available in the format requested. The table shows the number and percentage of suspected cancer patients, seen within two weeks of urgent referral by a general practitioner, at the Pennine Acute Hospitals National Health Service Trust and its predecessor organisations for each quarter since quarter four of 2000–01. Earlier figures are not available.

Waiting times for first consultant outpatient appointment for suspected cancer following urgent GP referral

Quarter	NHS Trust	Seen within two weeks (percentage)	Number
2000–01			
4	Oldham NHS Trust	93.3	167
4	Rochdale Healthcare NHS Trust	99.0	200
4	North Manchester Healthcare NHS Trust	93.9	200
4	Bury Healthcare NHS Trust	97.1	374
2001–02			
1	Oldham NHS Trust	94.8	181
1	Rochdale Healthcare NHS Trust	97.8	224
1	North Manchester Healthcare NHS Trust	94.9	242
1	Bury Healthcare NHS Trust	96.1	345
2	Oldham NHS Trust	96.4	162
2	Rochdale Healthcare NHS Trust	93.0	227
2	North Manchester Healthcare NHS Trust	90.6	298
2	Bury Healthcare NHS Trust	99.0	385
3	Oldham NHS Trust	98.9	181
3	Rochdale Healthcare NHS Trust	99.6	235
3	North Manchester Healthcare NHS Trust	94.7	286
3	Bury Healthcare NHS Trust	99.5	398
4	Oldham NHS Trust	98.5	197
4	Rochdale Healthcare NHS Trust	99.5	209
4	North Manchester Healthcare NHS Trust	99.7	302
4	Bury Healthcare NHS Trust	100.0	450

Jim Dobbin: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for heart surgery in Heywood and Middleton. [168488]

Miss Melanie Johnson: There were two patients waiting nine to 11 months for heart surgery in the Heywood and Middleton Primary Care Trust area in June 2002, since when no patients have waited more than nine months.

James Purnell: To ask the Secretary of State for Health what changes there have been to NHS waiting list times in the last seven years for the residents of Stalybridge and Hyde. [168771]

Miss Melanie Johnson: The information is not available in the form requested. The table shows the number of patients waiting for admission to the Tameside and Glossop Acute Services National Health Service Trust each year since 1997.

Patients waiting for elective in-patient admission

NHS Trust	Total number of patients waiting for admission	Patients waiting for admission by months waiting						
		Less than 3 months	3–5 months	6–8 months	9–11 months	12–14 months	15–17 months	18 + months
March 1997								
Tameside and Glossop Acute Services NHS Trust	3,216	2,062	767	321	66	—	—	—
March 1998

Department of Health form KH07 and Monthly Monitoring

Mr. Pike: To ask the Secretary of State for Health how many residents in Burnley awaiting heart surgery have had the option of choosing an alternative hospital for quicker treatment in the last 12 months. [167945]

Miss Melanie Johnson: This information is not collected centrally.

Mr. Hendrick: To ask the Secretary of State for Health how many residents in Preston awaiting heart surgery have had the option of choosing an alternative hospital for quicker treatment in the last 12 months. [168109]

Miss Melanie Johnson: This information is not collected centrally.

Ward Managers

Mr. Lansley: To ask the Secretary of State for Health whether ward managers are provided with NHS purchasing cards. [167705]

Mr. Hutton: The NHS Purchasing and Supply Agency has agreements for the provision of purchase cards to the national health service. In 2001, each ward manager was allocated a budget of £5000 to improve the ward environment. The use of purchase cards was developed as part of this initiative, but it was for decision by individual NHS trust whether to join the scheme and to issue cards to ward managers. As at April 2004, there are 2000 purchase cards being used in the NHS.

Warrington Hospital

Helen Southworth: To ask the Secretary of State for Health what capital expenditure has been undertaken at Warrington hospital in each year since 1997; and for what purposes. [168707]

Miss Melanie Johnson: The information requested is shown in the tables.

Expenditure on capital additions—purchased

INDEX TO THE

PARLIAMENTARY DEBATES

OFFICIAL REPORT

SIXTH SERIES SESSION 2003–2004 **VOLUME 420**

19th April 2004—6th May 2004

Printed indexes to Hansard

The volume index is one of three printed indexes to Commons Hansard produced from the House of Commons Library's Parliamentary On-Line Indexing Service (POLIS). It contains references to material in the bound volume of Hansard. The other indexes produced are:

- The index to the daily parts of Hansard. This covers the same date range as the volume index but references may be different as a result of changes to the text and column numbering.
- The sessional index to Hansard. This contains references to material in the bound volumes for a whole session..

Indexes on the Parliamentary website

Daily part and volume indexes covering material from the beginning of the 1999/2000 session will also appear on the Parliamentary website at http://www.parliament.uk with links to the full text of Hansard.

SCOPE

The indexes include entries covering:

- The content of all material recorded in Hansard, including debates, procedural motions and questions.
- The names of all Members contributing to the Parliamentary business recorded in Hansard.
- The names of some types of Parliamentary business whenever they occur in Hansard. These are 'Ministerial statements', 'Business statements', 'Opposition days' and 'Estimates days'.

ARRANGEMENT

- All headings are in one word-by-word alphabetical sequence, with Members' contribution entries distinguished from other entries by italics.
- Where a Member contributes to Parliamentary business and is the subject of Parliamentary business there are separate contribution and subject entries, the subject entry coming first.
- Entries beginning 'Mac' and 'Mc' are sorted in one sequence as 'Mac'.
- 'St', when abbreviated for Saint, is filed as 'Saint'.
- Numbers are filed as if spelt out, e.g. '10 Downing Street' as if 'Ten Downing Street'.

HEADINGS

Choice of headings

- *Specificity*—Entries summarise the overall content of a debate or question as specifically as the various POLIS thesauruses allow. For example, Education, Higher education, Universities or the name of a particular university is used depending on the breadth of the item.
- *Name headings*—Specific entries are included for the names of people, places, institutions, organisations, committees, programmes, initiatives, publications and legislation when these constitute the overall subject of an item.
- *Organisations and subjects*—Organisation entries are preferred for material about the general performance, administration and staffing of an organisation (for example, United Kingdom Passports Agency, Standards). Subject entries are preferred for what organisations do as part of their duties (for example, Passports, Fees and charges).

Geographical coverage

- *Subject headings*—Subject headings are assumed to refer to the whole of England, Great Britain or the United Kingdom unless otherwise stated.
- *Scotland, Northern Ireland and Wales*—Material relating to the whole of Scotland, Northern Ireland and Wales is indexed under these headings.
- *Places within the UK*—Material about specific towns, areas and institutions is entered under the name of the specific town, area or institution.
- *Foreign countries*—Most material relating to foreign countries is collected under the name of that country. Some additional material may be found under the names of—groups of countries, areas within countries, geographical features, place names associated with particular issues, politicians and heads of state, international bodies, and institutions and companies operating in those countries.
- *EC/EU material*—General material about the European Communities and European institutions as bodies is entered under 'European Communities' and 'EC institutions'. Organisational material about specific communities and institutions is entered under the name of the body, for example 'European Coal and Steel Community' or 'European Parliament'. Material about what the Communities and institutions are doing or propose to do is entered under various subject headings beginning 'EC' such as 'EC environmental policy'.

Parliamentary material and business

- *Material about Parliament*—This is indexed under 'Parliament', the names of the two Houses, the 'Palace of Westminster' and parts of the Parliamentary estate (such as 'Portcullis House').
- *Committees*—Material about committees is indexed under 'Committees', types of committee (such as 'Select committees') and the names of individual committees (such as 'Home Affairs Select Committee').
- *Parliamentary proceedings/procedures*—Material discussing these is indexed under the specific type of proceeding (such as 'Parliamentary questions' or 'Oral questions'), procedure (such as 'Calling of Members') or issue (such as 'Unparliamentary expressions').
- *Legislation*—Entries for Parliamentary proceedings on bills and statutory instruments are entered under their titles. Where the lead word of the bill or statutory instrument does not provide a full or clear indication of the subject there are additional subject entries when the bill or instrument is debated. For example, debates on the 'Child Support Pensions and Social Security Bill' have entries under 'Pensions' and 'Social security benefits' as well as under the title of the Bill.
- *Members' names*—These are given in the form by which the Member prefers to be known.
- *Speaker and Chair*—Contributions by the Speaker and deputies are brought together under the heading 'Speaker and deputies'. Contributions from the chair during Committees of the Whole House are brought together under 'Chairman of Committee of the Whole House'. Significant rulings and statements (as opposed to routine comments) are indicated by the sub-heading 'Rulings and statements' in both cases.

Guidance on headings

- *Cross references*—'See' references indicate all the material has been entered under another heading. 'See also' references indicate that additional information may be found under another heading.
- *Concept thesaurus*—A copy of the subject thesaurus to POLIS, listing the concept entries used in the index, is available on the Parliamentary website. A hard copy is available from the Head of the POLIS Unit, House of Commons Library, 1 Derby Gate, London, SW1A 2DG (020 7219 6456).

REFERENCES

- References in the indexes are to columns rather than pages.
- References to debates, but not questions, are accompanied by the date of the item.
- There are separate sequences in Hansard for the material taken on the floor of the House, Westminster Hall sittings, written statements and written questions:
  - References consisting of a number by itself indicate material taken on the floor of the House.
  - References ending in 'wh' indicate Westminster Hall sittings.
  - References ending in 'ws' indicate written statements.
  - References ending in 'w' indicate written questions.
- References under all headings except the names of Members contributing to Parliamentary business and the titles of legislation are listed in one numerical sequence irrespective of whether the material is taken on the floor of the House, is discussed at a Westminster Hall sitting, is a written statement or is a written question.
- References under the names of Members contributing to Parliamentary business and the titles of legislation are listed in numerical sequence under the following headings:
  - *Chamber Debates* (which includes interventions and points of order as well as significant contributions to debates);
  - *Westminster Hall Debates* (covering all debates held as part of the Westminster Hall sittings);
  - *Written Statements* (consisting of ministerial statements issued in writing); and
  - *Questions* (which includes all written, oral and urgent questions).

ABBREVIATIONS

The following abbreviations are used in connection with the progress of bills:

- 1R = First reading
- 2R = Second reading
- Com = Committee stage
- Rep = Report stage
- 3R = Third reading
- res = resolution
- amendt(s) = amendment(s)
- * = matter taken formally without debate or division
- (HL) = Bill starting in House of Lords
- (SP) = Bill in Scottish Parliament.

Parliamentary background

- The Parliamentary website at http://www.parliament.uk contains a range of information about Parliament and the full text of some Parliamentary papers and proceedings including Hansard.
- Information on current Parliamentary business is provided in the House of Commons Information Office *Weekly Information Bulletin*, available on the website and from The Stationery Office (020 7873 8499).
- Further information on Parliamentary proceedings and procedures is available from the House of Commons Information Office (020 7219 4272).
